

A Message From Our Chairman

Our Valued Shareholders,

Certainly, 2021 was a very challenging year given the ever-evolving pandemic. In addition, we've learned to adapt and manage through a myriad of obstacles, including global supply chain disruptions, raw material scarcity, labor shortages and overall cost inflation.

That's why I am very proud and appreciative of our approximately 50,000 employees who helped to navigate through this past year. As a result of their dedication to living our values – The PPG Way – we were able to continue to support our customers, deliver strong results for our shareholders, and maintain the support of our communities around the world. Every day, our employees' commitment to our company's purpose – to protect and beautify the world – is the reason why we remain well positioned today and for the future.

Our Performance

We achieved all-time record sales of \$16.8 billion in 2021, up 21% compared to the prior year. This was led by strong organic growth of 10% and several strategic acquisitions. In addition, we delivered record adjusted earnings per share (EPS) with year-over-year growth of more than 10%, despite unprecedented levels of inflation.

Strategically, we made continued progress in strengthening our company. In addition to integrating Ennis-Flint, which we acquired in December 2020 and formed PPG's traffic solutions strategic business unit, we welcomed and began integrating the companies acquired in 2021, including VersaFlex, Cetelon, Wörwag and Tikkurila. These five acquisitions added \$1.7 billion of annualized revenue, expanded our sustainable product offerings and moved us into new markets.

We generated \$1.6 billion of cash flow from operations, and deployed cash of about \$2.3 billion on acquisitions and share repurchases. We also further optimized our cost structure in 2021, achieving about \$135 million in cost savings.

We continue to have excellent financial flexibility with cash and short-term investments of about \$1.1 billion at year-end.

The success of our team's work throughout the year has enabled us to continue to reward our shareholders by extending our consecutive annual dividend payments to over 120 years, including raising our annual dividend payout for the 50th successive year. We're among a very small number of companies that have achieved these milestones. #PPGProud.

Together, as One PPG, we remained steadfast in our commitment to launch innovative products and sustainable solutions in 2021. One example is our battery fire protection coating that protects electric automobiles from fire, improving passenger safety. This product, along with others from PPG, was recognized for its innovation with a 2021 R&D® 100 Award. Another example, PPG ERGOLUX™ Eco Powder Coatings contains up to 14% recycled polyethylene terephthalate (rPET). These innovative products, among many others, are helping to drive our customers' success by providing new solutions in the market.

Throughout 2021, we took actions to bolster our Environment, Social and Governance (ESG) commitments. We appointed our first Vice President of Global Sustainability; established a framework of Board governance of our ESG efforts; integrated the Task Force on Climate-Related Financial Disclosures (TCFD) Framework into our strategic planning process; and established groundwork to set Science-Based Targets aligned with the Paris Agreement.

We were pleased that Michael Nally, CEO, Generate Biomedicines, Inc. and CEO-Partner, Flagship Pioneering, and Guillermo Novo, chairman and CEO, Ashland Global Holdings Inc., were elected to join the PPG Board of Directors. On behalf of the entire board of directors, I would also like to recognize John Faraci, who joined the PPG Board in 2012 and will be stepping down at the April 2022 Annual Meeting of Shareholders. I want to thank John personally for his dedication to PPG and his continuous insight on how we can continue to evolve and grow. We wish him well in all of his future endeavors.

Our Culture and Communities

"It starts with me" is an important statement that I've been sharing with the PPG leadership team. I believe every employee owns and shapes the culture of our company. We use The PPG Way, a set of behaviors, to guide us. It includes goals such as "we do better today, than yesterday – every day," and "we make it happen." These are more than just words. They define who we are and what we want to be. We remain focused on creating an engaged workplace for everyone, where employees bring their unique ideas, backgrounds, and true selves to work every day. We believe that diverse teams perform better....period. We released our inaugural Diversity, Equity & Inclusion (DE&I) Report in March, sharing our progress and our focus moving forward. This is another important step in our journey.

In addition, I want to recognize the many PPG people who supported the communities in which we live and operate. Last year, PPG and the PPG Foundation outlined a commitment to invest \$20 million by 2025 to advance racial equity in the U.S. by funding educational pathways for Black communities and people of color. Employees around the world also continued our signature COLORFUL COMMUNITIES® program, conducting more than 50 projects in 2021 that brought color and brightness to schools, community centers and other important places where we live and work. Since 2015, we have completed more than 385 projects in 42 countries.

2021 Financial Performance

\$16.8 B	in reported net sales
\$6.77	adjusted earnings per diluted share
10%	organic sales growth from higher sales volumes and selling prices

Our Focus on the Future

As we look ahead, I remain very optimistic about the future growth and earnings capability of our company, and see many catalysts to return to prior peak operating margins with opportunities to exceed them over time. This includes:

- Continued recovery in the automotive refinish coatings, automotive OEM (original equipment manufacturer) coatings and aerospace coatings businesses, which collectively account for about 40% of our pre-pandemic sales.
- Normalization of raw material costs.
- Higher operating leverage on sales volumes supported by our lower cost structure.
- Year-over-year earnings growth in 2022 and 2023, due to further synergy capture from our recent acquisitions.
- Above-market organic growth driven by our advantaged and leading brands, technology and services. The recent announcement on our expanded relationship with The Home Depot® and HD Supply® is one example. Together with The Home Depot, we are positioned to outgrow the Pro market in the U.S.
- Further growth of our product innovation pipeline and digitization of our business models.

I want to thank you for your continued interest and investment in PPG. In 2022, we look forward to continuing to drive and fulfill our purpose – to protect and beautify the world.

Michael H. McGarry
Chairman and Chief Executive Officer

Part I

Item 1. Business

PPG Industries, Inc. manufactures and distributes a broad range of paints, coatings and specialty materials. PPG was incorporated in Pennsylvania in 1883. PPG's vision is to be the world's leading coatings company by consistently delivering high-quality, innovative and sustainable solutions that customers trust to protect and beautify their products and surroundings.

PPG has a proud heritage and demonstrated commitment to innovation, sustainability, community engagement and developing leading-edge paint, coatings and specialty materials technologies. Through dedication and industry-leading expertise, we solve our customers' biggest challenges, collaborating closely to find the right path forward. PPG is a global leader, supplying customers in construction, consumer products, industrial and transportation markets and aftermarkets with manufacturing facilities and equity affiliates in more than 75 countries.

PPG supplies coatings and specialty materials to customers in a wide array of end-uses, including industrial equipment and components; packaging material; aircraft and marine equipment; automotive original equipment; automotive refinish; pavement marking products; as well as coatings for other industrial and consumer products. PPG also serves commercial and residential new build and maintenance customers by supplying coatings to painting and maintenance contractors and directly to consumers for decoration and maintenance.

The coatings industry is highly competitive and consists of several large firms with global presence and many firms supplying local or regional markets. PPG competes in its primary markets with the world's largest coatings companies, most of which have global operations, and many regional coatings companies.

PPG's business is comprised of two reportable business segments: Performance Coatings and Industrial Coatings as described below:

PERFORMANCE COATINGS

<i>Strategic Business Unit</i>	<i>Products</i>	<i>Primary End-uses</i>	<i>Main Distribution Methods</i>	<i>Primary Brands</i>
Aerospace Coatings	Coatings, sealants, transparencies, transparent armor, adhesives, engineered materials, packaging and chemical management services for the aerospace industry	Commercial, military, regional jet and general aviation aircraft	Direct to customers and company-owned distribution network	PPG®
Architectural Coatings Americas and Asia Pacific	Paints, wood stains, adhesives and purchased sundries	Painting and maintenance contractors and consumers for decoration and maintenance of residential and commercial building structures	Company-owned stores, home centers and other regional or national consumer retail outlets, paint dealers, concessionaires, independent distributors and direct to consumers	PPG®, GLIDDEN®, COMEX®, OLYMPIC®, DULUX® (in Canada), PPG PITTSBURGH PAINTS®, MULCO®, FLOOD®, LIQUID NAILS®, SICO®, RENNER®, TAUBMANS®, WHITE KNIGHT®, BRISTOL®, HOMAX® among others
Architectural Coatings Europe, Middle East and Africa (EMEA)				SIGMA®, HISTOR®, SEIGNEURIE®, GUITTET®, PEINTURES GAUTHIER®, RIPOLIN®, JOHNSTONE'S®, LEYLAND®, PRIMALEX®, DEKORAL®, TRILAK®, PROMINENT PAINTS®, GORI®, BONDEX®, DANKE!® and TIKKURILA® among others
Automotive Refinish Coatings	Coatings, solvents, adhesives, sealants, purchased sundries, software	Automotive and commercial transport/fleet repair and refurbishing, light industrial coatings and specialty coatings for signs	Independent distributors and direct to customers	PPG®, SEM®, SPRINT®
Protective and Marine Coatings	Coatings and finishes for the protection of metals and structures	Metal fabricators, heavy duty maintenance contractors and manufacturers of ships, bridges and rail cars	Direct to customers, company-owned architectural coatings stores, independent distributors and concessionaires	PPG®
Traffic Solutions	Paints, thermoplastics, pavement marking products and other advanced technologies for pavement marking	Government, commercial infrastructure, painting and maintenance contractors	Direct to customers, government agencies and independent distributors	Ennis-Flint®

Segment Overview

This reportable business segment primarily supplies a variety of protective and decorative coatings, sealants and finishes along with pavement marking products, paint strippers, stains and related chemicals, as well as transparencies and transparent armor.

Major Competitive Factors

Product performance, technology, quality, technical and customer service, price, customer productivity, distribution and brand recognition

Global Competitors

Akzo Nobel N.V., Axalta Coating Systems Ltd., BASF Corporation, Benjamin Moore, Hempel A/S, Kansai Paints, the Jotun Group, Masco Corporation, Nippon Paint, RPM International Inc, the Sherwin-Williams Company and 3M Company

2021 Strategic Acquisitions

Tikkurila, VersaFlex. Refer to Note 2, "Acquisitions and Divestitures" in Item 8 of this Form 10-K for more information.

Average Number of Employees in 2021

27,500

Principal Manufacturing and Distribution Facilities

Amsterdam, Netherlands; Birstall, United Kingdom; Busan, South Korea; Carrollton, Texas; Clayton, Australia; Delaware, Ohio; Deurne, Belgium; Ennis, Texas; Gonfreville, France; Huntsville, Alabama; Huron, Ohio; Kunshan, China; Little Rock, Arkansas; Mexico City, Mexico; Milan, Italy; Mojave, California; Nykvarn, Sweden; Oakwood, Georgia; Ontario, Canada; Ostrow Wielkopolski, Poland; Ruitz, France; Shildon, United Kingdom; Sylmar, California; Stowmarket, United Kingdom; Tepexpan, Mexico; Vantaa, Finland; Waxahachie, Texas; and Wroclaw, Poland.

INDUSTRIAL COATINGS

<i>Strategic Business Unit</i>	<i>Products</i>	<i>Primary End-uses</i>	<i>Main Distribution Methods</i>	<i>Primary Brands</i>
Automotive OEM^(a) Coatings	Specifically formulated coatings, adhesives and sealants and metal pretreatments	Automotive original equipment and automotive parts and accessories	Direct to manufacturing companies and various coatings applicators	PPG®
Industrial Coatings	Specifically formulated coatings, adhesives and sealants and metal pretreatments; services and coatings application	Appliances, agricultural and construction equipment, consumer electronics, building products (including residential and commercial construction), kitchenware, transportation vehicles and numerous other finished products; On-site coatings services within several customer manufacturing locations as well as at regional service centers.		PPG®
Packaging Coatings	Specifically formulated coatings	Metal cans, closures, and plastic tubes for food, beverage and personal care, and promotional and specialty packaging		PPG®
Specialty Coatings and Materials	Amorphous precipitated silicas, TESLIN® substrate, Organic Light Emitting Diode (OLED) materials, optical lens materials and photochromic dyes	Silicas - Tire, battery separator and other end-uses TESLIN - Labels, e-passports, drivers' licenses, breathable membranes, loyalty cards and identification cards OLED - displays and lighting Lens materials - optical lenses and color-change products		PPG® TESLIN®

(a) Original equipment manufacturer (OEM)

Segment Overview	This reportable business segment primarily supplies a variety of protective and decorative coatings and finishes along with adhesives, sealants, metal pretreatment products, optical monomers and coatings, low-friction coatings, precipitated silicas and other specialty materials.
Alliances	PPG has established alliances with Kansai Paints to serve Japanese-based automotive OEM customers in North America and Europe and Asian Paints Ltd. to serve certain aftermarket customers and automotive OEM customers in India.
Major Competitive Factors	Product performance, technology, quality, technical and customer service, price, customer productivity and distribution.
Global Competitors	Akzo Nobel N.V., Axalta Coating Systems Ltd., BASF Corporation, Kansai Paints, Nippon Paint and the Sherwin-Williams Company
2021 Strategic Acquisitions	Tikkurila, Wörlag, Cetelon. Refer to Note 2, "Acquisitions and Divestitures" in Item 8 of this Form 10-K for more information.
Average Number of Employees in 2021	16,000
Principal Manufacturing and Distribution Facilities	Barberton, Ohio; Busan, South Korea; Cieszyn, Poland; Cleveland, Ohio; Delfzijl, Netherlands; Lake Charles, Louisiana; Oak Creek, Wisconsin; Quattordio, Italy; San Juan del Rio, Mexico; Springdale, Pennsylvania; Sumaré, Brazil; Weingarten, Germany; and Suzhou, Tianjin and Zhangjiagang, China.

Research and Development

(\$ in millions)	2021	2020	2019
Research and development costs, including depreciation of research facilities	\$463	\$401	\$456
% of annual net sales	2.8%	2.9%	3.0%

Technology innovation has been a hallmark of PPG's success throughout its history. The Company seeks to optimize its investment in research and development to create new products to drive profitable growth. We align our product development with the macro trends in the markets we serve and leverage core technology platforms to develop products for unmet market needs. Additionally, we operate laboratories in close geographic proximity to our customers and we customize our products for our customers' end-use applications. Our history of successful technology introductions is based on a commitment to an efficient and effective innovation process and disciplined portfolio management. We have obtained government funding for a small portion of the Company's research efforts, and we will continue to pursue government funding, where appropriate.

We own and operate several facilities to conduct research and development for new and improved products and processes. In addition to the Company's centralized principal research and development centers (see Item 2. "Properties" of this Form 10-K), operating segments manage their development through centers of excellence. As part of our ongoing efforts to manage our formulations and raw material costs effectively, we operate global competitive sourcing laboratories. Because of our broad array of products and customers, we are not materially dependent upon any single technology platform.

Raw Materials, Energy and Logistics

PPG uses a wide variety of complex raw materials that serve as the building blocks of our manufactured products. The Company's most significant raw materials are epoxy and other resins, titanium dioxide and other pigments, and solvents in the coatings businesses and sand and soda ash in the specialty coatings and materials business. Raw materials include both organic, primarily petroleum-derived, materials and inorganic materials, including titanium dioxide. These raw materials represent PPG's single largest production cost component.

Most of the raw materials and energy used in production are purchased from outside sources, and the Company has made, and plans to continue to make, supply arrangements to meet our planned operating requirements for the future. Supply of critical raw materials and energy is managed by establishing contracts with multiple sources and identifying alternative materials or technology whenever possible. Our raw materials include bio-based materials as part of a product renewal strategy. While prices for certain raw materials typically fluctuate with energy prices and global supply and demand changes, such fluctuations are impacted by the fact that the manufacture of our raw materials is several steps downstream from crude oil, natural gas, and other key feedstocks.

Through effective management of raw materials, energy and logistics, the Company maintains a competitive cost position and ensures ongoing security of supply. Security of a sufficient supply of high-quality raw materials is important to PPG's continued success as it allows the Company to increase production as necessary to keep pace with customer demand. In 2021, we experienced shortages of certain raw materials, which negatively impacted our ability to fully meet customer demand. We are continuing our aggressive sourcing initiatives to improve our competitive cost position and broaden our supply of high-quality raw materials. These initiatives include qualifying multiple sources of supply, within Asia and other lower cost regions of the world, continuing to diversify our resin supply, including actions to expand our on-site resin manufacturing capabilities, and reducing the amount of titanium dioxide used in our product formulations.

We are subject to existing and evolving standards relating to the regulation and registration of chemicals which could potentially impact the availability and viability of some of the raw materials we use in our production processes. Our ongoing, global product stewardship efforts are directed at maintaining our compliance with these standards. Changes to chemical registration regulations have been proposed or implemented in the European Union and many countries, including China, Canada, the United States ("U.S."), the United Kingdom ("U.K."), Brazil, Mexico and South Korea. Because implementation of many of these programs has not been finalized, the financial impact cannot be estimated at this time. We anticipate that the number of chemical registration regulations will continue to increase globally, and we have implemented programs to track and comply with these regulations.

At PPG, our commitment to sustainability extends to our suppliers as an extension of our internal focus on sustainability. Our Global Supplier Code of Conduct clarifies our global expectations in the areas of business integrity, labor practices, associate health and safety, and environmental management. Our Supplier Sustainability Policy builds upon our Global Supplier Code of Conduct by establishing expectations for sustainability within our supply chain. This policy reinforces our expectations that our suppliers, as well as their subcontractors, will comply fully with applicable laws and adhere to internationally recognized environmental, social and corporate-governance standards.

In 2020, PPG engaged EcoVadis™, a leading global corporate social responsibility and sustainability ratings company, to leverage assessment processes, tools, resources and insights to drive sustainability standards and practices throughout PPG's global supply base. The EcoVadis sustainability intelligence suite assists PPG in providing broad-scale supply chain risk screening and mapping, more reliable supplier sustainability metric scorecards with actionable ratings, and complete audit and improvement management capabilities. In 2021, PPG earned a Gold rating from EcoVadis underscoring our ongoing commitment to corporate social responsibility (CSR) and our efforts to manage our economic, social and environmental impact.

