## Message to Shareholders

## Introduction

On behalf of the Board of Directors of Funtastic Limited we present to you our 2011 Annual Report.

## The Period in Review

The twelve months ended 31 July 2011 have been one of the most challenging periods for retail in Australia and around the world, for many years. Consumer sentiment has waned over the period, noticeably so since the last interest rate rise in late 2010 and exacerbated further at the start of this year by the numerous natural disasters. The impact of these pressures has been felt throughout Funtastic's business units as retailers have become extremely risk averse and tightly manage their working capital positions.

As a supplier to the retail channel, naturally, we are not immune from the affects the negative consumer sentiment has had on our retail customers and their attempts to consolidate their inventory positions. Additionally, one of our key retail customers has pursued a strategy of "home brand" focus that has significantly affected our sales volumes of key brands to that customer. Although we are working hard to replace the lost revenue and margin via other customers and channels, the initial sudden impact of the loss has been difficult to overcome in the short term.

Despite the broader economic downturn, the Board and Management have been extremely focussed on delivering on our business improvement initiatives which have included:

1. Further rationalisation of the product portfolio in the Toys \& Sporting business, this took the number of brands from 45 to 23 as management acknowledged that the initial reductions didn't go far enough;
2. A restructure of the International business following the realisation that it will take longer than initially thought to reach the desired revenue base, this restructure is delivering significant cost reduction;
3. Further consolidation of the Australian logistics operations into one facility;
4. The divestment of the Education business; and
5. The commencement of an operational review of the Madman business which is ongoing.

Additionally, following on from the brand rationalisation initiative, it was appropriate to ensure that the operating cost base of the business was aligned to the simpler brand portfolio, consequently management embarked on a comprehensive cost base reduction; this exercise resulted in a reduction in the ongoing cost base of $\$ 9 \mathrm{~m}$ (17\%).

Whilst the business continues to pursue a strategy of focussing only on the most profitable brands, the difficult retail conditions have resulted in delays in clearing the legacy inventory. Compounding this issue is the fact that Madman experienced a significant reduction in demand for back catalogue product in the second half. Consequently the business carried higher inventory levels into the year-end than planned and management have elected to provision prudently against the slowest moving lines in order to ensure it is not cleared at a loss.

The Group's Earnings before Interest, Taxation, Depreciation and Amortisation expenses (EBITDA), as disclosed on page 36, for the year were a loss of $\$ 29.1 \mathrm{~m}$. These earnings were negatively impacted by impairment, restructuring and other material items, as set out in the table below and totalling $\$ 32.7 \mathrm{~m}$, resulting in an underlying EBITDA of $\$ 3.6 \mathrm{~m}$ (compared with the prior 7 month period of $\$ 2.0 \mathrm{~m}$ ).

In light of the impact the general weakened retail environment has had on the earnings of the Group, management has reassessed the carrying value of a number of the assets on the Group's balance sheet, resulting in additional provisions and impairment charges in the period. These material/one-off items are discussed in detail throughout the Annual Report but in summary are comprised as follows:

Impairment Charges:
Goodwill impairment 4.5
Distribution agreements 0.9
Major legal provision 6.1
Restructuring Costs:
Restructuring costs 4.7
Other Material Items:
Acceleration in impairment of Madman prepaid royalties 6.1
Reassessment of inventory carrying values 5.2
Legacy licensor audits/disputes 3.1
Legal expenses 2.1
Total Impairment, Restructuring Costs \& Other Material Items 32.7

Included in the table above were significant one-off legal costs of $\$ 2.1 \mathrm{~m}$; these costs predominantly represent legal fees incurred defending three disputes. The legal matter in relation to MGA and Bratz Dolls was successfully settled during the year. Another dispute in respect of a former license and distribution agreement is close to being settled.The final matter relates to the proceedings against Australian Horizons Trading Pty Limited (AHT) and Jeffrey Moss as guarantor of certain AHT obligations under the Sale of Business agreement, to recover unpaid debts resulting from the sale of Funtastic's apparel business in August 2009.

Whilst the Board remain of the view that Funtastic has a strong position against the entities involved in this case, given the passage of time, the fact that AHT is now in liquidation and that Jeffrey Moss has resisted all meaningul attempts to settle, the Board have decided to fully provide for the asset recognised at the time of the sale of $\$ 6.1 \mathrm{~m}$. However, the impairment of this asset does not mean that the Board has conceded on recovering the money the Company is owed; on the contrary, the matter will continue to be vigorously pursued.

## Outlook

As an overview, the Group has realigned its product portfolio with a significant brand reduction in line with market conditions and has launched, and will continue to launch, new brands with proven international success to strengthen its portfolio in these tough trading conditions.

Despite the Group's disappointing earnings for the year to 31 July 2011 and the bleak retail environment, Funtastic, through the Toys \& Sporting business, won significant new business during the period in Lego licensed products and Squinkies; and for the FY12 financial year will introduce exciting new brands: Power Rangers, Pillow Pets, Winx and Leap Pad. The Board recognises that today's consumer is all about brands with innovation and a point of difference, so the tighter portfolio reflects consumer preference.

The Madman business is navigating a changing industry environment as the strength of DVD fades and emerging digital channels as well as expanded traditional TV content, jostle for prominence in the future. With its extensive catalogue, multi-rights distribution agreements and content arrangements with each of the major digtal delivery providers, Madman is extremely well positioned to ensure that however the landscape unfolds; it will be a significant participant. The challenge in the meantime is to ensure that the business manages its transition from physical to digital with the appropriate cost base for a period of uncertain revenues.

A strategic review of the International business has been undertaken which is delivering a reduction in the cost base and a rationalisation of the product portfolio in line with Toys \& Sporting. These changes will result in a business which is focussed on maximisingthe gobal sales opportunities of a few core brands.

The Board are therefore comfortable that the focussed approach across the Group to the product portfolio, coupled with the significant reduction in cost base, will ensure that Funtastic returns to profitability and delivers improved cash flows and debt reduction in the 2011/12 financial year. A review of the first quarter's financial performance will be provided at the upcoming Annual general Meeting which will be held in November.

Finally, in September 2011, the Group secured an extension of its financing arrangements with its senior lender, National Austraia Bank, to 31 August 2013, reflecting Nationa Australia Bank's ongoing support for the Group. Pursuant to the renegotiation of its borrowings, certain financial covenants have been introduced including amortisation of the commercial bills facility and no dividend payments permitted before 31 August 2013.

The Directors would like to thank all of our staff, shareholders, suppliers and customers for their ongoing loyalty and support whilst the Group completes its turnaround strategy.

## Corporate Governance Statement

The Corporate Governance principles that guide the operations of Funtastic Limited ("Funtastic" or "Company") are detailed in this statement. Funtastic respects and endorses the ASX Corporate Governance Council's Principles and Recommendations. The Board believes that it has been compliant with the spirit of the ASX Corporate Governance Council's Principles and Recommendations throughout the 2011 financial year.
The ASX principles that have been adopted are outlined below. Where an alternative approach has been adopted, this is outlined within the relevant section. All these practices unless otherwise stated, were in place for the entire year.

## Role and Responsibility of the Board

The Board of Directors is elected by the shareholders to represent the interests of all shareholders, collectively, and in this regard, its primary purpose is to safeguard the financial security of Funtastic.

Although responsibility for the operation of the Funtastic business is delegated to management, the Board remains responsible for, amongst other things:

B establishing, monitoring and modifying Funtastic's corporate strateges;
B ensuring best practice corporate governance;
B appointing the Chief Executive Officer and approving succession plans;
B monitoring the performance of Funtastic's management;

B ensuring that appropriate risk management systems, internal control and reporting systems and compliance frameworks are in place and are operating effectively;

B monitoring financial results;
B ensuring that business is conducted ethically and transparently;
B approving decisions concerning Funtastic's capital, including capital restructures and dividend policy; and

B ensuring effective external disclosure policies so that the market is fully informed on all matters that may influence the share price.

Board members have complete and open access to management. The Company secretary provides advice and support to the Board and is responsible for the Companys day to day governance framework.

## Structure of the Board

The Board comprises four non-executive directors and two executive directors (the Managing Director/Chief Executive Officer and the Executive Director). The details of each director's qualifications, experience and skills are set out on page 12 of the Annual Report.

The chairman of the Board is a non-executive director and is elected by the Board. The chairman is responsible for the management of the affairs of the Board and represents the Board in periods between Board meetings.

