Securities registered pursuant to Section 12(b) of the Act:

Title of each class

Common stock, par value \$.03 per share

Name of each exchange on which registered

The NASDAQ Global Market

Securities registered pursuant to Section 12(g) of the Act:

None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. Yes No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of January 31, 2013, 17,786,949 shares of common stock were outstanding. The aggregate market value of the shares of common stock held by non-affiliates (based on the closing price on NASDAQ) as of June 29, 2012 was approximately \$252.1 million.

Documents Incorporated by Reference

Portions of the proxy statement for the registrant's 2013 annual meeting of stockholders, to be filed subsequently with the Securities and Exchange Commission pursuant to Regulation 14A, are incorporated by reference in Part III of this Annual Report on Form 10-K.

Cautionary Statement Regarding Forward-Looking Information

This Annual Report on Form 10-K contains statements that are considered forward-looking statements within the meaning of the Securities Act of 1933 and the Securities Exchange Act (the “Exchange Act”) of 1934. Statements that are not historical facts, including statements about our beliefs and expectations, are forward-looking statements. Forward-looking statements include statements preceded by, followed by or that include the words “believes,” “expects,” “anticipates,” “plans,” “estimates” or similar expressions. Examples of forward-looking statements include our expectations regarding growth, the potential disposition of assets, the estimated value of our real estate, our ticket and concession price increases, our cost control measures, our strategies and operating goals, and our capital expenditure and theatre expansion/closing plans. These statements are based on beliefs and assumptions of management, which in turn are based on currently available information. The forward-looking statements also involve risks and uncertainties, which could cause actual results to differ materially from those contained in any forward-looking statement. Many of these factors are beyond our ability to control or predict. Important factors that could cause actual results to differ materially from those contained in any forward-looking statement include, but are not limited to:

- our ability to achieve expected results from our strategic acquisitions;
- general economic conditions in our regional and national markets;
- our ability to comply with covenants contained in the agreements governing our indebtedness;
- our ability to operate at expected levels of cash flow;
- financial market conditions including, but not limited to, changes in interest rates and the availability and cost of capital;
- our ability to meet our contractual obligations, including all outstanding financing commitments;
- the availability of suitable motion pictures for exhibition in our markets;
- competition in our markets;
- competition with other forms of entertainment;
- the effect of our leverage on our financial condition;
- prices and availability of operating supplies;
- the impact of continued cost control procedures on operating results;
- the impact of asset impairments;
- the impact of terrorist acts;
- changes in tax laws, regulations and rates; and
- financial, legal, tax, regulatory, legislative or accounting changes or actions that may affect the overall performance of our business.

This report includes important information as to these factors in Item 1A. “Risk Factors”, and in the Notes to our Consolidated Financial Statements. Additional important information as to these factors is included in Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and in Carmike’s other United States Securities and Exchange Commission (“SEC”) reports, accessible on the SEC’s website at www.sec.gov and our website at www.carmike.com.

PART I

ITEM 1. BUSINESS.

Overview

We are one of the largest motion picture exhibitors in the United States and as of December 31, 2012, we owned, operated or had an interest in 249 theatres with 2,502 screens located in 35 states. The majority of our theatres are equipped to provide digital cinema and as of December 31, 2012, we had 232 theatres (93% of our theatres) with 2,359 screens (94% of our screens) on a digital-based platform. In addition, we had 225 theatres (90% of our theatres) with 855 screens (34% of our screens) equipped for 3-D as of December 31, 2012.

We target small to mid-size non-urban markets with the belief that they provide a number of operating benefits, including lower operating costs and fewer alternative forms of entertainment.

The following table sets forth geographic information regarding our theatre circuit as of December 31, 2012:

<u>State</u>	<u>Theatres</u>	<u>Screens</u>
Alabama	19	224
Arkansas	7	62
Colorado	4	32
Delaware	1	14
Florida	12	137
Georgia	25	278
Idaho	2	17
Illinois	10	108
Indiana	5	78
Iowa	5	61
Kansas	1	12
Kentucky	6	35
Michigan	12	95
Minnesota	6	65
Missouri	1	10
Montana	6	58
Nebraska	2	12
New Mexico	1	2
New York	1	8
North Carolina	23	265
North Dakota	4	30
Ohio	4	35
Oklahoma	10	59
Oregon	1	12
Pennsylvania	19	170
South Carolina	10	88
South Dakota	5	38
Tennessee	23	249
Texas	10	107
Utah	3	39
Virginia	4	34
Washington	1	12
West Virginia	2	20
Wisconsin	3	27
Wyoming	1	9
Totals	<u>249</u>	<u>2,502</u>

From time to time, we convert weaker performing theatres to discount theatres for the exhibition of films that have previously been shown on a first-run basis. At December 31, 2012, we operated 18 theatres with 133 screens as discount theatres.

We are a major exhibitor in many of the small to mid-size markets in which we operate. The introduction of a competing theatre in these markets could significantly impact the performance of our theatres. In addition, the type of motion pictures preferred by patrons in these markets is typically more limited than in larger markets, which increases the importance of selecting films that will appeal to patrons in our specific theatre markets.

Theatre Development, Acquisitions and Operations

The following table shows information about the changes in our theatre circuit during the years presented:

	<u>Theatres</u>	<u>Screens</u>	<u>Average Screens/ Theatre</u>
Total at January 1, 2010	244	2,277	9.3
New construction, acquisitions and partnerships	3	12	
Closures	(8)	(53)	
Total at December 31, 2010	<u>239</u>	<u>2,236</u>	9.4
New construction and acquisitions	5	60	
Closures	(7)	(42)	
Total at December 31, 2011	<u>237</u>	<u>2,254</u>	9.5
New construction and acquisitions	23	323	
Closures	(11)	(75)	
Total at December 31, 2012	<u>249</u>	<u>2,502</u>	10.0

Development

We carefully review small to mid-size markets to evaluate the return on capital of opportunities to build new theatres or renovate our existing theatres. The circumstances under which we believe we are best positioned to benefit from building new theatres are in markets in which:

- we believe building a new theatre provides an attractive cash flow opportunity;
- we already operate a theatre and could best protect that market by expanding our presence; or
- a film licensing zone is currently underserved by an exhibitor.

We opened four new build-to-suit theatres during the year ended December 31, 2012 and added one auditorium to an existing theatre. If opportunities exist where new construction will be profitable to us, we will consider building additional theatres in future periods. We anticipate opening approximately five new build-to-suit theatres in 2013. Additionally, as opportunities present themselves for consolidation we will evaluate each instance to obtain the highest level of return on investment.

In 2012, we added six “Big D®” format auditoriums. We included one Big D auditorium in each new build-to-suit theatre, while the remaining two were conversions of existing auditoriums. Big D auditoriums include wall to wall screens, the latest in 7.1 surround sound and digital projection for both 2-D and 3-D features. We believe that the Big D format results in a picture quality with noticeably higher resolution. In addition, Big D auditoriums also include leather high-back rocking seats placed for optimal viewing in a stadium seating configuration. We believe that our Big D format enhances the enjoyment of our audiences. We plan to convert additional screens to our Big D format in 2013 and include a Big D auditorium in all new theatres. In addition, we acquired seven IMAX® auditoriums as part of the Rave acquisition (described below) in November 2012. We currently operate 23 Big D and IMAX auditoriums. We believe that the addition of Big D and IMAX auditoriums will have a positive impact on our operating results.

Acquisitions

On March 30, 2012, we completed our purchase of certain assets from Destinta Theatres for approximately \$0.7 million. This acquisition consisted of a seven screen theatre in Clarion, Pennsylvania.

On November 15, 2012, we completed our acquisition of 16 entertainment complexes and 251 screens in seven U.S. states from Rave Reviews Cinemas, L.L.C (“Rave”) for approximately \$22.0 million, inclusive of a net working capital adjustment. We also assumed financing obligations in the amount of approximately \$110.2 million, after accounting adjustments, to reflect the acquisition date fair value of such obligations.

On December 13, 2012, we completed our purchase of certain assets from Phoenix Big Cinemas for approximately \$0.6 million. The acquisition consisted of two theatres and sixteen screens in Kentucky and Tennessee.

The purchase of assets from Destinta Theatres and Phoenix Big Cinemas, and our acquisition of Rave is consistent with our focus on taking advantage of opportunistic small market acquisitions.

Screen Advertising

On October 14, 2010, we finalized the modification of our long-term exhibition agreement (the “Modified Exhibition Agreement”) with Screenvision Exhibition, Inc. (“Screenvision”), our exclusive provider of on-screen advertising services. The Modified Exhibition Agreement extends our exhibition agreement with Screenvision, which was set to expire on July 1, 2012, for an additional 30 year term through July 1, 2042 (“Expiration Date”).

In connection with the Modified Exhibition Agreement, we received a cash payment of \$30.0 million from Screenvision in January 2011. In addition, on October 14, 2010, we received, for no additional consideration, Class C membership units representing, as of that date, approximately 20% of the issued and outstanding membership units of SV Holdco, LLC (“SV Holdco”). SV Holdco is a holding company that owns and operates the Screenvision business through a subsidiary entity. SV Holdco has elected to be taxed as a partnership for U.S. federal income tax purposes.

In September 2011, we made a voluntary capital contribution of \$718 thousand to SV Holdco. The capital contribution was made to maintain our relative ownership interest following an acquisition by Screenvision and additional capital contributions by other owners of SV Holdco. We received Class A membership units representing less than 1% of the issued and outstanding membership units of SV Holdco in return for our capital contribution.

As of December 31, 2012, we held Class C and Class A membership units representing approximately 19% of the total issued and outstanding membership units of SV Holdco. As of December 31, 2012, the carrying value of our ownership interest in SV Holdco is \$6.7 million and is included in investments in unconsolidated affiliates in the consolidated balance sheets. For book purposes, we have accounted for our investment in SV Holdco, LLC, a limited liability company for which separate accounts of each investor are maintained, as an equity method investment pursuant to Accounting Standards Codification (“ASC”) 970-323-25-6.

Our Class C membership units are intended to be treated as a “profits interest” in SV Holdco for U.S. federal income tax purposes and thus do not give us an interest in the other members’ initial or subsequent capital contributions. As a profits interest, our Class C membership units are designed to represent an equity interest in SV Holdco’s future profits and appreciation in assets beyond a defined threshold amount, which equaled \$85.0 million as of October 14, 2010. The \$85.0 million threshold amount represented the agreed upon value of initial capital contributions made by the members to SV Holdco and is subject to adjustment to account for future capital contributions made to SV Holdco. Accordingly, the threshold amount applicable to our Class C membership units has increased to \$88.0 million as of December 31, 2012.

We will also receive additional Class C membership units (“bonus units”), all of which will be subject to forfeiture, or may forfeit some of our initial Class C membership units, based upon changes in our future theatre

and screen count. However, we will not forfeit more than 25% of the Class C membership units we received in October 2010, and we will not receive bonus units in excess of 33% of the Class C membership units we received in October 2010. Any bonus units and the initial Class C membership units subject to forfeiture will each become non-forfeitable on the Expiration Date, or upon the earlier occurrence of certain events, including (1) a change of control or liquidation of SV Holdco or (2) the consummation of an initial public offering of securities of SV Holdco. Our Class C units in SV Holdco LLC that are subject to forfeiture, and any bonus units that are awarded in future periods, will not be recognized in our consolidated financial statements until such units become non-forfeitable. Upon recognition, we will record our investment in any additional Class C and bonus units and will recognize revenue equal to the then estimated fair value of such units. The non-forfeitable ownership interest in SV Holdco was recorded at an estimated fair value of \$6.6 million using the Black Scholes Model. We have applied the equity method of accounting for the non-forfeitable units and for financial reporting purposes began recording the related percentage of the earnings or losses of SV Holdco in our consolidated statement of operations since October 14, 2010. Our non-forfeitable Class C and Class A membership units represented approximately 15% of the total issued and outstanding membership units of SV Holdco as of December 31, 2012 and 2011.

Operations

Our theatre operations are under the supervision of our Senior Vice President and Chief Operating Officer and our two division managers. The division managers are responsible for implementing our operating policies and supervising our thirteen operating districts. Each operating district has a district manager who is responsible for overseeing the day-to-day operations of our theatres. Corporate policy development, strategic planning, site selection and lease negotiation, theatre design and construction, concession purchasing, film licensing, advertising, and financial and accounting activities are centralized at our corporate headquarters. We have an incentive bonus program for theatre-level management, which provides for bonuses based on incremental improvements in theatre profitability, including concession sales.

Box office admissions. The majority of our revenues comes from the sale of movie tickets. For the year ended December 31, 2012, box office admissions totaled \$343.1 million, or 64% of total revenues. Excluding the acquired Rave theatres, box office admissions totaled \$333.9 million, or 64% of total revenues. At December 31, 2012, of our 249 theatres, 231 showed “first-run” films, which we license from distributors owned by the major studios, as well as from independent distributors, twelve of which exhibited first-run films at a reduced admission price, and the remaining 18 of our theatres featured films at a discount price.

Most of the tickets we sell are sold at our theatre box offices immediately before the start of a film. Patrons can also buy tickets in advance on the Internet for our theatres. These alternate sales methods do not currently represent a meaningful portion of our revenues, nor are they expected to in the near term.

Concessions and other revenues. Concession and other revenues totaled \$196.2 million, or 36% of total revenues for the year ended December 31, 2012. Excluding the acquired Rave theatres, concessions and other revenues totaled \$191.6 million, or 36% of total revenues. Our strategy emphasizes quick and efficient service built around a limited menu primarily focused on higher margin items such as popcorn, flavored popcorn, candy, cotton candy, bottled water and soft drinks. In addition, in a limited number of markets, we offer frozen drinks, coffee, ice cream, hot dogs, pizza and pretzels in order to respond to competitive conditions. We manage our inventory purchasing centrally with authorization required from our central office before orders may be placed. We operate two family entertainment centers under the name Hollywood Connection® which feature multiplex theatres and other forms of family entertainment.

During 2012, we purchased substantially all of our concession and janitorial supplies, except for beverage supplies, from Showtime Concession Supply, Inc. (“Showtime Concession”). We are a significant customer of Showtime Concession. If this relationship was disrupted, we could be forced to negotiate a number of substitute arrangements with alternative vendors which are likely to be, in the aggregate, less favorable to us.

During 2012, we purchased all of our beverage supplies from The Coca-Cola Company (“Coke”). Our contract with Coke to provide beverage supplies to our theatres expires December 31, 2013. If we are unable to

continue our relationship with Coke, we could be forced to negotiate with other beverage suppliers whose product may be less favorable to patrons in our markets or at terms which, in the aggregate, may be less favorable to us.

Seasonality

Typically, movie studios release films with the highest expected revenues during the summer and the holiday period between Thanksgiving and Christmas, causing seasonal fluctuations in revenues. However, movie studios are increasingly introducing more popular film titles throughout the year. In addition, in years where Christmas falls on a weekend day, our revenues are typically lower because our patrons generally have shorter holiday periods away from work or school.

Gift Card Program

In November 2012, we launched our gift card program to replace our existing gift certificate program. Our customers may purchase gift cards in any of our participating theatres or online through our website at www.carmike.com. We believe that our gift card program will further increase customer loyalty and provides an additional channel for marketing to our customers.

Loyalty Program

We believe that it is important to build patron loyalty through enhancing the benefits received by attending one of our theatres. On October 1, 2010, we initiated the Carmike Rewards® program, a moviegoer loyalty program. Carmike Rewards' members earn points based on admissions and concessions purchases at any Carmike theatre. Upon achieving designated point thresholds, members are eligible for specified awards, such as admission tickets and concession items.

Film Licensing

We obtain licenses to exhibit films by directly negotiating with film distributors. We license films through our booking office located in Columbus, Georgia. Our Vice President—Film, in consultation with our Chief Operating Officer, directs our motion picture bookings. Prior to negotiating for a film license, our Vice President—Film and film-booking personnel evaluate the prospects for upcoming films. The criteria considered for each film include cast, director, plot, performance of similar films, estimated film rental costs and expected Motion Picture Association of America (“MPAA”) rating. Because we only license a portion of newly released first-run films, our success in licensing depends greatly upon the availability of commercially popular motion pictures, and also upon our knowledge of the preferences of patrons in our markets and insight into trends in those preferences. We maintain a database that includes revenue information on films previously exhibited in our markets. We use this historical information to match new films with particular markets so as to maximize revenues.

The table below depicts the industry’s top 10 films for the year ended December 31, 2012 compared to our top 10 films for the same period, based on reported gross receipts:

<u>Industry</u>	<u>Carmike Cinemas</u>
1 Marvel's The Avengers	1 Marvel's The Avengers
2 The Dark Knight Rises	2 The Hunger Games
3 The Hunger Games	3 The Twilight Saga: Breaking Dawn Part 2
4 Skyfall	4 The Dark Knight Rises
5 The Twilight Saga: Breaking Dawn Part 2	5 Brave
6 The Amazing Spider-Man	6 The Hobbit: An Unexpected Journey
7 Brave	7 The Amazing Spider-Man
8 The Hobbit: An Unexpected Journey	8 Dr. Seuss' The Lorax
9 Ted	9 Madagascar 3: Europe's Most Wanted
10 Madagascar 3: Europe's Most Wanted	10 Skyfall

Film Rental Fees

We typically enter into film licenses that provide for rental fees based on “firm terms” which are negotiated and established prior to the opening of the picture; mutually agreed “settlement” upon the conclusion of the film run; or a sliding scale formula which is based on a percentage of the box office receipts using a pre-determined and agreed-upon film rental scale. Under a firm terms formula, we pay the distributor a specified percentage of the box office receipts, and this percentage declines over the term of the run. Some of our distributors award aggregate percentage terms for the run of the film. Under such an agreement, a set percentage is paid for the entire run of the film with no adjustments. The sliding scale formula provides for a fee equal to a percentage of box office receipts, with such percentage increasing as box office receipts increase nationally.

Film Licensing Zones

Film licensing zones are geographic areas established by film distributors where any given film is allocated to only one theatre within that area. In our markets, these zones generally encompass three to five miles. In film licensing zones where we have little or no competition, we obtain film licenses by selecting a film from among those offered and negotiating directly with the distributor. In competitive film licensing zones, a distributor will allocate its films among the exhibitors in the zone. When films are licensed under the allocation process, a distributor will choose which exhibitor is offered a movie and then that exhibitor will negotiate film rental terms directly with the distributor for the film.

Relationship with Distributors

We depend on, among other things, the quality, quantity, availability and acceptance by movie-going customers of the motion pictures produced by the motion picture production companies and licensed for exhibition to the motion picture exhibitors by distribution companies. Disruption in the production of motion pictures by the major studios and/or independent producers or poor performance of motion pictures could have an adverse effect on our business.

While there are numerous distributors that provide quality first-run movies to the motion picture exhibition industry, the following ten distributors accounted for over 90% of our box office admissions for the year ended December 31, 2012: Walt Disney Studios Motion Pictures, 20th Century Fox, Paramount, Sony Pictures Entertainment, Universal, Summit Entertainment, Warner Brothers, Relativity Media, The Weinstein Company and Lions Gate Features.

Digital Cinema

We executed a Master License Agreement with Christie/AIX (“Christie”) on December 16, 2005. This agreement calls for Christie to license and install up to 2,300 digital cinema projection systems in our theatre auditoriums at a per screen installation cost of \$800. The term of the agreement is from the date of installation in a specific auditorium until December 31, 2020 unless renewed for successive one year periods for up to ten years. Additionally, we are responsible for the maintenance of the installed equipment and have entered into a service agreement with Christie at an annual per screen cost of \$2,534.

As of December 31, 2012, we had 232 theatres with 2,359 screens on a digital-based platform, and 225 theatres with 855 screens equipped for 3-D. We believe our leading-edge technologies allow us not only greater flexibility in showing feature films, but also enable us to achieve higher ticket prices for 3-D content and provide us with the capability to explore revenue-enhancing alternative content programming, such as live concerts and sporting events. Digital film content can be easily moved to and from auditoriums in our theatres to maximize attendance and enhance capacity utilization. The superior quality of digital cinema and our 3-D capability could provide a competitive advantage to us in markets where we compete for film and patrons.

We have experienced an increase in alternative content available to us as well as a growing slate of 3-D content. As directors and producers continue to embrace new technology in their productions, we expect new and

innovative forms of alternative content to be available. We charge an additional \$2.50 to \$4.00 per ticket for 3-D versions of a movie. We believe the benefits associated with digital technologies will be significant for our theatre circuit and will provide us with the opportunity for incremental revenues as the quality and availability of 3-D and alternative content increases.

Management Information Systems

Prior to August 2012, we utilized a computer system developed for us, which we called IQ-2000 that was installed in each of our theatres. IQ-2000 allowed us to centralize most theatre-level administrative functions at our corporate headquarters. IQ-2000 allowed corporate management to monitor ticket and concession sales and box office and concession staffing on a daily basis, enabling our theatre managers to focus on the day-to-day operations of the theatre. IQ-2000 also coordinated payroll, generated operating reports analyzing film performance and theatre profitability, and generated information we use to quickly detect theft. IQ-2000 also facilitated new services such as advanced ticket sales and Internet ticket sales.

In 2011, we began implementing a new point-of-sale system at select theatres developed by Allure Global Solutions, Inc.[®] (“Allure”). The new point-of-sale system provides similar functionality as IQ-2000 but provides management with improved data tracking, trend analysis and reporting capabilities. We completed the rollout of the new point-of-sale system to all theatres in August 2012. We have active communication between our theatres and corporate headquarters, which allows our senior management to analyze vital profit and staffing information on a daily basis and perform the majority of the theatre-level administrative functions.

Competition

The motion picture exhibition industry is fragmented and highly competitive. In markets where we are not the sole exhibitor, we compete against regional and independent operators as well as the larger theatre circuit operators.

Our operations are subject to varying degrees of competition with respect to film licensing, attracting customers, obtaining new theatre sites or acquiring theatre circuits. In those areas where real estate is readily available, there are few barriers preventing competing companies from opening theatres near one of our existing theatres, which may have a material adverse effect on our theatres. Competitors have built or are planning to build theatres in certain areas in which we operate, which has resulted and may continue to result in excess capacity in such areas which adversely affects attendance and pricing at our theatres in such areas. To the best of our knowledge, in 2012 competitors opened, announced plans or started construction on new theatres in markets where we have five theatres with 71 screens, representing 4.1% of our total attendance for the year ended December 31, 2012.

The opening of large multiplexes and theatres with stadium seating by us and certain of our competitors has tended to, and is expected to continue to, draw audiences away from certain older and smaller theatres, including theatres operated by us. Demographic changes and competitive pressures can also lead to a theatre location becoming impaired.

In addition to competition with other motion picture exhibitors, our theatres face competition from a number of alternative motion picture exhibition delivery systems, such as cable television, satellite and pay-per-view services and home video systems. The expansion of such delivery systems could have a material adverse effect upon our business and results of operations. We also compete for the public’s leisure time and disposable income with all forms of entertainment, including sporting events, concerts, live theatre and restaurants.

Regulatory Environment

The distribution of motion pictures is in large part regulated by federal and state antitrust laws and has been the subject of numerous antitrust cases. Certain consent decrees resulting from such cases bind certain major

motion picture distributors and require the motion pictures of such distributors to be offered and licensed to exhibitors, including us, on a theatre-by-theatre basis. Consequently, exhibitors such as our company cannot assure themselves of a supply of motion pictures by entering into long-term arrangements with major distributors, but must compete for licenses on a film-by-film and theatre-by-theatre basis.

The Americans with Disabilities Act (“ADA”), which became effective in 1992, and certain state statutes and local ordinances, among other things, require that places of public accommodation, including theatres (both existing and newly constructed), be accessible to patrons with disabilities. The ADA requires that theatres be constructed to permit persons with disabilities full use of a theatre and its facilities. For example, we are aware of several lawsuits that have been filed against other exhibitors by disabled moviegoers alleging that certain stadium seating designs violate the ADA. Also, the ADA may require certain modifications be made to existing theatres in order to accommodate patrons and employees who are disabled, including the use of closed-captioning for the hearing impaired.

Our theatre operations are also subject to federal, state and local laws governing such matters as construction, renovation and operation of our theatres as well as wages, working conditions, citizenship, and health and sanitation requirements and licensing. We believe that our theatres are in material compliance with such requirements.