We typically experience fluctuating prices for energy and raw materials driven by various factors, including changes in supplier feedstock costs and inventories, global industry activity levels, foreign currency exchange rates, government regulation, and global supply and demand factors. For 2021 versus 2020, we experienced increases in our operating costs of more than \$1.0 billion led by raw material cost inflation. The increases in raw material costs were primarily driven by ongoing supply constraints, including various force majeure declarations, higher energy prices, maintenance outages at many of our suppliers, energy surcharges in Europe, labor availability challenges, transportation shortages and higher ocean freight costs. Also in 2021, we experienced increases in other logistics costs, driven by supply chain disruptions, logistical challenges, labor shortages and manufacturing interruptions at both our factories and those of our suppliers and customers. Based on the distribution nature of many of our businesses, logistics and distribution costs are significant.

Given the uncertainty presented by COVID's impact on supply chains globally and the global economic recovery, we are not able to predict the 2022 full-year impact of changes in raw material pricing versus 2021; however, we expect the negative impact of raw material inflation to lessen as 2022 progresses.

Global Operations

PPG has a significant investment in non-U.S. operations. This broad geographic footprint serves to lessen the significance to us of economic impacts occurring in any one region of the world. As a result of our global footprint, we are subject to certain inherent risks, including economic and political conditions in international markets, trade protection measures and fluctuations in foreign currency exchange rates. During 2021, favorable foreign currency translation increased Net sales by approximately \$345 million and Income before income taxes by approximately \$60 million.

Our net sales in the developed and emerging regions of the world for the years ended December 31st are summarized below:

(\$ in millions)	2021	2020	2019
Net sales			
United States, Canada, Western Europe	\$10,918	\$9,218	\$10,191
Latin America, Central and Eastern Europe, Middle East, Africa, Asia Pacific	5,884	4,616	4,955
Total	\$16,802	\$13,834	\$15,146

Refer to Note 19, "Revenue Recognition" in Item 8 of this Form 10-K for additional geographic information pertaining to sales and Note 20, "Reportable Business Segment Information" in Item 8 of this Form 10-K for geographic information related to PPG's property, plant and equipment.

Seasonality

PPG's Income before income taxes has typically been greater in the second and third quarters and Cash from operating activities has been greatest in the fourth quarter due to end-use market seasonality, primarily in our architectural coatings and traffic solutions businesses. Demand for our architectural coatings and traffic solutions products is typically the strongest in the second and third quarters due to higher home improvement, maintenance and construction activity during the spring and summer months in the U.S., Canada and Europe. The Latin America paint season is the strongest in the fourth quarter. These cyclical activity levels result in the collection of outstanding receivables and lower inventory on hand in the fourth quarter generating higher Cash from operating activities.

Employee Relations

The average number of people employed by PPG during 2021 was approximately 49,300, of which approximately 14,800 were in the United States and approximately 34,500 were elsewhere in the world. The Company has numerous collective bargaining agreements throughout the world. We observe local customs, laws and practices in labor relations when negotiating collective bargaining agreements. There were no significant work stoppages in 2021. While we have experienced occasional work stoppages as a result of the collective bargaining process and may experience some work stoppages in the future, we believe that we will be able to negotiate all labor agreements on satisfactory terms. To date, these work stoppages have not had a significant impact on our results of operations. Overall, we believe we have good relationships with our employees.

Human Capital

The PPG Way is how we enable, empower and engage each employee to implement the strategies needed to strengthen our position as an industry leader. It guides our employees and leaders as we strive to achieve our purpose of protecting and beautifying the world. Employee engagement is a measure of how authentically we are living our culture. We conduct employee surveys to increase dialogue among teams and implement meaningful action to improve results.

Our human capital management strategies provide the foundation for our teams to thrive and deliver exceptional performance. These strategies in the areas of culture and purpose, employee engagement, development and pay equity are overseen by the Human Management and Compensation Committee of our Board of Directors. We are committed to ensuring our employees are safe, healthy, enabled, engaged and valued for the diverse talents they bring to PPG. We believe that having quality dialogue with our people, recognizing the value they bring and championing an authentic culture generates engaged employees and a company that is more innovative, productive and competitive. Our focus on and investment in learning and development are crucial to ensuring we keep our people engaged, productive and successful at every stage of their careers. We are committed to promoting from within wherever possible while also bringing in new ideas, thoughts and insights.

Our environmental, health and safety policy and standards define our expectations, and we implement programs and initiatives to reduce health and safety risk in our operations. We measure progress against our health and safety goals using the injury and illness rate, which is calculated as the number of illness and injury incidents per 200,000 work hours. For both 2021 and 2020, our injury and illness rate was 0.26.

One of PPG's greatest strengths is the diversity of our people, who represent wide-ranging nationalities, cultures, languages, religions, ethnicities, lifestyles, and professional and educational backgrounds. Their unique perspectives enable us to meet challenges quickly, creatively and effectively, providing a significant competitive advantage in today's global economy. To ensure our people feel valued and respected, we are committed to providing a workplace that embraces a culture of diversity and inclusion and is free from harassment and bullying. In connection with our focus on diversity, equity and inclusion, PPG operates eight Employee Resource Networks ("ERNs"). These ERNs are open to all employees and are intended to provide an opportunity for in-depth discussion, focus and recommendations on how PPG can deliver higher growth and performance by creating a more diverse, equitable and inclusive organization.

More information about PPG's human capital management strategies and our workforce can be found in the Proxy Statement for our 2022 Annual Meeting of Shareholders and our Sustainability Report and on our sustainability website at <http://sustainability.ppg.com>.

Environmental Matters

PPG is committed to operating in a sustainable manner and to helping our customers meet their sustainability goals. Our sustainability efforts are led by the Sustainability and Innovation Committee (formerly known as the Technology and Environment Committee) of our Board of Directors. At the management level, day-to-day implementation of our environmental, social and governance ("ESG") initiatives is led by our Vice President, Global Sustainability, a new position created in 2021 to coordinate PPG's ESG and sustainability programs and to communicate our ESG progress with our customers, shareholders and other stakeholders. The Vice President, Global Sustainability works with PPG's Sustainability Committee, a committee of management consisting of senior corporate executives, to establish and monitor our sustainability goals, policies, programs and procedures that incorporate sustainability into our business practices, including resource management, climate change impacts, innovation, community engagement, communications, procurement, manufacturing and employee wellness.

Our dedication to innovation is intertwined with sustainability. Once again, we increased the percent of our sales from sustainable products to 38% in 2021 from 35% in 2020. We are marketing an ever-growing variety of products and services that protect the environment and provide safety and other benefits to our customers. Our products contribute to lighter, more fuel-efficient vehicles, airplanes and ships, and they help our customers reduce their energy consumption, conserve water and reduce waste. These products include a compact automotive paint process that saves energy and reduces water usage; sustainable, waterborne coatings formulations; lightweight sealants and coatings for aircraft; coatings that cool surfaces; coatings for recyclable metal packaging; antimicrobial products; and solutions for autonomous and battery-powered vehicles.

The Company's commitment to sustainability continues to yield tangible results. In 2021, we again made significant progress reducing our energy intensity, greenhouse gas emissions intensity and waste intensity. More information about PPG's sustainability values, efforts, goals and data and our community and employee engagement programs can be found in our Sustainability Report and on our sustainability website at <http://sustainability.ppg.com>.

We are subject to existing and evolving standards relating to the protection of the environment. In management's opinion, the Company operates in an environmentally sound manner and is well positioned, relative to environmental matters, within the industries in which it operates. PPG is negotiating with various government agencies concerning current and

former manufacturing sites and offsite waste disposal locations, including certain sites on the National Priority List. While PPG is not generally a major contributor of wastes to these offsite waste disposal locations, each potentially responsible party may face governmental agency assertions of joint and several liability. Generally, however, a final allocation of costs is made based on relative contributions of wastes to the site. There is a wide range of cost estimates for cleanup of these sites, due largely to uncertainties as to the nature and extent of their condition and the methods that may have to be employed for their remediation. The Company has established reserves for onsite and offsite remediation of those sites where it is probable that a liability has been incurred and the amount of loss can be reasonably estimated.

Our experience to date regarding environmental matters leads us to believe that we will have continuing expenditures for compliance with provisions regulating the protection of the environment and for present and future remediation efforts at waste and plant sites. Management anticipates that such expenditures will occur over an extended period of time.

In addition to the \$282 million currently reserved for environmental remediation efforts, we may be subject to loss contingencies related to environmental matters estimated to be approximately \$100 million to \$200 million. These reasonably possible unreserved losses relate to environmental matters at a number of sites, none of which are individually significant. The loss contingencies related to these sites include significant unresolved issues such as the nature and extent of contamination at these sites and the methods that may have to be employed to remediate them.

(\$ in millions)	2021	2020	2019
Capital expenditures for environmental control projects	\$17	\$12	\$15

It is expected that capital expenditures for such projects in 2022 will be in the range of \$20 million to \$30 million. Although future capital expenditures are difficult to estimate accurately because of constantly changing regulatory standards and policies, it is likely that environmental control standards will become increasingly stringent and the cost of compliance will increase.

Management believes that the outcome of these environmental contingencies will not have a material adverse effect on PPG's financial position or liquidity; however, any such outcome may be material to the results of operations of any particular period in which costs, if any, are recognized. Refer to Note 14, "Commitments and Contingent Liabilities" in Item 8 of this Form 10-K for additional information related to environmental matters and our accrued liability for estimated environmental remediation costs.

Available Information

The Company's website address is www.ppg.com. The Company posts, and shareholders may access without charge, the Company's recent filings and any amendments of its annual reports on Form 10-K, quarterly reports on Form 10-Q and its proxy statements as soon as reasonably practicable after such reports are filed with the Securities and Exchange Commission ("SEC"). The Company also posts all financial press releases, including earnings releases, to its website. All other reports filed or furnished to the SEC, including reports on Form 8-K, are available via direct link on PPG's website to the SEC's website, www.sec.gov. Reference to the Company's, the SEC's or other websites herein does not incorporate by reference any information contained on those websites, and such information should not be considered part of this Form 10-K.

Item 1A. Risk Factors

As a global manufacturer of paints, coatings and specialty materials, we operate in a business environment that includes risks. Each of the risks described in this section could adversely affect our results of operations, financial position and liquidity. While the factors listed here are considered to be the more significant factors, no such list should be considered to be a complete statement of all potential risks and uncertainties. Unlisted factors may present significant additional obstacles which may adversely affect our businesses and our results of operations, financial position and liquidity.

Economic Risks

The effects of COVID-19 have negatively impacted and are continuing to adversely impact our financial condition and results of operations.

The effects of the public health crisis caused by COVID-19 have interfered with the ability of PPG, our suppliers, customers, and others to conduct business and have negatively affected consumer confidence and the global economy. Public health officials have recommended or mandated certain precautions to mitigate the spread of COVID-19, including prohibitions on congregating in groups, shelter-in-place orders, vaccination requirements or similar measures. Preventative and protective actions that public health officials, governments or PPG have taken with respect to COVID-19 have and will continue to adversely impact our business, suppliers, distribution channels, and customers, including business shutdowns or disruptions for an indefinite period of time, reduced operations, reduced workforce availability, reduced ability to supply products, or reduced demand for our products. Our financial condition, liquidity and results of operations have been and will continue to be adversely impacted by these preventative actions and the disruption to our

business and that of our suppliers and customers. As we cannot predict the duration or scope of COVID-19, the negative financial impact to our business cannot be reasonably estimated, but could be material.

Increases in prices and declines in the availability of raw materials could negatively impact our financial results.

Our financial results are significantly affected by the cost of raw materials. Raw materials include both organic, primarily petroleum-derived, materials and inorganic materials, including titanium dioxide. These raw materials represent PPG's single largest production cost component.

While not our customary practice, we also import raw materials and intermediates, particularly for use at our manufacturing facilities in the emerging regions of the world. In most cases, those imports are priced in the currency of the supplier and, therefore, if that currency strengthens against the currency of our manufacturing facility, our margins may be lower.

Most of our raw materials are purchased from outside sources, and the Company has made, and plans to continue to make, supply arrangements to meet the planned operating requirements for the future. Adequate supply of critical raw materials is managed by establishing contracts, procuring from multiple sources, and identifying alternative materials or technology whenever possible. The Company is continuing its aggressive sourcing initiatives to effectively broaden our supply of high quality raw materials. These initiatives include qualifying multiple and local sources of supply, within Asia and other lower cost regions of the world, diversification of our resin supply including adding on-site resin production at certain manufacturing locations, and a reduction in the amount of titanium dioxide and other raw materials used in our product formulations. Our raw materials include bio-based materials as part of a product renewal strategy. Despite our actions undertaken to maintain supply arrangements adequate to meet planned operating requirements, raw material supply chain disruptions, including logistical and transportation challenges in many regions, have adversely impacted, and may continue to adversely impact, our financial results.

An inability to obtain critical raw materials would adversely impact our ability to produce products. Increases in the cost of raw materials may have an adverse effect on our Income from continuing operations or Cash from operating activities in the event we are unable to offset these higher costs in a timely manner.

The pace of economic growth and level of uncertainty could have a negative impact on our results of operations and cash flows.

Demand for our products and services depends, in part, on the general economic conditions affecting the countries and markets in which we do business. Weak economic conditions in certain geographies and changing supply and demand balances in the markets we serve have negatively impacted demand for our products and services in the past and may do so in the future. Recently, global economic uncertainty has increased due to a number of factors, including COVID-19, consumer sentiment and commodity market volatility, disruption in supply chains globally, potential changes to international trade agreements, the imposition of tariffs and the threat of additional tariffs, and labor shortages in certain regions of the world. PPG provides products and services to a variety of end-use markets in many geographies. This broad end-use market exposure and expanded geographic presence lessens the significance of any individual decrease in activity levels; nonetheless, lower demand levels may result in lower sales, which would result in reduced Income from continuing operations and Cash from operating activities.

Fluctuations in foreign currency exchange rates could affect our financial results.

We earn revenues, pay expenses, own assets and incur liabilities in countries using currencies other than the U.S. dollar. Because our consolidated financial statements are presented in U.S. dollars, we must translate revenues and expenses into U.S. dollars at the average exchange rate during each reporting period, as well as assets and liabilities into U.S. dollars at exchange rates in effect at the end of each reporting period. Therefore, increases or decreases in the value of the U.S. dollar against other currencies will affect our Net sales, Net income and the value of balance sheet items denominated in foreign currencies. We may use derivative financial instruments to reduce our net exposure to currency exchange rate fluctuations related to foreign currency transactions. However, fluctuations in foreign currency exchange rates, particularly the strengthening or weakening of the U.S. dollar against major currencies, could adversely or positively affect our financial condition and results of operations expressed in U.S. dollars.

The industries in which we operate are highly competitive.

With each of our businesses, an increase in competition may cause us to lose market share, lose customers, or compel us to reduce prices to remain competitive, which could result in reduced margins for our products. Additionally, our ability to increase prices may impact the overall economics for the products we offer. Competitive pressures may not only reduce our margins but may also impact our revenues and our growth which could adversely affect our results of operations.

Legal, Regulatory, and Tax Risks

We are subject to existing and evolving standards relating to the protection of the environment.

Environmental laws and regulations control, among other things, the discharge of pollutants into the air and water, the handling, use, treatment, storage and clean-up of hazardous and non-hazardous waste, and the investigation and remediation of soil and groundwater affected by hazardous substances. In addition, various laws regulate health and safety matters. The environmental laws and regulations we are subject to impose liability for the costs of, and damages resulting from, cleaning up current sites, past spills, disposals and other releases of hazardous substances. Violations of these laws and regulations can also result in fines and penalties. Future environmental laws and regulations may require substantial capital expenditures or may require or cause us to modify or curtail our operations, which may have a material adverse impact on our business, financial condition and results of operations.

We are involved in a number of lawsuits and claims, and we may be involved in future lawsuits and claims, in which substantial monetary damages are sought.

PPG is involved in a number of lawsuits and claims, both actual and potential, in which substantial monetary damages are sought. Those lawsuits and claims relate to contract, patent, environmental, product liability, asbestos exposure, antitrust, employment, securities and other matters arising out of the conduct of PPG's current and past business activities. Any such claims, whether with or without merit, could be time consuming and expensive to defend and could divert management's attention and resources. We maintain insurance against some, but not all, of these potential claims, and the levels of insurance we do maintain may not be adequate to fully cover any and all losses. We believe that, in the aggregate, the outcome of all current lawsuits and claims involving PPG, including those described in Note 14, "Commitments and Contingent Liabilities" in Item 8 of this Form 10-K, will not have a material effect on PPG's consolidated financial position or liquidity; however, such outcome may be material to the results of operations of any particular period in which costs, if any, are recognized. Nonetheless, the results of any future litigation or claims are inherently unpredictable, and such outcomes could have a material adverse effect on our results of operations, Cash from operating activities or financial condition.

We are subject to a variety of complex U.S. and non-U.S. laws and regulations, which could increase our compliance costs and could adversely affect our results of operations.

We are subject to a wide variety of complex U.S. and non-U.S. laws and regulations, and legal compliance risks, including securities laws, tax laws, environmental laws, employment and pension-related laws, competition laws, U.S. and foreign export and trading laws, and laws governing improper business practices, including bribery. We are affected by new laws and regulations and changes to existing laws and regulations, as well as interpretations by courts and regulators. These laws and regulations effectively expand our compliance obligations and costs.