## Board Membership

The members of the Board and details regarding their appointment, removal, term of office, attendance at Board meetings and other committee meetings, skills and experience are detailed in the Directors' Report. The Board composition is determined using the following principles:
B the Board should comprise between 3 and 9 directors;
$B$ the maximum age for directors is 72;
B the Board should comprise directors with a broad range of skills and experience; and
B the term of any appointment is subject to continuing shareholder approval.

The directors believe that limits on tenure may cause loss of experience and expertise that are important contributors to the efficient working of the Board. As a consequence, the Board does not support arbitrary limits on tenure and regards nominations for re-election as not being automatic but based on the needs of Funtastic. The constitution sets out the rules to which Funtastic must adhere and which include rules as to the nomination, appointment and re-election of directors. The constitution provides for two of the directors (excluding the Managing Director) to retire and stand for re-election each year at the Annual General Meeting. Directors appointed during the year by the Board stand for re-election at the next Annual General Meeting

## Board and Director Independence

The Board has assessed the criteria for independence as outlined in the ASX Corporate Governance Council's best practice recommendation 2.1. Independent directors of Funtastic are those not involved in the day to day management of the company and are free from any real or reasonably perceived business or other relationship that could materially interfere with the exercise of their unfettered and independent judgement.
Currently, three of the six directors are considered to be independent. It is the Board's view Mr Shane Tanner, Ms Linda Norquay and Mr Stephen Heath are independent directors. On 2 September 2011, Mr James Flintoft (also deemed independent) resigned from the Board.

Mr Craig Mathieson is not considered to be an independent director due to him being a substantial shareholder and having an interest in a company that supplies services to Funtastic.

Mr Stewart Downs and Mr Nir Pizmony are Executive Directors and are deemed not to be independent directors.

Regardless of whether directors are defined as independent, all directors are expected to bring independent views and judgement to Board deliberations.

The Board strongly believes that the degree of commitment, depth of experience and independence of thought present in the current structure is appropriate and will best serve the company and all its shareholders at this stage of its development. The Board periodically assesses the independence of each director.
Funtastic operates in an entrepreneurial environment and requires, and benefits from, the passionate involvement of directors who have been either instrumental in the business, and or who have specialised knowledge of, and expertise in, this business sector.
Funtastic has noted the ASX Corporate Governance Council's best practice recommendation that listed companies have an independent director as Chairman of the Audit, Risk and Compliance Committee. This Committee is comprised of three non-executive directors. Mr Craig Mathieson is the chairman of the committee. The Board considers that two independent directors on the committee are sufficient for the independence of the committee.

## W ork of Directors

Materials for Board meetings are circulated in advance. The agenda is formulated with input from the Chief Executive Officer and the Chairman. Directors are free to nominate matters for inclusion on the agenda for any Board or Board committee meeting
The Board is provided with reports from management on the financial performance of each business unit. The reports include details of all key financial results reported against budgets approved by the Board, with regular updates on forecasts for the year. The Chief Executive Officer and Chief Financial Officer attest to the integrity of the financial reports provided to the Board each meeting. Similarly, the written statement provided to the Board, in relation to Funtastic's full year accounts states that Funtastic's financial reports present a true and far view, in all material respects. Further, it confirms that Funtastic's financial condition and operational results are in accordance with relevant accounting standards.
Non-executive directors spend approximately thirty days each year on Board business and activities including Board and committee meetings, visits to operations and meeting employees, customers, business associates and other stakeholders.

The Chairman regularly meets with the Chief Executive Officer to review key issues and performance trends affecting the business of Funtastic.

## Conflict of Interest

In accordance with the Corporations Act 2001 (Oth) and Funtastic's Constitution, directors must keep the Board advised on an ongoing basis, of any interest that could potentially conflict with those of Funtastic. Where the Board believes that a significant conflict exists, the director
concerned does not receive the relevant Board papers and is not present at the meeting while the item is considered.

## Independent Professional Advice

Each director has the right to seek independent professional advice at the expense of Funtastic. Prior written approval of the chairman is required, which will not be unreasonably withheld. All directors are made aware of the professional advice sought and obtained.

## Communication and disclosure

The company complies with all relevant disclosure laws and Listing Rules prescribed by the ASX and has policies and procedures designed to ensure accountability at a senior management level for that compliance.
The company secretary is accountable to the Board, through the Chairman, on compliance and governance matters.
Funtastic is committed to effective communication with its investors so as to give them ready access to balanced and understandable information.

## Director competencies

The Board plans annual self assessments of its collective performance, and its subcommittees. This exercise takes into consideration the collective directors competency, skills, experience and expertise. Where necessary, Funtastic will provide the required resources to assist directors in improving their performance.

New directors are provided with a letter of appointment setting out the Company's expectations, their responsibilities, rights and the terms and conditions of their appointment. All new directors participate in an induction program which covers the operation of the Board and its committees and financial, strategic, operations and risk management issues.

## Ethical Standards

All directors, officers and employees are expected to perform their duties professionally and act with the utmost integrity and objectivity, striving at all times to enhance the reputation and performance of Funtastic and its brands. The Board oversees the identification and implementation of procedures and development of policies in respect of the maintenance of appropriate ethical standards. Funtastic has a Code of Conduct, which sets out the standards as to how directors and employees of Funtastic are expected to act. Employees are required to read the updated Employee Code of Conduct in the performance of their duties and to sign an acknowledgement stating that they have read and understood this document.

## Dealings in Funtastic shares by Directors, Officers and Employees

The Board permits directors to acquire shares in Funtastic. It is recommended that all employees do not buy or sell shares in the company at any time they are aware of any material price sensitive information that has not been made public, and are reminded of the laws against "insider trading". Certain "Designated Officers", including all directors and senior executives, are also prohibited from
trading during certain "blackout" periods. These blackout periods are:
(a) From the close of the accounts (on 31 January each year) to 2 business days after the publication to the ASX of the half-year financial results; i.e. the Appendix 4D (a 2 business day blackout period would apply from the publication to the ASX of the final half-year financial report in the event that they were materially different from the Appendix 4D results);
(b) From the close of the accounts (on 31 July each year) to 2 business days after the publication to the ASX of the full-year financial results; i.e. the Appendix 4 E (a 2 business day blackout period would apply from the publication to the ASX of the final full-year financial report in the event that they were materially different from the Appendix 4E results); and
(c) Forty-eight hours after the public release of any market guidance update.
Exceptions to this prohibition can be approved by the Chairman (for other directors) or the Company Secretary (for all other employees) in circumstances of financial hardship. Prohibitions also apply to financial instruments related to Funtastic shares and to trading in the shares of other entities using information obtained through employment with Funtastic.
In accordance with provisions of the Corporations Act 2001 ( Cth ) and the Listing Rules of the Australian Stock Exchange (ASX), directors or their related entities advise the ASX of any transaction conducted by them in buying or selling any shares in Funtastic.

## Ethical Compliance

Funtastic uses its best endeavours through contract negotiations to ensure that all its products are manufactured in accordance with local and internationally accepted labour, environmental and employment laws. Funtastic is working to ensure that manufacturing occurs under working conditions that meet legal standards and without the use of child, forced or prison labour.

## Nomination Committee

The current members of the Nomination Committee are Shane Tanner (Chairman), Craig Mathieson, Linda Norquay and Stephen Heath.

The role of the Nomination Committee is to assist the Board in ensuring that the Board is comprised of individuals who are best able to discharge the responsibilities of a Director, having regard to the law and the highest standards of governance, by:

B assessing the skills, knowledge, experience and diversity required on the Board and the extent to which they are represented;

B establishing processes for the identification of suitable candidates for appointment to the Board; and
ß overseeing succession planning for the Board.

[^1]The principal purposes of the Committee are to:
B establish a formal and transparent procedure for the selection and appointment of new directors to the Board;
B regularly review the succession plans in place for membership of the Board to ensure that an appropriate balance of skills, experience and expertise is maintaned;
B review the time commitment required from a nonexecutive director and whether non-executive directors are meeting this requirement; and
B take all reasonable steps to ensure that all individuals nominated for appointment to the Board as a nonexecutive director, expressly acknowledge prior to their election, that they are able to fulfill the responsibilities and duties expected of them
The committee secks advice and guidance, as appropriate, from external experts.

## Audit, Risk and Compliance Committee

The members of the Audit, Risk and Compliance Committee are Craig Mathieson (Chairman), Shane Tanner, Linda Norquay and Stephen Heath.