We own, manage and operate theatres and other properties which may be subject to certain U.S. federal, state and local laws and regulations relating to environmental protection, including those governing past or present releases of hazardous substances. Certain of these laws and regulations may impose joint and several liability on certain statutory classes of persons for the costs of investigation or remediation of such contamination, regardless of fault or the legality of original disposal. These persons include the present or former owner or operator of a contaminated property and companies that generated, disposed of or arranged for the disposal of hazardous substances found at the property. Other environmental laws, such as those regulating wetlands, may affect our site development activities, and some environmental laws, such as those regulating the use of fuel tanks, could affect our ongoing operations. Additionally, in the course of maintaining and renovating our theatres and other properties, we periodically encounter asbestos containing materials that must be handled and disposed of in accordance with federal, state and local laws, regulations and ordinances. Such laws may impose liability for release of asbestos containing materials and may entitle third parties to seek recovery from owners or operators of real properties for personal injury associated with asbestos containing materials. We believe that our activities are in material compliance with such requirements.

Employees

As of December 31, 2012, we had approximately 7,119 employees, none of whom were covered by collective bargaining agreements and 6,001 of whom were part-time. As of December 31, 2012, approximately 48% of our hourly employees were paid at the federal minimum wage and accordingly, the minimum wage largely determines our labor costs for those employees. We believe we are more dependent upon minimum wage employees than most other motion picture exhibitors. Although our ability to secure employees at the minimum wage in our smaller markets is advantageous to us because it lowers our labor costs, we are also more likely than other exhibitors to be immediately and adversely affected if the minimum wage is raised.

Trademarks and Trade-Names

We own or have rights to trademarks or trade-names that are used in conjunction with the operations of our theatres. We own Carmike Cinemas[®] and Hollywood Connection[®], the Carmike C[®] and its film strip design, Big D[®], Carmike Rewards[®], and Wynnsong Cinemas[®] trademarks. In addition, our logo is our trademark. Coca-Cola[®], Christie[®], RealD[®], Screenvision[®], Allure Global Solutions, Inc.[®] and IMAX[®] are registered trademarks used in this Annual Report on Form 10-K and are owned by and belong to each of these companies, respectively.

Corporate Information

Carmike Cinemas, Inc. was organized as a Delaware corporation in April 1982 in connection with the leveraged buy-out of our predecessor, the Martin Theatres circuit. Our predecessor companies date back to the 1930s. Our principal executive offices are located at 1301 First Avenue, Columbus, Georgia 31901, and our telephone number is (706) 576-3400.

Website Access

Our website address is www.carmike.com. You may obtain free electronic copies of our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and all amendments to such reports required to be filed or furnished pursuant to Section 13 or 15(d) of the Exchange Act at our website under the heading "Carmike Investors, SEC Filings." These reports are available on our website as soon as reasonably practicable after we electronically file such material or furnish it to the SEC. The SEC maintains a web site (<http://www.sec.gov>) that makes available reports, proxy statements and other information regarding us. Our SEC file number reference is Commission File No. 000-14993.

ITEM X. EXECUTIVE OFFICERS OF THE REGISTRANT

The following sets forth certain information as of March 1, 2013 regarding our executive officers.

<u>Name</u>	<u>Age</u>	<u>Title</u>
S. David Passman III	60	President and Chief Executive Officer
Fred W. Van Noy	55	Senior Vice President, Chief Operating Officer
Richard B. Hare	46	Senior Vice President—Finance, Treasurer, and Chief Financial Officer
Daniel E. Ellis	44	Senior Vice President, General Counsel and Secretary
John A. Lundin	63	Vice President—Film
Jeffrey A. Cole	53	Assistant Vice President—Controller

S. David Passman III, 60, has served as President and Chief Executive Officer of Carmike since June 2009 and director since June 2003. Previously, Mr. Passman served as President and CEO of IBS-STL, Inc., a book publishing and distribution company, from June 2005 until January 2009. He served as the President of the Harland Printed Products and Harland Checks divisions of John H. Harland Company, a provider of printed products and software and related services to the financial institution market, from 1999 to 2003, and also served as its CFO from 1996 to 1999. Mr. Passman is a former partner of Deloitte & Touche LLP, a public accounting firm, where he served as the Managing Partner of the Atlanta office from 1993 to 1996.

Fred W. Van Noy, 55, joined us in 1975. He served as a District Manager from 1984 to 1985 and as Western Division Manager from 1985 to 1988, when he became Vice President—General Manager. In December 1997, he was elected to the position of Senior Vice President—Operations. In November 2000, he became Senior Vice President—Chief Operating Officer. Mr. Van Noy also served as a director of Carmike Cinemas from 2004 to 2012.

Richard B. Hare, 46, joined us as Senior Vice President—Finance, Treasurer and Chief Financial Officer in March 2006. Mr. Hare served as Chief Accounting Officer and Controller for Greenfuels Holding Company, LLC, an energy development and management services company, and its affiliates from August 2002 to March 2006. From October 2000 until June 2002, Mr. Hare served as Assistant Treasurer for Sanmina-SCI Corporation, a manufacturer of electronic components. From 1997 until October 2000, Mr. Hare served as Treasurer of Wolverine Tube, Inc., a manufacturer of copper and copper alloy products. Mr. Hare, a Certified Public Accountant, began his career in 1989 at Coopers & Lybrand, a public accounting firm.

Daniel E. Ellis, 44, joined us as Senior Vice President, General Counsel and Secretary in August 2011. Mr. Ellis previously served in several roles with Lodgian, Inc., a publicly traded owner and operator of hotels

from 1999 until 2011. Prior to its sale to a private equity fund in 2010, Mr. Ellis served as Lodgian's President and Chief Executive Officer and was a member of the Board of Directors and its Executive Committee from 2009 through 2010. He served as the company's Senior Vice-President, General Counsel and Secretary from 2002 through 2009 and retained the titles of General Counsel and Secretary upon his promotion in 2009. Prior to joining Lodgian, Mr. Ellis served as an Assistant District Attorney for the State of Georgia.

John Lundin, 63, joined us in January 2010 as Vice President – Film. Prior to joining us, Mr. Lundin served as the District Manager for Sony Pictures Distribution, a motion picture distributor, from July 2009 to January 2010. Prior to joining Sony Pictures, he served as VP-Film for Cinemark USA Inc., a motion picture exhibitor, since 1995.

Jeffrey A. Cole, 53, joined us in December 2005 as Assistant Vice President-Controller. Prior to joining us, Mr. Cole served as the Executive Vice President and Chief Financial Officer of George Kerasotes Corporation (GKC Theatres) from July 1995 until May 2005. Prior to joining George Kerasotes Corporation, he served as the Chief Financial Officer—Controller of a bank holding company in Springfield, Illinois.

ITEM 1A. RISK FACTORS

The risk factors set forth below are applicable to us. You should carefully consider the following risks in evaluating us and our operations. The occurrence of any of the following risks could materially adversely affect, among other things, our business, financial condition and results of operations.

Our business will be adversely affected if there is a decline in the number of motion pictures available for screening or in the appeal of motion pictures to our patrons.

Our business depends to a substantial degree on the availability of suitable motion pictures for screening in our theatres and the appeal of such motion pictures to patrons in our specific theatre markets. Our results of operations will vary from period to period based upon the number and popularity of the motion pictures we show in our theatres. A disruption in the production of motion pictures by, or a reduction in the marketing efforts of, the major studios and/or independent producers, a lack of motion pictures, the poor performance of motion pictures in general or the failure of motion pictures to attract the patrons in our theatre markets will likely adversely affect our business and results of operations.

We have a substantial amount of indebtedness, which may adversely affect our cash flow and our ability to operate our business.

We have a significant amount of indebtedness. As of December 31, 2012, we have approximately \$434.7 million of indebtedness outstanding (which does not reflect amounts that may be borrowed under our revolving credit facility (the "Credit Facility")), all of which is secured, and we have approximately \$25.0 million available for borrowings under the Credit Facility, subject to meeting customary borrowing conditions. We also have, and will continue to have, significant lease obligations. As of December 31, 2012, our total operating, capital and financing lease obligations with terms over one year totaled \$876.0 million. Our substantial amount of indebtedness could have important consequences. For example, it could:

- increase our vulnerability to adverse economic, industry or competitive developments;
- result in an event of default if we fail to satisfy our obligations with respect to our 7.375% Senior Secured Notes due 2019 (the "Senior Secured Notes") or other debt or fail to comply with the financial and other restrictive covenants contained in the Credit Facility and the Indenture governing the Senior Secured Notes or agreements governing our other indebtedness, which event of default could result in all of our debt becoming immediately due and payable and could permit our lenders to foreclose on our assets securing such debt;
- require a substantial portion of cash flow from operations to be dedicated to the payment of principal and interest on our indebtedness, therefore reducing our ability to use our cash flow to fund our operations, capital expenditures and future business opportunities;
- increase our cost of borrowing;
- restrict us from making strategic acquisitions or causing us to make non-strategic divestitures;
- limit our ability to service our indebtedness;
- limit our ability to obtain additional financing for working capital, capital expenditures, debt service requirements, acquisitions or general corporate purposes;
- limit our flexibility in planning for, or reacting to, changes in our business or the industry in which we operate, placing us at a competitive disadvantage to less highly leveraged competitors who may be able to take advantage of opportunities that our leverage prevents us from exploiting; and
- prevent us from raising the funds necessary to repurchase all Senior Secured Notes tendered to us upon the occurrence of certain changes of control, which failure to repurchase would constitute a default under the indenture governing the Senior Secured Notes.

The occurrence of any one of these events could have a material adverse effect on our business, financial condition, results of operations or prospects.

In addition, borrowings under the Credit Facility will bear interest at variable rates. If we were to borrow funds under the Credit Facility and these rates were to increase significantly, our ability to borrow additional funds may be reduced and the risks related to our substantial indebtedness would intensify. While we may enter into agreements limiting our exposure to higher interest rates, any such agreements may not offer complete protection for this risk.

We may not be able to generate sufficient cash to service our indebtedness, and may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.

Our ability to make scheduled payments on our indebtedness and to fund our operations will depend on our ability to generate cash in the future. We may not be able to maintain a level of cash flows from operating activities sufficient to permit us to pay the principal and interest on the Senior Secured Notes or our other indebtedness.

If our cash flows and capital resources are insufficient to meet our debt service obligations or to fund our other liquidity needs, we may need to refinance all or a portion of our debt before maturity, seek additional equity capital, reduce or delay scheduled expansions and capital expenditures or sell material assets or operations. We cannot assure you that we would be able to refinance or restructure our indebtedness, obtain equity capital or sell assets or operations on commercially reasonable terms or at all. In addition, the terms of existing or future debt instruments, including the Indenture, may limit or prevent us from taking any of these actions. Our inability to take these actions and to generate sufficient cash flow to satisfy our debt service and other obligations could have a material adverse effect on our business, results of operation and financial condition.

If for any reason we are unable to meet our debt service obligations, we would be in default under the terms of the agreements governing such outstanding indebtedness. If such a default were to occur, the note holders or lenders, as the case may be, under such indebtedness could elect to declare all amounts outstanding under it immediately due and payable, and in the case of the Credit Facility, the lenders would not be obligated to continue to advance funds under the Credit Facility. If the amounts outstanding under our debt were accelerated, it could cause an event of default under other indebtedness or allow other indebtedness to be accelerated.

The Indenture governing the Senior Secured Notes and the Credit Agreement contain various covenants limiting the discretion of our management in operating our business and could prevent us from capitalizing on business opportunities and taking some corporate actions.

The indenture governing the Senior Secured Notes and the credit agreement (the “Credit Agreement”) governing the Credit Facility impose significant operating and financial restrictions on us. These restrictions will limit or restrict, among other things, our ability and the ability of our restricted subsidiaries to:

- incur additional indebtedness or guarantee obligations;
- issue certain preferred stock or redeemable stock;
- pay dividends on, repurchase or make distributions in respect of our capital stock or make other restricted payments;
- make certain investments or acquisitions;
- sell, transfer or otherwise convey certain assets;
- create or incur liens or other encumbrances;
- prepay, redeem or repurchase debt (including the Senior Secured Notes) prior to stated maturities;
- designate our subsidiaries as unrestricted subsidiaries;
- consolidate, merge, sell or otherwise dispose of all or substantially all of our assets;
- enter into a new or different line of business; and
- enter into certain transactions with our affiliates.

In addition, any debt agreements we enter into in the future may further limit our ability to enter into certain types of transactions.

Our ability to comply with these covenants may be affected by events beyond our control. As a result, we cannot assure you that we will be able to comply with these covenants. A breach of any of the covenants contained in the indenture governing the Senior Secured Notes or in the Credit Agreement, including our inability to comply with any financial covenants, could result in an event of default, which would allow the noteholders or the lenders under the Credit Facility, as the case may be, to declare all borrowings outstanding to be due and payable under such indebtedness, which would in turn trigger an event of default under other indebtedness. At maturity or in the event of an acceleration of payment obligations, we would likely be unable to pay our outstanding indebtedness with our cash and cash equivalents then on hand. We would, therefore, be required to seek alternative sources of funding, which may not be available on commercially reasonable terms, terms as favorable as our current agreements or at all, or face bankruptcy. If we are unable to refinance our indebtedness or find alternative means of funding, we may be required to curtail our operations or take other actions that are inconsistent with our current business practices or strategy. Further, if we are unable to repay, refinance or restructure our secured indebtedness, the holder of such debt could proceed against the collateral securing that indebtedness.

Our business is subject to significant competitive pressures.

Large multiplex theatres, which we and some of our competitors built, have tended to and are expected to continue to draw audiences away from certain older theatres, including some of our theatres. In addition, demographic changes and competitive pressures can lead to the impairment of a theatre. Over the last several years, we and many of our competitors have closed a number of theatres. Our competitors or smaller entrepreneurial developers may purchase or lease these abandoned buildings and reopen them as theatres in competition with us.

We face varying degrees of competition from other motion picture exhibitors with respect to licensing films, attracting customers, obtaining new theatre sites and acquiring theatre circuits. In those areas where real estate is readily available, there are few barriers preventing competing companies from opening theatres near one of our existing theatres. Competitors have built and are planning to build theatres in certain areas in which we operate. In the past, these developments have resulted and may continue to result in excess capacity in those areas, adversely affecting attendance and pricing at our theatres in those areas. Even where we are the only exhibitor in a film licensing zone (and therefore do not compete for films), we still may experience competition for patrons from theatres in neighboring zones. There have also been a number of consolidations in the film exhibition industry, and the impact of these consolidations could have an adverse effect on our business if greater size would give larger operators an advantage in negotiating licensing terms.

Our theatres also compete with a number of other motion picture delivery systems including network, cable and satellite television, DVD's, as well as video-on-demand, pay-per-view services and downloads via the Internet. While the impact of these alternative types of motion picture delivery systems on the motion picture exhibition industry is difficult to determine precisely, there is a risk that they could adversely affect attendance at motion pictures shown in theatres.

Our ability to attract patrons is also affected by (1) the DVD release window, which is the time between the release of a film for play in theatres and when the film is available on DVD for general public sale or rental and (2) the video-on-demand release window, which is the time between the release of a film for play in theatres and when the film is available on video-on-demand services for public viewing. Each of these release windows has been narrowing over the past several years. For example, we believe the DVD and video-on-demand release windows currently average approximately four months. It is also possible that these release windows could shorten in the near future. If these release windows continue to shorten, it might impact our ability to attract patrons to our theatres.

Future release windows may also shorten with the introduction of premium video-on-demand (“premium VOD”). Premium VOD would allow movie studios to make movies available to customers at an increased price as soon as 30-60 days after release to the theatres. To date, few titles have been released through premium VOD. However, if movie studios increase the number of titles released with premium VOD, it might decrease our ability to draw patrons to our theatres.

Theatres also face competition from a variety of other forms of entertainment competing for the public’s leisure time and disposable income, including sporting events, concerts, live theatre and restaurants.

Our revenues vary significantly depending upon the timing of the motion picture releases by distributors.

Our business is seasonal, with a disproportionate amount of our revenues generated during the summer months and year-end holiday season. While motion picture distributors have begun to release major motion pictures more evenly throughout the year, the most marketable motion pictures are usually released during the summer months and the year-end holiday season, and we usually generate more revenue and cash flows during those periods than in other periods during the year. As a result, the timing of motion picture releases affects our results of operations, which may vary significantly from quarter to quarter and year to year. If we do not adequately manage our theatre costs of operations, it could significantly affect our cash flow and potential for future growth.

Patrons may not perceive the value of viewing films in 3-D.

If the quality of 3-D films released by studios declines or customers lose interest in 3-D, customers may not perceive that the value of viewing a film in 3-D outweighs the incremental cost. This may adversely affect our ability to generate additional revenue from the digital and 3-D movie experience.

Deterioration in our relationships with any of the major film distributors could adversely affect our access to commercially successful films and could adversely affect our business and results of operations.

Our business depends to a significant degree on maintaining good relationships with the major film distributors that license films to our theatres. The film distribution business is highly concentrated, therefore any deterioration in our relationships with any of the major film distributors could adversely affect our access to commercially successful films and adversely affect our business and results of operations. In addition, because the distribution of motion pictures is in large part regulated by federal and state antitrust laws and has been the subject of numerous antitrust cases, we cannot ensure a supply of motion pictures by entering into long-term arrangements with major distributors. Rather, we must compete for licenses on a film-by-film and theatre-by-theatre basis and are required to negotiate licenses for each film and for each theatre individually.

Negative economic conditions could adversely affect our business and financial results by reducing amounts consumers spend on attending movies and purchasing concessions.

Our business depends on consumers voluntarily spending discretionary funds on leisure activities. Movie theatre attendance and concessions sales may be affected by prolonged negative trends in the general economy that adversely affect consumer spending. Our customers may have less money for discretionary purchases because of negative economic conditions such as job losses, foreclosures, bankruptcies, sharply falling home prices, reduced availability of credit and other matters, resulting in a decrease in consumer spending or causing consumers to shift their spending to alternative forms of entertainment. This may affect the demand for movies or severely impact the motion picture production industry such that our business and operations could be adversely affected.

Labor disputes in the motion picture industry may adversely affect our business.

Any disruption in the production or distribution of motion pictures related to disputes between film producers and film actors or other labor disputes in the motion picture industry could adversely affect our business and results of operations.

We rely heavily on our point-of-sale system, to operate our business and a failure of this system could harm our business.

We depend on our point-of-sale computer system, to operate our business and issue tickets to patrons at our theatres. A substantial system failure could restrict our ability to issue tickets timely to our patrons and could reduce the attractiveness of our services and cause our patrons to attend another theatre. In addition, we rely on our point-of-sale system to centralize most theatre-level administrative functions at our corporate headquarters such as coordinating payroll, tracking theatre invoices, generating operating reports to analyze film performance and theatre profitability, and generating information to quickly detect theft. Disruption in, changes to, or a breach of the point-of-sale system could result in the loss of important data, an increase of our expenses and a possible temporary cessation of our operations.

We completed the rollout of a new point-of-sale system to all theatres in August 2012. Errors encountered in the transition to the new point-of-sale system could result in the loss of important data, an increase of our expenses and a possible temporary cessation of our operations.

Failure to protect our information systems against cyber attacks or information security breaches could have a material adverse effect on our business.

Information security risks have generally increased in recent years because of the proliferation of new technologies and the increased sophistication and activities of perpetrators of cyber attacks. A failure in or breach of our information systems as a result of cyber attacks or information security breaches could disrupt our business, result in the disclosure or misuse of confidential or proprietary information, damage our reputation, increase our costs or cause losses. As cyber threats continue to evolve, we may be required to expend additional resources to continue to enhance our information security measures or to investigate and remediate any information security vulnerabilities.

We depend on key personnel for our current and future performance.

Our current and future performance depends to a significant degree upon the continued contributions of our senior management team and other key personnel. The loss or unavailability to us of any member of our senior management team or a key employee could significantly harm us. We cannot assure you that we would be able to locate or employ qualified replacements for senior management or key employees on acceptable terms.

Compliance with the ADA could require us to incur significant capital expenditures and litigation costs in the future.

The ADA and certain state statutes and local ordinances, among other things, require that places of public accommodation, including both existing and newly constructed theatres, be accessible to customers with disabilities. The ADA requires that theatres be constructed to permit persons with disabilities full use of a theatre and its facilities. The ADA may also require that certain modifications be made to existing theatres in order to make them accessible to patrons and employees who are disabled.

We are aware of several lawsuits that have been filed against other motion picture exhibitors by disabled moviegoers alleging that certain stadium seating designs violated the ADA. If we fail to comply with the ADA, remedies could include imposition of injunctive relief, fines, awards for damages to private litigants and additional capital expenditures to remedy non-compliance. Imposition of significant fines, damage awards or capital expenditures to cure non-compliance could adversely affect our business and operating results.

We are subject to other federal, state and local laws which limit the manner in which we may conduct our business.

Our theatre operations are subject to federal, state and local laws governing matters such as construction, renovation and operation of our theatres as well as wages, working conditions, citizenship and health and sanitation requirements and licensing. While we believe that our theatres are in material compliance with these requirements, we cannot predict the extent to which any future laws or regulations that regulate employment matters will impact our operations. At December 31, 2012, approximately 48% of our hourly employees were paid at the federal minimum wage and, accordingly, the minimum wage largely determines our labor costs for those employees. Increases in the minimum wage will increase our labor costs. We are subject to various federal, state and local environmental laws. See Item 1 “Business—Regulatory Environment.”

We may be limited in our ability to utilize, or may not be able to utilize, net operating loss carryforwards to reduce our future tax liability.

As of December 31, 2012 after applying Internal Revenue Code (“IRC”) Section 382 limitations, we had \$32.7 million of federal and state operating loss carryforwards with which to offset our future taxable income. The federal and state net operating loss carryforwards will begin to expire in the year 2020. If these loss carryforwards are unavailable for our use in future periods, this may adversely affect our results of operations and financial position.

We experienced an “ownership change” within the meaning of Section 382(g) of the Internal Revenue Code of 1986, as amended, during the fourth quarter of 2008. This ownership change has and will continue to subject our net operating loss carryforwards to an annual limitation, which will significantly restrict our ability to use them to offset our taxable income in periods following the ownership change. In general, the annual use limitation equals the aggregate value of our stock at the time of the ownership change multiplied by a specified tax-exempt interest rate.

We determined that at the date of the 2008 ownership change, we had a net unrealized built-in loss (“NUBIL”). The NUBIL was determined based on the difference between the fair market value of our assets and their tax basis as of the ownership change date. Because of the NUBIL, certain deductions recognized during the five-year period beginning on the date of the IRC Section 382 ownership change (the “recognition period”) are subject to the same limitation as the net operating loss carryforwards. The amount of disallowed realized built-in losses (“RBILs”) could increase if the Company disposes of assets with built-in losses at the ownership change date within the recognition period.

An ownership change was also deemed to have occurred during the second quarter of 2012. We are still analyzing the impact of the change, but we do not believe this change will further limit our ability to utilize our net operating loss carryforwards or certain other deductions.

While we recently reversed the valuation allowance for our deferred tax assets, we may not be able to realize these assets in the future and they may be subject to additional valuation allowances, which could adversely affect our operating results.

During 2007, we established a valuation allowance for substantially all of our deferred tax assets, primarily due to the realization of significant losses and uncertainty regarding the amount of future taxable income that we could forecast. Management assesses the valuation allowance recorded against deferred tax assets at each reporting date. The determination of whether a valuation allowance for deferred tax assets is appropriate is subject to considerable judgment and requires an evaluation of all positive and negative evidence. At December 31, 2012, based on the weight of all the positive and negative evidence, management concluded that it was more likely than not that our net deferred tax assets of \$86.5 million will be realized based upon future taxable income and therefore, we reversed the valuation allowance at December 31, 2012.

Management's conclusion at December 31, 2012 that it is more likely than not that our net deferred tax assets will be realized is partially based upon management's estimate of future taxable income. Management's estimate of future taxable income is based on internal projections which consider historical performance, various internal estimates and assumptions, as well as certain external data, all of which management believes to be reasonable although inherently subject to significant judgment. If actual results differ significantly from the current estimates of future taxable income, a valuation allowance may need to be established for some or all of our deferred tax assets. Establishing an allowance on our net deferred tax assets could have a material adverse effect on our financial condition and results of operations.