For example, regulations concerning the composition, use and transport of chemical products continue to evolve. Developments concerning these regulations could potentially impact the availability or viability of some of the raw materials we use in our product formulations and/or our ability to supply certain products to some customers or markets. Import/export regulations also continue to evolve and could result in increased compliance costs, slower product movements or additional complexity in our supply chains.

Further, although we believe that we have appropriate risk management and compliance programs in place, we cannot guarantee that our internal controls and compliance systems will always protect us from improper acts committed by employees, agents, business partners or businesses that we acquire. Any non-compliance or such improper actions or allegations could damage our reputation and subject us to civil or criminal investigations and shareholder lawsuits, could lead to substantial civil and criminal, monetary and non-monetary penalties, and could cause us to incur significant legal and investigatory costs.

Changes in the tax regimes and related government policies and regulations in the countries in which we operate could adversely affect our results and our effective tax rate.

As a multinational corporation, we are subject to various taxes in both the U.S. and non-U.S. jurisdictions. Due to economic and political conditions, tax rates in these various jurisdictions may be subject to significant changes. Our future effective income tax rate could be affected by changes in the mix of earnings in countries with differing statutory tax rates, changes in the valuation of deferred tax assets or changes in tax laws or their interpretation. Further, PPG may continue to refine its estimates to incorporate new or better information as it becomes available. Recent developments, including potential U.S. or international tax reform, the European Commission's investigations on illegal state aid as well as the Organisation for Economic Co-operation and Development project on Base Erosion and Profit Shifting may result in changes to long-standing tax principles, which could adversely affect our effective tax rate or result in higher cash tax liabilities. If our effective income tax rate was to increase, our Cash from operating activities, financial condition and results of operations would be adversely affected. Although we believe that our tax filing positions are appropriate, the final determination of tax audits or tax disputes may be different from what is reflected in our historical income tax

provisions and accruals. If future audits find that additional taxes are due, we may be subject to incremental tax liabilities, possibly including interest and penalties, which could have a material adverse effect on our Cash from operating activities, financial condition and results of operations.

Operational and Strategic Risks

Our international operations expose us to additional risks and uncertainties that could affect our financial results.

PPG has a significant investment in global operations. This broad geographic footprint serves to lessen the significance of economic impacts occurring in any one region. Notwithstanding the benefits of geographic diversification, our ability to achieve and maintain profitable growth in international markets is subject to risks related to the differing legal, political, social and regulatory requirements and economic conditions of many countries. As a result of our operations outside the U.S., we are subject to certain inherent risks, including political and economic uncertainty, inflation rates, exchange rates, trade protection measures, local labor conditions and laws, restrictions on foreign investments and repatriation of earnings, and weak intellectual property protection. Our percentage of sales generated in 2021 by products sold outside the U.S. was approximately 65%.

Business disruptions could have a negative impact on our results of operations and financial condition.

Unexpected events, including supply disruptions, temporary plant and/or power outages, work stoppages, natural disasters and severe weather events, significant public health issues, computer system disruptions, fires, war or terrorist activities, could increase the cost of doing business or otherwise harm the operations of PPG, our customers and our suppliers. It is not possible for us to predict the occurrence or consequence of any such events. However, such events could reduce our ability to supply products, reduce demand for our products or make it difficult or impossible for us to receive raw materials from suppliers or to deliver products to customers.

Integrating acquired businesses into our existing operations.

Part of the Company's strategy is growth through acquisitions. Over the last decade, we have successfully completed more than 50 acquisitions, and we will likely acquire additional businesses and enter into additional joint ventures in the future. Growth through acquisitions and the formation of joint ventures involve risks, including:

- difficulties in assimilating acquired companies and products into our existing business;
- delays in realizing the benefits from the acquired companies or products;
- diversion of our management's time and attention from other business concerns;
- difficulties due to lack of or limited prior experience in any new markets we may enter;
- unforeseen claims and liabilities, including unexpected environmental exposures, product liability, or existing cyber vulnerability;
- unexpected losses of customers or suppliers of the acquired or existing business;
- difficulty in conforming the acquired business' standards, processes, procedures and controls to those of our operations; and
- difficulties in retaining key employees of the acquired businesses.

These risks or other problems encountered in connection with our past or future acquisitions and joint ventures could cause delays in realizing the anticipated benefits of such acquisitions or joint ventures, or such anticipated benefits may never be realized, which could adversely affect our results of operations, Cash from operating activities or financial condition.

Our ability to understand our customers' specific preferences and requirements, and to innovate, develop, produce and market products that meet customer demand is critical to our business results.

Our business relies on continued global demand for our brands and products. To achieve our business goals, we must develop and sell products that appeal to customers. This is dependent on a number of factors, including our ability to produce products that meet the quality, performance and price expectations of our customers and our ability to develop effective sales, advertising and marketing programs.

We believe the automotive industry will experience significant and continued change in the coming years. Vehicle manufacturers continue to develop new safety features such as collision avoidance technology and self-driving vehicles that may reduce vehicle collisions in the future, potentially lowering demand for our automotive refinish coatings. In addition, through the introduction of new technologies, new business models or new methods of travel, such as

ridesharing, the number of automotive OEM new-builds may decline, potentially reducing demand for our automotive OEM coatings and related automotive parts.

Additionally, the development of customer-facing digital platforms has and will continue to transform certain retail industries. An inability to develop such solutions and our customer's pace of adoption of those solutions could negatively affect our business or the market demand for our products.

Our future growth will depend on our ability to continue to innovate our existing products and to develop and introduce new products. If we fail to keep pace with product innovation on a competitive basis or to predict market demands for our products, our businesses, financial condition and results of operations could be adversely affected.

The security of our information technology systems could be compromised, which could adversely affect our ability to operate.

Increased global information technology security requirements, threats and sophisticated and targeted computer crime pose a risk to the security of our systems, networks and the confidentiality, availability and integrity of our data. Despite our efforts to protect sensitive information and confidential and personal data, our facilities and systems may be vulnerable to security breaches. This could lead to negative publicity, theft or other financial loss, modification or destruction of proprietary information or key information, manufacture of defective products, production downtimes and operational disruptions, which could adversely affect our reputation, competitiveness and results of operations.

In 2018, we concluded that previously issued financial statements as detailed below should not be relied upon and restated those previously issued financial statements, which led to, among other things, shareholder litigation, investigations by the SEC and the U.S. Attorney's office, a settlement by the Company with the SEC and unanticipated costs for accounting and legal fees, and which may result in certain other risks.

As discussed in the Explanatory Note, Note 2, "Restatement of Previously Reported Consolidated Annual Financial Statements" and in Note 19, "Quarterly Financial Information (unaudited)" in Item 8 of the 2017 Form 10-K/A, in 2018 we concluded that our previously issued financial statements as of December 31, 2017 and 2016, and for each of the quarterly and year-to-date periods in 2017, and the final quarterly and year-to-date period in 2016, should no longer be relied upon. The determination that the applicable financial statements should no longer be relied upon and that these financial statements would be restated was made following the identification of misstatements. Although the Company restated these financial statements, remediated the material weakness in the Company's internal control over financial reporting, reached a settlement with the SEC and is no longer the subject of an investigation by the U.S. Attorney's Office, we continue to be subject to risks and uncertainties relating to these events, including advancement of legal expenses and potential indemnification obligations to certain current and former employees who are responding to investigations by the SEC and U.S. Attorney's Office for alleged violations of the securities laws relating to the restatement described above, potential loss of investor confidence, potential reputational harm and a potential negative impact on our stock price.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

PPG's corporate headquarters is located in the United States in Pittsburgh, Pa. The Company's manufacturing facilities, sales offices, research and development centers and distribution centers are located throughout the world. Refer to Item 1. "Business" of this Form 10-K for the principal manufacturing and distribution facilities by reportable business segment.

The Company's principal research and development centers are located in Allison Park, Pa.; Tianjin, China; Cleveland, Oh.; Springdale, Pa.; Milan, Italy; Monroeville, Pa.; Harmar, Pa.; Ingersheim, Germany; Marly, France; Oak Creek, Wi.; Sumare, Brazil; Amsterdam, Netherlands; Vantaa, Finland; Tepexpan, Mexico; Burbank, Ca.; Zhangjiagang, China; Cheonan, Republic of Korea; Wroclaw, Poland; Bangplee, Thailand; and Sylmar, Ca.

Our headquarters, certain distribution centers and substantially all company-owned paint stores are located in facilities that are leased while our other facilities are generally owned. Our facilities are considered to be suitable and adequate for the purposes for which they are intended and overall have sufficient capacity to conduct business in the upcoming year.

Item 3. Legal Proceedings

PPG is involved in a number of lawsuits and claims, both actual and potential, including some that it has asserted against others, in which substantial monetary damages are sought. These lawsuits and claims may relate to contract, patent, environmental, product liability, asbestos exposure, antitrust, employment, securities and other matters arising out of the conduct of PPG's current and past business activities. To the extent these lawsuits and claims involve personal injury, property damage and certain other claims, PPG believes it has adequate insurance; however, certain of PPG's insurers are contesting coverage with respect to some of these claims, and other insurers may contest coverage. PPG's lawsuits

and claims against others include claims against insurers and other third parties with respect to actual and contingent losses related to environmental, asbestos and other matters.

As previously disclosed, the SEC is conducting a non-public investigation of accounting matters described in the Explanatory Note and in Note 2, "Restatement of Previously Reported Consolidated Annual Financial Statements" in Item 8 of the Company's 2017 Form 10-K/A. On September 26, 2019, PPG announced a final settlement with the SEC as to the Company. Without admitting or denying the findings in the SEC's administrative cease-and-desist order, the Company consented to the entry of the order, which imposed no financial penalty. The Company continues to cooperate fully with the SEC's ongoing investigation relating to these accounting matters. The Company is also cooperating fully with an investigation into the same accounting matters commenced by the U.S. Attorney's Office for the Western District of Pennsylvania ("USAO"). As previously disclosed, the USAO has informed PPG that it will not pursue any action as to the Company.

From the late 1880's until the early 1970's, PPG owned property located in Cadogan and North Buffalo Townships, Pennsylvania which was used for the disposal of solid waste from PPG's former glass manufacturing facility in Ford City, Pennsylvania. In October 2018, the Pennsylvania Department of Environmental Protection (the "DEP") approved PPG's cleanup plan for the Cadogan Property. In April 2019, PPG and the DEP entered into a consent order and agreement ("CO&A") which incorporated PPG's approved cleanup plan and a draft final permit for the collection and discharge of seeps emanating from the former disposal area. The CO&A includes a civil penalty of \$1.2 million for alleged past unauthorized discharges. PPG's former disposal area is also the subject of a citizens' suit filed by the Sierra Club and PennEnvironment seeking remedial measures beyond the measures specified in PPG's approved cleanup plan, a civil penalty in addition to the penalty included in the CO&A and plaintiffs' attorneys fees. PPG and the plaintiffs settled plaintiffs' claims for injunctive relief and PPG agreed to enhancements to the DEP approved cleanup plan and a \$250,000 donation to a Pennsylvania nonprofit organization. This settlement has been memorialized by an amendment to the CO&A which was appended to a Consent Agreement between PPG and the plaintiffs which has been entered by the federal Court. The remaining claims in the case for attorneys' fees and a civil penalty are not affected by this settlement. PPG believes that the remaining claims are without merit and intends to defend itself against these claims vigorously.

For many years, PPG has been a defendant in lawsuits involving claims alleging personal injury from exposure to asbestos. For a description of asbestos litigation affecting the Company, see Note 14, "Commitments and Contingent Liabilities" to the accompanying consolidated financial statements in Part I, Item 8 of this Form 10-K.

In the past, the Company and others have been named as defendants in several cases in various jurisdictions claiming damages related to exposure to lead and remediation of lead-based coatings applications. PPG has been dismissed as a defendant from most of these lawsuits and has never been found liable in any of these cases. After having not been named in a new lead-related lawsuit for 15 years, PPG was named as a defendant in two Pennsylvania state court lawsuits filed by Montgomery County and Lehigh County in the respective counties on October 4, 2018 and October 12, 2018. Both suits seek declaratory relief arising out of alleged public nuisances in the counties associated with the presence of lead paint on various buildings constructed prior to 1980. The Company believes these actions are without merit and intends to defend itself vigorously.

Information About Our Executive Officers

Set forth below is information related to the Company's executive officers as of February 17, 2022.

<i>Name</i>	<i>Age</i>	<i>Title</i>
Michael H. McGarry ^(a)	63	Chairman and Chief Executive Officer since September 2016
Anne M. Foulkes ^(b)	59	Senior Vice President and General Counsel since September 2018
Timothy M. Knavish ^(c)	56	Executive Vice President since October 2019
Rebecca B. Liebert ^(d)	54	Executive Vice President since October 2019
Vincent J. Morales ^(e)	56	Senior Vice President and Chief Financial Officer since March 2017
Amy R. Ericson ^(f)	56	Senior Vice President, Packaging Coatings since July 2018
Ramaprasad Vadlamannati ^(g)	59	Senior Vice President, Protective and Marine Coatings and President PPG EMEA since October 2019

- (a) Mr. McGarry served as President and Chief Executive Officer from September 2015 through August 2016, President and Chief Operating Officer from March 2015 through August 2015; Chief Operating Officer from August 2014 through February 2015; Executive Vice President from September 2012 through July 2014; and Senior Vice President, Commodity Chemicals from July 2008 through August 2012.
- (b) Ms. Foulkes served as Senior Vice President, General Counsel and Secretary from August 2018 to September 2018, Vice President and Associate General Counsel and Secretary from March 2016 through July 2018 and Assistant General Counsel and Secretary from April 2011 through February 2016.
- (c) On December 9, 2021, Mr. Knavish was appointed Chief Operating Officer, effective March 1, 2022. Mr. Knavish served as Senior Vice President, Architectural Coatings and President, PPG EMEA from January 2019 through September 2019, Senior Vice President, Industrial Coatings from October 2017 through December 2018, Senior Vice President, Automotive Coatings from March 2016 through September 2017, Vice President, Protective and Marine Coatings from August 2012 through February 2016 and Vice President, Automotive Coatings, Americas from March 2010 through July 2012.
- (d) Ms. Liebert served as Senior Vice President, Automotive Coatings from June 2018 to September 2019. She previously served as President and Chief Executive Officer of Honeywell UOP from 2016 to 2018, Senior Vice President and General Manager, Catalyst Adsorbents and Specialties of Honeywell UOP from 2015 to 2016 and Senior Vice President and General Manager, Gas Processing and Hydrogen of Honeywell UOP from 2012 to 2015.
- (e) Mr. Morales served as Vice President, Finance from June 2016 through February 2017. From June 2015 through June 2016, he served as Vice President, Investor Relations and Treasurer and from October 2007 through May 2015 he served as Vice President, Investor Relations.
- (f) Ms. Ericson was appointed Senior Vice President, Packaging Coatings in July 2018 when she joined PPG from SUEZ SA. She previously served as President of SUEZ Chemical Monitoring and Solutions from 2017 until 2018, President of General Electric Water Services Company from 2015 to 2017 and President and Chief Executive Officer of Alstom SA's U.S. business from 2013 to 2015.
- (g) Mr. Vadlamannati served as Senior Vice President, Protective and Marine Coatings from March 2016 through September 2019, Vice President, Architectural Coatings, EMEA and Asia/Pacific from August 2014 through February 2016, Vice President, Architectural Coatings, EMEA from February 2012 through July 2014, Vice President, Architectural Coatings, EMEA for Region Western Europe from March 2011 through January 2012 and Vice President, Automotive Refinish, EMEA from September 2010 through February 2011.

Item 4. Mine Safety Disclosures

Not Applicable.

Part II

Item 5. Market for the Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

The information required by Item 5 regarding market information, including PPG's stock exchange listing and quarterly stock market prices, dividends, holders of common stock, and the stock performance graph is included in Exhibit 13.1 filed with this Form 10-K and is incorporated herein by reference.

Issuer Purchases of Equity Securities - Fourth Quarter 2021

Month	Total Number of Shares Purchased	Avg. Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Max. Number of Shares That May Yet Be Purchased Under the Programs ⁽¹⁾
October 2021				
Repurchase program	247,000	\$161.97	247,000	9,157,071
November 2021				
Repurchase program	246,000	\$158.24	246,000	9,284,708
December 2021				
Repurchase program	1,028,765	\$166.39	1,028,765	7,308,344
Total quarter ended December 31, 2021				
Repurchase program	1,521,765	\$164.35	1,521,765	7,308,344

(1) In December 2017, PPG's board of directors approved a \$2.5 billion share repurchase program. The remaining shares yet to be purchased under the program has been calculated using PPG's closing stock price on the last business day of the respective month. This repurchase program has no expiration date.

Item 6. [Reserved]

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion includes a comparison of our results of operations and liquidity and capital resources for the years ended December 31, 2021 and 2020. A discussion of changes in our results of operations for the year ended December 31, 2020 as compared to the year ended December 31, 2019 has been omitted from this Form 10-K, but may be found in "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" of our 2020 Form 10-K, filed with the Securities and Exchange Commission on February 18, 2021.

Performance Overview

Net Sales by Region

	% Change		
(\$ in millions, except percentages)	2021	2020	2021 vs. 2020
United States and Canada	\$6,676	\$5,668	17.8%
Europe, Middle East and Africa (EMEA)	5,436	4,328	25.6%
Asia Pacific	2,977	2,431	22.5%
Latin America	1,713	1,407	21.7%
Total	\$16,802	\$13,834	21.5%

Net sales increased \$2,968 million due to the following:

- Acquisition-related sales (+9%)
- Higher sales volumes (+5%)
- Higher selling prices (+5%)
- Favorable foreign currency translation (+2%)

Net sales increased versus prior year driven by higher sales volumes in each major region and higher selling prices across all businesses. Additionally, the five recent acquisitions (Ennis-Flint, VersaFlex, Cetelon, Wörlag and Tikkurila) increased net sales in 2021.