## Audit, Risk and Compliance Committee Charter and Responsibilities

The Committee's key responsibilities and functions are to:
B monitor the company's relationship with the external auditor (including the rotation of external auditor personnel on a regular basis) and the external audit function generally;

B oversee the adequacy of internal control systems in relation to the preparation of financial statements and reports; and
B oversee the process of identification and management of business, financial and commercial risks.

## Meetings of the Audit, Risk and Compliance Committee

The Audit, Risk and Compliance Committee may have in attendance or by invitation such members of management or others as it may deem necessary to provide appropriate information or explanations.
The Audit, Risk and Compliance Committee meets at least three times per year and more frequently if required. The External Auditor attends Audit, Risk and Compliance Committee meetings when requested by the Audit, Risk and Compliance Committee Chairman.

## Reporting by the Audit, Risk and Compliance Committee

The Chairman of the Audit, Risk and Compliance Committee ordinarily reports to the full Board after committee meetings. The Audit, Risk and Compliance Committee reports matters regarding its role and responsibilities, including:

A the system of internal control, which management has established to safeguard the company's assets;
is processes are in place such that accounting records are properly maintained in accordance with statutory requirements; and
B processes exist to reasonably guarantee that financial information provided to investors and the Board is reliable and free of material misstatement.

The following are intended to form part of the normal procedures for the Committee's audit responsibility:

B recommending to the Board the appointment and removal of the external auditors and reviewing the terms of engagement;
B approving the audit plan of the internal and external auditors;
is monitoring the effectiveness and independence of the external auditor;

B obtaining assurances that the audit is conducted in accordance with the Auditing Standards and all other relevant accounting policies and standards;
is providing recommendations to the Board as to the need for and the role of an internal audit function;

B reviewing and appraising the quality of audits conducted by the internal and external auditors and confirming their respective authority and responsibilities;

As monitoring the relationship between management and the external auditors;
B determining the adequacy, effectiveness, reliability, and appropriateness of administrative, operating and internal control systems and policies;

B evaluating compliance

Certification by the Chief Executive Officer and Chief Financial Officer to the Board that:
B the financial statements provide a true and fair view, in all material respects of Funtastic's financial condition and operating results;
B the financial statements provide a sound system of risk management and internal compliance and control;
$B$ there is compliance with relevant laws and regulations;
B Funtastic's risk management, internal compliance and control systems are operating efficiently and effectively in all material respects; and

B all material business risks have been identified and communicated to the Board.

## Internal Audit Function

During the year, there was a dedicated internal audit function to conduct internal control reviews and assessments as and when required by the Audit, Risk and Compliance Committee. The Board received and reviewed the minutes of the meetings of all Board committees including the Audit, Risk and Compliance Committee. During the year, the internal audit function was absorbed into the Head Office finance department.

The external audit function is separate and independent of the above functions.

## Remuneration and Evaluation Committee

The members of the Remuneration and Evaluation Committee are Shane Tanner (Chairman), Craig Mathieson, Stephen Heath and Linda Norquay.
The Remuneration and Evaluation Committee is appointed by the Board primarily to monitor, review, assess, recommend, and approve:
B remuneration policies and practices which will serve to attract and retain executives and directors who will create value for shareholders. These policies and practices should fairly and responsibly reward executives and directors, having regard to the performance of the Company, the performance of the individual, and the general remuneration environment;
ß succession planning for Senior Executives who report directly to the Chief Executive Officer;
B the remuneration, superannuation and incentive policies for Senior Executives who report directly to the Chief Executive Officer; and
B all equity and cash-based remuneration plans.
The Remuneration and Evaluation Committee provides additional support for the human resources strategy of Funtastic. It assists the Board by ensuring that the appropriate people, people related strategies, policies and procedures are in place to support Funtastic's vision and values, and its strategic and financial goals.

## Remuneration and Evaluation Committee Charter and Responsibilities

The committee is responsible for monitoring, reviewing, reporting and recommending to the Board with respect to each of the following
B the company's policy for determining executive and non-executive directors remuneration, superannuation, and incentives as well as any retention or other compensation payments, and any proposed amendments to the policy;
B remuneration includes base pay, incentive payments, equity awards, retirement rights and service contracts;

B the implementation of the remuneration policy;
B the proposed specific remuneration for each nonexecutive and executive director, including the Chief Executive Officer, having regard to independent advice and the remuneration policy. The committee will need to determine whether any shareholder approvals are required. The remuneration of individual nonexecutive directors will ultimately be determined by the Board and, approved in aggregate by the shareholders in accordance with the Corporations Act 2001 (ath) and the ASX Listing Rules;
B the proposed specific remuneration and other benefits for the direct reports of the Chief Executive Officer and the design of all incentive plans, including performance hurdles; and

## Components of Compensation

## Fixed Compensation

The terms of employment for all executive management contain a fixed compensation component, which is expressed in local currency. This fixed component is set in accordance with the market rate for a comparable role by reference to appropriate external benchmark information and having regard to an individual's responsibilities, performance, qualifications, experience and location. An executives' compensation is also reviewed on promotion.

Fixed compensation includes contributions to superannuation and pension plans in accordance with relevant legislation or as contractually required. Fixed compensation is structured as a total employment cost package which may be delivered to the executive as a mix of cash and prescribed non-financial benefits at the executive's discretion. There are no guaranteed pay increases in any senior executive's contract.
Benefits for termination of employment may be payable subject to the circumstances of the termination and within the terms of the employment contract.

## At risk Compensation

## Annual Bonus

The annual cash bonus represents the actual entitlements payable under Funtastic's annual short-term incentive plan (STI). Details are set out below of the amount available for the bonus and the performance conditions that were required to be satisfied in order for the bonus to be payable.
The STI plan is a cash-based plan that involves linking specific targets (predominantly financial) with the opportunity to earn incentives based on a percentage of fixed compensation.

Previously, during the period ended 31 July 2010, the performance measures were based on NPAT, inventory levels and product category earnings. In 2010 proportions applicable to each component and entitlement were determined according to the respective executive's level and area of responsibility. Performance against the objectives was determined and incentives and entitlements assessed against the audited financia results.

However, other than STI bonuses paid to Tim Anderson and Paul Wiegard, as a result of the Group's turnaround strategy and the revision to the STI plan, there were no STI plan bonuses paid, or payable, to any Group executive for the year ended 31 July 2011.

The terms of Tim Anderson and Paul Wiegard's STI bonuses are outlined below:
In the event that Entertainment's earnings before interest, tax and amortisation expenses (EBITA) for the 12 months from 1 January 2010 to 31 December 2010 is reasonably expected to reach $\$ 8$ million, each individual will be eligible for a bonus of $\$ 58,333$.

EBITA has the following agreed normalisations:

- Subtract $20 \%$ of any change in balance sheet totals for capital expenditure and inventory compared to the prior period; and
- Exclusion of all costs and expenses of auditing Entertainment's financial statements and any other nonoperational costs charged by Head Office.

## Share Options/Share Performance Right Plans

The Company's long-term incentive arrangements are designed to link executive compensation with growth in shareholder value through the grant of options or rights over equity securities (shares) in the Company. Options are granted under the Company's Executive Share Option Plan (ESOP) which was approved by shareholders and directors of the Company on 2 August 2000. Performance Share Rights are granted under the Funtastic Employee Performance Share Rights Plan (EPSR) which was established in 2005.

Participation in the ESOP and/or EPSR is offered to executives who are able to influence, or who have the potential to influence, the generation of shareholder wealth, as assessed against the LTI performance hurdles.
In general, eligible executives are offered annual grants under the plans which in total are designed to be the equivalent of up to $30 \%$ of their annual fixed compensation on an annualised basis.

Options and/or rights are granted for no consideration. The performance periods, performance hurdles and other terms and conditions are set by the Board for each grant of options or rights. The options or rights vest and become exercisable only when the specific criteria for each grant are met.

The Board's current policy does not allow Group executives to limit their exposure to risk in relation to their equity options without prior consultation and approval of the Board.

The performance conditions attached to the Company's share options and EPSR's are outlined below:

## Remuneration Report (continued)

## Share Options- Performance condition 2 (type 2)

In respect to one half of the options granted the following performance conditions are required to be achieved:
(a) for $50 \%$ to vest the average annual diluted earnings per share (EPS) growth rate over a three year period, is required to be 11\%pa;
(b) for the remaining $50 \%$ to vest the average annual diluted EPS growth rate over a three year period, is required to be 15\%pa;
(c) if the average annual growth in diluted EPS growth over the three year period, is between $11 \%$ pa and $15 \%$ pa, the options will vest proportionately from $50 \%$ up to $100 \%$ of the entitlement; and
(d) the employee being in continuous employment with the company until 31 March in the year following the three years.