Disruption or non-renewal of our relationship with our primary concession suppliers could harm our margins on concessions.

We purchase substantially all of our concession supplies, except for beverage supplies, as well as janitorial supplies from Showtime Concession, and we are by far its largest customer. In return for our concession supplies, we pay Showtime Concession at prices that are based on the type of concession supplied. If this relationship were disrupted, we could be forced to negotiate a number of substitute arrangements with alternative vendors which are likely to be, in the aggregate, less favorable to us.

We purchase all of our beverage supplies from The Coca-Cola Company. Our current agreement with The Coca-Cola Company expires on December 31, 2013. Under the agreement, The Coca-Cola Company may raise beverage supply costs up to 10% annually through the term of the agreement. Our margins on concessions revenue may decline to the extent we are unable to pass on increases in our concession costs to our customers in a rate at or near the rate of cost increases.

Our development of new theatres poses a number of risks.

We plan to continue to expand our operations through the development of new theatres and the expansion of existing theatres. We anticipate our development activities in 2013 will consist of approximately five theatres. Developing new theatres requires a significant amount of time and resources and poses a number of risks. Construction of new theatres may result in cost overruns, delays or unanticipated expenses related to zoning or tax laws. Contractors may have difficulty in obtaining financing for construction. We face significant competition for potential theatre locations. Desirable sites for new theatres may be unavailable or expensive, and the markets in which new theatres are located may deteriorate over time. Additionally, the market potential of new theatre sites cannot be precisely determined, and our theatres may face competition in new markets from unexpected sources. Newly constructed theatres may not perform up to our expectations.

We expect to expand through acquisitions, which may divert our management's attention and result in unexpected operating difficulties, increased costs and dilution to our stockholders. We also may never realize the anticipated benefits of any acquisitions.

We have acquired theatres and theatre circuits, and as part of our growth strategy, we expect to seek to acquire additional theatres and theatre circuits. We may have difficulty identifying suitable acquisition candidates and even if we identify suitable candidates, we anticipate significant competition (including from possible buyers with greater financial resources) when trying to acquire these theatres, and there can be no assurances that we will be able to acquire such theatres at reasonable prices or on favorable terms.

To complete a future acquisition, we may determine that it is necessary to use a substantial amount of our cash or engage in equity or debt financing. This could result in significant dilution to our existing stockholders or a significant increase in our leverage. Any debt financing obtained by us in the future could involve restrictive covenants relating to our capital-raising activities and other financial and operational matters that make it more difficult for us to obtain additional capital in the future and to pursue other business opportunities, including potential acquisitions. In addition, we may not be able to obtain additional financing on terms favorable to us, if

at all, which could limit our ability to engage in acquisitions. If we cannot identify or successfully acquire suitable acquisition candidates, we may not be able to successfully expand our operations and the market price of our securities could be adversely affected.

There can be no assurance that we will be able to generate sufficient cash flow from any acquisitions to service any indebtedness incurred to finance such acquisitions or realize any other anticipated benefits. Nor can there be any assurance that our profitability will be improved by any one or more acquisitions or that other anticipated benefits will result. If we cannot generate sufficient cash flow to service debt incurred to finance an acquisition, our results of operations and profitability would be adversely affected.

Any acquisition may involve operating risks, such as:

- the difficulty of assimilating the acquired operations and personnel and integrating them into our current business;
- the potential disruption of our ongoing business and incurring significant costs associated with pursuing and completing acquisitions;
- the diversion of management's attention and other resources;
- the possible inability of management to maintain uniform standards, controls, procedures and policies;
- the risks of entering markets in which we have little or no experience;
- the requirement to divest existing or acquired theatres under antitrust and competition laws or regulations;
- the possibility that any liabilities we may incur or assume from acquired theatres may prove to be more burdensome than anticipated; and
- the possibility that any acquired theatres do not perform as expected.

If we determine that assets are impaired, we will be required to recognize a charge to earnings.

The opening of large multiplexes and theatres with stadium seating by us and certain of our competitors has tended to, and is expected to continue to, draw audiences away from certain older theatres, including some of our theatres. In addition, demographic changes and competitive pressures can lead to the impairment of a theatre.

We perform our theatre impairment analysis at the individual theatre level, the lowest level of independent, identifiable cash flow. We review all available evidence when assessing long-lived assets for potential impairment, including negative trends in theatre-level cash flow, the impact of competition, the age of the theatre and alternative uses of the assets. Our evaluation of negative trends in theatre-level cash flow considers seasonality of the business, with significant revenues and cash-flow being generated in the summer and year-end holiday season. Absent any unusual circumstances, we evaluate new theatres for potential impairment only after such theatres have been open and operational for a sufficient period of time to allow the market to mature.

When an impairment indicator or triggering event has occurred, we estimate future, undiscounted theatre-level cash flow using assumptions based on historical performance and our internal budgets and projections, adjusted for market specific facts and circumstances. If the undiscounted cash flow is not sufficient to support recovery of the asset group's carrying value, an impairment loss is recorded in the amount by which the carrying value exceeds estimated fair value of the asset group. Fair value is determined primarily by discounting the estimated future cash flow, at a rate commensurate with the related risk. Significant judgment is required in estimating future cash flow, and significant assumptions include attendance levels, admissions and concessions pricing and the weighted average cost of capital. Accordingly, actual results could vary significantly from such estimates. We had long-lived asset impairment charges, from our continuing operations, in each of the last five fiscal years totaling \$69.0 million. For fiscal years 2012, 2011 and 2010, our impairment charges from our continuing operations were \$4.3 million, \$3.2 million and \$7.9 million, respectively.

Our business makes us vulnerable to fears of terrorism, other forms of mass violence or health-related epidemics, which could cause customers to avoid crowded settings.

Fears of unexpected events including terrorist attacks or other forms of mass violence aimed at crowded settings or health-related epidemics, such as influenza outbreaks, could cause people to avoid theatres or other public places where crowds are in attendance. In addition, natural disasters such as hurricanes, flooding, tornados or earthquakes, could hinder our ability to operate one or more of our theatres. Any of these events, or fears of these events, could adversely affect our results of operations.

Our disclosure controls and procedures may not prevent or detect all errors or acts of fraud and our business could be adversely impacted if we have deficiencies in our disclosure controls and procedures or internal control over financial reporting.

Our disclosure controls and procedures are designed to reasonably assure that information required to be disclosed by us in reports we file or submit under the Exchange Act is accumulated and communicated to management, and recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. We believe that any disclosure controls and procedures or internal controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

These inherent limitations include the realities that judgments in decision-making can be faulty, that alternative reasoned judgments can be drawn, or that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by an unauthorized override of the controls. Accordingly, because of the inherent limitations in our control system, misstatements due to error or fraud may occur and not be detected.

Deficiencies, including any material weakness, in our internal control over financial reporting which may occur in the future could result in misstatements of our results of operations, restatements of our financial statements, a decline in our stock price, or otherwise materially adversely affect our business, reputation, results of operations, financial condition or liquidity.

Our certificate of incorporation and bylaws contain provisions that make it more difficult to effect a change in control of the Company.

Certain provisions of our certificate of incorporation and bylaws and the Delaware General Corporation Law could have the effect of delaying, deterring or preventing a change in control of the Company not approved by the Board of Directors, even if the change in control were in the stockholders' interests. Under our certificate of incorporation, our Board of Directors has the authority to issue up to one million shares of preferred stock and to determine the price, rights, preferences and privileges of those shares without any further vote or action by our stockholders. The rights of the holders of common stock will be subject to, and may be adversely affected by, the rights of the holders of any preferred stock that may be issued in the future. While we have no present intention to issue shares of preferred stock, an issuance of preferred stock in the future could have the effect of making it more difficult for a third party to acquire a majority of our outstanding voting stock. In addition, our bylaws provide that the request of stockholders owning 66 2/3% of our capital stock then issued and outstanding and entitled to vote is required for stockholders to request a special meeting.

Further, we are subject to the anti-takeover provisions of Section 203 of the Delaware General Corporation Law, which prohibits us from engaging in a "business combination" with an "interested stockholder" for a period of three years after the date of the transaction in which the person became an interested stockholder, unless the business combination is approved in a prescribed manner. The application of Section 203 could have the effect of delaying or preventing a change of control that could be advantageous to the stockholders.

ITEM 1B. UNRESOLVED STAFF COMMENTS.

None.

ITEM 2. PROPERTIES.

As of December 31, 2012, we owned, operated, or had an interest in 62 of our theatres and leased 187 of our theatres. A list of our theatres, by state, is included above under “Business—Overview.”

We typically enter into long-term leases that provide for the payment of fixed monthly rentals, contingent rentals based on a percentage of revenue over a specified amount and the payment of property taxes, common area maintenance, insurance and repairs. We, at our option, can renew a substantial portion of our theatre leases at the then fair rental rate for various periods with renewal periods of up to 20 years.

We own our headquarters building, which has approximately 48,500 square feet, as well as a building that we use to store and repair theatre equipment. Both of these facilities are located in Columbus, Georgia. In addition, we lease a warehouse in Phenix City, Alabama which is used as a record retention facility as well as a storage and refurbishment site for theatre equipment.

ITEM 3. LEGAL PROCEEDINGS.

From time to time we are involved in routine litigation and legal proceedings in the ordinary course of our business, such as personal injury claims, employment matters, contractual disputes and claims alleging Americans with Disabilities Act violations. Currently, there is no pending litigation or proceedings that we believe will have a material effect, either individually or in the aggregate on our business or financial condition.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Our common stock is currently traded on the NASDAQ Global Market under the symbol "CKEC." The last reported sale price of the common stock on December 31, 2012 was \$15.00 per share. The table below sets forth the high and low sales prices of our common stock from January 1, 2011 through December 31, 2012.

<u>2012</u>	<u>High</u>	<u>Low</u>	<u>Dividends</u>
Fourth Quarter	\$15.34	\$11.07	\$—
Third Quarter	\$15.59	\$11.04	\$—
Second Quarter	\$15.80	\$12.16	\$—
First Quarter	\$14.20	\$ 5.98	\$—
<u>2011</u>	<u>High</u>	<u>Low</u>	<u>Dividends</u>
Fourth Quarter	\$ 8.58	\$ 5.70	\$—
Third Quarter	\$ 7.30	\$ 5.14	\$—
Second Quarter	\$ 7.71	\$ 6.51	\$—
First Quarter	\$ 8.11	\$ 6.45	\$—

As of December 31, 2012, there were 291 shareholders of record of our common stock and there were no shares of any other class of stock issued and outstanding.

During fiscal year 2012, we did not make any sales of unregistered equity securities. During the three months ended December 31, 2012, we did not repurchase any of our equity securities.

No dividends were paid during fiscal years 2011 and 2012. Currently, we plan to allocate our capital primarily to fund capital projects, including new build-to-suit theatres and for potential acquisitions. The payment of future dividends is subject to our Board of Directors' discretion and dependent on many considerations, including limitations imposed by covenants in the agreements governing our indebtedness, operating results, capital requirements, strategic considerations and other factors. See Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources."

Performance Graph

The following stock price performance graph should not be deemed incorporated by reference by any general statement incorporating by reference this Annual Report on Form 10-K into any filing under the Exchange Act or the Securities Act of 1933, as amended, except to the extent that we specifically incorporate this information by reference, and shall not otherwise be deemed filed under such acts.

The following stock performance graph compares, for the five year period ended December 31, 2012, the cumulative total stockholder return for Carmike’s common stock, the NASDAQ Stock Market (U.S. companies) Index (the “NASDAQ Market Index”) and a peer group of three public companies engaged in the motion picture exhibition industry. The peer group consists of Cinemark Holdings, Inc., Reading International, Inc., and Regal Entertainment Group. Measurement points are the last trading day for each year ended December 31, 2007, December 31, 2008, December 31, 2009, December 31, 2010, December 31, 2011 and December 31, 2012. The graph assumes that \$100 was invested on December 31, 2007 in our common stock, the NASDAQ Market Index and a peer group consisting of motion picture exhibitors and assumes reinvestment of any dividends. The stock price performance on the following graph is not necessarily indicative of future stock price performance.

COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN* Among Carmike Cinemas, Inc., the NASDAQ Composite Index, and a Peer Group

*\$100 invested on 12/31/07 in stock or index, including reinvestment of dividends.
Fiscal year ending December 31.

ITEM 6. SELECTED FINANCIAL DATA.

The consolidated selected historical financial and other data below should be read in conjunction with “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” and with the consolidated financial statements and notes thereto contained in “Item 8. Financial Statements and Supplementary Data”. The selected historical financial and other data for each of the five fiscal years in the year ended December 31, 2012 (other than operating data) are derived from our audited consolidated financial statements.

	Year Ended December 31,

- (1) See the notes to our annual consolidated financial statements with respect to impairments of long-lived assets.
- (2) Includes current maturities of long-term indebtedness, capital lease obligations and financing obligations.
- (3) During the quarter ended December 31, 2012, we determined that it is more likely than not that the majority of our deferred tax assets would be realized in the future and accordingly we have released our valuation allowance against our deferred tax assets of \$86.5 million.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion of our results of operations and financial condition should be read in conjunction with "Selected Financial Data" and the consolidated financial statements and related notes included elsewhere in this Form 10-K. The following discussion includes forward-looking statements that involve certain risks and uncertainties. See "Business—Cautionary Statement Regarding Forward-Looking Information."

Overview

We are one of the largest motion picture exhibitors in the United States and as of December 31, 2012 we owned, operated or had an interest in 249 theatres with 2,502 screens located in 35 states. We target small to mid-size non-urban markets with the belief that they provide a number of operating benefits, including lower operating costs and fewer alternative forms of entertainment.

As of December 31, 2012, we had 232 theatres with 2,359 screens on a digital-based platform, and 225 theatres with 855 screens equipped for 3-D. We believe our leading-edge technologies allow us not only greater flexibility in showing feature films, but also provide us with the capability to explore revenue-enhancing alternative content programming. Digital film content can be easily moved to and from auditoriums in our theatres to maximize attendance. The superior quality of digital cinema and our 3-D capability allows us to provide a quality presentation to our patrons.

Our business depends to a substantial degree on the availability of suitable motion pictures for screening in our theatres and the appeal of such motion pictures to patrons in our specific theatre markets. Our results of operations vary from period to period based upon the number and popularity of the films we show in our theatres. A disruption in the production of motion pictures, a lack of motion pictures, or the failure of motion pictures to attract the patrons in our theatre markets will likely adversely affect our business and results of operations.

Our revenue also varies significantly depending upon the timing of the film releases by distributors. While motion picture distributors have begun to release major motion pictures more evenly throughout the year, the most marketable films are usually released during the summer months and the year-end holiday season, and we usually generate higher attendance during those periods than in other periods during the year. As a result, the timing of such releases affects our results of operations, which may vary significantly from quarter to quarter and year to year.

We compete with other motion picture exhibitors and a number of other film delivery methods, including DVD's, video-on-demand, pay-per view services and downloads via the Internet. We also compete for the public's leisure time and disposable income with all forms of entertainment, including sporting events, concerts, live theatre and restaurants. A prolonged economic downturn could materially affect our business by reducing amounts consumers spend on entertainment including attending movies and purchasing concessions. Any reduction in consumer confidence or disposable income in general may affect the demand for movies or severely impact the motion picture production industry such that our business and operations could be adversely affected.

The ultimate performance of our film product any time during the calendar year will have a dramatic impact on our cash needs. In addition, the seasonal nature of the exhibition industry and positioning of film product makes our need for cash vary significantly from quarter to quarter. Generally, our liquidity needs are funded by operating cash flow and available funds under our credit agreement. Our ability to generate this cash will depend largely on future operations.

We actively seek ways to grow our circuit through the building of new theatres and strategic acquisitions. On March 30, 2012, we finalized our purchase of certain assets from Destinta Theatres for approximately \$0.7 million. The acquisition consisted of a seven screen theatre in Clarion, Pennsylvania. On November 15, 2012, we

completed our acquisition of 16 entertainment complexes and 251 screens in seven U.S. states from Rave Reviews Cinemas, L.L.C (“Rave”) for approximately \$22.0 million, inclusive of a net working capital adjustment. We also assumed financing obligations in the amount of approximately \$110.2 million, after accounting adjustments, to reflect the acquisition date fair value of such obligations. On December 13, 2012, we completed our purchase of certain assets from Phoenix Big Cinemas for approximately \$0.6 million. The acquisition consisted of two theatres and sixteen screens in Kentucky and Tennessee.

In addition, we continue to pursue opportunities for organic growth through new theatre development. We opened four new build-to-suit theatres during the year ended December 31, 2012 and added one auditorium to an existing theatre. We anticipate opening approximately five new build-to-suit theatres in 2013.

In 2012, we added six “Big D®” format auditoriums. We included one Big D auditorium in each new build-to-suit theatre, while the remaining two were conversions of existing auditoriums. Big D auditoriums include wall to wall screens, the latest in 7.1 surround sound and digital projection for both 2-D and 3-D features. We believe that the Big D format results in a picture quality with noticeably higher resolution. In addition, Big D auditoriums also include leather high-back rocking seats placed for optimal viewing in a stadium seating configuration. We believe that our Big D format enhances the enjoyment of our audiences. We plan to convert additional screens to our Big D format in 2013 and include a Big D auditorium in all new theatres. In addition, we acquired seven IMAX auditoriums as part of the Rave acquisition in November 2012. We currently operate 23 Big D and IMAX auditoriums. We believe that the addition of Big D and IMAX auditoriums will have a positive impact on our operating results.

For a summary of risks and uncertainties relevant to our business, please see “Item 1A. Risk Factors.”

Results of Operations

Seasonality

Typically, movie studios release films with the highest expected revenues during the summer and the holiday period between Thanksgiving and Christmas, causing seasonal fluctuations in revenues. However, movie studios are increasingly introducing more popular film titles throughout the year. In addition, in years where Christmas falls on a weekend day, our revenues are typically lower because our patrons generally have shorter holiday periods away from work or school.

Revenues

We derive almost all of our revenues from box office receipts and concession sales with additional revenues from screen advertising sales, our two Hollywood Connection fun centers, and other revenue streams, such as electronic video games located in some of our theatres and theatre rental fees. Successful films released during the year ended December 31, 2012 included *Marvel’s The Avengers*, which grossed over \$600 million in domestic box office; *The Dark Knight Rises* and *The Hunger Games*, which both grossed over \$400 million in domestic box office; and *Skyfall*, *The Twilight Saga: Breaking Dawn Part 2*, *The Amazing Spider-Man*, *Brave*, *The Hobbit: An Unexpected Journey*, *Ted*, *Madagascar 3: Europe’s Most Wanted* and *Dr. Seuss’ The Lorax*, which all grossed over \$200 million in domestic box office. We recognize admissions revenues when movie tickets are sold at the box office and concession sales revenues when the products are sold in the theatre. Admissions and concession sales revenues depend primarily upon attendance, ticket price and the price and volume of concession sales. Our attendance is affected by the quality and timing of movie releases and our ability to obtain films that appeal to patrons in our markets.

Expenses

Film exhibition costs vary according to box office admissions and are accrued based on our terms and agreements with movie distributors. Some agreements provide for rental fees based on “firm terms” which are

negotiated and established prior to the opening of the picture. These agreements usually provide for either a decreasing percentage of box office admissions to be paid to the movie studio over the first few weeks of the movie's run, subject to a floor for later weeks or a set percentage for the entire run of the film with no adjustments. If "firm terms" do not apply, film exhibition costs are accrued based on the expected success of the film over a thirty to sixty day period and estimates of the final settlement with the movie studio. Settlements between us and the movie studios are typically completed three to four weeks after the movie's run and have not historically resulted in significant adjustments to amounts previously recorded.

Concession costs are variable in nature and fluctuate with our concessions revenues. We purchase concessions to replace units sold. We negotiate prices for concessions with our concession vendors, primarily Showtime Concessions, to obtain lower rates.

Our theatre operating costs include labor, utilities and occupancy, and facility lease expenses. Labor costs have both a variable and fixed cost component. During non-peak periods, a minimum number of staff is required to operate a theatre facility. However, to handle attendance volume increases, theatre staffing is increased during peak periods and thus salaries and wages vary in relation to revenues. Utilities, repairs and maintenance services also have variable and fixed cost components. Our occupancy expenses and property taxes are primarily fixed costs, as we are generally required to pay applicable taxes, insurance and fixed minimum rent under our leases. In addition, several of our theatre leases contain provisions for contingent rent whereby a portion of our rent expense is based on an agreed upon percentage of revenue exceeding a specified level. In these theatres, a portion of rental expenses can vary directly with changes in revenue.

Our general and administrative expenses include costs not specific to theatre operations, and are composed primarily of corporate overhead.

Operating Statement Information

The following table sets forth for the periods indicated the percentage of total revenues represented by certain items reflected in our consolidated statements of operations.

	Year Ended December 31,		
	2012	2011	2010

(1) Film exhibition costs include advertising expenses.

Year Ended December 31, 2012 Compared to Year Ended December 31, 2011

Revenues. We collect substantially all of our revenues from the sale of admission tickets and concessions. The table below provides a comparative summary of the operating data for this revenue generation and includes the impact of the acquired Rave theatres from November 15, 2012.

	Year ended December 31,	
	2012	2011
Average theatres	236	236
Average screens	2,286	2,230
Average attendance per screen ⁽¹⁾	22,032	21,155
Average admission per patron ⁽¹⁾	\$ 6.85	\$ 6.57
Average concessions and other sales per patron ⁽¹⁾	\$ 3.91	\$ 3.66
Total attendance (in thousands) ⁽¹⁾	50,357	47,177
Total revenues (in thousands)	\$539,324	\$477,816

(1) Includes activity from theatres designated as discontinued operations and reported as such in the consolidated statements of operations.

According to *boxofficemojo.com*, a website focused on the movie industry, national box office revenues for 2012 were estimated to have increased by approximately 6.5% in comparison to 2011. The industry-wide increase was primarily driven by the success of high profile films, such as *Marvel's The Avengers*, *The Dark Knight Rises*, and *The Hunger Games*, which all grossed over \$400 million in box office revenues. We experienced an increase of 11.7% in admissions revenues for 2012. Excluding admissions revenues of \$9.2 million from the Rave theatres acquired, our admissions revenues increased 8.7% for 2012. We believe our admissions revenue increased more than that of the industry due to certain films that played better in our smaller markets than in larger metropolitan markets.

Total revenues increased 12.9% to \$539.3 million for the year ended December 31, 2012 compared to \$477.8 million for the year ended December 31, 2011, due to an increase in total attendance from 47.2 million in 2011 to 50.4 million in 2012, an increase in average admissions per patron from \$6.57 in 2011 to \$6.85 in 2012 and an increase in concessions and other sales per patron from \$3.66 in 2011 to \$3.91 in 2012. Excluding the acquired Rave theatres, total revenues increased 10.0% to \$525.5 million. The increase in total revenues, excluding the acquired Rave theatres, was due to an increase in total attendance from 47.2 million to 49.2 million, an increase in average admissions per patron from \$6.57 in 2011 to \$6.82 in 2012 and an increase in concessions and other sales per patron from \$3.66 in 2011 to \$3.91 in 2012. Admissions revenues increased 11.7% to \$343.1 million in 2012 from \$307.1 million in 2011, due to the increases in total attendance and average admissions per patron. Excluding admissions revenues of \$9.2 million from the acquired Rave theatres, admissions revenue increased 8.7% to \$333.9 million in 2012 from \$307.1 million in 2011. Concessions and other revenues increased 15.0% to \$196.2 million in 2012 from \$170.7 million in 2011, due to the increases in

total attendance and average concessions and other sales per patron. Excluding concessions and other revenues from the acquired Rave theatres, concessions and other revenues increased 12.2% to \$191.6 million in 2012 from \$170.7 million in 2011.

We operated 249 theatres with 2,502 screens at December 31, 2012 and 237 theatres with 2,254 screens at December 31, 2011.

Operating costs and expenses. The table below summarizes operating expense data for the periods presented and includes the impact of the acquired Rave theatres from November 15, 2012.