Foreign currency translation increased net sales by approximately 2% as the U.S. dollar, on an average basis, weakened against most foreign currencies versus the prior year, most notably the euro, the Chinese yuan, and the Mexican peso.

For specific business results, see the Performance of Reportable Business Segments section within Item 7 of this Form 10-K.

Cost of sales, exclusive of depreciation and amortization

	% Change		
(\$ in millions, except percentages)	2021	2020	2021 vs. 2020
Cost of sales, exclusive of depreciation and amortization	\$10,286	\$7,777	32.3%
Cost of sales as a % of net sales	61.2%	56.2%	5.0%

Cost of sales, exclusive of depreciation and amortization, increased \$2,509 million due to the following:

- Raw material and logistics cost inflation
- Cost of sales attributable to acquired businesses
- Higher sales volumes
- Unfavorable foreign currency inflation

Selling, general and administrative expenses

	% Change		
(\$ in millions, except percentages)	2021	2020	2021 vs. 2020
Selling, general and administrative expenses	\$3,780	\$3,389	11.5%
Selling, general and administrative expenses as a % of net sales	22.5%	24.5%	(2.0)%

Selling, general and administrative expenses increased \$391 million primarily due to:

- Selling, general and administrative expenses from acquired businesses
- Wage and other cost inflation
- Unfavorable foreign currency inflation

Partially offset by:

- Cost savings initiatives, including restructuring actions

Other charges and other income

	% Change		
(\$ in millions, except percentages)	2021	2020	2021 vs. 2020
Interest expense, net of Interest income	\$95	\$115	(17.4)%
Impairment charges	\$21	\$93	(77.4)%
Asbestos-related claims reserve adjustment	(\$133)	\$—	N/A
Business restructuring, net	\$31	\$174	(82.2)%
Pension settlement charge	\$50	\$—	N/A
Other charges	\$29	\$104	(72.1)%
Other income	(\$172)	(\$68)	152.9%

Interest expense, net of Interest income

Interest expense, net of Interest income decreased \$20 million in 2021 versus 2020 primarily due to more favorable interest rates on outstanding debt.

Impairment charges

In 2021 and 2020, impairment charges were recorded for the write-down of certain assets related to the previously planned sale of certain smaller entities in non-strategic regions. Also, in 2020, an impairment charge was recorded to reduce the carrying value of an indefinite-lived trademark. Refer to Note 2, "Acquisitions and Divestitures" and Note 6, "Goodwill and Other Identifiable Intangible Assets" in Item 8 of this Form 10-K for additional information.

Asbestos-related claims reserve adjustment

In 2021, the reserve for asbestos-related claims was reduced to reflect the Company's current estimate of potential liability for these claims. Refer to Note 14 "Commitments and Contingent Liabilities" in Item 8 of this Form 10-K for additional information.

Business restructuring, net

Pretax restructuring charges of \$54 million related to recent acquisitions were recorded in 2021, partially offset by certain changes in estimates to complete previously recorded programs of \$23 million. Pretax restructuring charges of \$203 million were recorded in 2020, offset by certain changes in estimates to complete previously recorded programs of \$29 million. Refer to Note 7, "Business Restructuring" in Item 8 of this Form 10-K for additional information.

Pension settlement charge

In December 2021, the Company purchased group annuity contracts that transferred pension benefit obligations for certain of the Company's retirees in Canada to a third-party insurance company. This transaction resulted in a pension settlement charge of \$50 million. Refer to Note 13, "Employee Benefit Plans" in Item 8 of this Form 10-K for additional information.

Other charges

Other charges were lower in 2021 as compared to the prior year primarily due to lower non-service components of net periodic pension cost.

Other income

Other income was higher in 2021 than prior year primarily due to a \$34 million gain on the sale of a production facility in connection with the Company's manufacturing footprint consolidation plans and associated restructuring programs, as well as favorable legal settlements.

Effective tax rate and earnings per diluted share, continuing operations

	% Change		
(\$ in millions, except percentages)	2021	2020	2021 vs. 2020
Income tax expense	\$374	\$291	28.5%
Effective tax rate	20.6%	21.4%	(0.8)%
Adjusted effective tax rate, continuing operations*	20.0%	22.6%	(2.6)%
Earnings per diluted share, continuing operations	\$5.93	\$4.44	33.6%
Adjusted earnings per diluted share, continuing operations*	\$6.77	\$6.12	10.6%
*See the Regulation G reconciliations - results of operations			

The effective tax rate for the year-ended December 31, 2021 was 20.6%, a decrease of 0.8% from the prior year primarily driven by a benefit from releases of reserves for uncertain tax positions.

Earnings per diluted share and adjusted earnings per diluted share from continuing operations for the year ended December 31, 2021 increased year-over-year, driven by increased net sales in 2021 due to acquisition-related sales, higher sales volumes and higher selling prices. The impact of higher net sales on earnings was partially offset by higher raw material costs due to ongoing supply constraints and higher transportation costs driven by supply chain disruptions related to COVID-19. Refer to the Regulation G Reconciliations - Results from Operations for additional information.

Regulation G Reconciliations - Results from Operations

PPG believes investors' understanding of the Company's performance is enhanced by the disclosure of net income from continuing operations, earnings per diluted share from continuing operations, PPG's effective tax rate and segment income adjusted for certain items. PPG's management considers this information useful in providing insight into the Company's ongoing performance because it excludes the impact of items that cannot reasonably be expected to recur on a quarterly basis or that are not attributable to our primary operations. Net income from continuing operations, earnings per diluted share from continuing operations, the effective tax rate and segment income adjusted for these items are not recognized financial measures determined in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") and should not be considered a substitute for net income from continuing operations, earnings per diluted share from continuing operations, the effective tax rate, segment income or other financial measures as computed in accordance with U.S. GAAP. In addition, adjusted net income, adjusted earnings per diluted share and the adjusted effective tax rate may not be comparable to similarly titled measures as reported by other companies.

Income before income taxes from continuing operations is reconciled to adjusted income before income taxes from continuing operations, the effective tax rate from continuing operations is reconciled to the adjusted effective tax rate from continuing operations and net income from continuing operations (attributable to PPG) and earnings per share – assuming dilution (attributable to PPG) are reconciled to adjusted net income from continuing operations (attributable to PPG) and adjusted earnings per share – assuming dilution below.

(\$ in millions, except percentages and per share amounts)	Income Before Income Taxes	Income Tax Expense	Effective Tax Rate	Net income from continuing operations (attributable to PPG)	Earnings per diluted share ⁽¹⁾
Year-ended December 31, 2021					
As reported, continuing operations	\$1,815	\$374	20.6%	\$1,420	\$5.93
Includes:

Adjusted, continuing operations, excluding certain items	\$1,900	\$429	22.6%	\$1,452	\$6.12

- (1) Earnings per diluted share is calculated based on unrounded numbers. Figures in the table may not recalculate due to rounding.
- (2) Beginning in 2021, the Company reports adjusted earnings per diluted share excluding amortization expense relating to intangible assets from completed acquisitions. Adjusted earnings per diluted share for 2020, as shown in the table above, has been recast to exclude acquisition-related amortization expense.
- (3) Acquisition-related costs, net include advisory, legal, accounting, valuation, other professional or consulting fees, and certain internal costs directly incurred to effect acquisitions. These costs are included in Selling, general and administrative expense in the consolidated statement of income. Acquisition-related costs, net also include the impact for the step up to fair value of inventory acquired in certain acquisitions which are included in Cost of Sales, exclusive of depreciation and amortization in the consolidated statement of income.
- (4) Included in business restructuring-related costs, net are business restructuring charges, accelerated depreciation of certain assets and other related costs, offset by releases related to previously approved programs and a \$34 million gain on the sale of certain assets in 2021 in connection with the Company's manufacturing footprint consolidation plans and associated restructuring programs. This gain is included in Other income in the consolidated statement of income.
- (5) In 2020, two hurricanes damaged a southern U.S. factory supporting the Company's specialty coatings and materials business. In early 2021, a winter storm further damaged that factory as well as other company factories in the southern U.S. Incremental expenses incurred due to these storms included costs related to maintenance and repairs of damaged property, freight and utility premiums and other incremental expenses directly related to the impacted areas.
- (6) In 2021 and 2020, impairment charges were recorded for the write-down of certain assets related to the previously planned sale of certain smaller entities in non-strategic regions. Also in 2020, an impairment charge was recorded to reduce the carrying value of an indefinite-lived trademark. In 2021 and 2020, net loss of \$3 million and \$4 million, respectively, was attributable to noncontrolling interests.
- (7) In the fourth quarter 2021, the reserve for asbestos-related claims was reduced to reflect the Company's current estimate of potential liability for these claims.

Performance of Reportable Business Segments

Performance Coatings

			\$ Change	% Change
(\$ in millions, except percentages)	2021	2020	2021 vs. 2020	2021 vs. 2020
Net sales	\$10,333	\$8,495	\$1,838	21.6%
Segment income	\$1,491	\$1,359	\$132	9.7%
Amortization expense	\$126	\$92	\$34	37.0%
Segment income, excluding amortization expense	\$1,617	\$1,451	\$166	11.4%

Performance Coatings net sales increased due to the following:

- Acquisition-related sales (+12%)
- Higher selling prices (+4%)
- Higher sales volumes (+3%)
- Favorable foreign currency translation (+3%)

In 2021, the acquisitions of Ennis-Flint, Tikkurila and VersaFlex increased net sales in the Performance Coatings segment versus prior year.

Architectural coatings – Americas and Asia Pacific net sales increased a mid-single-digit percentage during the year with differences by channel and region. Despite a strong first quarter, the remaining nine months of the year were negatively impacted by raw material shortages. Favorable foreign currency benefited net sales due to the strengthening of the Mexican peso and certain currencies in the Asia Pacific region. In Mexico, PPG Comex architectural coatings business net sales, excluding the impact of currency and acquisitions (organic sales) increased by about 10% compared to the prior year as the concessionaire network sell-out of PPG products continued to be strong.

Architectural coatings – EMEA net sales increased about 25% versus prior year largely driven by acquisition-related sales from Tikkurila and higher selling prices. Favorable foreign currency translation benefited net sales compared to the prior year. Sales volumes were strong in the first half of the year but were negatively impacted by raw material shortages in the second half.

Net sales for automotive refinish coatings increased over 20%, with significant growth in each region versus prior year driven by an increase in global miles driven and traffic density in most of the world coupled with higher selling prices.

Aerospace coatings net sales increased a low-single-digit percentage during the year primarily due to favorable foreign currency translation. Sales volumes were flat compared to prior year as a modest increase in demand for the Company's military applications was offset by a decline in commercial OEM.

Net sales in the protective and marine coatings business increased over 35% versus prior year due to higher selling prices, strong demand in the Asia Pacific region and acquisition-related sales from VersaFlex.

Segment income increased \$132 million year-over-year due to higher selling prices, higher sales volumes, acquisition-related earnings and savings from previously approved restructuring actions, partially offset by raw material and logistics cost inflation.

Looking Ahead: First Quarter 2022

In the Performance Coatings reportable business segment, supply chain and manufacturing disruptions are expected to continue as the first quarter 2022 progresses. The supply of several key inputs remains tight, which will continue to constrain sales. Further selling price increases have been secured or are being initiated during the quarter for all businesses. The Company will continue to execute against various cost-savings initiatives. Aggregate sales volumes in the first quarter are anticipated to be lower by a mid-single-digit percentage compared to the first quarter 2021, which still exhibited elevated architectural do-it-yourself ("DIY") demand in many regions. First quarter 2022 acquisition-related sales are estimated to be between \$150 million and \$170 million from Tikkurila and VersaFlex. Historically, Tikkurila sales improve sequentially in the first quarter compared to the fourth quarter as it supports building inventory in its distribution channel.

Industrial Coatings

			\$ Change	% Change
(\$ in millions, except percentages)	2021	2020	2021 vs. 2020	2021 vs. 2020
Net sales	\$6,469	\$5,339	\$1,130	21.2%
Segment income	\$680	\$750	(\$70)	(9.3)%
Amortization expense	\$46	\$40	\$6	15.0%
Segment income, excluding amortization expense	\$726	\$790	(\$64)	(8.1)%

Industrial Coatings segment net sales increased due to the following:

- Higher sales volumes (+9%)
- Acquisition-related sales (+5%)
- Higher selling prices (+5%)
- Favorable foreign currency translation (+2%)

In 2021, the acquisitions of Wörwag, Tikkurila and Cetelon increased net sales in the Industrial Coatings segment versus prior year.

Automotive OEM coatings sales volumes increased by a mid-single-digit percentage year-over-year, with declines in the second half of the year. During the year, industry-wide production disruptions worsened at many automotive OEM customers due to semiconductor chip shortages. In the U.S., automotive OEM dealer inventories remained at historically low levels as consumer demand remained very robust while production levels were constrained.

For the industrial coatings business, organic sales increased by a high-teen-percentage year-over-year as global industrial production continued to improve in most regions. Selling prices and sales volumes were higher in all regions versus prior year, and growth was led by the appliance and heavy-duty equipment sub-segments.

Packaging coatings organic sales increased by a mid-teen-percentage year-over-year due to higher selling prices and sales volume growth, including strong growth across the canned beverage segment partially offset by softening demand for the canned food segment compared to elevated levels in the prior year.

Specialty coatings and materials net sales increased by about 35% versus the prior year driven by higher sales volumes in the U.S. and Europe.

Segment income decreased \$70 million year-over-year due to raw material cost inflation, partially offset by higher selling prices, higher sales volumes and savings from previously approved restructuring actions.

Looking Ahead: First Quarter 2022

Aggregate sales volumes for the Industrial Coatings reportable business segment for the first quarter 2022 are expected to be lower by a mid-single-digit percentage compared to the prior-year first quarter, due to ongoing impacts from customer supply disruptions and coatings raw material shortages, along with continuing COVID-related operational challenges. Many of these factors are also expected to lead to additional raw material cost inflation in the first quarter sequentially versus the fourth quarter. The Company continues to prioritize working with customers to secure further selling price increases in all businesses. Segment margins are expected to begin improving on a sequential basis in the first half 2022. The Company will also continue to aggressively manage costs, which will include executing against various cost-savings initiatives. The acquisitions of Wörwag and Cetelon are expected to deliver sales of about \$100 million in the first quarter, with margins below the segment's average.

Review and Outlook

During 2021, supply disruptions, severe cost inflation, and continuing impacts from COVID-19 significantly impacted net sales and earnings and the Company's ability to meet robust aggregate customer demand. There was partial recovery in end-use markets that were significantly impacted by mobility restrictions in 2020, such as automotive refinish coatings and aerospace coatings, but both remained below 2019 global demand levels. Demand for architectural products was mixed as DIY gradually moderated to pre-pandemic levels. This was partially offset by strong recovery in do-it-for-me ("DIFM") activity as professional paint contractor project work improved from lower levels in 2020, supported by a strong U.S. housing market. A significant shortage of semiconductor chips developed as the year progressed which constrained automotive OEM manufacturers' production, despite strong underlying demand in many regions. Raw material cost inflation trended higher throughout the year, finishing the fourth quarter about 30% above the prior year fourth quarter. Some other key costs continued to increase in 2021, such as logistics, employee wage and benefit costs. The Company took swift action to collaborate with its customers and increase selling prices to help mitigate the elevated input costs which drove a 5% increase in selling prices compared to 2020. PPG's net sales, excluding foreign currency translation impact, increased approximately 19% versus the prior year and were a record \$16.8 billion. Organic sales were up by about 10% and acquisition-related sales contributed 9% to net sales growth compared to prior year. The Company

benefited from five strategic acquisitions that were completed between December 2020 and June 2021. Foreign currency translation was favorable for the year and impacted net sales by about 2%.

U.S. and Canada

In 2021, economic activity rebounded sharply from depressed levels experienced due to pandemic related restrictions in 2020. For the full year, U.S. GDP and industrial production both increased by nearly 6%. Demand in the residential and commercial construction markets also significantly improved during 2021. New home starts advanced by a low-teen percentage in 2021 versus approximately 8% in 2020. Residential remodeling was up by about 9% in 2021 versus 2020 supported by strong housing fundamentals. Commercial construction was down approximately 10% compared to 2020. Market demand for architectural paint shifted significantly back to DIFM from the DIY channel during the year as lower U.S. unemployment and increased mobility resulted in consumers choosing to hire professional paint contractors. Architectural coatings sales volumes in the U.S. and Canada were negatively impacted by severe raw material shortages that prevented the Company from meeting the demand for its architectural products. Despite strong demand for automotive OEM products, the semiconductor chip shortage constrained production. Automotive OEM industry builds were similar to 2020 and remain about 20% below 2019 production levels. The aerospace coatings business began what is expected to be a multi-year recovery to regain 2019 activity levels. Before the pandemic, the Company's sales mix was approximately 70% commercial and 30% military. During the pandemic and through 2021, sales volumes for military applications remained solid, in part due to specification of PPG products with advantaged technology. The commercial segment remains down about 40% due to lower passenger miles flown and significantly fewer international flights. The commercial aftermarket segment did show a strong recovery in the second half of 2021 as domestic flight activity improved throughout the world. The automotive refinish coatings business also experienced gradual improvement through the year as miles driven and collision claims trended toward pre-pandemic levels. Packaging coatings was favorably impacted by new business wins at a number of new packaged beverage can factories and overall solid demand for the Company's sustainable products. Higher acquisition-related sales were mostly related to the Ennis-Flint acquisition which is now the traffic solutions business. Overall sales volumes in the region were higher by a mid-single-digit percentage compared to the prior year. Solid year-over-year increases in automotive refinish, industrial, automotive OEM and packaging coatings businesses were partially offset by lower year-over-year sales volumes in architectural and aerospace coatings. Aggregate regional sales volumes remain about 10% lower than the fourth quarter 2019. The U.S. and Canada remained PPG's largest region, representing approximately 40% of 2021 net sales.