In respect of the other half of the options granted the following performance conditions are required to be achieved:
(a) for $50 \%$ to vest, Funtastic's relative total shareholders return (TSR) during the three year period is required to be at least equal to the TSR achieved by the company which is the median of the companies in the Comparator Group ranked by TSR performance (The Comparator Group comprises the companies in the S\&P ASX small ordinaries index at the start of the period);
(b) for the remaining $50 \%$ of the entitlement to vest, Funtastic's TSR has to be equal to or greater than the TSR of the company which is at the 75th percentile of the Comparator Group ranked by TSR performance during the three year period;
(c) for each percentile increase in Funtastic's TSR ranking above the median ranking up to the 75th percentile, an additional $2 \%$ vests up to $100 \%$ and
(d) the employee being in continuous employment with the Company until 31 August in the year following the three years.

The amounts disclosed above for remuneration relating to ESOPs and EPSRs are the assessed fair values at the date they were granted to executives. Fair values have been determined in accordance with AASB 2 'Share Based Payments' where the value is determined at grant date, and are included in remuneration on a proportionate basis from grant date to vesting date. Details of the valuation method are disclosed in note 2(I).

## Share Options- Performance condition 3 (type 3)

For each of the three years, one third of the options will vest on the anniversary of employment provided there is a $30 \%$ compound share growth based on the exercise price of 13.5 cents. In such case the following performance hurdles are requ Tm ( )Tj 108.249 Tm() $\mathrm{Tj} / F 19.9609 \mathrm{Tf} 108898 \mathrm{Tm}(\mathrm{f}) \mathrm{Tj} 1001547.44381 .90098 \mathrm{Tm}$ (o)Tj 101547.44381 .92014

## Share Options- Performance condition 4 (type 4)

Type 4 options are identical to type 3 options in every regard, except for the following exercise price and performance hurdles:

B For each of the three years, one third of the options will vest on the anniversary of employment provided there is a $30 \%$ compound share growth based on the exercise price of 20.7 cents. In such case the following performance hurdles are required to be achieved:
a) in year 1 the share price to be no less than 27 cents;
b) in year 2 the share price to be no less than 35 cents; and
c) in year 3 the share price to be no less than 45 cents.

## EPSR - Performance Condition 2 (type 2)

In respect to one half of the options granted the following performance conditions are required to be achieved:
a) for $50 \%$ to vest, the diluted earnings per share (EPS) average increase in growth rate over three years, is required to be 11 \% p.a;
b) for the remaining 50\% to vest the average diluted EPS growth rate over the three years, is required to be $15 \%$ pa;
c) if the average annual increase in diluted EPS growth rate over three years, is between $11 \%$ pa and $15 \%$ pa, the options will vest proportionately from $50 \%$ up to $100 \%$ of the entitlement; and
d) the employee being in continuous employment with the company until 31 March in the year following the three years. In respect of the other half of the options granted the following performance conditions are required to be achieved:
a) for $50 \%$ to vest, Funtastic's relative total shareholders return (TSR) during the three year period is required to be at least equal to the TSR achieved by the company which is the median of the companies in the Comparator Group ranked by TSR performance (The Comparator Group comprises the companies in the S\&P ASX small ordinaries index at the start of the period);
b) for the remaining $50 \%$ of the entitlement to vest, Funtastic's TSR has to be equal to or greater than the TSR of the company which is at the 75th percentile of the Comparator Group ranked by TSR performance during the three year period.

The following table summarises the value of options/EPSRs granted, exercised or lapsed during the year to directors and executives:

|  | Options / EPSRs Granted <br> Value at grant date (i) | Options/ EPSRs <br> Exercised <br> Value at exercise date | Options/ EPSRs Lapsed Value at time of lapse (ii) | Value of options and / or EPSRs included in remuneration for the period | Percentage of total remuneration for the period that consists of options / EPSRs |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | \$ | \$ | \$ | \$ | \% |

## Non-audit services

Details of amounts paid or payable to the auditor for non-audit services provided during the year by the auditor are outlined in note 39 to the financial statements. The directors are satisfied that the provision of non-audit services, during the year, by the auditor (or by another person or firm on the auditor's behalf) is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

The directors are of the opinion that the services as disclosed in note 39 to the financial statements do not compromise the external auditor's independence, based on advice received from the Audit, Risk and Compliance Committee, for the following reasons:
B all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and

B none of the services undermine the general principles relating to auditor independence as set out in Code of Conduct APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional \& Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the company, acting as advocate for the company or jointly sharing economic risks and rewards.

## Auditor's independence declaration

A copy of the Auditor's Independence Declaration as required under section 307C of the Corporations Act 2001 is set out on page 32 of this annual report.

This directors' report is signed in accordance with a resolution of directors made pursuant to s.298(2) of the Corporations Act 2001.

On behalf of the Directors,

## Shane Tanner <br> Chairman of the Board

Melbourne

The Board of Directors<br>Funtastic Limited<br>Level 2, Tower 2, Chadstone Place<br>1341 Dandenong Road,<br>CHADSTONE VIC 3148

30 September 2011

Dear Board Members

## Funtastic Limited

In accordance with section 307C of the Corporations Act 2001, I am pleased to provide the following declaration of independence to the directors of Funtastic Limited.

As lead audit partner for the audit of the financial statements of Funtastic Limited for the financial year ended 31 July 2011, I declare that to the best of my knowledge and belief, there have been no contraventions of:
(i) the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
(ii) any applicable code of professional conduct in relation to the audit.

Yours sincerely

# Independent Auditor's Report to the members of Funtastic Limited 

## Report on the Financial Report

We have audited the accompanying financial report of Funtastic Limited, which comprises the balance sheet as at 31 July 2011, the statement of comprehensive income, the statement of cash flows and the statement of changes in equity for the year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity, comprising the company and the entities it controlled at the year's end or from time to time during the financial year as set out on pages 35 to 105 .

## Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 2, the directors also state, in accordance with Accounting Standard AASB 101 Presentation of Financial Statements, that the consolidated financial statements comply with International Financial Reporting Standards.

## Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control, relevant to the entity's preparation of the financial report that gives a true and fair view, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Auditor's Independence Declaration

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001. We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of Funtastic Limited, would be in the same terms if given to the directors as at the time of this auditor's report

## Opinion

In our opinion:
(a) the financial report of Funtastic Limited is in accordance with the Corporations Act 2001, including:
(i) giving a true and fair view of the consolidated entity’s financial position as at 31 July 2011 and of its performance for the year ended on that date; and
(ii) complying with Australian Accounting Standards and the Corporations Regulations 2001; and
(b) the consolidated financial statements also comply with International Financial Reporting Standards as disclosed in Note 2.

## Material Uncertainty Regarding Continuation as a Going Concern

Without qualification to the opinion expressed above, attention is drawn to Note 2 in the financial statements which indicates that the consolidated entity incurred a net loss of \$38,205,000 during the year ended 31 July 2011 and, as of that date, the consolidated entity's current liabilities exceeded its current assets by $\$ 46,505,000$. These conditions, along with other matters as set forth in Note 2, indicate the existence of a material uncertainty which may cast significant doubt about the consolidated entity's and the company's ability to continue as going concerns and therefore, the consolidated entity and the company may be unable to realise their assets and discharge their liabilities in the normal course of business.

## Report on the Remuneration Report

We have audited the Remuneration Report included in pages 18 to 31 of the directors' report for the period ended 31 July 2011. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

## Opinion

In our opinion the Remuneration Report of Funtastic Limited for the period ended 31 July 2011, complies with section 300A of the Corporations Act 2001.

## NOTE 1: Adoption of new and revised accounting standards

In the current year, the Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to its operations and effective for the current annual reporting period.

The following new and revised Standards and Interpretations have been adopted in these financial statements. Their adoption has not had any significant impact on the amounts reported in these financial statements of the Group.

- AASB 2009-5 'Further Amendments to Australian Accounting Standards arising from the Annual Improvements Project'
- AASB 2009-8 ‘Amendments to Australian Accounting Standards - Group Cash-settled Share-based Payment Transactions'
- AASB 2010-3 'Amendments to Australian Accounting Standards arising from the Annual Improvements Project'

The following standards have been adopted in advance of the effective date of 1 January 2011:

- Amendments to AASB 7 'Financial Instruments: Disclosure’
- AASB 2010-4 'Further Amendments to Austrdian Accounting Standards arising from the Annual Improvements Project'.