(\$'s in thousands)	Year ended December 31,		
	2012	2011	% Change
Film exhibition costs	\$186,016	\$165,934	12
Concession costs	\$ 23,239	\$ 19,690	18
Other theatre operating costs	\$211,746	\$200,390	6
General and administrative expenses	\$ 24,547	\$ 19,084	29
Severance agreement charges	\$ 473	\$ 845	(44)
Depreciation and amortization	\$ 33,370	\$ 32,083	4
Loss on sale of property and equipment	\$ 968	\$ 333	n/m
Write-off of note receivable	\$ —	\$ 750	n/m
Impairment of long-lived assets	\$ 4,253	\$ 3,239	31

Film exhibition costs. Film exhibition costs fluctuate in direct relation to the increases and decreases in admissions revenue and the mix of aggregate and term film deals. Film exhibition costs as a percentage of revenues are generally higher for periods with more blockbuster films. Film exhibition costs for the year ended December 31, 2012 increased to \$186.0 million as compared to \$165.9 million for the year ended December 31, 2011 primarily due to the increase in admissions revenue. As a percentage of admissions revenue, film exhibition costs were 54.2% for the year ended December 31, 2012, as compared to 54.0% for the year ended December 31, 2011, primarily as a result of more top-tier films in 2012, which typically carry higher film rent. Excluding the acquired Rave theatres, film exhibition costs for the year ended December 31, 2012 increased to \$181.0 million as compared to \$165.9 million for the year ended December 31, 2011 primarily due to the increase in admissions revenue. As a percentage of admissions revenue, excluding the acquired Rave theatres, film exhibition costs were 54.2% for the year ended December 31, 2012 as compared to 54.0% for the year ended December 31, 2011.

Concessions costs. Concession costs for the year ended December 31, 2012 increased to \$23.2 million as compared to \$19.7 million for the year ended December 31, 2011. As a percentage of concessions and other revenues, concession costs were 11.8% for the year ended December 31, 2012, as compared to 11.5% for the year ended December 31, 2011 primarily due to an increase in the cost of concession supplies, discounts and other promotional activities and lower concession rebates. Our focus continues to be a limited concessions offering of high margin products such as soft drinks, popcorn and individually packaged candy, to maximize our profit potential. Excluding the acquired Rave theatres, concession costs for the year ended December 31, 2012 increased to \$22.5 million as compared to \$19.7 million for the year ended December 31, 2011. Excluding the acquired Rave theatres, as a percentage of concessions and other revenues, concession costs were 11.7% for the year ended December 31, 2012, as compared to 11.5% for the year ended December 31, 2011.

Other theatre operating costs. Other theatre operating costs for the year ended December 31, 2012 increased to \$211.7 million as compared to \$200.4 million for the year ended December 31, 2011. Excluding the acquired Rave theatres, other theatre operating costs for the year ended December 31, 2012 increased to \$207.7 million as compared to \$200.4 million for the year ended December 31, 2011. The increase in our other theatre operating costs are primarily the result of increases in salaries and wages expense of \$3.5 million due primarily to attendance increases and theatres acquired during 2012, theatre occupancy costs of \$4.7 million due primarily to new build-to-suit theatres and theatres acquired during 2012, repair and maintenance costs of \$0.7 million, and property taxes of \$0.7 million due primarily to new build-to-suit theatres and theatres acquired during 2012.

General and administrative expenses. General and administrative expenses for the year ended December 31, 2012 increased to \$24.5 million as compared to \$19.1 million for the year ended December 31, 2011. The increase in our general and administrative expenses is primarily the result of increased professional fees of \$4.1 million related to acquisition activities.

Severance agreement charge. We recorded a severance charge of \$0.5 million for the year ended December 31, 2012. The charge was related to the departure of our Vice President-General Manager Theatre Operations.

Depreciation and amortization. Depreciation and amortization expenses for the year ended December 31, 2012 increased 4.0% as compared to the year ended December 31, 2011 due to a combination of higher balances of property and equipment due to theatre openings and acquisitions and a reassessment of the useful lives of certain assets.

Net loss on sales of property and equipment. We recognized a loss of \$1.0 million on the sales of property and equipment for the year ended December 31, 2012 as compared to a loss of \$0.3 million for the year ended December 31, 2011. Our gains and losses primarily result from the disposition of underperforming and surplus property and equipment.

Impairment of long-lived assets. Impairment of long-lived assets, including impairment from discontinued operations, for the year ended December 31, 2012 increased to \$4.3 million compared to \$3.5 million for the year ended December 31, 2011. For 2012, impairment charges related to fixed assets were primarily the result of (1) our plan to replace two owned theatres prior to the end of their useful lives, resulting in \$2.4 million in impairment charges using valuation inputs as of the date of the impairment analysis; (2) deterioration in the full-year operating results of certain theatres resulting in \$0.1 million in impairment charges using valuation inputs as of the date of the impairment analysis; and (3) the continued deterioration in the full year operating results of certain theatres impaired in prior years resulting in \$1.8 million in impairment charges using valuation inputs as of the date of the impairment analysis.

When evaluating declining trends in theatre-level operating results, we give consideration to the seasonality of the business, with significant revenue and cash flow being generated in the summer and year-end holiday season as well as the effects of competition. Additionally, we evaluate the financial results on an on-going basis, but only after the theatre and its financial results have matured. For purposes of estimating the impairment loss, the fair value of the asset group was determined primarily by the use of a discounted cash flow model that included inputs consistent with those expected to be used by market participants.

Operating income. Operating income for the year ended December 31, 2012 was \$54.7 million as compared to operating income of \$35.5 million for the year ended December 31, 2011. Excluding the acquired Rave theatres, operating income for the year ended December 31, 2012 was \$52.1 million. The increase in our operating income is primarily due to increases in box office attendance, average admissions per patron and average concessions and other sales per patron, along with the other factors described above.

Interest expense, net. Interest expense, net for the year ended December 31, 2012 increased to \$36.0 million from \$34.1 million for the year ended December 31, 2011. The increase is primarily related to an increase in the weighted average interest rate of our Senior Secured Notes compared to our term loan, partially offset by a decrease in the average debt outstanding.

Income tax.

	<u>Year Ended December 31,</u>	
	<u>2012</u>	<u>2011</u>
Income from continuing operations	\$ 13,747	\$ 1,355
Federal tax expense, at statutory rates	4,813	474
State tax (benefit) expense, net of federal tax effects	(249)	232
Permanent non-deductible expenses	97	65
Reduction in prior year tax	58	324
Tax effect of uncertain tax position	152	55
Impact of equity investment income at statutory tax rate	476	697
Reduction in gross deferred tax assets due to IRC Section 382	396	—
(Decrease) increase in valuation allowance	<u>(86,533)</u>	<u>8,632</u>
Total tax (benefit) expense from continuing operations	<u>\$ (80,790)</u>	<u>\$ 10,479</u>

As a result of an “ownership change” within the meaning of Section 382(g) of the Internal Revenue Code of 1986, as amended, which occurred in the fourth quarter of 2008, we are limited in our ability to utilize our net operating loss carryforwards and certain other built in deductions in computing our taxable income beginning with the ownership change date.

We recognized an income tax benefit of \$80.8 million during the year ended December 31, 2012. This consisted primarily of a benefit of \$86.5 million resulting from the release of our valuation allowance against our deferred tax assets. After reviewing all positive and negative evidence at December 31, 2012, we determined that it was more likely than not that our deferred tax asset balance would be recovered from future taxable income and reversed the valuation allowance on our deferred tax assets. We considered all positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, tax planning strategies and recent financial operations. At December 31, 2012, we had generated cumulative pre-tax income for the most recent rolling three-year period. We believe that the improvement in operating results is primarily related to our focus on improving our circuit by modernizing existing theatres, closing underperforming theatres and through accretive acquisitions. We concluded that this record of cumulative profitability in recent years, our large amount of taxable income available in the carryback period, the acquisition of the Rave theatres in 2012, our trend of improving earnings and the timing of reversals of our deferred tax liabilities creating future taxable income outweigh any negative evidence identified. As a result, we reversed the valuation allowance on our deferred tax assets.

As of December 31, 2012 and 2011, the amount of unrecognized tax benefits related to continuing operations was \$2.7 million.

Income (loss) from discontinued operations. We generally consider theatres for closure due to an expiring lease term, underperformance, or the opportunity to better deploy invested capital. In 2012 and 2011, we closed eleven and seven theatres, respectively. Of those closures, in 2012 and 2011, we classified six and five theatres, respectively, as discontinued operations and reported the results of these operations, including gains or losses on disposal, as discontinued operations. The operations and cash flow of these theatres have been eliminated from our continuing operations, and we will not have any continuing involvement in their operations. All prior years included in the accompanying consolidated statements of operations have been reclassified to separately show the results of operations from discontinued operations through the respective date of the theatre closings. Income from discontinued operations for the year ended December 31, 2012 was \$567,000, including gain on disposal of assets of \$1,168,000, as compared to a loss of \$383,000, including gain on disposal of assets of \$231,000 for the year ended December 31, 2011.

Year Ended December 31, 2011 Compared to Year Ended December 31, 2010

Revenues. We collect substantially all of our revenues from the sale of admission tickets and concessions. The table below provides a comparative summary of the operating data for this revenue generation.

	Year ended December 31,	
	2011	2010
Average theatres	236	242
Average screens	2,230	2,266
Average attendance per screen ⁽¹⁾	21,155	21,140
Average admission per patron ⁽¹⁾	\$ 6.57	\$ 6.85
Average concessions and other sales per patron ⁽¹⁾	\$ 3.66	\$ 3.43
Total attendance (in thousands) ⁽¹⁾	47,177	47,909
Total revenues (in thousands)	\$477,816	\$483,686

(1) Includes activity from theatres designated as discontinued operations and reported as such in the consolidated statements of operations.

According to *boxofficemojo.com*, a website focused on the movie industry, national box office revenues for 2011 were estimated to have decreased by approximately 3.7% in comparison to 2010. The industry-wide decline was primarily driven by the success of high profile films in the first quarter of 2010, such as *Avatar* and *Alice in Wonderland*, while the first quarter of 2011 produced few high profile films. We experienced a decrease of 4.8% in admissions revenues for 2011. We believe our admissions revenue decreased more than that of the industry due to our use of increased discounts and promotional activities in 2011 compared to 2010.

Total revenues decreased 1.2% to \$477.8 million for the year ended December 31, 2011 compared to \$483.7 million for the year ended December 31, 2010, due to a decrease in total attendance from 47.9 million in 2010 to 47.2 million in 2011, and a decrease in average admissions per patron from \$6.85 in 2010 to \$6.57 in 2011, partially offset by an increase in concessions and other sales per patron from \$3.43 in 2010 to \$3.66 in 2011. Admissions revenue decreased 4.8% to \$307.1 million in 2011 from \$322.5 million in 2010, due to the decreases in total attendance and average admissions per patron and increased discounts and promotional activities during 2011 along with a change in the mix of 2-D versus 3-D attendance. Concessions and other revenues increased 5.9% to \$170.7 million in 2011 from \$161.2 million in 2010, due to the increase in average concessions and other sales per patron partially offset by the decrease in total attendance.

We operated 237 theatres with 2,254 screens at December 31, 2011 and 239 theatres with 2,236 screens at December 31, 2010.

Operating costs and expenses. The table below summarizes operating expense data for the periods presented.

(\$'s in thousands)	Year ended December 31,		
	2011	2010	% Change
Film exhibition costs	\$165,934	\$178,098	(7)
Concession costs	\$ 19,690	\$ 17,636	12
Other theatre operating costs	\$200,390	\$206,848	(3)
General and administrative expenses	\$ 19,084	\$ 17,570	9
Severance agreement charges	\$ 845	—	n/m
Depreciation and amortization	\$ 32,083	\$ 31,672	1
Loss (gain) on sale of property and equipment	\$ 333	\$ (667)	n/m
Write-off of note receivable	\$ 750	—	n/m
Impairment of long-lived assets	\$ 3,239	\$ 7,921	(59)

Film exhibition costs. Film exhibition costs fluctuate in direct relation to the increases and decreases in admissions revenue and the mix of aggregate and term film deals. Film exhibition costs as a percentage of revenues are generally higher for periods with more blockbuster films. Film exhibition costs for the year ended December 31, 2011 decreased to \$165.9 million as compared to \$178.1 million for the year ended December 31, 2010 primarily due to a decrease in admissions revenue. As a percentage of admissions revenue, film exhibition costs were 54.0% for the year ended December 31, 2011, as compared to 55.2% for the year ended December 31, 2010, primarily as a result of lower film rent on 3-D and top-tier films in 2011 and a reduction in advertising expense.

Concessions costs. Concession costs for the year ended December 31, 2011 increased to \$19.7 million as compared to \$17.6 million for the year ended December 31, 2010. As a percentage of concessions and other revenues, concessions costs were 11.5% for the year ended December 31, 2011, as compared to 10.9% for the year ended December 31, 2010 primarily due to an increase in the cost of concession supplies, discounts and other promotional activities and lower concession rebates. Our focus continues to be a limited concessions offering of high margin products such as soft drinks, popcorn and individually packaged candy, to maximize our profit potential.

Other theatre operating costs. Other theatre operating costs for the year ended December 31, 2011 decreased to \$200.4 million as compared to \$206.8 million for the year ended December 31, 2010. The decrease in our other theatre operating costs are primarily the result of a decrease in repair and maintenance costs of \$2.1 million, theatre occupancy costs resulting from lower percentage rent obligations of \$1.8 million, 3-D equipment service charges of \$1.5 million, salaries and wages expense of \$1.4 million, and a decrease in taxes and license fees of \$1.2 million. Taxes and license fees were negatively impacted in 2010 by the recording of sales and use taxes totaling approximately \$1.0 million identified as a result of an audit. The underpayment of such taxes occurred in 2005 and 2006.

General and administrative expenses. General and administrative expenses for the year ended December 31, 2011 increased to \$19.1 million as compared to \$17.6 million for the year ended December 31, 2010. The increase in our general and administrative expenses is primarily due to an increase in incentive compensation of \$1.0 million and travel expenses of \$0.5 million.

Severance agreement charge. We recorded a severance charge of \$0.8 million for the year ended December 31, 2011. The charge was related to the departure of our former Senior Vice President, General Counsel and Secretary (see Note 20—Severance Agreement Charges).

Depreciation and amortization. Depreciation and amortization expenses for the year ended December 31, 2011 increased 1.3% as compared to the year ended December 31, 2010 due to a combination of higher balances of property and equipment due to theatre openings and a reassessment of the useful lives of certain assets.

Net gain on sales of property and equipment. We recognized a loss of \$0.3 million on the sales of property and equipment for the year ended December 31, 2011 as compared to a gain of \$0.7 million for the year ended December 31, 2010. Our gains and losses primarily result from the disposition of underperforming and surplus property and equipment.

Impairment of long-lived assets. Impairment of long-lived assets, including impairment from discontinued operations, for the year ended December 31, 2011 decreased to \$3.5 million compared to \$8.2 million for the year ended December 31, 2010. For 2011, impairment charges related to fixed assets were primarily the result of (1) deterioration in the full-year operating results of certain theatres resulting in \$2.1 million in impairment charges using valuation inputs as of the date of the impairment analysis; (2) continued deterioration in the full year operating results of certain theatres impaired in prior years resulting in \$0.7 million in impairment charges using valuation inputs as of the date of the impairment analysis; and (3) a decline in the market value of a previously closed theatre, resulting in a charge of \$0.7 million.

When evaluating declining trends in theatre-level operating results, we give consideration to the seasonality of the business, with significant revenue and cash flow being generated in the summer and year-end holiday season as well as the effects of competition. Additionally, we evaluate the financial results on an on-going basis, but only after the theatre and its financial results have matured. For purposes of estimating the impairment loss, the fair value of the asset group was determined primarily by use of a discounted cash flow model that included inputs consistent with those expected to be used by market participants.

Operating income (loss). Operating income for the year ended December 31, 2011 was \$35.5 million as compared to operating income of \$24.6 million for the year ended December 31, 2010. The increase in our operating income is primarily due to a decrease in other theatre operating costs and impairment of long-lived assets in 2011 along with the other factors described above.

Interest expense, net. Interest expense, net for the year ended December 31, 2011 decreased to \$34.1 million from \$36.0 million for the year ended December 31, 2010. The decrease is primarily related to a decrease in the average debt outstanding.

Income tax. As a result of an “ownership change” within the meaning of Section 382(g) of the Internal Revenue Code of 1986, as amended, which occurred in the fourth quarter of 2008, we are limited in our ability to utilize our net operating loss carryforwards and certain other built in deductions in computing our taxable income beginning with the ownership change date.

Our income tax expense from continuing operations was \$10.5 million at December 31, 2011 and a benefit of \$0.5 million at December 31, 2010. Because of the limitation imposed on our ability to use certain deferred tax assets by IRC Sec. 382, our income tax expense (benefit) is primarily determined by reference to current taxable income. In addition, we have concluded that the realization of our deferred tax assets is generally not likely; therefore, we have recorded a valuation allowance against the portion which we believe will not be realized.

The increase in our income tax provision from 2010 to 2011 is due primarily to the current tax expense associated with the \$30 million Screenvision payment received in January 2011 (as discussed in Note 11-Screenvision Transaction) and the inability to recognize an associated deferred tax benefit, due to our ongoing assessment that the realization of our deferred tax assets is unlikely.

As of December 31, 2011 and 2010, the amount of unrecognized tax benefits related to continuing operations was \$2.5 million. We have recognized a tax basis for our non-forfeitable ownership interest in SV Holdco that is lower than the carrying value for financial statement purposes. However, as this tax position may not be sustained upon examination, we have recorded a related liability for this uncertain tax position.

Income (loss) from discontinued operations. We generally consider theatres for closure due to an expiring lease term, underperformance, or the opportunity to better deploy invested capital. In 2011 and 2010, we closed seven and eight theatres, respectively. Of those closures, in 2011 and 2010, we classified five and two theatres, respectively, as discontinued operations and reported the results of these operations, including gains or losses on disposal, as discontinued operations. The operations and cash flow of these theatres have been eliminated from our operations, and we will not have any continuing involvement in their operations. All prior years included in the accompanying consolidated statements of operations have been reclassified to separately show the results of operations from discontinued operations through the respective date of the theatre closings. Loss from discontinued operations for the year ended December 31, 2011 was \$383,000, including gain on disposal of assets of \$231,000, as compared to a loss of \$300,000, including gain on disposal of assets of \$247,000 for the year ended December 31, 2010.

Liquidity and Capital Resources

General

We typically maintain current liabilities in excess of our current assets which results in a working capital deficit. We are able to operate with a substantial working capital deficit because our operations are primarily conducted on a cash basis. Rather than maintain significant cash balances that would result from this pattern of operating cash flows, we utilize operating cash flows in excess of those required to fund capital projects, including new build-to-suit theatres and acquisitions. We had a working capital surplus of \$16.8 million as of December 31, 2012 compared to a working capital deficit of \$33.4 million at December 31, 2011. The working capital surplus at December 31, 2012 resulted from proceeds of \$56.3 million received from our common stock offering in April 2012.

At December 31, 2012, we had available borrowing capacity of \$25 million under our revolving credit facility and approximately \$68.5 million in cash and cash equivalents on hand as compared to available borrowing capacity of \$30 million under our revolving credit facility and approximately \$13.6 million in cash and cash equivalents on hand at December 31, 2011. The material terms of our revolving credit facility (including limitation on our ability to freely use all the available borrowing capacity) are described below in "Credit Agreement and Covenant Compliance."

Net cash provided by operating activities was \$52.4 million for the year ended December 31, 2012 as compared to \$69.9 million for the same period in 2011. Cash provided by operating activities was higher for the year ended December 31, 2011 due primarily to the collection of a \$30.0 million receivable from Screenvision in January 2011 and a reduction in accounts payable and accrued expenses in 2012 as compared to the prior period, partially offset by increased box office attendance during the year ended December 31, 2012. Net cash used in investing activities was \$52.6 million for the year ended December 31, 2012 as compared to \$29.6 million for the same period in 2011. The increase in our net cash used in investing activities is primarily due to an increase in purchases of property and equipment and theatre acquisitions, partially offset by an increase in proceeds from sales of property and equipment. Capital expenditures were \$35.1 million for the year ended December 31, 2012 as compared to \$19.3 million for the same period in 2011. For the year ended December 31, 2012, net cash provided by financing activities was \$55.1 million as compared to net cash used in financing activities of \$39.7 million for the same period in 2011. The increase in our net cash provided by financing activities is primarily due to the proceeds of \$56.3 million received from our common stock offering in April 2012 and the repayment of \$35.0 million on our term loan during 2011, partially offset by the incurrence of \$8.6 million of debt issuance costs in 2012.

Net cash provided by operating activities was \$69.9 million for the year ended December 31, 2011 as compared to \$27.7 million for the same period in 2010. The increase in our cash provided by operating activities was due primarily to the collection of the \$30.0 million receivable from Screenvision and an increase in accounts payable and accrued expenses as compared to the prior period. Net cash used in investing activities was \$29.6 million for the year ended December 31, 2011 as compared to \$12.9 million for the same period in 2010. The increase in our net cash used in investing activities is primarily due to an increase in purchases of property and equipment, theatre acquisitions and our voluntary capital contribution to SV Holdco in September 2011. Capital expenditures were \$19.3 million for the year ended December 31, 2011 as compared to \$16.9 million for the same period in 2010. For the year ended December 31, 2011, net cash used in financing activities was \$39.7 million as compared to \$27.5 million for the same period in 2010. The increase in our net cash used in financing activities is primarily due to the repayment of \$35.0 million on our term loan during 2011, partially offset by the incurrence of \$9.2 million of debt issuance costs in 2010.

Our liquidity needs are funded by operating cash flow and availability under our credit agreements. The exhibition industry is seasonal with the studios normally releasing their premiere film product during the holiday season and summer months. This seasonal positioning of film product makes our needs for cash vary significantly from quarter to quarter. Additionally, the ultimate performance of the films any time during the calendar year will have a dramatic impact on our cash needs.

We from time to time close older theatres or do not renew the leases, and the expenses associated with exiting these closed theatres typically relate to costs associated with removing owned equipment for redeployment in other locations and are not material to our operations. In 2012, we closed eleven of our underperforming theatres and estimate closing up to six theatres in 2013.

We plan to make between \$25 million and \$30 million in capital expenditures for calendar year 2013. We opened four new build-to-suit theatres in 2012 and anticipate opening approximately five new build-to-suit theatres in 2013. In 2010, we began installing our own large digital format screen in select theatres. The Big D-Large Format Digital Experience includes a larger screen, enhanced sound and premium seating accommodations. We intend to roll out additional Big D-Large Format Digital Experience auditoriums during 2013.

We actively seek ways to grow our circuit through acquisitions. On March 30, 2012, we completed our purchase of certain assets from Destinta Theatres for approximately \$0.7 million. The acquisition consisted of a seven screen theatre in Clarion, Pennsylvania. On November 15, 2012, we completed our acquisition of 16 entertainment complexes and 251 screens in seven U.S. states from Rave Reviews Cinemas, L.L.C for approximately \$22.0 million, inclusive of a net working capital adjustment. We also assumed financing obligations in the amount of approximately \$110.2 million, after accounting adjustments to reflect the acquisition date fair value of such obligations. On December 13, 2012, we completed our purchase of certain assets from Phoenix Big Cinemas for approximately \$0.6 million. The acquisition consisted of two theatres and sixteen screens in Kentucky and Tennessee.

In September 2008, our Board of Directors announced the decision to suspend our quarterly dividend in light of the challenging conditions in the credit markets and the wider economy. At that time, we announced plans to allocate our capital primarily to reducing our overall leverage. The cash dividend of \$0.175 per share, paid on August 1, 2008 to shareholders of record at the close of business on July 1, 2008, was the last dividend declared by the Board of Directors prior to this decision. The payment of future dividends is subject to the Board of Directors' discretion and dependent on many considerations, including limitations imposed by covenants the agreements governing our indebtedness, operating results, capital requirements, strategic considerations and other factors.

7.375% Senior Secured Notes

On April 27, 2012, we issued \$210.0 million aggregate principal amount of 7.375% Senior Secured Notes due May 15, 2019. Interest is payable on the Senior Secured Notes on May 15 and November 15 of each year, beginning on November 15, 2012. The Senior Secured Notes are fully and unconditionally guaranteed by each of our existing subsidiaries and will be guaranteed by any future domestic wholly-owned restricted subsidiaries. Debt issuance costs and other transaction fees of \$8.6 million are included in prepaid expenses and other current assets and other non-current assets and amortized over the life of the debt as interest expense. The Senior Secured Notes are secured, subject to certain permitted liens, on a second priority basis by substantially all of our and our guarantors' current and future property and assets (including the capital stock of our current subsidiaries), other than certain excluded assets.