Europe, Middle East and Africa

European economic activity improved in 2021, but was constrained by supply disruptions. Industrial production and manufacturing rates in the region were higher than 2020. Activity in this region was negatively impacted by mobility restrictions associated with COVID-19 and by the U.K.'s exit from the European Union which further disrupted logistics, especially to and from the U.K. Semiconductor chip shortages negatively impacted automotive OEM sales volumes versus prior year, despite strong demand. Architectural coatings – EMEA net sales were higher driven by strong demand by professional paint contractors and the June 2021 acquisition of Tikkurila, partially offset by lower demand for architectural DIY products from elevated levels in 2020. Net sales were aided by partial recovery in the aerospace and automotive refinish coatings businesses. Demand for packaging coatings and general industrial products was solid.

EMEA represented approximately 32% of PPG's 2021 net sales, modestly higher than 2020. Net sales, excluding the impact of foreign currency translation, increased over 20%, led by higher selling prices and acquisition-related sales. Regional sales volumes were up a mid-single-digit percentage compared to 2020, but remain 8% below 2019.

Asia Pacific and Latin America

The emerging regions of Asia Pacific and Latin America represented 28% of PPG's 2021 net sales in aggregate, similar to the prior year.

Asia Pacific remained the largest emerging region, with net sales of nearly \$3 billion, led by China, which remained PPG's second largest country by revenue. Net sales in 2021 were more than 20% higher than 2020 driven by strong organic growth that was up a mid-teen-percentage compared to 2020. The sales volume growth was led by recovering demand for coatings products from softer economic activity in 2020 and demand for the Company's technologically advantaged products. Sales volumes were the strongest in the protective and marine, industrial, and packaging coatings businesses. Sales volumes in the automotive OEM end-use market were positive and above industry build rates, but were constrained by semiconductor chip shortages. Sales volumes in the region were slightly higher compared to 2019.

Overall, demand in Latin America sharply increased year-over-year driven by improved economic activity in most end-use markets. Organic sales were higher by a high-teen-percentage as compared to 2020. Strong contributions were made by the PPG Comex business, which continued to outpace the industry and added over 150 new concessionaire locations during 2021. Additionally, all the businesses in the industrial coatings reportable segment delivered strong year over year sales growth. Foreign currency translation finished about 3% favorable compared to 2020, principally driven by a weaker

U.S. dollar compared to currencies, including the Mexican peso and Brazilian real. Sales volumes in the region were up a low-single-digit percentage compared to 2019.

Outlook

We expect solid global market growth in 2022 that will likely be uneven by region and end-use. As 2022 progresses, we expect demand for coatings products to benefit from more economic re-opening, an easing of supply chain problems, general inventory rebuilding across many end-use markets, and healthy consumer spending. Continued recovery is expected in the automotive refinish, automotive OEM and aerospace coatings businesses, which collectively accounted for about 40% of the Company's pre-pandemic sales, and where the Company has broad global businesses supported by advantaged technologies.

The heightened supply and COVID-related disruptions experienced in the fourth quarter 2021 are expected to continue into the first quarter of 2022, impacting the Company's ability to manufacture and deliver product. We anticipate more favorable economic conditions in the second quarter.

We anticipate that PPG's U.S. and Canada regional growth will be led by aerospace and automotive OEM coatings as both end-use markets continue their recovery to pre-pandemic demand levels. Automotive OEM industry builds in the region are expected to be higher by a mid-teen-percentage compared to 2021. Architectural DIY demand is expected to remain at more moderate levels during 2022 and similar to 2019. Traffic solutions demand should be aided later in 2022 as infrastructure activity gains momentum.

We expect industry demand trends in 2022 in Europe to gradually improve from those experienced in 2021, particularly in the automotive OEM and refinish coatings businesses. The integration of Tikkurila will continue, and synergies from recent acquisitions should aid earnings growth. Regional growth is expected to remain mixed by sub-region and country. Favorable end-use trends are expected to continue in packaging, protective and marine, and general industrial coatings. Overall demand is expected to be similar but mixed by country in the architectural coatings business. Raw material availability is expected to gradually improve as the year progresses. We continue to monitor the economic environment in the U.K., as its exit from the European Union progresses and impacts consumer sentiment, logistics, labor availability and coatings demand.

In Asia Pacific, we expect economic activity to be soft in China during the first quarter as more severe operating restrictions have recently been imposed due to COVID and the Winter Olympics. The region is expected to receive stimulus support that should help aid economic activity as the year progresses. Economic output in Southeast Asia and India is still below 2019 levels, but is expected to improve in 2022. In China, we expect continued growth above the global average despite challenges in the real estate market and heightened risks as the Chinese economy continues to rely more on domestic consumption. The recovery in marine coatings new-build demand is expected to gain momentum as order books for large vessels and container ships is at multi-year highs.

In Latin America, we anticipate slightly better economic conditions in Mexico, most of Central America and South America compared to 2021. We expect continued strong demand in the PPG Comex architectural coatings business.

Significant other factors

We made significant progress on the global restructuring programs that were announced in April 2018, June 2019 and June 2020. The April 2018 program has been substantially completed. In the fourth quarter 2021, the Company approved business restructuring plans related to recent acquisitions. Aggregate restructuring savings related to the 2020, 2019 and 2018 programs was approximately \$135 million in 2021. Aggregate restructuring savings is expected to be at least \$70 million in 2022, including the impact of acquisition synergies. We will continue to monitor and aggressively manage the Company's cost structure to ensure alignment with the overall demand environment.

Raw materials are our most significant input cost. PPG experiences fluctuating energy and raw material costs driven by various factors, including changes in supplier feedstock costs and inventories, global industry activity levels, foreign currency exchange rates, and global supply and demand factors.

In aggregate, average raw material costs were significantly higher in 2021 versus 2020. The increases in raw material costs were primarily driven by ongoing supply constraints, including various force majeure declarations, higher energy prices, maintenance outages at many of our suppliers, energy surcharges in Europe, labor availability challenges, transportation shortages and higher ocean freight costs. PPG currently expects raw material costs to be between 25% and 30% higher on a year-over-year basis in the first quarter 2022. Cost inflation is expected in several other areas, including wage, benefit and logistics costs in 2022.

We achieved selling price improvement across all businesses in 2021, reflecting the Company's efforts to offset various inflationary pressures. The Company will continue to prioritize additional selling price increases in the first quarter 2022 and will seek additional increases throughout the year as necessary.

In 2021, we experienced favorable foreign currency translation throughout the year. We expect unfavorable year-over-year foreign currency translation in 2022. The foreign currency environment continues to be volatile, and the impact on 2022 net sales and income before income taxes could differ from this expectation. The Company generally purchases raw materials, incurs manufacturing costs and sells finished goods in the same currency, so we typically incur only modest foreign currency transaction-related impacts.

The 2022 effective tax rate from continuing operations is expected to be in the range of 22% to 23%, varying by quarter. This range represents the Company's best estimate.

Over the past five years, the Company used over \$3 billion of cash to repurchase approximately 27 million shares of PPG stock, including \$210 million in 2021. The Company ended the year with approximately \$1.3 billion remaining under its current share repurchase authorization. During 2021, the Company deployed \$2.1 billion for acquisitions, \$371 million for capital expenditures and \$536 million for dividends. In 2021, PPG marked the 50th annual per share dividend increase and the 122nd successive year of annual dividend payments.

PPG ended 2021 with approximately \$1.1 billion in cash and short-term investments. The Company expects continued strong cash generation in 2022.

Commitments and Contingent Liabilities, including Environmental Matters

PPG is involved in a number of lawsuits and claims, both actual and potential, including some that it has asserted against others, in which substantial monetary damages are sought. Refer to Item 3. "Legal Proceedings" and Note 14, "Commitments and Contingent Liabilities" in Item 8 of this Form 10-K for a description of certain of these lawsuits.

As discussed in Item 3 and Note 14, although the result of any future litigation of such lawsuits and claims is inherently unpredictable, management believes that, in the aggregate, the outcome of all lawsuits and claims involving PPG, including asbestos-related claims, will not have a material effect on PPG's consolidated financial position or liquidity; however, any such outcome may be material to the results of operations of any particular period in which costs, if any, are recognized.

As also discussed in Note 14, PPG has significant reserves for environmental contingencies. Refer to the Environmental Matters section of Note 14 for details of these reserves. It is PPG's policy to accrue expenses for contingencies when it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. Reserves for environmental contingencies are exclusive of claims against third parties and are generally not discounted. In management's opinion, the Company operates in an environmentally sound manner and the outcome of the Company's environmental contingencies will not have a material effect on PPG's financial position or liquidity; however, any such outcome may be material to the results of operations of any particular period in which costs, if any, are recognized. Management anticipates that the resolution of the Company's environmental contingencies will occur over an extended period of time.

Accounting Standards Adopted in 2021

Note 1, "Summary of Significant Accounting Policies" in Item 8 of this Form 10-K describes the Company's recently adopted accounting pronouncements.

Accounting Standards to be Adopted in Future Years

Note 1, "Summary of Significant Accounting Policies" in Item 8 of this Form 10-K describes accounting pronouncements that have been promulgated prior to December 31, 2021 but are not effective until a future date.

Liquidity and Capital Resources

During the past two years, PPG had sufficient financial resources to meet its operating requirements, to fund our capital spending, including acquisitions, share repurchases and pension plans, and to pay increasing dividends to shareholders.

Cash and cash equivalents and short-term investments

(\$ in millions)	2021	2020
Cash and cash equivalents	\$1,005	\$1,826
Short-term investments	67	96
Total	\$1,072	\$1,922

Cash from operating activities - continuing operations

(\$ in millions, except percentages)	% Change		
	2021	2020	2021 vs. 2020
Cash from operating activities	\$1,562	\$2,129	(26.6)%

2021 vs. 2020

The \$567 million decrease in Cash from operating activities - continuing operations was primarily due to increases in working capital, excluding the impact of business acquisitions.

Operating working capital

Operating working capital is a subset of total working capital and represents (1) receivables from customers, net of allowance for doubtful accounts, (2) inventories, and (3) trade liabilities. Refer to Note 3, "Working Capital Detail" in Item 8 of this Form 10-K for further information related to the components of the Company's operating working capital. We believe operating working capital represents the key components of working capital under the operating control of our businesses.

A key metric we use to measure our working capital management is operating working capital as a percentage of sales (fourth quarter sales annualized).

(\$ in millions, except percentages)	2021	2020
Trade receivables, net	\$2,687	\$2,412
Inventories, FIFO	2,345	1,845
Trade creditors' liabilities	2,734	2,259
Operating working capital	\$2,298	\$1,998
Operating working capital as a % of fourth quarter sales, annualized	13.7%	13.3%
Trade receivables, net as a % of fourth quarter sales, annualized	16.0%	16.1%
Days sales outstanding	53	54
Inventories, FIFO as a % of fourth quarter sales, annualized	14.0%	12.3%
Inventory turnover	4.9	4.2

Environmental expenditures

(\$ in millions)	2021	2020
Cash outlays related to environmental remediation activities	\$56	\$60

We expect cash outlays for environmental remediation activities in 2022 to be between \$80 million and \$100 million.

Cash used for investing activities

(\$ in millions, except percentages)			% Change
	2021	2020	2021 vs. 2020
Cash used for investing activities	\$2,404	\$1,447	66.1%

2021 vs. 2020

The \$957 million increase in cash used for investing activities, was primarily due to higher spending on business acquisitions and capital expenditures, partially offset by proceeds from the sale of a production facility in connection with the Company's manufacturing footprint consolidation plans and associated restructuring programs.

Capital expenditures, including business acquisitions

(\$ in millions, except percentages)			% Change
	2021	2020	2021 vs. 2020
Capital expenditures ⁽¹⁾	\$371	\$304	22.0%
Business acquisitions, net of cash balances acquired	\$2,137	\$1,169	82.8%
Total capital expenditures, including acquisitions	\$2,508	\$1,473	70.3%
Capital expenditures, excluding acquisitions, as a % of sales	2.2%	2.2%	—%

(1) Includes modernization and productivity improvements, expansion of existing businesses and environmental control projects.

Capital expenditures related to modernization and productivity improvements, expansion of existing businesses and environmental control projects is expected to be in the range of \$475 million to \$525 million in 2022 in support of future organic growth opportunities and reflecting lower capital spending in the past two years due to COVID-19 constraints.

In 2022, the Company will continue cash deployment focused on shareholder value creation, with a preference for business acquisitions, coupled with debt reduction to enhance financial flexibility.

Cash from financing activities

	% Change	
(\$ in millions, except percentages)	2021	2020 2021 vs. 2020
Cash from/(used for) financing activities	\$93	(\$59) N/A

2021 vs. 2020

The \$152 million increase in cash from financing activities, was primarily due the issuance of long-term debt in 2021, partially offset by higher repayments of long-term debt, purchases of treasury stock and dividends paid year-over-year.

Share repurchase activity

(\$ in millions, except number of shares)	2021	2020
Number of shares repurchased (millions)	1.3	—
Cash paid for shares repurchased	\$210	\$—

The Company has approximately \$1.3 billion remaining under the current authorization from the Board of Directors, which was approved in December 2017. The current authorized repurchase program has no expiration date.

Dividends paid to shareholders

(\$ in millions)	2021	2020
Dividends paid to shareholders	\$536	\$496

PPG has paid uninterrupted annual dividends since 1899, and 2021 marked the 50th successive year of increased annual per-share dividend payments to shareholders. The Company raised its per-share quarterly dividend by more than 9% to \$0.59 per share paid in December 2021.

Debt issued and repaid

Debt Issued (net of premium/discount and issuance costs)	Year	\$ in millions
Term Loan Credit Agreement, due 2024	2021	\$1,399
\$700 million 1.200% Notes due 2026	2021	\$692
\$100 million 3.75% Notes due 2028	2020	\$119
\$300 million 2.55% Notes due 2030	2020	\$296
\$1.5 billion 364-Day Term Loan	2020	\$1,500

Debt Repaid	Year	\$ in millions
0.875% notes (€600)	2021	\$677
9% non-callable debentures (\$134)	2021	\$134
Repayment of acquired debt	2021	\$207
Non-U.S. debt (€30)	2021	\$36
\$1.5 billion 364-Day Term Loan	2021	\$400
\$1.5 billion 364-Day Term Loan	2020	\$1,100
3.6% Notes (\$500)	2020	\$500

Credit agreements and lines of credit

In February 2021, PPG entered into a \$2.0 billion Term Loan Credit Agreement (the "Term Loan Credit Agreement"). The Term Loan Credit Agreement provided the Company with the ability to borrow up to an aggregate principal amount \$2.0 billion on an unsecured basis prior to December 31, 2021 as further discussed in Note 9, "Borrowings and Lines of Credit" in Item 8 of this Form 10-K. In June 2021, PPG borrowed \$700 million under the \$2.0 billion Term Loan Credit Agreement. In December 2021, PPG borrowed an additional \$700 million under the Term Loan Credit Agreement.

In August 2019, PPG amended and restated its five-year credit agreement (the "Credit Agreement") with several banks and financial institutions as further discussed in Note 9, "Borrowings and Lines of Credit" in Item 8 of this Form 10-K. The Credit Agreement amends and restates the Company's existing five year credit agreement dated as of December 18, 2015. The Credit Agreement provides for a \$2.2 billion unsecured revolving credit facility. The Credit Agreement will terminate on August 30, 2024. In March 2020, PPG borrowed \$800 million under the Credit Agreement and repaid that amount in full in April 2020. There were no amounts outstanding under the credit agreement as of December 31, 2021 and December 31, 2020.

The Credit Agreement also supports the Company's commercial paper borrowings which are classified as long-term based on PPG's intent and ability to refinance these borrowings on a long-term basis. As of December 31, 2021 and 2020, there were \$440 million and \$250 million of commercial paper borrowings outstanding, respectively.

The Term Loan Credit Agreement and Credit Agreement require the Company to maintain a ratio of Total Indebtedness to Total Capitalization, as defined in the Term Loan Credit Agreement and Credit Agreement, of 60% or less; provided, that for any fiscal quarter in which the Company has made an acquisition for consideration in excess of \$1 billion and for the next five fiscal quarters thereafter, the ratio of Total Indebtedness to Total Capitalization may not exceed 65% at any time. As of December 31, 2021, Total Indebtedness to Total Capitalization as defined under the Credit Agreement and the Term Loan was 48%.

In addition to the amounts available under lines of credit, the Company maintains access to the capital markets and may issue debt or equity securities from time to time, which may provide an additional source of liquidity.

Refer to Note 9, "Borrowings and Lines of Credit" in Item 8 of this Form 10-K for information regarding notes entered into and repaid as well as details regarding the use and availability of committed and uncommitted lines of credit, letters of credit and debt covenants.

Cash Requirements

We continue to believe that our cash on hand and short term investments, cash from operations and the Company's access to capital markets will continue to be sufficient to fund our operating activities, capital spending, acquisitions, dividend payments, debt service, share repurchases, contributions to pension plans, and PPG's significant cash requirements. The Company's significant cash requirements include the following contractual obligations and commitments.