The adoption of these new and revised Standards and Interpretations did not have any material financial impact on the amounts recognised in the financial statements of the Group, however they have impacted the disclosures presented in the financial statements. At the date of authorisation of the financial report, the following relevant Standards and Interpretations were issued but not yet effective:

| Standard//Interpretation | Effective for annual reporting period beginning on or after | Expected to be initially applied in the financial year ending |
| :---: | :---: | :---: |
| AASB 124 'Related Party Disclosures' (revised December 2009), AASB 2009-12 'Amendments to Australian Accounting Standards' | 1 January 2011 | 31 July 2012 |

| AASB 2011-7 'Amendments to Australian Accounting Standards arising from the Consolidation and Joint Arrangements Standards' | 1 January 2013 | 31 July 2014 |

The directors anticipate that the adoption of these Standards and Interpretations in future periods will have no material financial impact on the financial statements of the Group.

## NOTE 2: Significant accounting policies

## Statement of compliance

These financial statements are general purpose financial staements which have been prepared in accordance with the Corporations Ad 2001 (ath), Accounting Standards and Interpretations, and comply with other requirements of the law. The financial statements comprise the consolidated financial statements of the Group.

Accounting Standards include Australian Accounting Standards. Compliance with Australian Accounting Standards ensures that the financial statements and notes of the Company and the Group comply with International Financial Reporting Standards ('IFRS').
The financial statements were authorised for issue by the directors on 30 September 2011.
The Company is a company of the kind referred to in ASIC Class Order 98/0100, dated 10 July 1998, and in accordance with that Class Order amounts in the director's report and the financiad report are rounded off to the nearest thousand dollars, unless otherwise indicated.

## Basis of preparation

The financiad report has been prepared on the basis of historical cost, except for derivative financial instruments that have been measured at fair value. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise stated.
The prior period covers a 7 month period and is therefore not comparable to the current period.
Going concem basis
The financial report has been prepared on the going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.
For the reasons described below, there is significant uncertainty whether the Group will continue as a going concern:
B The Group made a loss for the year of $\$ 38,205,000$ (2010: a loss for the seven month period of $\$ 3,579,000$ ) and as at 31 July 2011 has net assets of $\$ 33,198,000$ (2010: $\$ 73,260,000$ ) and net current liabilities of $\$ 46,505,000$ (2010: net current assets of $\$ 64,817,000)$.
B Whilst management has prepared forecasts that show that the Group can continue to operate as a going concern for the foreseeable future, there is a material uncertainty in respect of the existing challenging retail conditions and the likely range of impacts that this may have upon the forecast trading of the Group.

B As foreshadowed in the Appendix 4D for the half-year ended 31 January 2011, the Group has, again successfully, extended the maturity date of its finanding arrangements to 31 August 2013. This documentation was finalised in September 2011 a

However, notwithstanding these reasons, in the event that:

- the Group is not able to meet its trading and cash flow forecasts; and/or
- the Group is not able to satisfy the financial covenants and undertakings imposed on it by its bankers, including the repayment of debt,
there is material uncertainty whether the Group and the Company will be able to continue as going concerns and, therefore, whether they will realise their assets and extinguish their liabilities in the normal course of business and at the amounts stated in the financial report.
The financial report does not include any adjustments that may be appropriate relating to the recoverability and classification of recorded asset amounts nor to the amounts and classification of liabilities that might be necessary should the Group and the Company not continue as going concerns.
The following significant accounting policies have been adopted in the preparation and presentation of the financial report:

## (a) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries) (referred to as "the Group" in these financial statements). Control is achieved where the company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.
The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.
All intra-Group transactions, balances, income and expenses are eliminated in full on consolidation.

## (b) Income Tax

(i) Current tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the national income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements and to unused tax losses.
(ii) Defered tax

Deferred tax is accounted for using the balance sheet liability method. Assets and liabilities are recognised for temporary differences at the tax rates expected to apply
when the assets are recovered or liabilities are settled, based on those tax rates which are enacted, or substantively enacted, for each jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability.

An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to these temporary differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.
(iii) Current and deferred tax for the period

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

## (iv) Tax Consolidation

The company and its wholly-owned Australian resident entities are part of a tax-consolidated Group under Australian taxation law. Funtastic Limited is the head entity in the
operates ('the functional currency'). The consolidated financial statements are presented in Australian dollars, which is Funtastic Limited's functional and presentation currency.

## (ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement, except when deferred in equity as qualifying cash flow hedges and qualifying net investment hedges.

Translation differences on non-monetary items, such as equities held at fair value through profit or loss, are reported as part of the fair value gain or loss.
(iii) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
B assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
B income and expenses for each income statement are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
B all resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other currency instruments designated as hedges of such investments, are taken to equity. When a foreign operation is sold or borrowings repaid a proportionate share of such exchange differences are recognised in the income statement as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

## (d) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits at call which are readily convertible to cash on hand and are subject to an insignificant risk of changes in value. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

## (e) Revenue

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, discounts, rebates, and GST paid.

Revenue from the sale of goods is recognised when a Group entity has delivered products to the customer. Delivery does not occur until the products have been shipped to the specified location, the risks of obsolescence and loss have been transferred to the customer, and the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed or the Group has objective evidence that all criteria for acceptance have been satisfied.
Commission revenue is recorded when the consideration is receivable based on when the goods have been dispatched to a customer by the third party.
Interest income is recognised on a time proportionate basis using the effective interest rate method.
Management fee revenue is recognised in accordance with the entitlement to fees for the management services provided and is brought to account on an accrual basis.

## (f) Property, Plant and Equipment

Plant and equipment are stated at cost less accumulated depreciation and impairment. Cost includes expenditure that is directly attributable to the acquisition of the item.
Depreciation is calculated on a straight line or diminishing value basis to write off the net cost of each item of property, plant and equipment (excluding land) over the shorter of its expected useful life and the lease term. Estimates of remaining useful lives are made on a regular basis for all assets, with annual reassessments for major items. The cost of improvements to or on leasehold properties is amortised over the estimated useful life of the improvement to the Group.

The expected useful lives are as follows:

| Plant and equipment: | 2.5 to 10 years |
| :--- | :--- |
| Leasehold improvements: | 5 Years |

## (g) Loans and receivables

Trade, loans and other receivables, are measured at amortised cost, less allowance for doubtful debts, rebates and settlement discounts, where appropriate.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off. An allowance for doubtful receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables. The amount of the allowance is recognised in the income statement.

## (h) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs are assigned to individual items of stock on the basis of weighted average costs. Net realisable value represents the estimated selling price less
recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated imparment losses. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is recognised in profit or loss in the year in which the expenditure is incurred. Amortisation of the Group's intangble assets is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each annual reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

## (r) Goodwill

Goodwill arising in a business combination is recognised as an asset at the date that control is acquired (the acquisition date). Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.
If, after reassessment, the Group's interest in the fair value of the acquiree's identifiable net assets5eq. 4098 Tm (n)T5t
in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in the income statement. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in equity is immediately transferred to the income statement.

## (t) Financial assets

All financial assets are recognised and derecognised on trade date where the purchase or sale of financial asset is under contract whose terms require delivery of the investment within the timeframe established by the market concerned, and are initially measured at fair value, plus transaction costs, except for those financial assets classified as fair value through profit or loss (FVTPL) which are initially measured at fair value.

Financial assets are classified as at FVTPL when the financial asset is either held for trading or it is designated as at FVTPL. A financial asset is classified as held for trading if:

B it has been acquired principally for the purpose of selling it in the near term; or
B on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking or
B it is a derivative that is not designated and effective as a hedging instrument.
Financial assets at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the statement of comprehensive income. Fair value is determined in the manner described in note 35.

Convertible notes receivable are classified as held to maturity investments. Held to maturity investments are recorded at amortised cost using the effective interest method less impairment, with revenue recognised on an effective yield basis.
(i) Impairment of finandial assets

Financial assets are assessed for indicators of impairment at each balance sheet date. Financial assets are impaired where there is objective evidence that as a result of one or more events that occurred after the initial recognition of the financial asset the estimated future cash flows of the investment have been impacted. For financial assets carried at amortised cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estif
virtually certain that recovery will be received and the amount if the receivable can be measured reliably.
A restructuring provision is recognised when the Group has developed a detailed formal plan for the restructuring and has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement the plan or announcing its main features to those affected by it. The measurement of a restructuring provision includes only the direct expenditures arising from the restructuring, which are those amounts that are both necessarily entailed by the restructuring and not associated with the ongoing activities of the entity

## (w) Onerous contracts

The Group enters into royalty contracts with key suppliers. The terms of the royalty agreements require minimum level of royalty payments to be offset against the minimum guarantees paid at the start of the contract. An onerous contract is deemed to exist for the Group if, after calculating the net contribution relating to the products sold under the specific contact, there is a shortfall between the minimum guarantee and the actual royalty derived (or forecast to arrive in future periods) from the reported sales. Net contribution is calculated after taking into account net sales revenue, cost of goods sold, applicable royalties and direct selling costs. If the royalty shortfall cannot be recovered from the resulting net contribution a provision for onerous contracts is made to the statement of comprehensive income.