At any time prior to May 15, 2015, we may redeem up to 35% of the aggregate principal amount of the Senior Secured Notes with the proceeds of certain equity offerings at a redemption price equal to 107.375% of the principal amount of the Senior Secured Notes, plus accrued and unpaid interest to, but excluding the redemption date; provided, however, that at least 65% of the aggregate principal amount of the Senior Secured Notes are outstanding immediately following the redemption. In addition, at any time prior to May 15, 2015, we may redeem all or a portion of the Senior Secured Notes by paying a "make-whole" premium calculated as described in the indenture governing the Senior Secured Notes (the "Indenture").

At any time on or after May 15, 2015, we may redeem all or a portion of the Senior Secured Notes at redemption prices calculated based on a percentage of the principal amount of the Senior Secured Notes being redeemed, plus accrued and unpaid interest, if any, to the redemption date, depending on the date on which the Senior Secured Notes are redeemed. These percentages range from between 100.00% and 105.53%.

Following a change of control, as defined in the Indenture, we will be required to make an offer to repurchase all or any portion of the Senior Secured Notes at a purchase price of 101% of the principal amount, plus accrued and unpaid interest to, but excluding, the date of repurchase.

The Indenture includes covenants that limit the ability of us and our restricted subsidiaries to, among other things: incur additional indebtedness or guarantee obligations; issue certain preferred stock or redeemable stock; subject to certain exceptions, pay dividends beyond certain calculated thresholds, repurchase or make distributions in respect of our capital stock or make other restricted payments; make certain investments; sell, transfer or otherwise convey certain assets; create or incur liens or other encumbrances; prepay, redeem or repurchase subordinated debt prior to stated maturities; designate our subsidiaries as unrestricted subsidiaries; consolidate, merge, sell or otherwise dispose of all or substantially all of our assets; enter into a new or different line of business; and enter into certain transactions with our affiliates. The restrictive covenants are subject to a number of important exceptions and qualifications set forth in the Indenture.

The Indenture provides for customary events of default. If any event of default occurs and is continuing, subject to certain exceptions, the trustee or the holders of at least 25% in aggregate principal amount of the then outstanding Senior Secured Notes may declare all the Senior Secured Notes to be due and payable immediately, together with any accrued and unpaid interest, if any, to the acceleration date. In the case of an event of default resulting from certain events of bankruptcy, insolvency or reorganization, such amounts with respect to the Senior Secured Notes will be due and payable immediately without any declaration or other act on the part of the trustee or the holders of the Senior Secured Notes.

Revolving Credit Facility

On April 27, 2012, we entered into a revolving credit facility by and among us, as borrower, the banks and other financial institutions or entities from time to time parties to the credit agreement governing the Credit Facility, as lenders, and Macquarie US Trading LLC as administrative agent. Macquarie US Trading, LLC and Raymond James Bank, N.A. are lenders under the Credit Agreement as initially in effect.

The Credit Agreement provides a \$25.0 million senior secured revolving credit facility having a four year term, and includes a sub-facility for the issuance of letters of credit totaling up to \$10.0 million. Our obligations under the Credit Facility are guaranteed by each of our existing and future direct and indirect wholly owned domestic subsidiaries, and the obligations of us and our guarantors in respect of the Credit Facility are secured by first priority liens on substantially all of our and such subsidiaries' current and future property and assets, other than certain excluded assets pursuant to the first lien guarantee and collateral agreement by and among us, such guarantors and Wells Fargo Bank, National Association, as collateral trustee. In addition, the Credit Agreement contains provisions to accommodate the incurrence of up to \$150.0 million in future incremental borrowings. While the Credit Agreement does not contain any commitment by the lenders to provide this incremental indebtedness, the Credit Agreement describes how such debt (if provided by our existing or new lenders) would be subject to various financial and other covenant compliance requirements and conditions at the time the additional debt is incurred. No amounts were borrowed under the Credit Facility for the year ended December 31, 2012.

The interest rate for borrowings under the Credit Facility is LIBOR (subject to a 1.00% floor) plus a margin of 4.50%, or Base Rate (as defined in the Credit Facility) (subject to a 2.00% floor) plus a margin of 3.50%, as we may elect. In addition, we will be required to pay commitment fees on the unused portion of the Credit Facility at the rate of 0.50% per annum. The termination date of the Credit Facility is April 27, 2016.

The Credit Facility contains covenants which, among other things, limit our ability, and that of our subsidiaries, to:

- pay dividends beyond certain calculated thresholds or make any other restricted payments to parties other than to us;
- incur additional indebtedness and financing obligations;
- create liens on our assets;
- make certain investments;
- sell or otherwise dispose of our assets other than in the ordinary course of business;
- consolidate, merge or otherwise transfer all or any substantial part of our assets;
- enter into transactions with our affiliates; and
- engage in businesses other than those in which we are currently engaged or those reasonably related thereto.

These limitations are similar to the corresponding limitations applicable under the terms of the Indenture, except that the Credit Facility contains further limitations on our ability to incur additional indebtedness and liens. In addition, to the extent we incur certain specified levels of additional indebtedness, further limitations under the Credit Facility will become applicable under covenants related to sales of assets, sale-leaseback transactions, investment transactions, and the payment of dividends and other restricted payments. In addition, if we draw on the Credit Facility, we will be required to maintain a first lien leverage ratio as defined (the "Leverage Ratio") not more than 2.75 to 1.00. The Credit Agreement also contains certain representations and warranties, other affirmative and negative covenants, and events of default customary for secured revolving credit facilities of this type.

Our failure to comply with any of these covenants, including compliance with the Leverage Ratio, will be an event of default under the Credit Facility, in which case the administrative agent may, with the consent or at the request of lenders holding a majority of the commitments and outstanding loans, terminate the Credit Facility and declare all or any portion of the obligations under the Credit Facility due and payable. Other events of default under the Credit Facility include:

- our failure to pay principal on the loans when due and payable, or our failure to pay interest on the loans or to pay certain fees and expenses (subject to applicable grace periods);
- the occurrence of a change of control (as defined in the Credit Agreement);
- a breach or default by us or our subsidiaries on the payment of principal of any other indebtedness in an aggregate amount greater than \$10 million;
- breach of representations or warranties in any material respect;
- failure to perform other obligations under the Credit Agreement and the security documents for the Credit Facility (subject to applicable cure periods); or
- certain bankruptcy or insolvency events.

In the event of a bankruptcy or insolvency event of default, the Credit Facility will automatically terminate, and all obligations thereunder will immediately become due and payable. As of December 31, 2012, we were in compliance with all of the financial covenants in our Indenture and Credit Facility.

Debt Service

Our ability to service our indebtedness will require a significant amount of cash. Our ability to generate this cash will depend largely on future operations. Based upon our current level of operations and our 2013 business plan, we believe that cash flow from operations, available cash and available borrowings under our Credit Agreement will be adequate to meet our liquidity needs for the next 12 months.

Contractual Obligations

The following table reflects our contractual obligations as of December 31, 2012:

	<u>Less than one year</u>	<u>1 - 3 years</u>	<u>3 - 5 years</u>	<u>More than 5 years</u>	<u>Total</u>
7.375% Notes ⁽¹⁾	\$ —	\$ —	\$ —	\$210.0	\$ 210.0
Interest payments – 7.375% Notes ⁽²⁾	15.5	31.0	31.0	23.2	100.7
Financing obligations, including interest	28.3	57.3	60.8	316.3	462.7
Capital lease obligations, including interest	6.1	12.0	11.8	20.0	49.9
Operating leases	53.7	102.4	84.8	210.5	451.4
Christie contract	0.2	0.4	0.1	—	0.7
Fin 48 liabilities ⁽³⁾	—	—	—	—	—
Employment agreement with Chief Executive Officer . . .	0.7	0.3	—	—	1.0
Total contractual cash obligations	<u>\$104.5</u>	<u>\$203.4</u>	<u>\$188.5</u>	<u>\$780.0</u>	<u>\$1,276.4</u>

- (1) Includes only principal payments on the Senior Secured Notes.
- (2) The contractual obligations table includes scheduled interest payments on our 7.375% Notes. The table does not include any scheduled interest payments on our variable rate revolving Credit Facility. As of December 31, 2012, no amounts were drawn under our revolving Credit Facility. The interest rate for borrowing under our revolving credit facility is the London interbank offered rate (“LIBOR”) (subject to a 1.00% floor) plus a margin of 4.50%, or Base Rate (as defined in the revolving credit facility) (subject to a 2.00% floor) plus a margin of 3.50%, as we may elect.
- (3) The contractual obligations table excludes the long-term portion of our FIN 48 liabilities of \$2.7 million associated with unrecognized federal tax benefits because the timing of the related payments was not reasonably estimable as of December 31, 2012.

Off-Balance Sheet Arrangements

As of December 31, 2012, we did not have any off-balance sheet financing transactions or arrangements other than disclosed in the table above.

Critical Accounting Policies

The preparation of our financial statements requires our management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. On an on-going basis, we evaluate our estimates and judgments, including those related to exhibition costs, asset valuations, leasing transactions, depreciation of property and equipment, employee benefits, income taxes, and those related to impairment of long-lived assets. We base our estimates and judgments on historical experience and on various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions and such difference could be material. All critical accounting estimates have been discussed with our audit committee.

We believe the following critical accounting policies, among others, affect our more significant judgments and estimates used in the preparation of our consolidated financial statements in accordance with accounting principles generally accepted in the United States.

Revenue and Expense Recognition

Admissions and concessions revenue is recognized at the point of sale for tickets and concessions. Sales taxes collected from customers are excluded from revenue and are recorded in accrued expenses. Other revenues primarily consist of screen advertising and are recognized over the period that the related advertising is delivered on-screen.

We record proceeds from the sale of gift cards and other advanced sale-type certificates in current liabilities and recognize admission and concession revenue when a holder redeems a gift card or other advanced sale-type certificate. We recognize revenue from unredeemed gift cards and other advanced sale-type certificates upon the later of expiration or when redemption becomes unlikely. Our conclusion that redemption is unlikely is based on an analysis of historical trends. Revenue recognition related to unredeemed gift cards and other advanced sale-type certificates totaled \$1.3 million, \$1.7 million and \$2.2 million in 2012, 2011 and 2010, respectively.

Film rental costs are accrued based on the applicable box office receipts and either the mutually agreed upon firm terms or a sliding scale formula, which are established prior to the opening of the film. Under a firm terms formula, we pay the distributor a mutually agreed upon specified percentage of box office receipts, which reflects either a mutually agreed upon aggregate rate for the life of the film or rates that decline over the term of the movie run life. Under the sliding scale formula, film rental is paid as a percentage of box office revenues using a pre-determined matrix based upon box office performance of the film, with such percentage increasing as box office receipts increase nationally. Where firm terms do not apply, film exhibition costs are accrued based on the expected success of the film over a thirty to sixty day period and estimates of the final settlement with the movie studio. Settlements between us and the movie studios are typically completed three to four weeks after the movie's run and have not historically resulted in significant adjustments to amounts previously recorded.

Our occupancy expenses and property taxes are primarily fixed costs, as we are generally required to pay applicable taxes, insurance and fixed minimum rent under our leases. In addition, several of our theatre leases contain provisions for contingent rent whereby a portion of our rent expense is based on an agreed upon percentage of revenue exceeding a specified level. In these theatres, a portion of rental expenses can vary directly with changes in revenue. Percentage rent expense is recorded for these theatres on a monthly basis if the theatre's historical performance or forecasted performance indicates that the target will be reached. Certain of our leases are subject to monthly percentage rent only, which is accrued each month based on actual revenues.

Property and Equipment

Property and equipment are carried at cost (reduced for any impairment charges), net of accumulated depreciation. Assets held for sale are reported at the lower of the asset's carrying amount or its fair value less costs to sell. We review our estimates of useful lives and revise as necessary when our judgments change.

Depreciation is computed on a straight-line basis as follows.

Buildings and building improvements	15-30 years
Leasehold improvements	15-30 years*
Assets under capital leases	11-25 years*
Equipment	5-15 years

* Based on the lesser of the useful life of the asset or the term of the applicable lease.

Impairment of Long-Lived Assets

Long-lived assets are tested for recoverability whenever events or circumstances indicate that the assets' carrying values may not be recoverable. We perform our theatre impairment analysis at the individual theatre level, the lowest level of independent, identifiable cash flow. We review all available evidence when assessing long-lived assets for potential impairment, including negative trends in theatre-level cash flow, the impact of competition, the age of the theatre, and alternative uses of the assets. Our evaluation of negative trends in theatre-level cash flow considers seasonality of the business, with significant revenues and cash-flow being generated in the summer and year-end holiday season. Absent any unusual circumstances, we evaluate new theatres for potential impairment only after such theatre has been open and operational for a sufficient period of time to allow its operations to mature.

When an impairment indicator or triggering event has occurred, we estimate future, undiscounted theatre-level cash flow using assumptions based on historical performance and our internal budgets and projections, adjusted for market specific facts and circumstances. If the undiscounted cash flow is not sufficient to support recovery of the asset group's carrying value, an impairment loss is recorded in the amount by which the carrying value exceeds estimated fair value of the asset group. Fair value of the asset group is determined primarily by discounting the estimated future cash flow at a rate commensurate with the related risk and giving consideration to market participant assumptions. Significant judgment is required in estimating future cash flows, including significant assumptions regarding future attendance, admissions and concessions price increases, and film rent and other theatre operating costs. Accordingly, actual results could vary significantly from such estimates.

For the years ended December 31, 2012, 2011 and 2010, we recorded impairment charges, including discontinued operations, of \$4.3 million, \$3.5 million and \$8.2 million, respectively, that were primarily a result of deterioration in the full-year operating results of certain theatres, the continued deterioration in the full-year operating results of theatres impaired in prior years, the decline in market value of previously closed theatres and the Company's plan to replace two owned theatres prior to the end of their useful lives. At this time, the Company is not aware of any future impairment charges. However, events or circumstances could arise which may result in a theatre's asset carrying value to not be recoverable.

Acquisitions

We account for acquisitions under the acquisition method of accounting. The acquisition method requires that the acquired assets and liabilities, including contingencies, be recorded at fair value determined on the acquisition date and changes thereafter reflected in income. For significant acquisitions, we have obtained assistance from third-party valuation specialists in order to assist in our determination of fair value. We provide the assumptions, including both qualitative and quantitative information, about the specified asset or liability to the third party valuation firm and evaluate the appropriateness of their valuation methodology. The estimation of the fair values of the assets acquired and liabilities assumed involves a number of estimates and assumptions that could differ materially from the actual amounts recorded. Significant estimates and assumptions include useful lives, condition of specific assets, future theatre revenue and cash flow projections, fair value interest rates on lease obligations, discount rates and market values of comparable assets. Historically, the estimates made have not resulted in significant subsequent changes.

Goodwill

In accordance with Accounting Standards Codification ("ASC") 350, "*Intangibles-Goodwill and Other*" ("ASC 350"), goodwill is not amortized. We evaluate goodwill for impairment on an annual basis, on December 31, or more frequently if events occur that may be indicative of impairment.

We have an option to make a qualitative assessment of our reporting unit's goodwill for impairment. If we choose to perform a qualitative assessment and determine that the fair value more likely than not exceeds the carrying value, no further evaluation is necessary. If we choose not to perform a qualitative assessment, we

perform an impairment test for goodwill using a two-step approach, which is performed at the entity level as we have one reporting unit. Step 1 compares the fair value of the reporting unit to its carrying value including goodwill. If the carrying value exceeds the fair value, there is a potential impairment and Step 2 must be performed. If a Step 2 analysis is required, we allocate the estimated fair value of the reporting unit to its assets and liabilities, including intangible assets. The residual amount, following this allocation process, is deemed to be the implied fair value of the goodwill. Fair value is determined by using management's expectations of cash flows in the next five years plus an expected residual value; a discount factor, approximating the weighted-average cost of capital using market participant assumptions; and cash expected to be paid for federal and state income taxes. An impairment charge is recorded to the extent the carrying value of the goodwill exceeds its implied fair value. Our impairment testing of goodwill under ASC 350 did not result in any impairment for any periods presented.

Leases

We operate most of our theatres under non-cancelable lease agreements with initial base terms ranging generally from 15 to 20 years, and classify these as operating, capital or financing based on an assessment at lease inception and when a modification is made to a lease. In determining appropriate lease classification, management makes certain estimates and assumptions, including property useful lives, property values, renewal terms and discount rates. These leases generally provide for the payment of fixed monthly rentals, property taxes, common area maintenance, insurance and repairs. Certain of these leases provide for escalating lease payments over the terms of the leases. Certain leases for our theatres provide for contingent rentals based on the revenue results of the underlying theatre. The Company, at its option, can renew a portion of most of our leases at defined or then fair rental rates over varying periods. We generally do not consider the exercise of the renewal options as reasonably assured at lease inception.

For leases classified as operating leases, we record rent expense on a straight-line basis over the lease term beginning with the date that we have access to the property which in some cases is prior to commencement of lease payments. Accordingly, the amount of rental expense recognized in excess of lease payments is recorded as a deferred rent liability and is amortized to rental expense over the remaining term of the lease. In some leases, we funded costs to the benefit of the landlord, which have been recorded as prepaid rent and are amortized over the term of the lease on a straight-line basis.

For leases that are classified as capital leases, the property is recorded as a capital lease asset and a corresponding amount is recorded as a capital lease obligation in an amount equal to the lesser of the present value of minimum lease payments to be made over the lease life, beginning with the lease inception date, or the fair value of the property being leased. We amortize our capital lease assets on a straight-line basis over the lesser of the lease term or the economic life of the property. Each minimum lease payment is allocated between a reduction of the lease obligation and interest expense, yielding a fixed rate of interest throughout the lease obligation.

On certain leases we are involved with the construction of the building (typically on land owned by the landlord). When we are the deemed owner of the project for accounting purposes, we record the amount of total project costs incurred during the construction period. At completion of the construction project, we evaluate whether the transfer to the landlord/owner meets the requirements for sale-leaseback treatment. If it does not meet such requirements, which is typical, the amounts funded by/received from the landlord are recorded as a financing obligation. Payments under such leases are bifurcated between the ground rent on the land, which is considered to be an operating lease, and payments for the building portion which is a financing obligation. We then allocate the lease payment for the building portion between a reduction of the financing obligation and interest expense, yielding a fixed rate of interest throughout the lease obligation. In certain leases, the last payment at the end of the lease term is settled by a transfer of the property to the landlord in settlement of the remaining financing obligation. The amount of amortization of the asset and the financing obligation is structured

at the outset such that the remaining residual book value of the asset is always equal to or less than the remaining financing obligation at the end of the lease term. If the remaining financing obligation is greater than the residual book value at the end of the lease term, we will recognize a gain at the end of the lease term.

Income Taxes

Our effective tax rate is based on expected income, enacted statutory tax rates and tax planning opportunities available in the various jurisdictions in which we operate.

We recognize deferred tax assets and liabilities based on the differences between the financial statements carrying amounts and the tax basis of assets and liabilities. Deferred tax assets represent items to be used as a tax deduction or credit in future tax returns for which we have already properly recorded the tax benefit in the income statement. We regularly assess the probability that the deferred tax asset balance will be recovered against future taxable income, taking into account such factors as our earnings history, expected future earnings, carryback and carryforward periods, IRC limitations and tax strategies that could enhance the chances of a realization of a deferred tax asset. When factors indicate that recovery is unlikely, a valuation allowance is established against the deferred tax asset, increasing our income tax expense in the year that conclusion is made.

We record a liability for unrecognized tax benefits resulting from uncertain tax positions taken or expected to be taken in a tax return. Interest and penalties related to unrecognized tax benefits are recorded in interest expense and general and administrative expenses, respectively, in our consolidated statements of operations.

Impact of Recently Issued Accounting Standards

In July 2012, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2012-02, “*Testing Indefinite-Lived Intangible Assets for Impairment.*” Under ASU 2012-02, an entity testing an indefinite-lived intangible asset for impairment has the option of performing a qualitative assessment before calculating the fair value of the asset. The ASU does not revise the requirements to test indefinite-lived intangible assets annually and test between annual tests if there is a change in events of circumstances. The amendments are effective for fiscal years, and interim periods within those years, beginning after September 15, 2012. The amendments are not expected to have any impact on our financial position or results of operations.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are exposed to various market risks. Our Credit Facility, which was undrawn at December 31, 2012, is a floating rate debt instrument and, therefore, is subject to market risk related to changes in interest rates. Our debt is based on a structure that is priced over an index or LIBOR rate option. As of December 31, 2012, if our \$25 million revolving credit agreement was fully drawn, a 1% increase in interest rates would increase interest expense by \$0.3 million on an annual basis. Our Senior Secured Notes carry a fixed interest rate and are therefore not subject to market risk related to changes in interest rates.

We have 28 theatre leases that have increases contingent on changes in the Consumer Price Index (“CPI”). A 1% change in the CPI would increase rent expense by approximately \$1.5 million over the remaining lives of these leases.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

Index to Consolidated Financial Statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Carmike Cinemas, Inc.
Columbus, Georgia

We have audited the accompanying consolidated balance sheets of Carmike Cinemas, Inc. and subsidiaries (the “Company”) as of December 31, 2012 and 2011, and the related consolidated statements of operations, stockholders’ (deficit) equity, and cash flows for each of the three years in the period ended December 31, 2012. Our audits also include the financial statement schedule listed in the Index at Item 15. These financial statements and the financial statement schedule are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Carmike Cinemas, Inc. and subsidiaries as of December 31, 2012 and 2011, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2012, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company’s internal control over financial reporting as of December 31, 2012, based on the criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 13, 2013 expressed an unqualified opinion on the Company’s internal control over financial reporting.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
CARMIKE CINEMAS, INC. and SUBSIDIARIES
AS OF DECEMBER 31, 2012 AND 2011, AND FOR THE YEARS ENDED DECEMBER 31, 2012, 2011
AND 2010
(in thousands except per share data)

NOTE 1—ORGANIZATION, NATURE OF BUSINESS AND BASIS OF PRESENTATION

Carmike Cinemas, Inc. and its subsidiaries (referred to as “Carmike”, “we”, “us”, “our”, and the “Company”) is one of the largest motion picture exhibitors in the United States. The Company owns, operates or has an interest in 249 theatres in 35 states. Of the Company’s 249 theatres, 231 show films on a first-run basis and 18 are discount theatres. The Company targets primarily small to mid-size non-urban markets with the belief that they provide a number of operating benefits, including lower operating costs and fewer alternative forms of entertainment. The Company’s primary business is the operation of motion picture theatres which generate revenues principally through admissions and concessions sales.

Basis of Presentation

The accompanying consolidated financial statements include those of Carmike and its wholly owned subsidiaries, after elimination of all intercompany accounts and transactions. When we have a non-controlling interest in an entity, we account for the investment using the equity method. We have prepared the accompanying consolidated financial statements in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and pursuant to the rules and regulations of the United States Securities and Exchange Commission (“SEC”).

NOTE 2—SIGNIFICANT ACCOUNTING POLICIES

Accounting Estimates

In the preparation of financial statements in conformity with GAAP, management must make certain estimates, judgments and assumptions. These estimates, judgments and assumptions are made when accounting for items and matters such as, but not limited to, depreciation, amortization, asset valuations, impairment assessments, lease classification, employee benefits, income taxes, reserves and other provisions and contingencies. These estimates are based on the information available when recorded. These estimates, judgments and assumptions can affect the reported amounts of assets and liabilities as of the date of the financial statements, as well as the reported amounts of revenue and expenses during the periods presented. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. Changes in estimates are recognized in the period they are determined.

Concentration of Risk

During 2012, we purchased substantially all of our concession and janitorial supplies, except for beverage supplies, from Showtime Concession Supply, Inc. (“Showtime Concession”). The Company is a significant customer of Showtime Concession. If this relationship was disrupted, we could be forced to negotiate a number of substitute arrangements with alternative vendors which are likely to be, in the aggregate, less favorable to us.

Revenue Recognition

Admissions and concessions revenue is recognized at the point of sale for tickets and concessions. Sales taxes collected from customers are excluded from revenue and are recorded in accrued expenses in the accompanying

consolidated balance sheets. Other revenues primarily consist of on-screen advertising. Screen advertising revenues are recognized over the period that the related advertising is delivered on-screen or in-theatre.