(\$ in millions)	Total	Obligations Due In:			
		2022	2023-2024	2025-2026	Thereafter
Long-term debt	\$6,135	\$3	\$1,997	\$1,378	\$2,757
Commercial paper	\$440	—	\$440	—	—
Interest payments ⁽¹⁾	\$1,103	\$134	\$252	\$193	\$524
Operating leases ⁽²⁾	\$958	\$210	\$303	\$183	\$262
Unconditional purchase commitments ⁽³⁾	\$346	\$122	\$143	\$52	\$29

(1) Interest on all outstanding debt.

(2) Includes interest payments.

(3) The unconditional purchase commitments are principally take-or-pay obligations related to the purchase of certain materials, including industrial gases and electricity, consistent with customary industry practice.

The Company's off-balance sheet arrangements include unconditional purchase commitments disclosed in the "Liquidity and Capital Resources" section in the cash requirements table as well as letters of credit as discussed in Note 9, "Borrowings and Lines of Credit" in Item 8 of this Form 10-K.

Other liquidity matters

At December 31, 2021, the total amount of unrecognized tax benefits for uncertain tax positions, including an accrual of related interest and penalties along with positions only impacting the timing of tax benefits, was \$175 million. The timing of payments will depend on the progress of examinations with tax authorities. PPG does not expect a significant tax payment related to these obligations within the next year. The Company is unable to make a reasonably reliable estimate as to if, or when, any significant cash settlements with taxing authorities may occur.

Critical Accounting Estimates

Management has evaluated the accounting policies used in the preparation of the financial statements and related notes presented in Item 8 of this Form 10-K and believes those policies to be reasonable and appropriate. We believe that the most critical accounting estimates made in the preparation of our financial statements are those related to accounting for contingencies, under which we accrue a loss when it is probable that a liability has been incurred and the amount can be reasonably estimated, and to accounting for pensions, other postretirement benefits, business combinations, goodwill and other identifiable intangible assets with indefinite lives because of the importance of management judgment in making the estimates necessary to apply these policies.

Contingencies

Contingencies, by their nature, relate to uncertainties that require management to exercise judgment both in assessing the likelihood that a liability has been incurred as well as in estimating the amount of potential loss. The most important contingencies impacting our financial statements are those related to environmental remediation, to pending, impending or

overtly threatened litigation against the Company and to the resolution of matters related to open tax years. For more information on these matters, see Note 14, “Commitments and Contingent Liabilities” and Note 12, “Income Taxes” in Item 8 of this Form 10-K.

Defined Benefit Pension and Other Postretirement Benefit Plans

Accounting for pensions and other postretirement benefits involves estimating the cost of benefits to be provided well into the future and attributing that cost over the time period each employee works. To accomplish this, we make extensive use of assumptions about inflation, investment returns, mortality, turnover, medical costs and discount rates. The Company has established a process by which management reviews and selects these assumptions annually. Refer to Note 13, “Employee Benefit Plans” in Item 8 of this Form 10-K for information on these plans and the assumptions used.

Business Combinations

In accordance with the accounting guidance for business combinations, the Company uses the acquisition method of accounting to allocate costs of acquired businesses to the assets acquired and liabilities assumed based on their estimated fair values at the dates of acquisition. The excess costs of acquired businesses over the fair values of the assets acquired and liabilities assumed will be recognized as goodwill. The valuations of the acquired assets and liabilities will impact the determination of future operating results. In addition to using management estimates and negotiated amounts, the Company uses a variety of information sources to determine the estimated fair values of acquired assets and liabilities including: third-party appraisals for the estimated value and lives of identifiable intangible assets and property, plant and equipment; third-party actuaries for the estimated obligations of defined benefit pension plans and similar benefit obligations; and legal counsel or other experts to assess the obligations associated with legal, environmental and other contingent liabilities.

The business and technical judgment of management was used in determining which acquired intangible assets have indefinite lives and in determining the useful lives of acquired finite-lived intangible assets in accordance with the accounting guidance for goodwill and other intangible assets.

Goodwill and Intangible Assets

The Company tests indefinite-lived intangible assets and goodwill for impairment by either performing a qualitative evaluation or a quantitative test at least annually, or more frequently if an indication of impairment arises. The qualitative evaluation is an assessment of factors to determine whether it is more likely than not that the fair value of a reporting unit or asset is less than its carrying amount. In the quantitative test, fair values are estimated using a discounted cash flow model. Key assumptions and estimates used in the discounted cash flow model include discount rates, tax rates, future revenues, operating cash flows and capital expenditures. For more information on these matters, see Note 1, “Summary of Significant Accounting Policies” in Item 8 of this Form 10-K.

We believe that the amounts recorded in the financial statements in Item 8 of this Form 10-K related to these contingencies, pensions, other postretirement benefits, business combinations, goodwill and other identifiable intangible assets with indefinite lives are based on the best estimates and judgments of the appropriate PPG management, although actual outcomes could differ from our estimates.

Currency

Comparing spot exchange rates at December 31, 2021 and at December 31, 2020, the U.S. dollar strengthened against certain currencies in the countries where PPG operates, driven primarily by the euro and Mexican peso. As a result, consolidated net assets at December 31, 2021 decreased by \$325 million from December 31, 2020.

Comparing average exchange rates during 2021 to those of 2020, the U.S. dollar weakened against currencies of the countries within the regions PPG operates. This had a favorable impact of approximately \$60 million on full year 2021 income before Income taxes from the translation of this foreign income into U.S. dollars.

Forward-Looking Statements

Management’s Discussion and Analysis and other sections of this Annual Report contain forward-looking statements that reflect the Company’s current views with respect to future events and financial performance. You can identify forward-looking statements by the fact that they do not relate strictly to current or historic facts. Forward-looking statements are identified by the use of the words “aim,” “believe,” “expect,” “anticipate,” “intend,” “estimate,” “project,” “outlook,” “forecast” and other expressions that indicate future events and trends. Any forward-looking statement speaks only as of the date on which such statement is made, and the Company undertakes no obligation to update any forward looking statement, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosures we make on related subjects in our reports to the SEC. Also, note the following cautionary statements.

Many factors could cause actual results to differ materially from the Company’s forward-looking statements. Such factors include statements related to the expected effects on our business of COVID-19, global economic conditions, increasing price and product competition by our competitors, fluctuations in cost and availability of raw materials, the ability to

achieve selling price increases, the ability to recover margins, customer inventory levels, our ability to maintain favorable supplier relationships and arrangements, the timing of and the realization of anticipated cost savings from restructuring initiatives, the ability to identify additional cost savings opportunities, the timing and expected benefits of our acquisitions, difficulties in integrating acquired businesses and achieving expected synergies therefrom, economic and political conditions in the markets we serve, the ability to penetrate existing, developing and emerging foreign and domestic markets, foreign exchange rates and fluctuations in such rates, fluctuations in tax rates, the impact of future legislation, the impact of environmental regulations, unexpected business disruptions, the effectiveness of our internal control over financial reporting, the results of governmental investigations, and the unpredictability of existing and possible future litigation. However, it is not possible to predict or identify all such factors.

Consequently, while the list of factors presented here and in Item 1A is considered representative, no such list should be considered to be a complete statement of all potential risks and uncertainties. Unlisted factors may present significant additional obstacles to the realization of forward-looking statements.

Consequences of material differences in the results compared with those anticipated in the forward-looking statements could include, among other things, lower sales or income, business disruption, operational problems, financial loss, legal liability to third parties, other factors set forth in Item 1A of this Form 10-K and similar risks, any of which could have a material adverse effect on the Company's consolidated financial condition, results of operations or liquidity.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

PPG is exposed to market risks related to changes in foreign currency exchange rates and interest rates. The Company may enter into derivative financial instrument transactions in order to manage or reduce these market risks. A detailed description of these exposures and the Company's risk management policies are provided in Note 10, "Financial Instruments, Hedging Activities and Fair Value Measurements" in Item 8 of this Form 10-K.

The following disclosures summarize PPG's exposure to market risks and information regarding the use of and fair value of derivatives employed to manage its exposure to such risks. Quantitative sensitivity analyses have been provided to reflect how reasonably possible, unfavorable changes in market rates could impact PPG's consolidated results of operations, cash flows and financial position.

Foreign Currency Risk

We conduct operations in many countries around the world. Our results of operations are subject to both currency transaction and currency translation risk. Certain foreign currency forward contracts outstanding during 2021 and 2020 served as a hedge of a portion of PPG's exposure to foreign currency transaction risk. The fair value of these contracts was a net asset of \$24 million and \$2 million as of December 31, 2021 and December 31, 2020, respectively. The potential reduction in PPG's Income before income taxes resulting from the impact of adverse changes in exchange rates on the fair value of its outstanding foreign currency hedge contracts of 10% for European and Canadian currencies and 20% for Asian and Latin American currencies for the years ended December 31, 2021 and 2020 would have been \$306 million and \$226 million, respectively.

As of December 31, 2021 and December 31, 2020, PPG had U.S. dollar to euro cross currency swap contracts with notional amounts of \$775 million and \$875 million, respectively. The fair value of these contracts was a net asset of \$50 million and a net liability of \$8 million as of December 31, 2021 and 2020, respectively. A 10% increase in the value of the euro to the U.S. dollar would have had an unfavorable effect on the fair value of these swap contracts by reducing the value of these instruments by \$77 million and \$95 million at December 31, 2021 and 2020, respectively.

As of December 31, 2021 and 2020, PPG had non-U.S. dollar denominated debt outstanding of \$1.6 billion and \$2.4 billion, respectively. A weakening of the U.S. dollar by 10% against European currencies and by 20% against Asian and South American currencies would have resulted in unrealized translation losses of \$178 million and \$273 million as of December 31, 2021 and 2020, respectively.

Interest Rate Risk

The Company manages its interest rate risk by balancing its exposure to fixed and variable rates while attempting to minimize its interest costs. In the first quarter of 2018, PPG entered into interest rate swaps which converted \$525 million of fixed rate debt to variable rate debt. The fair value of these contracts was an asset of \$36 million and \$67 million as of December 31, 2021 and 2020, respectively. An increase in variable interest rates of 10% would lower the fair value of these swaps and increase interest expense \$1 million for the periods ended December 31, 2021 and 2020. A 10% increase in interest rates in the U.S., Canada, Mexico and Europe and a 20% increase in interest rates in Asia and South America would have an insignificant effect on PPG's variable rate debt obligations and interest expense for the periods ended December 31, 2021 and 2020, respectively. Further, a 10% reduction in interest rates would have increased the fair value of the Company's fixed rate debt by approximately \$56 million and \$48 million as of December 31, 2021 and 2020, respectively; however, such changes would not have had an effect on PPG's annual Income before income taxes or cash flows.

Item 8. Financial Statements and Supplementary Data

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of PPG Industries, Inc.

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheet of PPG Industries, Inc. and its subsidiaries (the "Company") as of December 31, 2021 and 2020, and the related consolidated statements of income, of comprehensive income, of shareholders' equity and of cash flows for each of the three years in the period ended December 31, 2021, including the related notes and schedule of valuation and qualifying accounts for each of the three years in the period ended December 31, 2021 appearing under Item 15(a)(2) (collectively referred to as the "consolidated financial statements"). We also have audited the Company's internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2021 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control - Integrated Framework (2013) issued by the COSO.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management Report on Establishing and Maintaining Adequate Internal Control Over Financial Reporting. Our responsibility is to express opinions on the Company's consolidated financial statements and on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

As described in the Management Report on Establishing and Maintaining Adequate Internal Control Over Financial Reporting, management has excluded Tikkurila Oyj ("Tikkurila") from its assessment of internal control over financial reporting as of December 31, 2021, because it was acquired by the Company in a purchase business combination during 2021. We have also excluded Tikkurila from our audit of internal control over financial reporting. Tikkurila is a wholly-owned subsidiary whose total assets and total revenues excluded from management's assessment and our audit of internal control over financial reporting represent 2% of the related consolidated financial statement amounts as of and for the year ended December 31, 2021.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are

recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Quantitative Goodwill Impairment Testing

As described in Notes 1 and 6 to the consolidated financial statements, the Company's consolidated goodwill balance was \$6,248 million as of December 31, 2021, of which a portion was subject to a quantitative goodwill impairment test. Management tests goodwill for impairment by either performing a qualitative evaluation or a quantitative test, at least annually, or more frequently if an indication of impairment exists. Management's quantitative goodwill impairment testing, if deemed necessary, is performed during the fourth quarter of each year by comparing the estimated fair value of an associated reporting unit as of September 30 to its carrying value. Fair value is estimated using a discounted cash flow model. Key assumptions and estimates used in the discounted cash flow model include projected future revenues, discount rates, operating cash flows, capital expenditures and tax rates.

The principal considerations for our determination that performing procedures relating to quantitative goodwill impairment testing is a critical audit matter are (i) the significant judgment by management when developing the fair value of a reporting unit where a quantitative test was performed; (ii) the high degree of auditor judgment, subjectivity, and effort in performing procedures and evaluating management's significant assumptions related to the projected future revenues and discount rate where a quantitative test was performed; and (iii) the audit effort involved the use of professionals with specialized skill and knowledge.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to management's quantitative goodwill impairment test, including controls over the valuation of any reporting units where a quantitative test was performed. These procedures also included, among others, testing management's process for developing the fair value estimate. This included evaluating the appropriateness of the discounted cash flow model, testing the completeness and accuracy of underlying data used, and evaluating the reasonableness of management's significant assumptions related to the projected future revenues and discount rate where a quantitative test was performed. Evaluating management's significant assumptions related to projected future revenues involved evaluating whether the significant assumptions used by management were reasonable considering (i) the current and past performance of the reporting unit; (ii) the consistency with external market and industry data; and (iii) whether the assumptions were consistent with evidence obtained in other areas of the audit. Professionals with specialized skill and knowledge were used to assist in evaluating the reasonableness of the Company's significant assumption related to the discount rate where a quantitative test was performed.

PricewaterhouseCoopers LLP

Pittsburgh, Pennsylvania

February 17, 2022

We have served as the Company's auditor since 2013.

Management Report

Responsibility for Preparation of the Financial Statements and Establishing and Maintaining Adequate Internal Control Over Financial Reporting

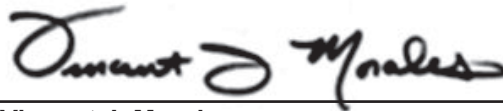

We are responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

We conducted an evaluation of the effectiveness of the Company's internal control over financial reporting as of December 31, 2021. In making this evaluation, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control - Integrated Framework (2013)*. In June 2021, the Company acquired Tikkurila Oyj ("Tikkurila"). The scope of the Company's assessment of the design and effectiveness of PPG's internal control over financial reporting for the year ended December 31, 2021 excluded this acquired business. Tikkurila, a wholly-owned subsidiary whose total assets and total revenues are excluded from our assessment, represented 2% of PPG's consolidated total assets and total revenue as of and for the year ended December 31, 2021. This acquired business will be included in management's assessment of the effectiveness of our internal controls over financial reporting as of December 31, 2022. Based on this evaluation we have concluded that, as of December 31, 2021, the Company's internal control over financial reporting were effective.

PricewaterhouseCoopers LLP, an independent registered public accounting firm, has issued their report, included on pages 30-31 of this Form 10-K, regarding the Company's internal control over financial reporting.

Michael H. McGarry
Chairman and Chief Executive Officer

The accompanying notes to the consolidated financial statements are an integral part of this consolidated statement.

Notes to the Consolidated Financial Statements

1. Summary of Significant Accounting Policies

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of PPG Industries, Inc. ("PPG" or the "Company") and all subsidiaries, both U.S. and non-U.S., that it controls. PPG owns more than 50% of the voting stock of most of the subsidiaries that it controls. For those consolidated subsidiaries in which the Company's ownership is less than 100%, the outside shareholders' interests are shown as noncontrolling interests. Investments in companies in which PPG owns 20% to 50% of the voting stock and has the ability to exercise significant influence over operating and financial policies of the investee are accounted for using the equity method of accounting. As a result, PPG's share of income or losses from such equity affiliates is included in the consolidated statement of income and PPG's share of these companies' shareholders' equity is included in Investments on the consolidated balance sheet. Transactions between PPG and its subsidiaries are eliminated in consolidation.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of income and expenses during the reporting period. Such estimates also include the fair value of assets acquired and liabilities assumed resulting from the allocation of the purchase price related to business combinations consummated. Actual outcomes could differ from those estimates.

Revenue Recognition

Revenue is recognized as performance obligations with the customer are satisfied, at an amount that is determined to be collectible. For the sale of products, this generally occurs at the point in time when control of the Company's products transfers to the customer based on the agreed upon shipping terms.

Shipping and Handling Costs

Amounts billed to customers for shipping and handling are reported in Net sales in the consolidated statement of income. Shipping and handling costs incurred by the Company for the delivery of goods to customers are included in Cost of sales, exclusive of depreciation and amortization in the consolidated statement of income.

Selling, General and Administrative Costs

Amounts presented in Selling, general and administrative in the consolidated statement of income are comprised of selling, customer service, distribution and advertising costs, as well as the costs of providing corporate-wide functional support in areas such as finance, law, human resources and planning. Distribution costs pertain to the movement and storage of finished goods inventory at company-owned and leased warehouses and other distribution facilities.

Advertising Costs

Advertising costs are charged to expense as incurred and totaled \$243 million, \$223 million and \$283 million in 2021, 2020 and 2019, respectively.

Research and Development

Research and development costs, which consist primarily of employee-related costs, are charged to expense as incurred.