## (x) Impairment of tangible and intangible assets (other than goodwill)

At each reporting date, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Group estimates the recoverable amount of the cash-generating unit to which
the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest Group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for imparment annually and whenever there is an indication that the asset may be impared.

Recoverable amount is the higher of fair value less cost to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the profit and loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash generating unit) is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no imparment loss been recognised for the asset (cash-generating unit) in prior years.

## NOTE 3: Critical accounting judgments and key sources of estimation uncertainty

In the application of the Group's accounting policies, which are described in note 2, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actuad results may differ from these estimates.
The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

## Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

## B Estimated impaiment of goodwill and other non-arrent assets

The Group tests annually whether goodwill has suffered any imparment, in accordance with the accounting policy stated in Note 2 (r). The recoverable amount of each cash-generating unit has been determined based on valuein-use calculations. These calculations require the use of assumptions. Refer to note 16 for details of these assumptions.

## B Recoverability of prepaid and cormmitted roylty and license agreements

In order to secure product distribution rights the Group is required to prepay for roydties relating to licensed products. The Group reviews the recoverability of prepaid royalty and license ageements (note 12), on an annual basis. The Group takes into account current and projected market sell through in assessing the recoverability of royalty commitments.
Following a weak trading performance during the year, which manifested itself within the underlying profitability of numerous licenses and 'titles' held by the Group, management has identified that the recoverability of its prepaid royalties is materially less than their carrying value. This has resulted in the recognition of prepaid royalties impairment loss of $\$ 6,077,000$.

## B Settlement of licence audits

Product licence agreements contain audit rights for licensors. At year end in respect of licensor audits the Group has provided for the best estimate of amounts payable. The final amounts payable will be subject to negotiation with the licensor and may differ to the amounts provided.

## B Recoverability of inventory

As outlined in note 2(h) inventories are stated at the lower of cost and net realisable value (NRV), where NRV represents the estimated selling price less all estimated costs of completion and costs necessary to make the sale. The Group periodically assesses whether the NRV of its inventories is reasonable in light of changing market conditions, specifically the recent softening of the retail industry. Whilst the Group has provided to recognise the best estimate for the amount for which its inventory will be realised, the final amounts will be subject to the prevailing market conditions and may differ from the amounts provided.

## NOTE 4: Segment information

Under the requirements of AASB 8 Operating Segments, information reported to the Group's Chief Executive Officer for the purposes of resource allocation and assessment of performance is more specifically focused on the following categories of products:

- Toys and Lifestyle Merchandise
- International
- Entertainment
- Other

The Toys and Lifestyle Merchandise reportable segment distributes licensed toys, sporting equipment, nursery equipment and confectionary. The International reportable segment designs and sources unique product offerings for worldwide distribution. The Entertainment reportable segment distributes licensed films and merchandise. The Other reportable segment incorporates all other trading operations.

The following is an andysis of the Group's revenue and results by reportable operating segment for the financial year/period under review:

## Continuing operations

Toys and Lifestyle Merchandise

## NOTE 4: Segment information (continued)

The revenue reported above represents revenue generated from external customers. There were no intersegment sales during the period.
Segment profit represents the profit earned by each segment without allocation of central administration costs and directors' salaries, share of profits of associates, investment revenue and finance costs, income tax expense, and gains or losses on disposal of associates and discontinued operations. This is the measure reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance.

## Geographical Information

The Group operates in three principal geographical areas - Australia; New Zealand; and Hong Kong. The Group's revenue from external customers and information by geographical location is as follows:

|  | Revenue from External Customers |  |
| :--- | ---: | ---: |
| $\mathbf{1 2}$ months ended | $\mathbf{7}$ months ended |  |
| $\mathbf{3 1}$ July | 31 July |  |

| New Zealand | $\mathbf{3 , 4 9 1}$ | 2,074 |
| HongKong | $\mathbf{1 6 , 3 5 0}$ | 4,840 |

## Information about major customers

Included in revenues of Toys and Lifestyle Merchandise of $\$ 108,822,000$ (2010: $\$ 67,285,000$ ), are revenues of approximately $\$ 87,245,000$ (2010: $\$ 48,688,000$ ), which arose from sales to the Group's four largest customers. Included in revenues of Entertainment of $\$ 52,512,000$ (2010: $\$ 35,363,000$ ) are revenues of approximately $\$ 27,431,000$ (2010: $\$ 19,987,000$ ) which arose from sales to the Group's four largest customers.

In accordance with Group accounting policy, the Group assessed the goodwill attached to the division for impairment. The recoverable amount of the division was based on a value in use calculation using cash flow projections based

## NOTE 6: Impairment and restructuring costs (continued)

## Impairment - Other current financial assets

In accordance with Group accounting policy, management ensures that the Group's financial assets are stated at fair value.
During the prior period, the Group commenced legal proceedings to recover unpaid debts resulting from the sale of its apparel business in August 2010. The proceedings were issued against Australian Horizons Trading Pty Limited (AHT) and Jeffrey Moss as guarantor of certain AHT obligations under the 2010 sale of business agreement (SBA). The Group has made a claim against AHT and Jeffrey Moss. At the time of the sale of the business, the Group booked an asset based on the expected deferred consideration of the sale of the business - this amounts to \$6,147,000 as at 31 July 2011.

Whilst the Group will continue to pursue full settlement, given the passage of time the Directors consider it prudent to now record a full impairment loss on the outstanding receivable and accordingly a $\$ 6,147,000$ impairment loss has been charged to profit or loss.

## Impairment - Distribution agreements

A distribution agreement was assessed for recoverability during the year and management identified that, in light of weak sales and resulting future economic benefits, the agreement's recoverable amount was nil, resulting in an impairment loss of \$857,000.

## Restructuring costs

As discussed in detail within the Directors' Report, the Group continues with the next phase of its turnaround strategy. During the year, the Group incurred costs of $\$ 1,384,000$ in relation to redundancies and other termination benefits; in order to complete this phase of the Turnaround, the Group believes an additional $\$ 3,276,000$ will be required.

## Tax consolidation

## Relevance of tax consolidation to the Group

The Company and its wholly-owned Australian resident entities formed a tax-consolidation Group with effect from 1 January 2003 and are therefore taxed as a single entity from that date. The head entity within the tax-consolidation Group is Funtastic Limited. The members of the tax-consolidated Group are identified in note 33.

Nature of tax funding arrangement and tax sharing agreement
Entities within the tax-consolidated Group have entered into a tax funding arrangement and a tax-sharing agreement with the head entity. Under the terms of the tax funding arrangement, Funtastic Limited and each of the entities in the taxconsolidated Group has agreed to pay a tax equivalent payment to or from the head entity, based on the current tax liability or current tax asset of the entity. Such amounts are reflected in amounts receivable from or payable to the other entities in the tax-consolidated Group.
The tax sharing agreement entered into between members of the tax-consolidated Group provides for the determination of the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations or if an entity should leave the tax-consolidated Group. The effect of the tax sharing agreement is that each member's liability for tax payable by the tax-consolidated Group is limited to the amount payable to the head entity under the tax funding arrangement.

(1) The average credit period on sales of goods is 62 days (2010: 63 days). No interest is charged on the trade receivables.
(2) During the prior period, the Group commenced legal proceedings to recover unpaid debts resulting from the sale of its apparel business in August 2009. The proceedings were issued against Australian Horizons Trading Pty Limited (AHT) and Jeffrey Moss as guarantor of certain AHT obligations under the 2009 sale of business agreement (SBA). The Group has made a claim against AHT and Jeffrey Moss. At the time of the sale of the business, the Group booked an asset based on the expected deferred consideration of the sale of the business - this amounts to \$6,147,000 as at 31 July 2011.