The Company records proceeds from the sale of gift cards and other advanced sale certificates in current liabilities and recognizes admission and concessions revenue when a holder redeems a gift card or other advanced sale certificate. The Company recognized revenue from unredeemed gift cards and other advanced sale certificates upon the later of expiration of the cards or when redemption becomes unlikely. The Company's conclusion that redemption is unlikely is based on an analysis of historical trends. Revenue recognized related to unredeemed gift cards and other advanced sale certificates totaled \$1,319, \$1,718 and \$2,199 in 2012, 2011 and 2010, respectively.

Film Exhibition Costs

Film exhibition costs vary according to box office admissions and are accrued based on the Company's terms and agreements with movie distributors. Some agreements provide for rental fees based on "firm terms" which are negotiated and established prior to the opening of the picture. These agreements usually provide for either a decreasing percentage of box office admissions to be paid to the movie studio over the first few weeks of the movie's run, subject to a floor for later weeks or a set percentage for the entire run of the film with no adjustments. Where firm terms do not apply, film exhibition costs are accrued based on the expected success of the film over a thirty to sixty day period and estimates of the final settlement with the movie studio. Settlements between the Company and the movie studios are typically completed three to four weeks after the movie's run and have not historically resulted in significant adjustments to amounts previously recorded.

Comprehensive Income

The Company has no other comprehensive income items.

Segment Reporting

The Company's chief operating decision maker currently manages the business as one operating segment. The Company's measure of segment profit is consolidated operating income.

Cash and Cash Equivalents

Cash equivalents are highly liquid investments with original maturities of three months or less at the date of purchase and consist primarily of money market accounts and deposits with banks that are federally insured in limited amounts. Payment due from banks for third-party credit and debit card transactions are generally received within 24 to 48 hours, except for transactions occurring on a Friday, which are generally processed the following Monday. Such amounts due from banks for credit and debit card transactions are also classified as cash and cash equivalents and aggregated \$5,082 and \$2,155 at December 31, 2012 and 2011, respectively.

Restricted Cash

Certain balances due to third parties are classified as restricted cash.

Accounts Receivable

Accounts receivable consists of amounts owed primarily for vendor rebates and amounts due from advertisers. We have determined that no allowance for doubtful accounts is required as of December 31, 2012 and 2011 based on historical experience that payment is received in full.

Inventories

Inventories consist principally of concessions and theatre supplies and are stated at the lower of cost (first-in, first-out method) or market.

Property and Equipment

Property and equipment are carried at cost (reduced for any impairment charges), net of accumulated depreciation and amortization.

Depreciation and amortization is computed on a straight-line basis as follows:

Buildings and building improvements	15-30 years
Leasehold improvements	15-30 years*
Assets under capital leases	11-25 years*
Equipment	5-15 years

* Based on the lesser of the useful life of the asset or the term of the applicable lease.

Included in buildings and building improvements are assets subject to financing leases with costs of \$149,620 and \$83,974 at December 31, 2012 and 2011, respectively, and accumulated depreciation of \$32,351 and \$28,940 at December 31, 2012 and 2011, respectively.

The Company records the fair value of a liability for an asset retirement obligation in the period in which it is incurred (typically when a new lease is finalized) and capitalizes that amount as part of the book value of the long-lived asset. Over time, the liability is accreted to its present value, and the capitalized cost is depreciated over the estimated useful life of the related asset. Asset retirement obligations are not material as of December 31, 2012 and 2011.

Acquisitions

The Company accounts for acquisitions under the acquisition method of accounting. The acquisition method requires that the acquired assets and liabilities, including contingencies, be recorded at fair value determined on the acquisition date and changes thereafter reflected in income. For significant acquisitions, the Company has obtained assistance from third-party valuation specialists in order to assist in the Company's determination of fair value. The Company provides the assumptions, including both qualitative and quantitative information, about the specified asset or liability to the third party valuation firm and evaluates the appropriateness of their valuation methodology. The estimation of the fair values of the assets acquired and liabilities assumed involves a number of estimates and assumptions that could differ materially from the actual amounts recorded. Significant estimates and assumptions include useful lives, condition of specific assets, future theatre revenue and cash flow projections, fair value interest rates on lease obligations, discount rates and market values of comparable assets. Historically, the estimates made have not resulted in significant subsequent changes.

Goodwill

In accordance with Accounting Standards Codification ("ASC") 350, "*Intangibles-Goodwill and Other*" ("ASC 350"), goodwill is not amortized. The Company evaluates goodwill for impairment on an annual basis, on December 31, or more frequently if events occur that may be indicative of impairment. The Company is a single reporting unit. The carrying amount of goodwill at December 31, 2012 and 2011 was \$44,577 and \$8,087, respectively.

The Company has an option to make a qualitative assessment of its reporting unit's goodwill for impairment. If the Company chooses to perform a qualitative assessment and determined that the fair value more likely than not exceeds the carrying value, no further evaluation is necessary. If the Company chooses not to

perform a qualitative assessment, it performs an impairment test for goodwill using a two-step approach, which is performed at the entity level as the Company has one reporting unit. Step 1 compares the fair value of the reporting unit to its carrying value including goodwill. If the carrying value exceeds the fair value, there is a potential impairment and Step 2 must be performed. If a Step 2 analysis is required, the Company allocates the estimated fair value of the reporting unit to its assets and liabilities, including intangible assets. The residual amount, following this allocation process, is deemed to be the implied fair value of the goodwill. Fair value is determined by using management's expectations of cash flows in the next five years plus an expected residual value; a discount factor, approximating the weighted-average cost of capital using market participant assumptions; and cash expected to be paid for federal and state income taxes. An impairment charge is recorded to the extent the carrying value of the goodwill exceeds its implied fair value. The Company's Step 1 impairment analysis of goodwill under ASC 350 did not result in any impairment for any periods presented.

Fair Value Measurements

The methods and assumptions used to estimate fair value are as follows:

Cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities:

The carrying amounts approximate fair value because of the short maturity of these instruments.

Long-term debt, excluding capital leases and financing obligations:

The fair value of the senior secured term loan is estimated based on quoted market prices on the date of measurement. See Note 7—Debt.

Assets acquired and liabilities assumed in business combinations

See Note 4—Acquisitions for fair value of assets acquired.

Impairment of Long-Lived Assets

Long-lived assets are tested for recoverability whenever events or circumstances indicate that the assets' carrying values may not be recoverable. The Company performs its impairment analysis at the individual theatre level, the lowest level of independent identifiable cash flow. Management reviews all available evidence when assessing long-lived assets for impairment, including negative trends in theatre-level cash flow, the impact of competition, the age of the theatre, and alternative uses of the assets. The Company's evaluation of negative trends in theatre level cash flow considers seasonality of the business, with significant revenues and cash-flow being generated in the summer and year-end holiday season. Absent any unusual circumstances, management evaluates new theatres for potential impairment only after a theatre has been open and operational for a sufficient period of time to allow its operations to mature.

For those assets that are identified as potentially being impaired, if the undiscounted future cash flows from such assets are less than the carrying value, the Company recognizes a loss equal to the difference between the carrying value and the assets' fair value. The fair value of the assets is primarily estimated using the discounted future cash flow of the assets with consideration of other valuation techniques and using assumptions consistent with those used by market participants. Significant judgment is involved in estimating cash flows and fair value; significant assumptions include attendance levels, admissions and concessions pricing, and the weighted average cost of capital. Management's estimates are based on historical and projected operating performance.

For the years ended December 31, 2012, 2011 and 2010, the Company recorded impairment charges of \$4,348, \$3,489 and \$7,699, respectively, that were primarily a result of deterioration in the full-year operating results of certain theatres, the result of continued deterioration of certain previously impaired theatres, the decline in market value of previously closed theatres and the Company's plan to replace two owned theatres prior to the end of their useful lives.

Discontinued Operations

The results of operations for theatres that have been disposed of or classified as held for sale are eliminated from the Company's continuing operations and classified as discontinued operations for each period presented within the Company's consolidated statements of operations. Theatres are reported as discontinued when the Company no longer has continuing involvement in the theatre operations and the cash flows have been eliminated, which generally occurs when the Company no longer has operations in a given market. See Note 13—Discontinued Operations.

Income Taxes

The Company recognizes deferred tax assets and liabilities based on the differences between the financial statement carrying amounts and the tax basis of assets and liabilities. The Company regularly assesses the probability that the deferred tax asset balance will be recovered against future taxable income, taking into account such factors as earnings history, carryback and carryforward periods, limitations imposed by The Internal Revenue Code, and tax strategies. When the indications are that realization is unlikely, a valuation allowance is established against the deferred tax asset, increasing income tax expense in the year that conclusion is made.

The accounting for uncertainty in income taxes prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, and disclosure. The Company records a liability for unrecognized tax benefits resulting from uncertain tax positions taken or expected to be taken in a tax return. Interest and penalties related to unrecognized tax benefits are recorded in interest expense and general and administrative expenses, respectively, in the Company's consolidated statements of operations. See Note 9—Income Taxes.

Advertising

Advertising costs are expensed as incurred and included in film exhibition costs in the accompanying consolidated statements of operations. Advertising expenses totaled \$1,927, \$2,023 and \$3,860 in 2012, 2011 and 2010, respectively.

Loyalty Program

Members of the Carmike Rewards program earn points for each dollar spent on admissions and concessions at our theatres and earn concession or ticket awards once designated point thresholds have been met. We believe that the value of the awards granted to our Carmike Rewards members is insignificant compared to the value of the transactions necessary to earn the award. The Company records the estimated incremental cost of providing the awards based on the points earned by the members. The Carmike Rewards program commenced on October 1, 2010 and the costs of awards earned for the years ended December 31, 2012, 2011 and 2010 are not significant to our consolidated financial statements.

Stock Based Compensation

Compensation expense for all stock-based compensation benefits is recognized over the requisite service period at the estimated fair value of the award at grant date. See Note 10—Stockholders' Equity for a description of the Company's stock plans and related disclosures.

Leases

The Company operates most of its theatres under non-cancelable lease agreements with initial base terms ranging generally from 15 to 20 years, and classifies these as operating, capital or financing based on an

assessment at lease inception or renewal and when a modification is made to a lease. These leases generally provide for the payment of fixed monthly rentals, property taxes, common area maintenance, insurance, repairs and some of these leases provide for escalating payments over the lease period. The Company, at its option, can renew most of its leases at defined or then fair rental rates over varying periods. The Company generally does not consider the exercise of the renewal options as reasonably assured at lease inception for purposes of evaluating lease classification.

Several leases have a contingent component called percentage rent within the lease agreement. Percentage rent is generally based on a percentage of revenue in excess of a stated annual minimum as described within the lease. The Company recognizes contingent rent expense prior to achievement of the fixed breakpoint when it becomes probable that the breakpoint will be achieved. Contingent payments under capital leases and arrangements accounted for as financing obligations are charged to interest expense.

For leases classified as operating leases, the Company records rent expense on a straight-line basis, over the lease term, beginning with the date the Company has access to the property which in some cases is prior to commencement of lease payments. Accordingly, expense recognized in excess of lease payments is recorded as a deferred rent liability and is amortized to rental expense over the remaining term of the lease. The portion of our deferred rent liability that will be amortized to rent expense beyond one year is classified in other long-term liabilities. In some leases, the Company funded costs to the benefit of the landlord, which have been recorded as prepaid rent and amortized over the term of the lease on a straight-line basis.

For leases that are classified as capital leases, the property is recorded as a capital lease asset and a corresponding amount is recorded as a capital lease obligation in an amount equal to the lesser of the present value of minimum lease payments to be made over the lease life or the fair value of the property being leased. The Company amortizes its capital lease assets on a straight-line basis over the lesser of the lease term or the economic life of the property. The Company allocates each minimum lease payment between a reduction of the lease obligation and interest expense, yielding a fixed rate of interest throughout the lease obligation.

On certain leases the Company is involved with the construction of the building (typically on land owned by the landlord). When the Company is the deemed owner of the project for accounting purposes, the Company records the amount of total project costs incurred during the construction period. At completion of the construction project, the Company evaluates whether the transfer to the landlord/owner meets the requirements for sale-leaseback treatment. If it does not meet such requirements, which is typical, the Company records amounts funded by or received from the landlord as a financing obligation. Payments under such leases are bifurcated between the ground rent on the land, which is considered to be an operating lease, and payments for the building portion which is a financing obligation. The Company then allocates the lease payment for the building portion between a reduction of the financing obligation and interest expense, yielding a fixed rate of interest throughout the lease obligation.

In certain leases, the last payment at the end of the lease term is settled by a transfer of the property to the landlord in settlement of the remaining financing obligation. The amount of amortization of the asset and the financing obligation is structured at the outset such that the remaining residual book value of the asset is always equal to or less than the remaining financing obligation at the end of the lease term. If the remaining financing obligation is greater than the residual book value at the end of the lease term, the Company will recognize a gain at the end of the lease term.

Debt Issuance Costs

Debt issuance costs are amortized to interest expense using the effective interest method over the life of the related debt.

Commitments and Contingencies

In accordance with ASC 450, liabilities for loss contingencies arising from claims, assessments, litigation and other sources are recorded when it is probable that a liability has been incurred and the amount of the claim, assessment or damages can be reasonably estimated. Otherwise the Company expenses these costs as incurred. Depending on the nature of the charge, these expenses are recorded in other theatre operating costs or general and administrative charges in the Company's consolidated statements of operations.

Investments in Unconsolidated Affiliates

Investments in unconsolidated affiliates over which the Company has significant influence are accounted for under the equity method of accounting. The investments are carried at the cost of acquisition, including subsequent capital contributions by the Company, plus the Company's equity in undistributed earnings or losses since acquisition. See Note 12—Investments in Unconsolidated Affiliates. The Company regularly reviews its equity method investments for impairment, including when the carrying amount of an investment exceeds its related fair value. The Company evaluates information such as budgets, business plans and financial statements of its equity method investees in determining whether an other-than-temporary decline in value exists. Factors indicative of an other-than-temporary decline include, among others, recurring operating losses and defaults on credit agreements.

Recent Accounting Pronouncements

In July 2012, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2012-02, "*Testing Indefinite-Lived Intangible Assets for Impairment.*" Under ASU 2012-02, an entity testing an indefinite-lived intangible asset for impairment has the option of performing a qualitative assessment before calculating the fair value of the asset. The ASU does not revise the requirements to test indefinite-lived intangible assets annually and test between annual tests if there is a change in events of circumstances. The amendments are effective for fiscal years, and interim periods within those years, beginning after September 15, 2012. The amendments are not expected to have any impact on the Company's financial position or results of operations.

NOTE 3—IMPAIRMENT OF PROPERTY AND EQUIPMENT

The Company recorded impairment charges of \$4,348, \$3,489, and \$8,188, for the years ended December 31, 2012, 2011, and 2010, respectively. Of the impairment charges recorded for the year ended December 31, 2010, \$7,699 related to property and equipment, with the remaining impairment pertaining to the write-off of intangible assets as discussed further in Note 5 – Goodwill and Other Intangibles. The estimated aggregate fair value of the long-lived assets impaired during the years ended December 31, 2012 and 2011 was approximately \$5,932 and \$5,576, respectively. These fair value estimates are considered Level 3 estimates within the fair value hierarchy prescribed by ASC 820 *Fair Value Measurements*, and were derived primarily from discounting estimated future cash flows and appraisals of certain owned properties. The Company projects future attendance fluctuations of (10%) to 10%. The risk-adjusted rate of return used to discount these cash flows ranges from 10% to 15%.

	Year ended December 31,		
	2012	2011	2010

Equipment	15	50	82
Impairment of long-lived assets	<u>\$ 96</u>	<u>\$ 250</u>	<u>\$ 267</u>

For 2012, impairment charges were primarily the result of (1) the Company’s plan to replace two owned theatres prior to the end of their useful lives, resulting in \$2,376 in impairment charges using valuation inputs as of the date of the impairment analysis; (2) deterioration in the full-year operating results of certain theatres resulting in \$191 in impairment charges using valuation inputs as of the date of the impairment analysis; and (3) the continued deterioration in the full year operating results of certain theatres impaired in prior years resulting in \$1,781 in impairment charges using valuation inputs as of the date of the impairment analysis.

For 2011, impairment charges were primarily the result of (1) deterioration in the full-year operating results resulting in \$2,086 in impairment charges using valuation inputs as of the date of the impairment analysis; (2) continued deterioration in the full year operating results of certain theatres impaired in prior years resulting in \$703 in impairment charges using valuation inputs as of the date of the impairment analysis; and (3) a decline in the market value of a previously closed theatre, resulting in a charge of \$700.

For 2010, impairment charges related to fixed assets were primarily the result of (1) deterioration in the full-year operating results of certain theatres resulting in \$4,718 in impairment charges using valuation inputs as of the date of the impairment analysis; (2) continued deterioration in the full year operating results of certain theatres impaired in prior years resulting in \$1,890 in impairment charges using valuation inputs as of the date of the impairment analysis; and (3) a decrease in the fair market value of equipment at previously impaired theatres, resulting in a charge of \$1,091.

NOTE 4—ACQUISITIONS

Rave

On November 15, 2012, the Company completed its acquisition of 16 entertainment complexes and 251 screens in seven U.S. states (the “Theatres”) pursuant to the terms of the Membership Interest Purchase Agreement with Rave Reviews Cinemas, L.L.C (“Rave”) and Rave Reviews Holdings, LLC (“Acquisition Sub”) dated September 28, 2012. Prior to consummation of the acquisition, Rave transferred to the Acquisition Sub the Theatres and certain related assets and certain assumed liabilities, including the leases, related to the Theatres. The Company subsequently acquired all of the ownership interests of the Acquisition Sub. The acquisition supports the Company’s growth strategy. In consideration for the acquisition, the Company paid \$22,037 in cash including \$3,037 in working capital adjustments. In addition, the Company assumed approximately \$110,243 of financing obligations, after accounting adjustments, to reflect the acquisition date fair value of such obligations. The purchase price was paid using cash on hand.

The following table summarizes the preliminary purchase price and purchase price allocation based on the fair value of net assets acquired at the acquisition date.

Cash	\$ 19,000
Financing obligations assumed	110,243
Purchase price	129,243
Working capital adjustment	3,037
Total purchase price	<u>\$132,280</u>
Accounts receivable	\$ 514
Inventory	464
Other current assets	1,329
Property and equipment	94,523
Deferred tax assets	14,418
Current liabilities	(8,878)
Other liabilities	<u>(6,580)</u>
Net assets acquired	95,790
Goodwill	<u>36,490</u>
Purchase Price	<u>\$132,280</u>

The purchase price allocation is preliminary and certain items are subject to change, including the fair value of property and equipment and working capital assets and liabilities.

The fair value of current assets and current liabilities acquired approximate their net book value at the acquisition date. The goodwill recognized of \$36,490 is attributable primarily to expected synergies of achieving cost reductions, eliminating redundant administrative functions and the excess of fair value of financing obligations over the related financing obligation assets. The goodwill is deductible for tax purposes over 15 years. As of December 31, 2012, there were no changes in the recognized amounts of goodwill resulting from the acquisition of Rave.

The results of Rave's operations have been included in the consolidated financial statements since the date of acquisition. Revenue and net income of Rave included in the Company's operating results for the year ended December 31, 2012 from the acquisition date were \$13,831 and \$429, respectively. Acquisition costs related to professional fees incurred, primarily as a result of the Rave acquisition, during the year ended December 31, 2012 were approximately \$4,094 and were expensed as incurred and included in general and administrative expenses in the consolidated statements of operations.

Pro Forma Results of Operations (Unaudited)

The following selected comparative unaudited pro forma results of operations information for the years ended December 31, 2012 and 2011 assumes the Rave acquisition occurred at the beginning of the fiscal year 2011, and reflects the full results of operations for the years presented. The pro forma results have been prepared for comparative purposes only and do not purport to indicate the results of operations which would actually have occurred had the combination been in effect on the dates indicated, or which may occur in the future. These amounts have been calculated after applying the Company's accounting policies and adjusting the results of Rave to reflect the fair value adjustments to property and equipment, financing obligations. These fair values also represent Level 3 measures.

	Pro Forma Year Ended December 31,	
	2012	2011
Revenues	\$634,053	\$566,914
Operating income	\$ 72,300	\$ 48,902
Net income (loss)	\$ 95,580	\$ (9,674)
Income (loss) per share:		
Basic	\$ 6.06	\$ (0.76)
Diluted	\$ 5.94	\$ (0.76)

MNM

On October 21, 2011, the Company completed its purchase of MNM Theatres for \$10,820 including an estimate of the fair value of consideration that is contingent upon MNM's earnings performance over the next three years. The Company estimated the fair value of the contingent consideration to be \$1,570 using a probability-weighted discounted cash flow model. This fair value measurement is based on significant inputs not observable in the market and thus represents a Level 3 measurement as defined in ASC 820. The acquisition of MNM Theatres consisted of three theatres with forty screens in the Atlanta, Georgia area. The acquisition was accounted for as a business combination, with the purchase price allocated based on estimated fair values of the assets acquired, including identifiable intangible assets and liabilities assumed. Acquisition costs were less than \$100 and were charged to expense.

The goodwill recognized is attributable primarily to expected synergies to be realized by achieving cost reductions and eliminating redundant administrative functions. The goodwill is deductible for tax purposes and will be amortized over 15 years. MNM Theatres operated three theatres with forty screens in the Atlanta, Georgia area.

The following is a summary of the final allocation of the aggregate purchase price to the estimated fair value of the assets acquired and liabilities assumed at the date of acquisition. These fair values also represent Level 3 measures. No changes have been made to the purchase price allocation reported for the year ending December 31, 2011.

	<u>MNM</u>
Current assets	\$ 88
Building, leasehold improvements and equipment	2,015
Goodwill	8,087
Other intangible assets	<u>630</u>
Total purchase price	<u>\$10,820</u>

The consolidated financial statements include the assets and operating results for the period from the acquisition date. MNM contributed revenue of \$11,764 and \$2,205 and net income of \$2,176 and \$291 for the years ended December 31, 2012 and 2011, respectively.

Pro Forma Results of Operations (Unaudited)

The following selected comparative unaudited pro forma results of operations information for the years ended December 31, 2011 and 2010 assumes the MNM Theatres acquisition occurred at the beginning of the fiscal year 2010, and reflects the full results of operations for the years presented. The pro forma results have been prepared for comparative purposes only and do not purport to indicate the results of operations which would actually have occurred had the combination been in effect on the dates indicated, or which may occur in the future.

	Pro Forma Year Ended December 31,	
	<u>2011</u>	<u>2010</u>
Revenues	\$491,548	\$500,142
Operating income	\$ 37,341	\$ 26,501
Net loss	\$ (5,677)	\$ (10,354)
Loss per share:		
Basic and Diluted	\$ (0.44)	\$ (0.81)

NOTE 5—GOODWILL AND OTHER INTANGIBLES

At December 31, 2012 and 2011, intangible assets consisted of the following:

	December 31,	
	<u>2012</u>	<u>2011</u>
Goodwill	<u>\$44,577</u>	<u>\$8,087</u>
Other intangible assets:		
Lease related intangibles	\$ 1,345	\$1,345
Non-compete agreements	30	30
Trade names	<u>750</u>	<u>750</u>
Gross carrying value of intangible assets subject to amortization	2,125	2,125
Less accumulated amortization	(1,064)	(956)
Net carrying value	<u>\$ 1,061</u>	<u>\$1,169</u>

The following table discloses the changes in the carrying amount of goodwill for the years ended December 31, 2012 and 2011:

	2012			December 31, 2012
	December 31, 2011	Additions	Impairments	
Goodwill, gross	\$ 46,327	\$36,490	\$—	\$ 82,817
Accumulated impairment losses	(38,240)	—	—	(38,240)
Total goodwill, net	<u>\$ 8,087</u>	<u>\$36,490</u>	<u>\$—</u>	<u>\$ 44,577</u>

	2011			December 31, 2011
	December 31, 2010	Additions	Impairments	
Goodwill, gross	\$ 38,240	\$ 8,087	\$—	\$ 46,327
Accumulated impairment losses	(38,240)	—	—	(38,240)
Total goodwill, net	<u>\$ —</u>	<u>\$ 8,087</u>	<u>\$—</u>	<u>\$ 8,087</u>

Amortization of other intangible assets was \$108, \$73, and \$150, for the years ended December 31, 2012, 2011 and 2010, respectively. In addition, the Company impaired favorable lease intangible assets in 2010 of \$489 related to closed theatres. The impairment charge is reflected in Impairment of Long-Lived Assets in the consolidated statements of operations.