(\$ in millions)	2021	2020	2019
Research and development – total	\$463	\$401	\$456
Less: depreciation on research facilities	24	22	24
Research and development, net	\$439	\$379	\$432

Legal Costs

Legal costs, which primarily include costs associated with acquisition and divestiture transactions, general litigation, environmental regulation compliance, patent and trademark protection and other general corporate purposes, are charged to expense as incurred.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to operating losses and tax credit carryforwards as well as differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in Income tax expense in the consolidated statement of income in the period that includes the enactment date.

Notes to the Consolidated Financial Statements

A valuation allowance is provided against deferred tax assets in situations where PPG determines it is more likely than not such assets will not ultimately be realized.

PPG does not recognize a tax benefit unless it concludes that it is more likely than not that the benefit will be sustained on audit by the taxing authority based solely on the technical merits of the associated tax position. If the recognition threshold is met, PPG recognizes a tax benefit measured at the largest amount of the tax benefit that, in PPG's judgment, is greater than 50 percent likely to be realized. PPG records interest and penalties related to uncertain tax positions in Income tax expense in the consolidated statement of income.

Foreign Currency Translation

The functional currency of most significant non-U.S. operations is their local currency. Assets and liabilities of those operations are translated into U.S. dollars using year-end exchange rates; income and expenses are translated using the average exchange rates for the reporting period. Unrealized foreign currency translation gains and losses are deferred in Accumulated other comprehensive loss on the consolidated balance sheet.

Cash Equivalents

Cash equivalents are highly liquid investments (valued at cost, which approximates fair value) acquired with an original maturity of three months or less.

Short-term Investments

Short-term investments are highly liquid, high credit quality investments (valued at cost plus accrued interest) that have stated maturities of greater than three months to less than one year. The purchases and sales of these investments are classified as Investing activities in the consolidated statement of cash flows.

Marketable Equity Securities

The Company's investment in marketable equity securities is recorded at fair market value and reported as Other current assets and Investments on the consolidated balance sheet with changes in fair market value recorded in income.

Inventories

Inventories are stated at the lower of cost or net realizable value. Most U.S. inventories are stated at cost, using the last-in, first-out ("LIFO") method of accounting, which does not exceed net realizable value. All other inventories are stated at cost, using the first-in, first-out ("FIFO") method of accounting, which does not exceed net realizable value. PPG determines cost using either average or standard factory costs, which approximate actual costs, excluding certain fixed costs such as depreciation and property taxes. Refer to Note 3, "Working Capital Detail" for further information concerning the Company's inventory.

Derivative Financial Instruments

The Company recognizes all derivative financial instruments (a "derivative") as either assets or liabilities at fair value on the consolidated balance sheet. The accounting for changes in the fair value of a derivative depends on the use of the instrument.

For derivative instruments that are designated and qualify as cash flow hedges, the unrealized gains or losses on the derivatives are recorded in the consolidated statement of comprehensive income. Amounts in Accumulated other comprehensive loss on the consolidated balance sheet are reclassified into Income before income taxes in the consolidated statement of income in the same period or periods during which the hedged transactions are recorded in Income before income taxes in the consolidated statement of income.

For derivative instruments that are designated and qualify as fair value hedges, the change in the fair value of the derivatives are reported in Income before income taxes in the consolidated statement of income, offsetting the gain or loss recognized for the change in fair value of the asset, liability, or firm commitment that is being hedged.

For derivatives, debt or other financial instruments that are designated and qualify as net investment hedges, the gains or losses associated with the financial instruments are reported as translation gains or losses in Accumulated other comprehensive loss on the consolidated balance sheet. Gains and losses in Accumulated other comprehensive loss related to hedges of the Company's net investments in foreign operations are reclassified out of Accumulated other comprehensive loss and recognized in Income before income taxes in the consolidated statement of income upon a substantial liquidation, sale or partial sale of such investments or upon impairment of all or a portion of such investments. The cash flow impact of these instruments is classified as Investing activities in the consolidated statement of cash flows.

Changes in the fair value of derivative instruments not designated as hedges for hedge accounting purposes are recognized in Income before income taxes in the consolidated statement of income in the period of change.

Notes to the Consolidated Financial Statements

Property, Plant and Equipment

Property, plant and equipment is recorded at cost. Depreciation is computed on a straight-line method based on the estimated useful lives of related assets. Additional depreciation expense is recorded when facilities or equipment are subject to abnormal economic conditions, restructuring actions or obsolescence.

The cost of significant improvements that add to productive capacity or extend the lives of properties are capitalized. Costs for repairs and maintenance are charged to expense as incurred. When a capitalized asset is retired or otherwise disposed of, the original cost and related accumulated depreciation balance are removed from the accounts and any related gain or loss is recorded in Income before income taxes in the consolidated statement of income. The amortization cost of finance lease assets is recorded in Depreciation expense in the consolidated statement of income. Property and other long-lived assets are reviewed for impairment whenever events or circumstances indicate that their carrying amounts may not be recoverable. Refer to Note 4, "Property, Plant and Equipment" for further details.

Goodwill and Identifiable Intangible Assets

Goodwill represents the excess of the cost over the fair value of acquired identifiable tangible and intangible assets less liabilities assumed from acquired businesses. Identifiable intangible assets acquired in business combinations are recorded based upon their fair value at the date of acquisition.

PPG is a multinational manufacturer with 10 operating segments (which the Company refers to as "strategic business units") that are organized based on the Company's major products lines. These operating segments are also the Company's reporting units for purposes of testing goodwill for impairment, which is tested at least annually in connection with PPG's strategic planning process or more frequently if an indication of impairment exists. The Company tests goodwill for impairment by either performing a qualitative evaluation or a quantitative test. The qualitative evaluation is an assessment of factors, including reporting unit specific operating results as well as industry, market and general economic conditions, to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount, including goodwill. The Company may elect to bypass this qualitative assessment for some or all of its reporting units and perform a quantitative test. Quantitative goodwill impairment testing, if deemed necessary, is performed during the fourth quarter of each year by comparing the estimated fair value of an associated reporting unit as of September 30 to its carrying value. Fair value is estimated using a discounted cash flow model. Key assumptions and estimates used in the discounted cash flow model include projected future revenues, discount rates, operating cash flows, capital expenditures and tax rates. In 2021, the annual impairment testing review of goodwill did not result in impairment of the Company's reporting units.

The Company has determined that certain acquired trademarks have indefinite useful lives. The Company tests the carrying value of these trademarks for impairment at least annually, or as needed whenever events and circumstances indicate that their carrying amount may not be recoverable. The annual assessment takes place in the fourth quarter of each year either by completing a qualitative assessment or quantitatively by comparing the estimated fair value of each trademark as of September 30 to its carrying value. Fair value is estimated by using the relief from royalty method (a discounted cash flow methodology). The qualitative assessment includes consideration of factors, including revenue relative to the asset being assessed, the operating results of the related business as well as industry, market and general economic conditions, to determine whether it is more likely than not that the fair value of the asset is less than its carrying amount. In 2021, the annual impairment testing review of indefinite-lived intangibles did not result in an impairment.

Identifiable intangible assets with finite lives are amortized on a straight-line basis over their estimated useful lives (1 to 30 years) and are reviewed for impairment whenever events or circumstances indicate that their carrying amount may not be recoverable.

Receivables and Allowances

All trade receivables are reported on the consolidated balance sheet at the outstanding principal adjusted for any allowance for doubtful accounts and any charge offs. The Company provides an allowance for doubtful accounts to reduce receivables to their estimated net realizable value when it is probable that a loss will be incurred. Those estimates are based on historical collection experience, current regional economic and market conditions, the aging of accounts receivable, assessments of current creditworthiness of customers, and forward-looking information. Refer to Note 19, "Revenue Recognition" for further details.

Leases

The Company determines if a contract is a lease at the inception of the arrangement. The Company reviews all options to extend, terminate, or purchase its right of use assets at the inception of the lease and accounts for these options when they are reasonably certain of being exercised. Certain real estate leases contain lease and non-lease components, which are accounted for separately. For certain equipment leases, lease and non-lease components are accounted for as a single lease component.

Notes to the Consolidated Financial Statements

Leases with an initial term of twelve months or less are not recorded on the consolidated balance sheet. Lease expense for these leases is recognized on a straight-line basis over the lease term.

Variable lease expense is based on contractual arrangements with PPG's lessors determined based on external indices or other relevant market factors. In addition, PPG's variable lease expense also includes elements of a contract that do not represent a good or service but for which the lessee is responsible for paying.

Nearly all of PPG's lease contracts do not provide a readily determinable implicit rate. For these contracts, PPG's estimated incremental borrowing rate is based on information available at the inception of the lease.

Product Warranties

The Company accrues for product warranties at the time the associated products are sold based on historical claims experience. The reserve, pretax charges against income and cash outlays for product warranties were not significant to the consolidated financial statements of the Company for any year presented.

Asset Retirement Obligations

An asset retirement obligation represents a legal obligation associated with the retirement of a tangible long-lived asset that is incurred upon the acquisition, construction, development or normal operation of that long-lived asset. PPG recognizes asset retirement obligations in the period in which they are incurred if a reasonable estimate of fair value can be made. The asset retirement obligation is subsequently adjusted for changes in fair value. The associated estimated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset and depreciated over its useful life. PPG's asset retirement obligations are primarily associated with the retirement or closure of certain assets used in PPG's manufacturing process. The accrued asset retirement obligation is recorded in Accounts payable and accrued liabilities and Other liabilities on the consolidated balance sheet and was \$22 million and \$21 million as of December 31, 2021 and 2020, respectively.

PPG's only conditional asset retirement obligation relates to the possible future abatement of asbestos contained in certain PPG production facilities. The asbestos in PPG's production facilities arises from the application of normal and customary building practices in the past when the facilities were constructed. This asbestos is encapsulated in place and, as a result, there is no current legal requirement to abate it. Because there is no requirement to abate, the Company does not have any current plans or an intention to abate and therefore the timing, method and cost of future abatement, if any, are not known. The Company has not recorded an asset retirement obligation associated with asbestos abatement, given the uncertainty concerning the timing of future abatement, if any.

Environmental Contingencies

It is PPG's policy to accrue expenses for environmental contingencies when it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. Reserves for environmental contingencies are exclusive of claims against third parties and are generally not discounted.

Assets and Liabilities Held for Sale

The Company classifies assets and liabilities as held for sale (a "disposal group") when management commits to a plan to sell the disposal group, the sale is probable within one year and the disposal group is available for immediate sale in its present condition. The Company considers various factors, particularly whether actions required to complete the plan indicate it is unlikely that significant changes to the plan will be made or the plan will be withdrawn. Assets held for sale are measured at the lower of carrying value or fair value less costs to sell. Any loss resulting from the measurement is recognized in the period the held-for-sale criteria are met. Conversely, gains are not recognized until the date of the sale. When the disposal group is classified as held for sale, depreciation and amortization ceases and the Company tests the assets for impairment.

Reclassifications

Certain reclassifications of prior years' data have been made to conform to the current year presentation. These reclassifications had no impact on our previously reported Net income, cash flows or shareholders' equity.

Accounting Standards Adopted in 2021

Effective January 1, 2021, PPG adopted Accounting Standards Update ("ASU") No. 2019-12, "Income Taxes - Simplifying the Accounting for Income Taxes." This ASU is intended to simplify various aspects of accounting for income taxes by eliminating certain exceptions within Accounting Standards Codification Topic 740, "Income Taxes" and to clarify certain aspects of the current accounting guidance. Adoption of this standard did not materially impact PPG's consolidated financial position, results of operations or cash flows.

Notes to the Consolidated Financial Statements

Accounting Standards to be Adopted in Future Years

In August 2020, the Financial Accounting Standards Board ("FASB") issued ASU No. 2020-06, "Debt – Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging – Contracts in Entity's Own Equity (Subtopic 815-40)." This ASU simplifies the accounting for convertible debt instruments by removing certain accounting separation models as well as the accounting for debt instruments with embedded conversion features that are not required to be accounted for as derivative instruments. The ASU also updates and improves the consistency of earnings per share calculations for convertible instruments. The amendments in this ASU are effective for fiscal years beginning after December 15, 2021, including interim periods within those fiscal years. PPG is currently assessing the potential impacts this ASU may have on its consolidated financial position, results of operations and cash flows.

In March 2020, the FASB issued ASU No. 2020-04, "Reference Rate Reform." This ASU provides optional guidance for a limited period of time to ease potential accounting impacts associated with transitioning away from reference rates that are expected to be discontinued, such as the London Interbank Offered Rate ("LIBOR"). The amendments in this ASU apply only to contracts, hedging relationships and other transactions that reference LIBOR or another reference rate expected to be discontinued. The amendments in this ASU are effective through December 31, 2022. PPG is currently assessing the potential impacts this ASU may have on its consolidated financial position, results of operations and cash flows.

2. Acquisitions and Divestitures

Acquisitions

Announced Acquisitions

On February 7, 2022, PPG announced that it had entered into an agreement to acquire the powder coatings business of Arsonsisi S.p.A., an industrial coatings company based in Milan, Italy. The transaction is expected to close in the first quarter of 2022, subject to customary closing conditions.

Completed Acquisitions

The pro-forma impact of the following acquisitions on PPG's sales and results of operations, including the pro-forma effect of events that are directly attributable to each acquisition, was not significant.

Tikkurila

On June 10, 2021, PPG completed its tender offer for all of the outstanding shares of Tikkurila Oyj ("Tikkurila"). Tikkurila is a leading Nordic producer and distributor of decorative paint and coatings, including an industrial paint business that produces paints and coatings for the wood and metal industries, among others. Immediately prior to the June 10, 2021 acquisition date, PPG owned 9.3% of Tikkurila's issued and outstanding shares. Immediately following the acquisition date, PPG owned 97.1% of Tikkurila's issued and outstanding shares. PPG continued to acquire the remaining shares not tendered during the tender offer period through a squeeze out process, ultimately achieving 100% ownership of Tikkurila's outstanding shares during the fourth quarter of 2021.

The Company paid an aggregate purchase price of \$1.7 billion, net of cash acquired. The estimated fair value of the major classes of assets acquired and liabilities assumed as reflected in the preliminary purchase price allocation included property, plant and equipment of \$199 million, goodwill of \$1.1 billion, identifiable intangible assets of \$601 million and working capital of \$110 million. Working capital represents receivables, inventories and accounts payable and accrued liabilities. The acquired identifiable intangible assets consist of indefinite-lived trademarks of \$405 million and other intangible assets with finite lives of \$196 million, which consist primarily of customer relationships, trade names, and acquired technology, subject to amortization over a weighted average period of 15 years. Refer to Note 3, "Working Capital Detail" and Note 6, "Goodwill and Other Identifiable Intangible Assets" for additional information.

The fair values assigned to assets acquired and liabilities assumed are based on management's best estimates and assumptions as of the reporting date and are considered preliminary. The purchase price was allocated based on information available at the acquisition date and is subject to customary post-closing adjustments. PPG expects to finalize the purchase price allocation with respect to this transaction by the end of the second quarter 2022.

For the year ended December 31, 2021, Tikkurila represented approximately 2% of the Company's consolidated net sales. The results of this business since the date of acquisition have been reported within two operating segments: the architectural coatings – EMEA business and the industrial coatings business. The architectural coatings – EMEA business is included within the Performance Coatings reportable business segment and the industrial coatings business is included within the Industrial Coatings reportable business segment.

Wörwag

On May 14, 2021, PPG completed the acquisition of Wörwag, a global manufacturer of coatings for industrial and automotive applications. The company specializes in developing sustainable liquid, powder and film coatings. The results of this business since the date of acquisition have been reported within the automotive original equipment manufacturer ("OEM") coatings business within the Industrial Coatings reportable business segment.

Notes to the Consolidated Financial Statements

Cetelon

On April 16, 2021, PPG completed the acquisition of Cetelon Lackfabrik GmbH, a manufacturer of coatings for automotive and light truck wheel applications. The results of this business since the date of acquisition have been reported within the automotive OEM coatings business within the Industrial Coatings reportable business segment.

VersaFlex

On February 19, 2021, PPG completed the acquisition of VersaFlex, a manufacturer specializing in polyurea, epoxy and polyurethane coatings for water and waste water infrastructure, flooring, transportation infrastructure, and industrial applications. The results of this business since the date of acquisition have been reported within the protective and marine coatings business within the Performance Coatings reportable business segment.

Ennis-Flint

On December 23, 2020, PPG completed the acquisition of Ennis-Flint, a global manufacturer of a broad portfolio of pavement marking products, including traffic paint, hot-applied and preformed thermoplastics, raised pavement markers and intelligent transportation systems. PPG funded this transaction using cash on hand. The results of this business since the date of acquisition have been reported within the traffic solutions business within the Performance Coatings reportable business segment.

Alpha Coating Technologies, LLC

On March 2, 2020, PPG completed the acquisition of Alpha Coating Technologies, LLC, a manufacturer of powder coatings for light industrial applications and heat sensitive substrates. The results of this business since the date of acquisition have been reported within the industrial coatings business within the Industrial Coatings reportable business segment.

Industria Chimica Reggiana

On January 31, 2020, PPG completed the acquisition of Industria Chimica Reggiana S.p.A, an Italian manufacturer of automotive refinishing products. The results of this business since the date of acquisition have been reported within the automotive refinishing coatings business within the Performance Coatings reportable business segment.

Texstars, LLC

On October 25, 2019, PPG completed the acquisition of Texstars, LLC, a manufacturer of high-performance transparencies, wingtip lenses and plastic components for aerospace and defense vehicles and a leader in advanced transparent coatings. The results of this business since the date of acquisition have been reported within the aerospace coatings business within the Performance Coatings reportable business segment.