As at 31 July 2010, trade receivables of $\$ 47,671,000$ included $\$ 1,322,000$ of the expected $\$ 6,147,000$ deferred consideration which has been reclassified to other current financial assets during the year (refer note 14). No imparment loss had previously been provided against the $\$ 1,322,000$ receivable. However, during the year, and since the half-year, given the passage of time the Directors believe it prudent to recognise a full imparment loss against the $\$ 6,147,000$ (refer note 14).

## NOTE 10: Current assets - Trade and other receivables (continued)

The Group has provided for any receivable considered uncollectible and therefore deemed to be not recoverable.
Included in the Group's trade receivable balance are debtors with a carrying amount of \$8,960,027 (2010:\$2,361,922) which are past due at the reporting date for which the Group has not provided as there has not been a significant change in credit quality and the Group believes the amounts are recoverable. The Group does not hold any collateral over these balances. The weighted average number of days of the receivables past due but not impaired is 11 days (2010: 41 days).
As at 31 July 2010, the $\$ 1,322,000$ trade receivables in relation to the AHT and Jeffrey Moss legal proceedings were included in the Group's trade receivables past due at reporting date of $\$ 2,361,922$, none of which was provided for as at 31 July 2010 (refer note 14).

The Group reviews trade debtors on an ongoing basis and make a provision against specific debtors based on management's assessment of the debtors' ability to settle the debt.
The Group reviews the provision for credit notes, rebates and settlement discounts on an ongoing basis and make allowance for individual customers based on historical sales, trading terms and expected returns, settlement discounts and rebates.
Included in the allowance for doubtful debts are individually impaired trade receivables with a balance of \$180,971 (2010: $\$ 297,086)$ which have been placed under liquidation. The impairment recognised represents the difference between the carrying amount of these trade receivable and the present value of the expected liquidation proceeds. The Group does not hold any collateral over these balances.

| Balance at end of the period | $(1,638)$ | $(8,229)$ | $(9,867)$ |

In determining the recoverability of a trade receivable the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the reporting date. The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, the directors believe that there is no further credit provision required in excess of the allowance for doubtful debts.

Whilst the Group will continue to pursue full settlement, with the passage of time the Directors consider it prudent to record a full impairment loss on the outstanding receivable and accordingly a $\$ 6,147,000$ impairment loss has been charged to profit or loss.

## NOTE 16: Non-current assets - Goodwill (continued)

## 1. Toys \& Sporting (T\&S)

The recoverable amount of the T\&S CGU is based on a value in use calculation which uses cash flow projections based on financial budgets approved by management, covering a five year period and using a discount rate of 19.6\% (2010: 19.1\%) which represents the WACC for the CGU. The discount rate is pre-tax and represents the Group's WACC adjusted upwards to reflect the risks specific to theT\&SCGU.

Cash flow projections during the budget period are based on normalised sales and gross margins by the CGU and an average growth rate in sales of $0.0 \%$ (2010: $0.0 \%$. Cash flows beyond the five year period have been extrapolated using a growth rate of $0.0 \%$ which represents a conservative estimate of long term growth in the business and is significantly lower than the average of the historical consumer price index published by the Reserve Bank of Australia. The growth rates used in the model do not exceed the longterm average growth rate for the market in which the CGU's business operates.
The T\&S CGU includes other intangibles of $\$ 2,320,000$ (2010: $\$ 1,807,000$ ). These are brand names, licenses, distribution agreements, supplier relationships and computer software.
Management believes that any reasonable possible change in key assumptions on which the recoverable is based would not cause the CGU's carrying amount to materially exceed its recoverable amount.

## 2. International

The recoverable amount of the International CGU, including goodwill associated with the subsidiary NSR (HK) Limited, is based on a value in use calculation which uses cash flow projections based on financial budgets approved by management, covering a five year period and using a discount rate of $19.6 \%$ (2010: $18.1 \%$ which represents the WACC for the CGU. The discount rate is pretax and represents the Group's WACC adjusted to reflect the risks specific to the International CGU.
Cash flow projections during the budget period are based on normalised gross margins by the CGU and an average growth rate in sales of $0.0 \%$ (2010: 0.0\%). Cash flows beyond the five year period have been extrapolated using a growth rate of $0.0 \%$ which represents a conservative estimate of long term growth in the business and is significantly lower than the average of the historical consumer price index published by the Reserve Bank of Australia. The growth rates used in the model do not exceed the long term average growth rate for the market in which the CGU's business operates. The recoverable amount assessment resulted in the recognition of goodwill imparment loss for the International business of $\$ 3,006,000$.
Management believes that any reasonable possible change in key assumptions on which the recoverable amount is based would not cause the CGU's carrying amount to materially exceed its revised recoverable amount.

## 3. Entertainment

The recoverable amount of the Entertainment CGU is based on a value in use calculation which uses cash flow projections based on financial budgets approved by management, covering a five year period and using a discount rate of $18.6 \%$ (2010: $17.1 \%$ which represents the WACC for the CGU. The discount rate is pre-tax and represents the Group's WACC adjusted downwards to reflect the risks specific to the Entertainment CGU.
Cash flow projections during the budget period are based on normalised gross margins by the CGU and an average growth rate in sales of $0.0 \%$ (2010: $0.0 \%$ ). Cash flows beyond the five year period have been extrapolated using a growth rate of $0.0 \%$ which represents a conservative estimate of long term growth in the business and is significantly lower than the average of the historical consumer price index published by the Reserve Bank of Australia. The growth rates used in the model do not exceed the long term average growth rate for the market in which the CGU's business operates. The recoverable amount assessment resulted in the recognition of goodwill imparment loss for the Entertainment business of $\$ 1,501,000$.
Management believes that any reasonable possible change in key assumptions on which the recoverable amount is based would not cause the CGU's carrying amount to materially exceed its revised recoverable amount.

## Key Assumptions

The key assumptions used in the value in use calculations for the cash-generating units are as follows:
Weighted Average Cost of Capital Based on models developed externally, risk-adjusted and based on the CGU's cash flows.
Budgeted Gross Margin
Sales Growth
Based on past history and management experience.
Based on management future expectation taking into account current economic conditions.

(i) Brands acquired and separately identified as part of the acquisition of Mike \& Jack confectionery in May 2006. The Group intends to continue use of the brands for an indefinite period and are therefore not amortised but are subject to an annual test for impairment. The key assumptions used in the value in use calculations for Brand names are as follows: Average Sales Growth Rate 0.0\%(2010: 0.0\%) and the Discount Rate 18.6\%(2010: 19.1\%).
(ii) The amortisation expense has been included in the line item 'amortisation' in the statement of comprehensive income. A 7 year useful life is used in the calculation of amortisation of computer software costs. Distribution agreements have useful lives in the range of 1-3 years.
(iii) Brands acquired and separately identified as part of the acquisition of NSR (HK) Limited in August 2009. The Group intends to continue use of the brands for an indefinite period and are therefore not amortised but are subject to an annual test for impairment. The key assumptions used in the value in use calculations for Brand names are as follows: Average Sales Growth Rate 0.0\%(2010: 0.0\%) and the Discount Rate 19.6\%(2010: 18.1\%).
(iv) A distribution agreement, the cost of which was previously classified in prepaid royalties, was assessed for recoverability during the year and management identified that, in light of weak sales and resulting future economic benefits, the agreement's recoverable amount was nil.

## Financing Arrangements

During the year ended 31 July 2011, the Group complied with its externally imposed financing covenants. As negotiated in July 2010, the Group extended the maturity of its financing arrangements to 31 August 2011 and, whilst the Group completed the renegotiation of its financing arrangements in September 2011, as at balance date they were contractually due to be repaid on 31 August 2011. Consequently, the Group's borrowings have been presented as current in this annual financial report.

Pursuant to the renegotiation of its borrowings, maturity of the facilities has been extended to 31 August 2013 with certain financial covenants being introduced, including amortisation of the commercial bills facility with no dividend payments permitted during the amortisation period. The Group amortised \$2,000,000 of its commercial bill facility on 31 August 2011.
The current interest rates are $8.51 \%$ on the debtors' finance facility, $8.51 \%$ on the trade finance facility and $8.49 \%$ on the commercial bill Facility (2010: 8.23\% 8.36\% and 8.25\%respectively).

## Financing Arrangements - Controlled Entities

All facilities are secured by a first ranking mortgage debenture of the Group. Refer to note 35 Financial Instruments for further details regarding the lending covenants associated with the borrowings.