Amortization expense of intangible assets for fiscal years 2013 through 2017 and thereafter is estimated to be approximately \$105, \$101, \$101, \$94, \$92 and \$568, respectively, with a remaining weighted average useful life of 7 years.

NOTE 6—OTHER ASSETS

At December 31, 2012 and 2011, other assets are as follows:

	December 31,	
	2012	2011
Prepaid rent	\$ 3,194	\$ 3,589
Debt issuance costs, net of amortization	7,701	4,486
Deposits and insurance binders	4,115	3,640
Other	6,062	6,155
	<u>\$21,072</u>	<u>\$17,870</u>

NOTE 7—DEBT

Debt consisted of the following as of December 31, 2012 and 2011:

	December 31,	
	2012	2011
Term loan	—	\$198,923 ⁽¹⁾
Senior secured notes	210,000	—
Revolving credit facility	—	—
Original issue discount	(452)	—
Total debt	209,548	198,923
Current maturities	—	(2,043)
	<u>\$209,548</u>	<u>\$196,880</u>

(1) Term loan is reflected net of unamortized discount of \$1,306.

7.375% Senior Secured Notes

In April 2012, the Company issued \$210,000 aggregate principal amount of 7.375% Senior Secured Notes due May 15, 2019 (the "Senior Secured Notes"). The proceeds were used to repay the Company's \$265,000 senior secured term loan that was due in January 2016 with a then outstanding balance of \$198,700. The Company recorded a loss on extinguishment of debt of \$4,961 during the year ended December 31, 2012 for the write-off of unamortized debt issuance costs. Interest is payable on the Senior Secured Notes on May 15 and November 15 of each year.

The Senior Secured Notes are fully and unconditionally guaranteed by each of the Company's existing subsidiaries and will be guaranteed by any future domestic wholly-owned restricted subsidiaries of the Company. Debt issuance costs and other transaction fees of \$8,600 are included in other non-current assets and amortized over the life of the debt as interest expense. The Senior Secured Notes are secured, subject to certain permitted liens, on a second priority basis by substantially all of the Company's and the guarantors' current and future property and assets (including the capital stock of the Company's current subsidiaries), other than certain excluded assets.

At any time prior to May 15, 2015, the Company may redeem up to 35% of the aggregate principal amount of the Senior Secured Notes with the proceeds of certain equity offerings at a redemption price equal to 107.375% of the principal amount of the Senior Secured Notes, plus accrued and unpaid interest to, but excluding the redemption date; provided, however, that at least 65% of the aggregate principal amount of the Senior Secured Notes are outstanding immediately following the redemption. In addition, at any time prior to May 15, 2015, the Company may redeem all or a portion of the Senior Secured Notes by paying a "make-whole" premium calculated as described in the indenture governing the Senior Secured Notes (the "Indenture"). The Company has not separated the make-whole premium from the underlying debt instrument to account for it as a derivative instrument as the economic characteristics and risks of this embedded derivative are clearly and closely related to the economic characteristics of the underlying debt.

At any time on or after May 15, 2015, the Company may redeem all or a portion of the Senior Secured Notes at redemption prices calculated based on a percentage of the principal amount of the Senior Secured Notes being redeemed, plus accrued and unpaid interest, if any, to the redemption date, depending on the date on which the Senior Secured Notes are redeemed. These percentages range from between 100.00% and 105.53%.

Following a change of control, as defined in the Indenture, the Company will be required to make an offer to repurchase all or any portion of the Senior Secured Notes at a purchase price of 101% of the principal amount, plus accrued and unpaid interest to, but excluding, the date of repurchase.

Revolving Credit Facility

In April 2012, the Company also entered into a new \$25,000 revolving credit facility (the "Credit Facility") with an interest rate of LIBOR (subject to a 1.00% floor) plus a margin of 4.50%, or Base Rate (subject to a 2.00% floor) plus a margin of 3.50%, as the Company may elect. In addition, the Company is required to pay commitment fees on the unused portion of the Credit Facility at the rate of 0.50% per annum. The termination date of the Credit facility is April 27, 2016. The new \$25,000 revolving credit facility replaced the prior \$30,000 revolving credit facility that was scheduled to mature in January 2013.

The Credit Facility includes a sub-facility for the issuance of letters of credit totaling up to \$10,000. The Company's obligations under the Credit Facility are guaranteed by each of the Company's existing and future direct and indirect wholly-owned domestic subsidiaries, and the obligations of the Company and such guarantors in respect of the Credit Facility are secured by first priority liens on substantially all of the Company's and such subsidiaries' current and future property and assets, other than certain excluded assets pursuant to the first lien guarantee and collateral agreement by and among the Company, such guarantors and Wells Fargo Bank, National

Association, as collateral trustee. In addition, the Credit Facility contains provisions to accommodate the incurrence of up to \$150,000 in future incremental borrowings. While the Credit Facility does not contain any commitment by the lenders to provide this incremental indebtedness, the Credit Facility describes how such debt (if provided by the Company's existing or new lenders) would be subject to various financial and other covenant compliance requirements and conditions at the time the additional debt is incurred. There was no outstanding balance on the revolving credit facility at December 31, 2012.

Debt Covenants

The Indenture and the Credit Facility include covenants which, among other things, limit the Company's ability, and its subsidiaries, to:

- incur additional indebtedness or guarantee obligations;
- issue certain preferred stock or redeemable stock;
- pay dividends beyond certain calculated thresholds, repurchase or make distributions in respect of the Company's capital stock or make other restricted payments;
- make certain investments;
- sell, transfer or otherwise convey certain assets;
- create or incur liens or other encumbrances;
- prepay, redeem or repurchase subordinated debt prior to stated maturities;
- designate the Company's subsidiaries as unrestricted subsidiaries;
- consolidate, merge, sell or otherwise dispose of all or substantially all of the Company's assets;
- enter into a new or different line of business; and
- enter into certain transactions with the Company's affiliates.

The restrictive covenants are subject to a number of important exceptions and qualifications set forth in the Indenture and the Credit Facility.

The Indenture provides for customary events of default. If any event of default occurs and is continuing, subject to certain exceptions, the trustee or the holders of at least 25% in aggregate principal amount of the then outstanding Senior Secured Notes may declare all the Senior Secured Notes to be due and payable immediately, together with any accrued and unpaid interest, if any, to the acceleration date. In the case of an event of default resulting from certain events of bankruptcy, insolvency or reorganization, such amounts with respect to the Senior Secured Notes will be due and payable immediately without any declaration or other act on the part of the trustee or the holders of the Senior Secured Notes.

The Credit Facility contains further limitations on the Company's ability to incur additional indebtedness and liens. In addition, to the extent the Company incurs certain specified levels of additional indebtedness, further limitations under the Credit Facility will become applicable under covenants related to sales of assets, sale-leaseback transactions, investment transactions, and the payment of dividends and other restricted payments. If the Company draws on the Credit Facility, the Company will be required to maintain a first lien leverage ratio as defined (the "Leverage Ratio") not more than 2.75 to 1.00. The Credit Facility also contains certain representations and warranties, other affirmative and negative covenants, and events of default customary for secured revolving credit facilities of this type.

The Company's failure to comply with any of these covenants, including compliance with the Leverage Ratio, will be an event of default under the Credit Facility, in which case the administrative agent may, with the consent or at the request of lenders holding a majority of the commitments and outstanding loans, terminate the

Credit Facility and declare all or any portion of the obligations under the Credit Facility due and payable. Other events of default under the Credit Facility include:

- the Company's failure to pay principal on the loans when due and payable, or its failure to pay interest on the loans or to pay certain fees and expenses (subject to applicable grace periods);
- the occurrence of a change of control (as defined in the Credit Facility);
- a breach or default by the Company or its subsidiaries on the payment of principal of any other indebtedness in an aggregate amount greater than \$10,000;
- breach of representations or warranties in any material respect;
- failure to perform other obligations under the Credit Facility and the security documents for the Credit Facility (subject to applicable cure periods); or
- certain bankruptcy or insolvency events.

In the event of a bankruptcy or insolvency event of default, the Credit Facility will automatically terminate, and all obligations thereunder will immediately become due and payable.

As of December 31, 2012, the Company was in compliance with all of the financial covenants in its Indenture and Credit Facility.

Debt Maturities

At December 31, 2012 the Company's future maturities of long-term debt obligations are as follows:

	<u>2013</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>	<u>2017</u>	<u>Thereafter</u>	<u>Total</u>
Senior secured notes	<u>—</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>210,000</u>	<u>\$210,000</u>

The fair value of the Senior Secured Notes at December 31, 2012 and the senior secured term loan at December 31, 2011 are Level 2 estimates within the fair value hierarchy prescribed by ASC 820 *Fair Value Measurements* and is estimated based on quoted market prices as follows:

	<u>Year ended December 31,</u>	
	<u>2012</u>	<u>2011</u>
Carrying amount, net	\$210,000	\$198,923
Fair value	\$226,800	\$198,247

NOTE 8—ACCRUED EXPENSES

At December 31, 2012 and 2011, accrued expenses consisted of the following:

	<u>December 31,</u>	
	<u>2012</u>	<u>2011</u>
Deferred revenues—Other	\$10,002	\$ 7,208
Deferred revenues—Screenvision	1,157	1,153
Accrued rents	4,933	4,244
Property taxes	8,385	6,050
Accrued interest	1,979	62
Accrued salaries	5,938	4,832
Sales taxes	2,465	2,635
Other accruals	5,190	4,952
	<u>\$40,049</u>	<u>\$31,136</u>

NOTE 9—INCOME TAXES

Income tax (benefit) expense from continuing operations is summarized as follows:

	<u>Year Ended December 31,</u>		
	<u>2012</u>	<u>2011</u>	<u>2010</u>
Current:			
Federal	\$ 6,524	\$ 9,503	\$(876)
State	1,173	976	386
Deferred:			
Federal	(70,873)	—	—
State	(17,614)	—	—
Total income tax expense (benefit)	<u>\$(80,790)</u>	<u>\$10,479</u>	<u>\$(490)</u>

The consolidated income tax provision was different from the amount computed using the U.S. statutory income tax rate for the following reasons:

	<u>Year Ended December 31,</u>		
	<u>2012</u>	<u>2011</u>	<u>2010</u>
Pre-tax income (loss) from continuing operations	<u>\$ 13,747</u>	<u>\$ 1,355</u>	<u>\$(13,950)</u>
Federal tax expense (benefit), at statutory rates	4,813	474	(4,883)
State tax expense (benefit), net of federal tax effects	(249)	232	(487)
Permanent non-deductible expenses	97	65	136
Increase (reduction) in prior year tax	58	324	(2,421)
Tax effect of uncertain tax position	152	55	2,471
Impact of equity investment income at statutory tax rate	476	697	455
Reduction in gross deferred tax assets due to IRC Section 382 limitations	396	—	—
(Decrease) increase in valuation allowance	(86,533)	8,632	4,239
Total tax (benefit) expense from continuing operations	<u>\$(80,790)</u>	<u>\$10,479</u>	<u>\$ (490)</u>

The Company's effective tax rate was (540.0)%, 332.5% and 3.8% for the years ended December 31, 2012, 2011 and 2010, respectively. The Company's tax rate for 2012 was different from the statutory tax rate primarily due to the release of the valuation allowance on its deferred tax assets during 2012. Prior to 2012, the Company's effective tax rate has generally has been significantly impacted by the limitations on its net operating losses due to the ownership change and the effect of a full valuation allowance against its deferred tax assets.

Components of the Company's deferred tax assets (liabilities) are as follows:

	December 31,	
	2012	2011
Net operating loss carryforwards	\$ 14,694	\$ 12,505
Alternative minimum tax credit carryforwards	779	779
Tax basis of goodwill and intangible property over book	1,608	—
Tax basis of property, equipment and other assets over book basis	61,810	48,907
Deferred income	10,418	10,421
Deferred compensation	2,938	1,342
Deferred rent	5,585	5,848
Compensation accruals	2,613	2,925
Basis difference in investee	2,463	2,236
Total deferred tax asset	<u>\$102,908</u>	<u>\$ 84,963</u>
Valuation allowance	—	(84,963)
Net deferred tax asset	<u>\$102,908</u>	<u>\$ —</u>

The balance sheet presentation of the Company's deferred income taxes is as follows:

	December 31,	
	2012	2011
Current deferred tax assets	\$ 3,187	\$ 1,659
Current deferred tax liabilities	(291)	(290)
Net current deferred tax assets before valuation allowance	2,896	1,369
Valuation allowance against current deferred tax assets	—	(1,369)
Net current deferred tax assets	\$ 2,896	\$ —
Non-current deferred tax assets	\$100,200	\$ 83,835
Non-current deferred tax liabilities	(188)	(241)
Net non-current deferred tax assets before valuation allowance	100,012	83,594
Valuation allowance against non-current deferred tax assets	—	(83,594)
Net non-current deferred tax assets	<u>100,012</u>	<u>—</u>
Net deferred tax assets	<u>\$102,908</u>	<u>\$ —</u>

The Company experienced an "ownership change" within the meaning of Section 382(g) of the Internal Revenue Code of 1986, as amended, during the fourth quarter of 2008. The ownership change has and will continue to subject the Company's pre-ownership change net operating loss carryforwards to an annual limitation, which will significantly restrict its ability to use them to offset taxable income in periods following the ownership change. In general, the annual use limitation equals the aggregate value of the Company's stock at the time of the ownership change multiplied by a specified tax-exempt interest rate.

The Company determined that at the date of the ownership change, it had a net unrealized built-in loss ("NUBIL"). The NUBIL is determined based on the difference between the fair market value of the Company's assets and their tax basis at the ownership change. Because of the NUBIL, certain deductions recognized during the five-year period beginning on the date of the IRC Section 382 ownership change (the "recognition period") are subjected to the same limitation as the net operating loss carryforwards. Because the annual limitation is applied first against the realized built-in losses ("RBILs"), the Company does not expect to utilize any of its net operating carryforwards during the five year recognition period. The amount of the disallowed RBILs could increase if the Company disposes of assets with built-in losses at the date of the ownership change during the recognition period.

An ownership change was also deemed to have occurred during the second quarter of 2012. The Company does not believe this change will further limit its ability to utilize its net operating loss carryforwards or certain other deductions.

As discussed in Note 4—Acquisitions, the Company recorded a deferred tax asset of \$14,418 in the acquisition of Rave.

At December 31, 2012, the Company had federal and state net operating loss carryforwards of \$32,678, net of IRC Section 382 limitations, to offset the Company's future taxable income. The federal and state net operating loss carryforwards will begin to expire in the year 2020. In addition, the Company's alternative minimum tax credit carryforward of approximately \$779 has an indefinite carryforward life but is subject to the IRC Section 382 limitation.

Valuation Allowance

At December 31, 2012 and December 31, 2011, the Company's net deferred tax assets, net of IRC Section 382 limitations, were \$102,908 and \$84,963, respectively, before the effects of any valuation allowance. As of each reporting date, the Company assesses whether it is more likely than not that its deferred tax assets will be recovered from future taxable income, taking into account such factors as earnings history, taxable income in the carryback period, reversing temporary differences, projections of future taxable income, the finite lives of certain deferred tax assets and the impact of IRC 382 limitations. Both positive and negative evidence, as well as the objectivity and verifiability of that evidence, is considered in determining the appropriateness of recording a valuation allowance on deferred tax assets. When sufficient evidence exists that indicates that recovery is not more likely than not, a valuation allowance is established against the deferred tax assets, increasing the Company's income tax expense in the period that such conclusion is made.

After reviewing all positive and negative evidence at December 31, 2012, the Company determined that it was more likely than not that its deferred tax asset balance would be recovered from future taxable income and reversed the valuation allowance of \$86,533 on its deferred tax assets. The Company identified multiple sources of positive evidence in determining to reverse its valuation allowance. At December 31, 2012, the Company had generated cumulative pre-tax income for the most recent rolling three-year period. Subsequent to the valuation allowance being established, the Company had not achieved cumulative pre-tax income for a rolling three-year period prior to December 31, 2012. The Company believes that the improvement in operating results is primarily related to the Company's focus on improving its circuit by modernizing existing theatres, closing underperforming theatres and through accretive acquisitions. The Company concluded that this record of cumulative profitability in recent years, the Company's large amount of taxable income available in the carryback period, the acquisition of Rave in 2012, the Company's trend of improving earnings and the timing of reversals of the Company's deferred tax liabilities creating future taxable income outweigh any negative evidence identified. As a result, the Company reversed the valuation allowance of \$86,533 on its deferred tax assets. The Company's determination to reverse the valuation allowance involved significant estimates and judgments. If future results are significantly different from these estimates and judgments, the Company may be required to record a valuation allowance against its deferred tax assets.

In 2011, the valuation allowance increased primarily due to the tax effect of temporary differences attributable to the \$30,000 cash payment received from Screenvision, which is being amortized into revenue over the term of the agreement but is included in income in the current period for tax purposes, and an increase in net operating losses, partially offset by a reduction in the tax basis of property and equipment due to bonus depreciation recognized.

Income Tax Uncertainties

The benefits of uncertain tax positions are recorded in our financial statements only after determining a more-likely-than-not probability that the uncertain tax positions will withstand challenge, if any, from taxing authorities.

As of December 31, 2012 and 2011, the amount of unrecognized tax benefits related to continuing operations was \$2,678 and \$2,526 respectively, all of which would affect the Company's annual effective tax rate, if recognized. The unrecognized tax benefit is associated with the Company's non-forfeitable ownership interest in SV Holdco, LLC (See Note 11- Screenvision Transaction). The Company recognizes a tax basis for these units that is lower than the carrying value for financial statement purposes. However, as this tax position may not be sustained upon examination, the Company has recorded a related liability for this uncertain tax position.

A reconciliation of the beginning and ending uncertain tax positions is as follows:

Gross unrecognized tax benefits at January 1, 2011	\$2,471
Increases in tax positions for prior years	—
Decreases in tax positions for prior years	—
Increases in tax positions for current year	55
Settlements	—
Lapse in statute of limitations	—
Gross unrecognized tax benefits at December 31, 2011	<u>2,526</u>
Increases in tax positions for prior years	152
Decreases in tax positions for prior years	—
Increases in tax positions for current year	—
Settlements	—
Lapse in statute of limitations	—
Gross unrecognized tax benefits at December 31, 2012	<u><u>\$2,678</u></u>

The Company files consolidated and separate income tax returns in the United States federal jurisdiction and in many state jurisdictions. The Company is no longer subject to United States federal income tax examinations for years before 2000 and is no longer subject to state and local income tax examinations by tax authorities for years before 1999.

The Company recognizes potential accrued interest and penalties related to unrecognized tax benefits in interest expense and general and administrative expenses, respectively, in the Company's consolidated statements of operations. Amounts accrued for interest and penalties as of December 31, 2012 and 2011 are not significant to the consolidated financial statements.

NOTE 10—STOCKHOLDERS' EQUITY

On April 11, 2012, the Company issued 4.0 million shares of its common stock, at a price to the public of \$13.00 per share through a registered public offering. The Company granted the underwriters an option to purchase up to an additional 600,000 shares of the Company's common stock to cover over-allotments, if any, which the underwriters could exercise within 30 days of the date of the final prospectus. The underwriters purchased the additional 600,000 shares of common stock on April 11, 2012. The offering was made pursuant to the Company's effective shelf registration statement previously filed with the Securities and Exchange Commission ("SEC"). The net proceeds from the transaction were approximately \$56,300. The funds received from the issuance of the shares will be used for general corporate purposes, including working capital, repayment of debt, possible acquisitions and other capital expenditures.

In March 2004, the Board of Directors adopted the 2004 Incentive Stock Plan (the "2004 Incentive Stock Plan"). The Company's Compensation and Nominating Committee (or similar committee) may grant stock options, stock grants, stock units, and stock appreciation rights under the 2004 Incentive Stock Plan to certain eligible employees and to outside directors. As of December 31, 2012, there were 1,317,184 shares available for future grants under the 2004 Incentive Stock Plan. The Company's policy is to issue new shares upon exercise of options and the issuance of stock grants.

The determination of the fair value of stock option awards on the date of grant using option-pricing models is affected by the Company's stock price, as well as assumptions regarding a number of other inputs. These variables include the Company's expected stock price volatility over the expected term of the awards, actual and projected employee stock option exercise behaviors, risk-free interest rates and expected dividends. The expected volatility is based on the historical volatility. The Company uses historical data to estimate stock option exercise and forfeiture rates. The expected term represents the period over which the share-based awards are expected to be outstanding. The dividend yield is an estimate of the expected dividend yield on the Company's stock. The risk-free rate is based on U.S. Treasury yields in effect at the time of the grant for the expected term of the stock options. All stock option awards are amortized based on their graded vesting over the requisite service period of the awards.

The Company also issues restricted stock awards to certain key employees. Generally, the restricted stock vests over a one to three year period and compensation expense is recognized over the one to three year period equal to the grant date value of the shares awarded to the employee. In addition, the Company issues performance-based awards which are dependent on the achievement of EBITDA targets and vest over a three-year period. As of December 31, 2012, the Company had 262,803 shares of performance-based awards outstanding, all of which have been earned due to the achievement of EBITDA targets. Performance-based stock awards are recognized as compensation expense over the vesting period based on the fair value on the date of grant and the number of shares ultimately expected to vest.

The Company's total stock-based compensation expense was \$2,166, \$2,012 and \$2,047 in 2012, 2011 and 2010, respectively. Included in stock based compensation expense for the year ended December 31, 2012, is \$115 related to the accelerated vesting of stock-based awards to the Company's former Vice President-General Manager Theatre Operations. Included in stock-based compensation expense for the year ended December 31, 2011, is \$222 related to the accelerated vesting of stock-based awards to our former Senior Vice President-General Counsel and Secretary (see Note 20—Severance Agreement). Stock-based compensation expense is included in general and administrative expenses in the consolidated statement of operations with the exception of the accelerated vested awards which are included in Severance Agreement Charges. As of December 31, 2012, the Company had approximately \$3,325 of total unrecognized compensation cost related to non-vested share-based compensation arrangements granted under the Company's plans. This cost is expected to be recognized as stock-based compensation expense over a weighted-average period of 1.8 years. This expected cost does not include the impact of any future stock-based compensation awards.

Options

The Company currently uses the Black-Scholes option pricing model to determine the fair value of its stock options. Such stock options vest equally over a three-year period, except for options granted to members of the Board of Directors that vest immediately upon issuance. The stock options expire 10 years after the grant date.

No options were granted during 2012. The following table sets forth information about the weighted-average fair value of options granted, and the weighted-average assumptions for such options granted, during 2011 and 2010:

	<u>2011</u>	<u>2010</u>
Weighted average fair value of options on grant date	\$4.87	\$6.84
Expected life (years)	6.0	6.0
Risk-free interest rate	2.3%	2.5%
Expected dividend yield	— %	— %
Expected volatility	76.2%	71.1%

The Company's stock-based compensation expense is recorded based on an estimated forfeiture rate of 5%.

The following table sets forth the summary of option activity for the year ended December 31, 2012:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value
Outstanding at January 1, 2012	796,500	\$12.20		
Granted	—	\$ —	—	\$ —
Exercised	(39,000)	\$ 7.81		\$ 245
Expired	(10,000)	\$19.95		
Forfeited	—	\$ —		
Outstanding at December 31, 2012	<u>747,500</u>	<u>\$12.32</u>	<u>5.92</u>	<u>\$3,931</u>
Exercisable on December 31, 2012	<u>595,827</u>	<u>\$13.34</u>	<u>5.43</u>	<u>\$2,918</u>
Expected to vest at December 31, 2012	<u>144,089</u>	<u>\$ 8.33</u>	<u>8.13</u>	<u>\$1,013</u>

The fair value of options vested during the years ended December 31, 2012, 2011 and 2010 was \$1,239, \$1,213, and \$590, respectively. The intrinsic value of the options exercised during the years ended December 31, 2012 and 2010 was \$245 and \$2, respectively. Cash received from options exercised for the years ended December 31, 2012 and 2010 was \$305 and \$42, respectively. The cash tax benefits realized from stock awards exercised for December 31, 2012 and 2010 were \$93 and \$42, respectively. No options were exercised in 2011.

Restricted Stock

The following table sets forth the summary of activity for restricted stock grants for the year ended December 31, 2012:

	2012		2011		2010	
	Shares	Weighted Average Grant Date Fair Value	Shares	Weighted Average Grant Date Fair Value	Shares	Weighted Average Grant Date Fair Value
Nonvested at beginning of year	248,804	\$ 8.43	131,333	\$10.58	179,500	\$19.56
Granted	288,648	\$12.18	165,638	\$ 7.22	134,500	\$11.20
Vested	(72,471)	\$ 7.81	(43,167)	\$10.47	(141,667)	\$22.29
Forfeited	(6,000)	\$10.91	(5,000)	\$ 7.34	(41,000)	\$11.46
Nonvested at end of year	<u>458,981</u>	<u>\$10.85</u>	<u>248,804</u>	<u>\$ 8.43</u>	<u>131,333</u>	<u>\$10.58</u>

The total fair value for restricted share awards that vested during 2012, 2011 and 2010 was \$990, \$296 and \$3,238, respectively.

NOTE 11—SCREENVISION TRANSACTION

On October 14, 2010, the Company finalized the modification of its long-term exhibition agreement (the “Modified Exhibition Agreement”) with Screenvision Exhibition, Inc. (“Screenvision”), the Company’s exclusive provider of on-screen advertising services. The Modified Exhibition Agreement extends the Company’s exhibition agreement with Screenvision, which was set to expire on July 1, 2012, for an additional 30 year term through July 1, 2042 (“Expiration Date”).

In connection with the Modified Exhibition Agreement, Carmike received a cash payment of \$30,000 from Screenvision in January 2011. In addition, on October 14, 2010, Carmike received, for no additional consideration, Class C membership units representing, as of that date, approximately 20% of the issued and

outstanding membership units of SV Holdco, LLC (“SV Holdco”). SV Holdco is a holding company that owns and operates the Screenvision business through a subsidiary entity. SV Holdco has elected to be taxed as a partnership for U.S. federal income tax purposes.

In September 2011, Carmike made a voluntary capital contribution of \$718 to SV Holdco. The capital contribution was made to maintain Carmike’s relative ownership interest following an acquisition by Screenvision and additional capital contributions by other owners of SV Holdco. Carmike received Class A membership units representing less than 1% of the issued and outstanding membership units of SV Holdco in return for Carmike’s capital contribution.

As of December 31, 2012, Carmike held Class C and Class A membership units representing approximately 19% of the total issued and outstanding membership units of SV Holdco. As of December 31, 2012, the carrying value of Carmike’s ownership interest in Screenvision is \$6,740 and is included in Investments in Unconsolidated Affiliates in the consolidated balance sheets. For book purposes, the Company has accounted for its investment in SV Holdco, LLC, a limited liability company for which separate accounts of each investor are maintained, as an equity method investment pursuant to ASC 970-323-25-6.

Carmike’s Class C membership units are intended to be treated as a “profits interest” in SV Holdco for U.S. federal income tax purposes and thus do not give Carmike an interest in the other members’ initial or subsequent capital contributions. As a profits interest, Carmike’s Class C membership units are designed to represent an equity interest in SV Holdco’s future profits and appreciation in assets beyond a defined threshold amount, which equaled \$85,000 as of October 14, 2010. The \$85,000 threshold amount represented the agreed upon value of initial capital contributions made by the members to SV Holdco and is subject to adjustment to account for future capital contributions made to SV Holdco. Accordingly, the threshold amount applicable to Carmike’s Class C membership units equaled \$88,000 as of December 31, 2012.

The Company will also receive additional Class C membership units (“bonus units”), all of which will be subject to forfeiture, or may forfeit some of its initial Class C membership units, based upon changes in the Company’s future theatre and screen count. However, the Company will not forfeit more than 25% of the Class C membership units it received in October 2010, and the Company will not receive bonus units in excess of 33% of the Class C membership units it received in October 2010. Any bonus units and the initial Class C membership units subject to forfeiture will each become non-forfeitable on the Expiration Date, or upon the earlier occurrence of certain events, including (1) a change of control or liquidation of SV Holdco or (2) the consummation of an initial public offering of securities of SV Holdco. The Company’s Class C units in SV Holdco, LLC that are subject to forfeiture, and any bonus units that may be awarded in future periods, will not be recognized in its consolidated financial statements until such units become non-forfeitable. Upon recognition, the Company will record its investment in any additional Class C and bonus units and will recognize revenue equal the then estimated fair value of such units. The non-forfeitable ownership interest in SV Holdco was recorded at an estimated fair value of \$6,555 using the Black Scholes Model. The Company has applied the equity method of accounting for the non-forfeitable units and began recording the related percentage of the earnings or losses of SV Holdco in its consolidated statement of operations since October 14, 2010. Carmike’s non-forfeitable Class C and Class A membership units represented approximately 15% of the total issued and outstanding membership units of SV Holdco as of December 31, 2012 and 2011.

For financial reporting purposes, the gains from both the \$30,000 cash payment to the Company and its non-forfeitable membership units in SV Holdco (\$36,555 in the aggregate) have been deferred and will be recognized as concessions and other revenue on a straight line basis over the remaining term of the Modified Exhibition Agreement. The Company has included in concessions and other revenue in its consolidated statement of operations amounts related to Screenvision of approximately \$9,259, \$9,550 and \$10,227 for the years ended December 31, 2012, 2011 and 2010, respectively. The Company reclassifies certain amounts from Screenvision included in concessions and other revenue to earnings from unconsolidated affiliates. The amount reclassified is based on the Company’s non-forfeitable ownership percentage of SV Holdco membership units, represents an

intercompany gain to the Company and totaled approximately \$1,634, \$1,685 and \$369 for the years ended December 31, 2012, 2011 and 2010, respectively. The Company has included in accounts receivable in the consolidated balance sheets amounts due from Screenvision of \$2,030 and \$1,860 at December 31, 2012 and 2011, respectively.

A summary of changes in investments in unconsolidated affiliates and deferred revenue for the Company's equity method investment in SV Holdco for the year ended December 31, 2012 is as follows:

<u>Investments in unconsolidated affiliates</u>	<u>SV Holdco</u>
Balance at January 1, 2012	\$ 7,514
Equity earnings of SV Holdco	(774)
Balance at December 31, 2012	<u>\$ 6,740</u>
 <u>Deferred revenue</u>	 <u>SV Holdco</u>
Balance at January 1, 2012	\$35,162
Amortization of up-front payment	(947)
Theatre acquisition bonus—MNM Theatres	134
Amortization of Class C units	(208)
Balance at December 31, 2012	<u>\$34,141</u>

NOTE 12—INVESTMENT IN UNCONSOLIDATED AFFILIATES

Our investments in affiliated companies accounted for by the equity method consist of our ownership interest in Screenvision as discussed in Note 11—Screenvision Transaction and interests in other joint ventures.

Combined financial information of the unconsolidated affiliates companies accounted for by the equity method is as follows:

	<u>As of</u>	
	<u>December 31,</u>	
	<u>2012</u>	
Assets:		
Current assets	\$ 57,492	
Noncurrent assets	<u>161,280</u>	
Total assets	<u>\$218,772</u>	
Liabilities:		
Current liabilities	\$ 44,366	
Noncurrent liabilities	<u>86,658</u>	
Total liabilities	<u>\$131,024</u>	
	<u>Year Ended</u>	
	<u>2012</u>	<u>2011</u>
Results of operations:		
Revenue	\$146,972	\$168,893
Net loss	\$ (5,693)	\$ (1,102)

The effects of our investments in unconsolidated affiliated companies were not material to our 2010 consolidated financial statements.

A summary of activity in income from unconsolidated affiliates is as follows:

Income from unconsolidated affiliates	Year Ended December 31,	
	2012	2011
Income from unconsolidated affiliates	\$ (430)	\$ 112
Elimination of intercompany revenue	<u>1,634</u>	<u>1,685</u>
Income from unconsolidated affiliates	<u>\$1,204</u>	<u>\$1,797</u>

Income from unconsolidated affiliates was not material to our 2010 consolidated financial statements.

NOTE 13—DISCONTINUED OPERATIONS

Theatres are generally considered for closure due to an expiring lease term, underperformance, or the opportunity to better deploy invested capital. In 2012, 2011 and 2010, the Company closed eleven, seven and eight theatres, respectively. Of those closures, in 2012, 2011 and 2010, the Company classified six, five, and two theatres, respectively, as discontinued operations.

All activity from prior years included in the accompanying consolidated statements of operations has been reclassified to separately reflect the results of operations from discontinued operations through the respective date of the theatre closings. Assets and liabilities associated with the discontinued operations have not been segregated from assets and liabilities from continuing operations as they are not material.

The following table sets forth the summary of activity for discontinued operations for the years ended December 31, 2012, 2011, and 2010:

	For the year ended December 31,		
	2012	2011	2010
Revenue from discontinued operations	<u>\$2,483</u>	<u>\$4,889</u>	<u>\$8,866</u>
Operating loss before income taxes	\$ (350)	\$ (809)	\$ (733)
Income tax benefit for discontinued operations	108	274	281
Gain on disposal, before taxes	1,168	231	247
Income tax expense on disposal	<u>(359)</u>	<u>(79)</u>	<u>(95)</u>
Income (loss) from discontinued operations	<u>\$ 567</u>	<u>\$ (383)</u>	<u>\$ (300)</u>

NOTE 14—BENEFIT PLANS

The Company maintains a funded non-qualified deferred compensation program for its senior executives pursuant to which it pays additional compensation equal to 10% of the senior executive's annual cash compensation. The Company directs this additional cash compensation first into the senior executive's individual retirement account, up to the legal limit, with the remainder directed into a trust. Distributions from the applicable trust are made upon or shortly after the executive reaches age 70, disability, death, or earlier election by the executive after age 60. Prior to 2012, the Company paid certain non-executive employees additional cash contributions to the employee's individual retirement account in amounts that are determined at management's discretion.

In 2012, the Company began sponsoring a defined contribution retirement plan for its eligible employees (the "401(k) Plan"). Employees are eligible to participate in the 401(k) Plan at the beginning of the fiscal quarter following the completion of one year of service. The Company's matching contribution varies based on how much compensation the employee elects to contribute up to a maximum of 5% of eligible compensation. The

Company's matching contribution is invested identically to employee contributions and vests immediately in the participant accounts. Aggregate contributions to all such plans in cash amounted to \$643, \$530 and \$531 for the years ended December 31, 2012, 2011 and 2010, respectively.

NOTE 15—COMMITMENTS AND CONTINGENCIES

Lease Obligations

At December 31, 2012, payments required on operating leases, capital leases and financing obligations are as follows:

	<u>Operating Leases</u>	<u>Capital Leases</u>	<u>Financing Obligations</u>
2013	\$ 53,666	\$ 6,067	\$ 28,300
2014	52,070	5,963	28,333
2015	50,353	6,036	28,988
2016	45,926	5,894	29,415
2017	38,826	5,918	31,399
Thereafter	<u>210,539</u>	<u>20,001</u>	<u>316,289</u>
Total minimum lease payments	<u>\$451,380</u>	49,879	462,724
Less amounts representing interest ranging from 3.6% to 19.6%		<u>(23,221)</u>	<u>(264,235)</u>
Present value of future minimum lease payments		26,658	198,489
Less current maturities		<u>(1,941)</u>	<u>(2,481)</u>
Long-term obligations		<u>\$ 24,717</u>	<u>\$ 196,008</u>

Rent expense on operating leases was \$50,908, \$46,411 and \$47,798 for 2012, 2011 and 2010, respectively. Included in such amounts are approximately \$1,789, \$1,426 and \$1,767 in contingent rental expense for 2012, 2011 and 2010, respectively. Interest expense includes \$1,560, \$1,205 and \$1,394 for 2012, 2011 and 2010, respectively, related to contingent rent on capital leases and financing obligations.

Self Insurance—General Liability and Workers Compensation Insurance

The Company maintains a deductible of \$150 per claim on its general liability insurance policy and a deductible of \$300 per claim on its workers compensation insurance policy. The Company uses historical data and actuarial estimates to estimate the cost of claims incurred that are not covered by the insurance policies as of the balance sheet date. The Company has accrued \$1,911 and \$1,767 at December 31, 2012 and 2011, respectively, for such claims. These costs are included in other theatre operating costs in the consolidated statements of operations.

NOTE 16—LITIGATION

From time to time, the Company is involved in routine litigation and legal proceedings in the ordinary course of its business, such as personal injury claims, employment matters, contractual disputes and claims alleging Americans with Disabilities Act violations. Currently, there is no pending litigation or proceedings that the Company's management believes will have a material effect, either individually or in the aggregate, on its business or financial condition.

NOTE 17—NET INCOME (LOSS) PER SHARE

Basic net income (loss) per common share has been computed using the weighted-average number of shares of common stock outstanding during the period. As a result of the Company's net losses for the years ended December 31, 2011 and 2010, all common stock equivalents aggregating 1,189, and 1,048 shares respectively, were excluded from the calculation of diluted loss per share for these years given their anti-dilutive effect. Diluted earnings per share is computed by dividing net income by the weighted average number of common shares outstanding plus common stock equivalents for each period.

	Year ended December 31,		
	2012	2011	2010
Weighted average shares outstanding	16,012	12,956	12,886
Less: restricted stock issued	(251)	(149)	(135)
Basic divisor	15,761	12,807	12,751
Dilutive shares:			
Restricted stock awards	138	—	—
Stock options	187	—	—
Diluted divisor	16,086	12,807	12,751
Net income (loss)	\$96,308	\$ (7,710)	\$ (12,579)
Net income (loss) per share:			
Basic	\$ 6.11	\$ (0.60)	\$ (0.99)
Diluted	\$ 5.99	\$ (0.60)	\$ (0.99)

NOTE 18—QUARTERLY RESULTS (UNAUDITED)

The following tables set forth certain unaudited results of operations for each quarter during 2012 and 2011. The unaudited information has been prepared on the same basis as the annual consolidated financial statements and includes all adjustments which management considers necessary for a fair presentation of the financial data shown. The operating results for any quarter are not necessarily indicative of the results to be attained for any future period. Basic and diluted income (loss) per share is computed independently for each of the periods presented. Accordingly, the sum of the quarterly income (loss) per share may not agree to the total for the year.

	1st Quarter ⁽¹⁾	2nd Quarter ⁽¹⁾⁽³⁾	3rd Quarter ⁽¹⁾⁽²⁾	4th Quarter ⁽¹⁾⁽²⁾⁽⁵⁾	Total
Year ended December 31, 2012					
Total revenues from continuing operations . . .	\$130,085	\$135,689	\$126,986	\$146,564	\$539,324
Operating income from continuing operations	14,547	16,087	7,417	16,661	54,712
Net income	\$ 3,229	\$ 1,198	\$ 233	\$ 91,648	\$ 96,308
Net income per common share:					
Basic	\$ 0.25	\$ 0.07	\$ 0.01	\$ 5.23	\$ 6.11
Diluted	\$ 0.25	\$ 0.07	\$ 0.01	\$ 5.12	\$ 5.99
	1st Quarter ⁽¹⁾	2nd Quarter ⁽¹⁾⁽²⁾⁽³⁾⁽⁴⁾	3rd Quarter ⁽¹⁾	4th Quarter ⁽¹⁾⁽²⁾	Total
Year ended December 31, 2011					
Total revenues from continuing operations . . .	\$ 95,241	\$130,856	\$132,786	\$118,933	\$477,816
Operating (loss) income from continuing operations	(1,787)	15,154	13,804	8,297	35,468
Net (loss) income	\$ (18,398)	\$ 5,883	\$ 3,090	\$ 1,715	\$ (7,710)
Net (loss) income per common share:					
Basic	\$ (1.44)	\$ 0.46	\$ 0.24	\$ 0.14	\$ (0.60)
Diluted	\$ (1.44)	\$ 0.46	\$ 0.24	\$ 0.14	\$ (0.60)

-
- (1) In connection with reporting for discontinued operations, the Company has reclassified the quarterly results.
 - (2) In connection with the asset impairment valuations, the Company recognized additional impairment charges attributable to underperforming assets in the third and fourth quarter of 2012 of \$0.8 million and \$0.9 million, respectively, and the second and fourth quarter of 2011 of \$1.2 million and \$2.1 million, respectively.
 - (3) In connection with the separation agreement with the former Vice President-General Manager Theatre Operations, the Company recognized charges in the second quarter of 2012 of \$0.5 million. In connection with the separation agreement with the former Senior Vice President-General Counsel, the Company recognized charges in the second quarter of 2011 of \$0.8 million.
 - (4) In connection with an uncollectible note receivable, the Company wrote off a note receivable in the second quarter of 2011 of \$0.8 million.
 - (5) In connection with the release of the valuation allowance on the Company's deferred tax assets, the Company recognized an income tax benefit of \$80.8 million in the fourth quarter of 2012.

NOTE 19—RELATED PARTY TRANSACTION

In August 2010, the Company entered into a management agreement with Bigfoot Ventures, Ltd. ("Bigfoot"), the holder of approximately 14% of the Company's common stock, pursuant to which the Company provides management services for a theatre owned by Bigfoot in Westwood, California. The agreement had an initial term of one year, and may be extended upon the written consent of both parties. Bigfoot paid the Company an initial fee of \$25 and is required to pay an amount equal to the greater of \$5 per month or 8% of the theatre's gross revenues, during the initial term. Revenue recognized in 2011 and 2010 related to this agreement is not significant to the consolidated statement of operations. On October 4, 2011, the Company terminated its management agreement with Bigfoot Theatres.

NOTE 20—SEVERANCE AGREEMENT CHARGES

On July 15, 2011 (the "Retirement Date"), the Company's Senior Vice President-General Counsel and Secretary, F. Lee Champion, ceased employment with the Company. In June 2011, the Company and Mr. Champion entered into a retirement agreement and general release (the "Retirement Agreement") setting forth the terms of his departure from the Company. Pursuant to the Retirement Agreement, the Company made a lump sum payment to Mr. Champion of \$143 in January 2012 and has begun making monthly payments of \$24 for each of the 18 consecutive calendar months beginning in February 2012. All stock options granted by the Company to Mr. Champion became fully vested and exercisable on the Retirement Date and remained exercisable for 90 days, or if less, for the remaining term of each such option. Any restrictions on any outstanding shares of restricted stock held by Mr. Champion expired on the Retirement Date and Mr. Champion's right to such stock became nonforfeitable. Any performance shares awarded to Mr. Champion as part of the Company's 2011 long-term incentive program did not vest and were forfeited on the Retirement Date. The consideration payable to Mr. Champion under the Retirement Agreement was based on the terms of his existing employment agreement. The Company recorded a charge of \$845 during 2011 for the estimated future costs associated with the Retirement Agreement.

NOTE 21—GUARANTOR SUBSIDIARIES

The Company filed a registration statement which became effective in 2010. The registration statement registers certain securities, including debt securities which may be issued and guaranteed by certain of Carmike Cinemas, Inc.'s subsidiaries and may be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, as amended.

Carmike Cinemas, Inc. may sell debt securities pursuant to the registration statement and if so, it is expected that such securities would be fully and unconditionally guaranteed, on a joint and several basis, by the following

100% directly or indirectly owned subsidiaries: Eastwynn Theatres, Inc., George G. Kerasotes Corporation, GKC Indiana Theatres, Inc., GKC Michigan Theatres, Inc., GKC Theatres, Inc., and Military Services, Inc. The financial information included for the non-guarantor subsidiaries is primarily related to entities acquired in the Rave acquisition in November 2012. Therefore, the Company is providing the following condensed consolidating financial statement information as of December 31, 2012 and December 31, 2011 and for years ended December 31, 2012, 2011 and 2010 in accordance with SEC Regulation S-X Rule 3-10, *Financial Statements of Guarantors and Issuers of Guaranteed Securities Registered or Being Registered*:

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, include controls and procedures designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including the principal executive officer and the chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met.

As required by SEC rules, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Annual Report on Form 10-K. This evaluation was carried out under the supervision and with the participation of our management, including our principal executive officer and chief financial officer. Based on this evaluation, these officers have concluded that, as of December 31, 2012 our disclosure controls and procedures were effective.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f). Internal control over financial reporting is a process designed under the supervision of our principal executive officer and chief financial officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Under the supervision and with the participation of our management, including our principal executive officer and chief financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this assessment, management concluded that our internal control over financial reporting was effective as of December 31, 2012.

Our internal control over financial reporting as of December 31, 2012 has been audited by Deloitte & Touche LLP, an independent registered public accounting firm. Their report is included herein.

Changes in Internal Control Over Financial Reporting

There has been no change in the Company's internal control over financial reporting during the three months ended December 31, 2012 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Limitation on Controls

Management does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent or detect all errors or fraud. Any control system, no matter how well designed and operated, is based upon certain assumptions and can provide only reasonable, not absolute, assurance that its objectives will be met. Further, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, with the Company have been detected.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Carmike Cinemas, Inc.
Columbus, Georgia

We have audited the internal control over financial reporting of Carmike Cinemas, Inc. and subsidiaries (the “Company”) as of December 31, 2012, based on criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying “Management’s Report on Internal Control Over Financial Reporting”. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on that risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company’s internal control over financial reporting is a process designed by, or under the supervision of, the company’s principal executive and principal financial officers, or persons performing similar functions, and effected by the company’s board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on the criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2012 of the Company and our report dated March 13, 2013 expressed an unqualified opinion on those financial statements and financial statement schedule.

ITEM 9B. OTHER INFORMATION.

None

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.

Information regarding our executive officers is set forth in Item X of Part I “Executive Officers of the Registrant” of this annual report on Form 10-K.

Information regarding our directors is incorporated by reference from the section entitled “Proposal One—Election of Directors” in our Proxy Statement relating to our 2013 Annual Meeting of Stockholders (“2013 Proxy Statement”).

Information regarding compliance with Section 16(a) of the Exchange Act is incorporated by reference from the section entitled “Section 16(a) Beneficial Ownership Reporting Compliance” contained in the 2013 Proxy Statement.

We have adopted a Code of Ethics for Senior Executive and Financial Officers (the “Code of Ethics”) that applies to our principal executive officer, principal financial officer and principal accounting officer. The Code of Ethics is available on our website at www.carmike.com under the “Corporate Governance” caption. Any amendments to, or waivers of, the Code of Ethics will be disclosed on our website promptly following the date of such amendment or waiver.

There have been no material changes to the procedures by which stockholders may recommend nominees to our board of directors since we reported such procedures in our Proxy Statement relating to our 2013 Annual Meeting of Stockholders.

Information regarding our Audit Committee, its members and the audit committee financial experts is incorporated by reference from the subsection entitled “Committees of the Board of Directors – Audit Committee” in the section entitled “Corporate Governance” in our 2013 Proxy Statement.

ITEM 11. EXECUTIVE COMPENSATION.

Information regarding executive compensation is incorporated by reference from the sections entitled “Executive Compensation” and “Compensation and Nominating Committee Interlocks and Insider Participation” contained in the 2013 Proxy Statement.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

Information required by this item is incorporated by reference from the sections entitled “Security Ownership of Certain Beneficial Holders and Management” and “Compensation Plans” contained in the 2013 Proxy Statement.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE.

Information regarding certain relationships and related party transactions is incorporated by reference from the section entitled “Certain Relationships and Related Party Transactions” contained in the 2013 Proxy Statement. Information regarding director independence is incorporated by reference from the section entitled “Proposal One—Election of Directors” contained in the 2013 Proxy Statement.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Information regarding principal accountant fees and services is incorporated by reference from the section entitled "Fees Paid to Independent Auditors" contained in the 2013 Proxy Statement.

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES.

(a)(1) The following consolidated financial statements of Carmike Cinemas, Inc. are included in Item 8. Financial Statements and Supplementary Data.

Financial Statements:

Report of Deloitte & Touche LLP, Independent Registered Public Accounting Firm
Consolidated Balance Sheets as of December 31, 2012 and 2011
Consolidated Statements of Operations for Years ended December 31, 2012, 2011 and 2010

Certifications

I, S. David Passman III, certify that:

1. I have reviewed this Annual Report on Form 10-K of Carmike Cinemas, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors:
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