(i) The provision for employee benefits represents annuad leave and long service leave entitlements accrued and compensation claims made by employees.
(ii) The provision for restructuring is consistent with the Group's continued focus on transforming the business for a more sustanable future. The provision represents the present value of the directors' best estimate of the future outflow of economic benefits that will be required in order to effect the restructuring plan.
(iii) Product license agreements contan audit rights for licensors. At year end, in respect of licensor audits the Group has provided for the best estimate of amounts payable. The final amounts payable will be subject to negotiation with the licensor and may differ to the amounts provided in the annual report.

On 13 August 2009 the Group acquired all of the issued shares in NSR (HK) Limited (NSR), a Hong Kong based designer and developer of Toys who holds the gobal master licence for Noddy as well other market specific licences. An earnout may be payable for both the 2010 and 2011 financial years subject to the achievement of EBIT targets and the reduction of the shareholder loans and will entitle the vendor to a maximum of $40,000,000$ ordinary shares. This includes the 10,000,000 ordinary shares issued as initial consideration for acquiring NSR (HK) Limited. There is no consideration payable in respect to the 2010 year; however the Group has recognised an amount payable of \$1,320,000 in respect to 2011 performance.

## NOTE 35: Financial instruments

## Capital risk management

The Group manage its capital to ensure that entities in the Group will be able to continue as a going concern while maximizing the return to stakeholders through the optimisation of the debt and equity balance.
The capital structure of the Group consists of debt, which comprises the borrowings detailed in note 21, cash and cash equivalents and equity attributable to equity holders of the parent, comprising issued capital, accumulated losses and reserves as disclosed in notes 26,27 and 28 respectively.
The board reviews the capital structure on a regular basis. As part of this review the cost of capital and the risks associated with each class of capital is considered. The Group balances its overall capital structure through the payment of dividends, new share issues and share buy-backs $a$ well $a$ the issue of new debt and the repayment of debt.
During the year ended 31 July 2011, the Group complied with its externally imposed financing covenants. Whilst the Group completed the renegotiation of its financing arrangements in September 2011, as at balance date they were contractually due to be repaid on 31 August 2011. Consequently, the Group's borrowings have been presented as current in this annuad financial report.
Pursuant to the renegotiation of its borrowings, maturity of the facilities has been extended to 31 August 2013 with certain financial covenants being introduced, including amortisation of the commercial bills facility with no dividend payments permitted during the period through to maturity. The Group amortised $\$ 2,000,000$ of its commercial bill facility on 31 August 2011.

## Significant accounting policies

Details of significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note 2 to the financial statements. These policies were consistent throughout the current year and the prior period.

## NOTE 35: Financial instruments (continued)

## Foreign currency risk management

Foreign currency risk refers to the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's exposure to foreign exchange risk arises from the net investment in New Zealand and United States operations and the undertaking of certain transactions denominated in foreign currencies.

The carrying amount of the Group's foreign currency denominated monetary assets and monetary liabilities at the reporting date is as follows:

|  | Liabilities |  | Assets |  |
| :--- | ---: | ---: | ---: | ---: |
|  | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 0}$ | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 0}$ |

| Other | $\mathbf{5 0}$ | $\mathbf{2 2}$ | $\mathbf{-}$ | 6 |

## Foreign currency sensitivity

The Group is mainly exposed to the US dollar, Euro and the NZ dollar. The following table details the Group's sensitivity to a $10 \%$ increase and decrease in the Australian dollar against the relevant foreign currencies. $10 \%$ is the sensitivity rate which represents management's assessment of the possible change in foreign exchange rates. The sensitivity andysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a $10 \%$ change in foreign currency rates. A positive number indicates an increase in profit or loss where the Australian dollar strengthens against the respective currency. For a weakening of the Australian dollar against the respective currency there would be an equal and opposite impact on profit or loss, and the balances below would be equal and opposite. A positive number indicates an increase in other equity where the Austrdian dollar weakens against the respective currency. ## Interest rate sensitivity

The sensitivity analyses below have been determined based on the exposure to interest rates to the Group at the reporting date and the stipulated change taking place at the beginning of the financial year and held constant throughout the reporting period. The Group considers the likelihood of a 100 basis point increase or decrease to be reasonable when reporting interest rate risk internally to key management personnel as this represent management's best estimate of the possible change in interest rates.

At reporting date, if interest rates had been 100 basis points higher or lower and all other variables were held constant, the Group's:

B Net loss after taxation would increase/decrease by $\$ 662,000$ (2010: increase/decrease by $\$ 258,000$ ). This is mainly due to the Group's exposure to interest rates on its variable rate borrowings; and
ß Equity would increase/decrease by $\$ 992,000$ (2010: $\$ n i l)$. This is due to the Group's interest rate swap entered 1 June 2011. In the prior year, as a result of the then Group's interest rate swap being de-designated, the balance deferred in the cash flow hedging reserve was being amortised on a straight line basis through to maturity and accordingly, because the interest rate swap was no longer effective, the movement in the fair value of the swap is recorded directly in profit or loss during the period.

## Interest Rate Swap Contracts

Bank loans of the Group currently bear an average variable interest rate of $8.51 \%$ (2010: 8.33\%). It is policy to protect part of the loans from exposure to increasing interest rates. Accordingly, the Group has entered into an interest rate swap contract under which it is obliged to receive interest at variable rates and to pay interest at fixed rates. The contract is settled on a net basis and the net amount receivable or payable at the reporting date is included in financial assets/liabilities.

The floating rate on the interest rate swap is the Australian bank bill swap rate (BBSW).
The contract requires settlement of net interest receivable or payable quarterly. The settlement dates coincide with the dates on which interest is payable on the underlying debt.
The swap currently in place covers $70 \%$ of the total debt outstanding with its senior lender and is timed to expire on 30 August 2013 (2010: swap in place covered 100\% of the long term loan principal outstanding which expired on 10 November 2010). The fixed interest rate is $5.53 \%$ (2010: $6.01 \%$ and the variable rate is the bank bill rate of the term of the underlying bill which at balance date was $4.99 \%$ (2010: 4.75\%).

As at 31 July 2011, the notional principal amounts and the periods of expiry of the interest rate swap contracts for the Group were as follows:

|  | Average <br> contracted fixed <br> interest rate | Notional principal <br> amount |  |  | Fair value |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: |

The interest rate swap contract exchanging floating rate interest amounts for fixed rate interest amounts is designated as a cash flow hedge in order to reduce the Group's cash flow exposure resulting from variable interest rates on borrowings. The interest rate swap and the interest payments on the loan occur simultaneously and the amount deferred in equity is recognised in profit or loss over the loan period.

## Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.
Trade receivables consist of a large number of customers spread across diverse industries. Ongoing credit evaluation is performed on the financial condition of accounts receivable and, where appropriate, credit guarantee insurance is purchased.

The Group has a credit risk exposure to a small number of major ASX listed corporations for which credit guarantee insurance is not purchased. Ongoing credit evaluation is performed on the financial condition of these accounts receivable.

The carrying amount of financial assets recorded in the financial statements, net of any allowance for losses, represents the Group's maximum exposure to credit risk.

## Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, who have built an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of finandial assets and liabilities.

## Liquidity and interest tables - financial liabilities

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows.

## Fair value of financial instruments

The fair values of financial assets and financial liabilities are determined as follows:
ß The fair value of other financial assets and financial liabilities (excluding derivative instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions; and

B The fair value of derivative instruments, are calculated using quoted prices. Where such prices are not available use is made of discounted cash flow analysis using the applicable yield curve for the duration of the instruments for nonoptional derivatives, and option pricing models for optional derivatives.

The directors consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the financial statements approximates their fair values.

## NOTE 36: Share-based payments (continued)

ESOP options are valued using a trinomial option pricing model. Options granted under the plan carry no dividend or voting rights. When exercisable, each option is convertible into one ordinary share.
The exercise price of options is based on the weighted average price at which the company's shares are traded on the Australian Stock Exchange during the five days immediately before the options are granted. Amounts receivable on the exercise of options are recognised as share capital.
Set out below are summaries of options granted under the plan and the balance outstanding at the end of the financial year for the current and preceding years.

## Employee Performance Share Rights

During 2005 the company established the Funtastic Employee Performance Share Rights Plan (EPSR).
Rights are granted under the plan for no consideration. Rights are granted over varying periods and on conditions attributable to each issue of right. The entitlements to the EPSRs are available as soon as they become exercisable.
The rights are not exercisable

## NOTE 36: Share-based payments (continued)

Rights granted under the plan carry no dividend or voting rights.
When exercisable, each right is convertible into one ordinary share.
No consideration is payable by participants if the performance measures are achieved and the shares are granted. There were no rights granted under the plan during the current period or preceding financial year.