Dexmet Corporation

On August 14, 2019, PPG completed the acquisition of Dexmet Corporation, a specialty materials manufacturer. Dexmet Corporation specializes in customized, highly-engineered, expanded and perforated metal foils and polymers used for structural applications. The results of this business since the date of acquisition have been reported within the aerospace coatings business within the Performance Coatings reportable business segment.

Hemmelrath

On April 16, 2019, PPG completed the acquisition of Hemmelrath, an automotive coatings manufacturer. Hemmelrath is a global manufacturer of coatings for automotive OEMs. The results of this business since the date of acquisition have been reported within the automotive OEM coatings business within the Industrial Coatings reportable business segment.

Whitford Worldwide Company

On March 1, 2019, PPG completed the acquisition of Whitford Worldwide Company, a global manufacturer that specializes in low-friction and nonstick coatings for industrial applications and consumer products. The results of this business since the date of acquisition have been reported within the industrial coatings business within the Industrial Coatings reportable business segment.

Notes to the Consolidated Financial Statements

Divestitures

In December 2020, PPG committed to a plan to sell certain entities in smaller, non-strategic countries. The revenue of these entities represents less than 1% of PPG annual net sales. The planned sale is expected to occur in early 2022. As a result, the assets and liabilities of these entities were reclassified as held for sale, and impairment charges of \$21 million and \$52 million were recorded in the consolidated statement of income for the years ended December 31, 2021 and 2020, respectively, representing the recognition in earnings of the cumulative effect of foreign currency exchange losses previously recorded in equity since acquisition and the excess net book value of the net assets over the anticipated sales proceeds less costs to sell these entities. The assets and liabilities of these entities are reported as held for sale in Other current assets and Accounts payable and accrued liabilities, respectively, on the accompanying consolidated balance sheet as of December 31, 2021 and 2020. The results of these entities are reported within the Performance Coatings reportable business segment.

The major classes of assets and liabilities of these entities included in the PPG consolidated balance sheet at December 31, 2021 and 2020 were as follows:

(\$ in millions)	December 31, 2021	December 31, 2020
Cash and cash equivalents	\$13	\$20
Receivables	—	5
Inventories	—	5
Assets held for sale	\$13	\$30
Accounts payable and accrued liabilities	\$13	\$14
Operating lease liabilities	5	6
Deferred income taxes	2	3
Other liabilities	1	1
Liabilities held for sale	\$21	\$24

Glass Segment

In the fourth quarter 2021, PPG released an environmental reserve previously established at the time of the sale of the flat glass business under the terms of the separation agreement, resulting in recognition of \$25 million income from discontinued operations, or \$19 million net of tax.

3. Working Capital Detail

(\$ in millions)	2021	2020
Receivables		
Trade - net	\$2,687	\$2,412
Other - net	465	314
Total	\$3,152	\$2,726
Inventories⁽¹⁾		
Finished products	\$1,175	\$1,021
Work in process	234	187
Raw materials	723	490
Supplies	39	37
Total	\$2,171	\$1,735
Accounts payable and accrued liabilities		
Trade	\$2,734	\$2,259
Accrued payroll	534	505
Customer rebates	368	320
Other postretirement and pension benefits	87	85
Income taxes	36	46
Other	633	577
Total	\$4,392	\$3,792

- (1) Inventories valued using the LIFO method of inventory valuation comprised 29% and 33% of total gross inventory values as of December 31, 2021 and 2020, respectively. If the FIFO method of inventory valuation had been used, inventories would have been \$174 million and \$110 million higher as of December 31, 2021 and 2020, respectively.

Notes to the Consolidated Financial Statements

4. Property, Plant and Equipment

(\$ in millions)	Useful Lives (years)	2021	2020
Land and land improvements	1-30	\$570	\$541
Buildings	20-40	1,769	1,673
Machinery and equipment	5-25	3,949	3,794
Other	3-20	1,177	1,123
Construction in progress		509	345
Total		\$7,974	\$7,476
Less: accumulated depreciation		4,532	4,349
Net		\$3,442	\$3,127

5. Investments

(\$ in millions)	2021	2020
Investments in equity affiliates	\$126	\$120
Marketable equity securities (See Note 10)	98	97
Other	50	50
Total	\$274	\$267

Investments in equity affiliates represent PPG's ownership interests in entities between 20% and 50% that manufacture and sell coatings and certain chemicals.

PPG's share of undistributed net earnings of equity affiliates was \$15 million, \$8 million and \$11 million in 2021, 2020 and 2019, respectively. Dividends received from equity affiliates were \$9 million, \$18 million and \$15 million in 2021, 2020 and 2019, respectively.

6. Goodwill and Other Identifiable Intangible Assets

Goodwill			
(\$ in millions)	Performance Coatings	Industrial Coatings	Total
January 1, 2020	\$3,442	\$1,028	\$4,470
Acquisitions, including purchase accounting adjustments	519	15	534

Foreign currency impact	67	36	103
December 31, 2020	\$4,023	\$1,079	\$5,102
Acquisitions, including purchase accounting adjustments	1,188	177	1,365
Foreign currency impact	(177)	(42)	(219)
December 31, 2021	\$5,034	\$1,214	\$6,248

Identifiable Intangible Assets							
	December 31, 2021			December 31, 2020			
(\$ in millions)	Gross Carrying Amount	Accumulated Amortization	Net	Gross Carrying Amount	Accumulated Amortization	Net	
Indefinite-Lived Identifiable Intangible Assets							
Trademarks	\$1,449	\$—	\$1,449	\$1,101	\$—	\$1,101	
Definite-Lived Identifiable Intangible Assets							
Acquired technology	\$862	(\$616)	\$246	\$813	(\$585)	\$228	
Customer-related	1,956	(1,064)	892	1,849	(994)	855	
Trade names	336	(144)	192	277	(129)	148	
Other	51	(47)	4	64	(45)	19	
Total Definite Lived Intangible Assets	\$3,205	(\$1,871)	\$1,334	\$3,003	(\$1,753)	\$1,250	
Total Identifiable Intangible Assets	\$4,654	(\$1,871)	\$2,783	\$4,104	(\$1,753)	\$2,351	

In the fourth quarter, the Company tests the carrying value of indefinite-lived trademarks for impairment, as discussed in Note 1, "Summary of Significant Accounting Policies." In conjunction with the 2020 assessment, the long-term forecast of net sales for a trademark in the Performance Coatings segment was reduced as a result of historical performance. As a result, the Company recognized a pretax impairment charge of \$38 million in Impairment charges in the accompanying consolidated statements of income. In 2021, the annual impairment testing review of indefinite-lived intangibles did not result in an impairment.

Aggregate amortization expense was \$172 million, \$138 million and \$136 million in 2021, 2020 and 2019, respectively.

Notes to the Consolidated Financial Statements

(\$ in millions)	2022	2023	2024	2025	2026
Estimated future amortization expense	\$180	\$165	\$150	\$135	\$115

7. Business Restructuring

The Company records restructuring liabilities that represent charges incurred in connection with consolidations of certain operations, including operations from acquisitions, as well as headcount reduction programs. These charges consist primarily of severance costs and certain other cash costs. As a result of these programs, the Company will also incur incremental non-cash accelerated depreciation expense for certain assets due to their reduced expected asset life. These charges are not allocated to the Company's reportable business segments. Refer to Note 20, "Reportable Business Segment Information" for additional information.

In the fourth quarter 2021, the Company approved business restructuring actions related to recent acquisitions targeting further consolidation of our manufacturing footprint and headcount reductions. The majority of these restructuring actions are expected to be completed by the end of 2023.

In the second quarter 2020, the Company approved a business restructuring plan which included actions to reduce its global cost structure. The program addressed weakened global economic conditions stemming from COVID-19 and related pace of recovery in a few end-use markets along with further opportunities to optimize supply chain and functional costs. In the second quarter 2019, the Company approved a business restructuring plan which included actions to reduce its global cost structure. The remaining actions of the 2020 and 2019 restructuring programs are expected to be completed in 2022.

In the second quarter 2018, the Company approved a business restructuring plan which included actions to reduce its global cost structure. Substantially all actions from this business restructuring plan have been completed.

The following table summarizes restructuring reserve activity for the years ended December 31, 2021 and 2020:

	Total Reserve	
(\$ in millions)	2021	2020
January 1	\$293	\$224
Approved restructuring actions	54	203
Release of prior reserves and other adjustments ^(a)	(23)	(29)
Cash payments	(77)	(126)
Foreign currency impact	(16)	21
December 31	\$231	\$293

(a) Certain releases were recorded to reflect the current estimate of costs to complete planned business restructuring actions.

8. Leases

PPG leases certain retail paint stores, warehouses, distribution facilities, office space, fleet vehicles and equipment.

The components of lease expense for the years ended December 31, 2021, 2020 and 2019 were as follows:

(\$ in millions)	Classification in the Consolidated Statement of Income	2021	2020	2019
Operating lease cost	Cost of sales, exclusive of depreciation and amortization	\$41	\$34	\$34
Operating lease cost	Selling, general and administrative	219	206	198
Total operating lease cost		\$260	\$240	\$232
Finance lease cost:				
Amortization of right-of-use assets	Depreciation	\$2	\$2	\$2
Interest on lease liabilities	Interest expense	1	1	1
Total finance lease cost		\$3	\$3	\$3
Total lease cost		\$263	\$243	\$235

Total operating lease cost for the years ended December 31, 2021, 2020 and 2019 is inclusive of the following:

(\$ in millions)	2021	2020	2019
Variable lease costs	\$18	\$17	\$15
Short-term lease costs	\$16	\$8	\$5

Notes to the Consolidated Financial Statements

The lease amounts included in the consolidated balance sheet as of December 31, 2021 and 2020 were as follows:

(\$ in millions)	Classification on the Consolidated Balance Sheet	2021	2020
Assets:			
Operating	Operating lease right-of-use assets	\$891	\$847
Finance ⁽¹⁾	Property, plant, and equipment, net	13	17
Total leased assets		\$904	\$864
Liabilities:			
Current			
Operating	Current portion of operating lease liabilities	\$192	\$180
Finance	Short-term debt and current portion of long-term debt	3	3
Noncurrent			
Operating	Operating lease liabilities	\$693	\$677
Finance	Long-term debt	7	9
Total lease liabilities		\$895	\$869

(1) Net of accumulated depreciation of \$13 million as of December 31, 2021 and 2020.

Supplemental cash flow information related to leases for the years ended December 31, 2021, 2020 and 2019 was as follows:

(\$ in millions)	2021	2020	2019
Cash paid for amounts included in the measurement of lease liabilities:			
Operating cash flows paid for operating leases	\$224	\$212	\$210
Operating cash flows paid for finance leases	\$1	\$1	\$1
Financing cash flows paid for finance leases	\$3	\$2	\$4
Right-of-use assets obtained in exchange for lease obligations:			
Operating leases	\$253	\$227	\$219
Finance leases	\$—	\$4	\$1

Lease terms and discount rates as of December 31, 2021, 2020 and 2019 were as follows:

	2021	2020	2019
Weighted-average remaining lease term (in years)			
Operating leases	7.1	7.4	7.4
Finance leases	6.4	6.1	6.2
Weighted-average discount rate			
Operating leases	2.1%	2.4%	3.0%
Finance leases	5.8%	7.0%	9.4%

As of December 31, 2021, maturities of lease liabilities were as follows:

(\$ in millions)	Operating Leases	Finance Leases
2022	\$210	\$3
2023	170	3
2024	133	2
2025	103	1
2026	80	1
Thereafter	262	2
Total lease payments	\$958	\$12
Less: Interest	73	2
Total lease obligations	\$885	\$10

Notes to the Consolidated Financial Statements

9. Borrowings and Lines of Credit

Long-term Debt Obligations

(\$ in millions)	Maturity Date	2021	2020
9% non-callable debentures (\$134) ⁽¹⁾	2021	—	134
0.875% notes (€600)	2022	—	732
3.2% notes (\$300) ⁽²⁾	2023	299	299
Term Loan Credit Agreement, due 2024 (\$1,400)	2024	1,399	—
2.4% notes (\$300)	2024	298	298
0.875% notes (€600)	2025	677	727
1.200% notes (\$700)	2026	692	—
1.4% notes (€600)	2027	677	726

3.0% notes (€120)	2044	130	139
Commercial paper	Various	440	250
Various other non-U.S. debt ⁽⁴⁾	Various	1	38
Finance lease obligations	Various	10	12
Impact of derivatives on debt ⁽¹⁾⁽⁵⁾	N/A	36	68
Total		\$6,575	\$5,346
Less payments due within one year	N/A	3	175
Long-term debt		\$6,572	\$5,171

- (1) PPG entered into several interest rate swaps, which were subsequently settled in prior periods. The impact of these settlements was amortized over the life of the debentures as a reduction to interest expense. These interest rate swaps were terminated in 2021. The weighted average interest rate for these borrowings was 8.8% and 8.4% for the years ended December 31, 2021 and 2020, respectively.
- (2) In February 2018, PPG entered into interest rate swaps which converted \$150 million of the notes from a fixed interest rate to a floating interest rate based on the three month London Interbank Offered Rate (LIBOR). The impact of the derivative on the notes represents the fair value adjustment of the debt. The average effective interest rate for the portion of the notes impacted by the swaps was 0.6% and 1.2% as of December 31, 2021 and 2020, respectively. Refer to Note 10, "Financial Instruments, Hedging Activities and Fair Value Measurements" for additional information.
- (3) In February 2018, PPG entered into interest rate swaps which converted \$375 million of the notes from a fixed interest rate to a floating interest rate based on the three month LIBOR. The impact of the derivative on the notes represents the fair value adjustment of the debt. The average effective interest rate for the portion of the notes impacted by the swaps was 1.0% and 1.6% as of December 31, 2021 and 2020, respectively. Refer to Note 10, "Financial Instruments, Hedging Activities and Fair Value Measurements" for additional information.
- (4) Weighted average interest rate of 3.1% and 3.8% as of December 31, 2021 and 2020, respectively.
- (5) Fair value adjustment of the 3.2% \$300 million notes and 3.75% \$800 million notes as a result of fair value hedge accounting treatment related to the outstanding interest rate swaps as of December 31, 2021 and 2020, respectively. Refer to Note 10, "Financial Instruments, Hedging Activities and Fair Value Measurements" for additional information.

Long-term Debt Activities

In December 2021, PPG completed an early redemption of the 0.875% notes due March 2022 using cash on hand.

In the second quarter of 2021, two of PPG's long-term debt obligations matured; \$134 million 9% non-callable debentures and non-U.S. debt of €30 million. The Company paid \$170 million to settle these obligations using cash on hand.

In March 2021, PPG completed a public offering of \$700 million aggregate principal amount of 1.200% notes due 2026. These notes were issued pursuant to PPG's existing shelf registration statement and pursuant to the Indenture between the Company and the Bank of New York Mellon Trust Company, N.A., as trustee, as supplemented (the "2021 Indenture"). The 2021 Indenture governing these notes contains covenants that limit the Company's ability to, among other things, incur certain liens securing indebtedness, engage in certain sale-leaseback transactions, and enter into certain consolidations, mergers, conveyances, transfers or leases of all or substantially all the Company's assets. The terms of these notes also require the Company to make an offer to repurchase the notes upon a Change of Control Triggering Event (as defined in the 2021 Indenture) at a price equal to 101% of their principal amount plus accrued and unpaid interest. The Company may issue additional debt from time to time pursuant to the 2021 Indenture. The aggregate cash proceeds from the notes, net of discounts and fees, was \$692 million.

Notes to the Consolidated Financial Statements

In February 2021, PPG entered into a \$2.0 billion Term Loan Credit Agreement (the "Term Loan Credit Agreement"). The Term Loan Credit Agreement provided the Company with the ability to borrow up to an aggregate principal amount of \$2.0 billion on an unsecured basis prior to December 31, 2021, to be used for working capital and general corporate purposes. The Term Loan Credit Agreement contains covenants that are usual and customary restrictive covenants for facilities of its type, which include, with specified exceptions, limitations on the Company's ability to create liens or other encumbrances, to enter into sale and leaseback transactions and to enter into consolidations, mergers or transfers of all or substantially all of its assets. The Term Loan Credit Agreement matures and all outstanding borrowings are due and payable on the third anniversary of the date of the initial borrowing under the Agreement. In June 2021, PPG borrowed \$700 million under Term Loan Credit Agreement to finance the Company's acquisition of Tikkurila, and to pay fees, costs and expenses related thereto. In December 2021, PPG borrowed an additional \$700 million under the Term Loan Credit Agreement.

In August 2020, PPG completed a public offering of \$100 million aggregate principal amount of 3.75% notes due March 2028. These notes were issued as additional notes pursuant to PPG's existing shelf registration statement and pursuant to the Indenture between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee, as supplemented (the "2018 Indenture"), which is the same Indenture pursuant to which we previously issued \$700 million in aggregate principal amount of our 3.75% notes due March 2028 on February 27, 2018. The new notes will be treated as a single series of notes with the existing notes under the 2018 Indenture, have the same CUSIP number as the existing notes, and be fungible with the existing notes for US federal income tax purposes. The Indenture governing these notes contains covenants that limit the Company's ability to, among other things, incur certain liens securing indebtedness, engage in certain sale-leaseback transactions, and enter into certain consolidations, mergers, conveyances, transfers or leases of all or substantially all the Company's assets. The terms of these notes also require the Company to make an offer to repurchase the notes upon a Change of Control Triggering Event (as defined in the 2018 Indenture) at a price equal to 101% of their principal amount plus accrued and unpaid interest. The Company may issue additional debt from time to time pursuant to the 2018 Indenture. The aggregate cash proceeds from the notes, including the premium received at issuance, net of fees, was \$119 million.

In June 2020, PPG completed an early redemption of the \$500 million 3.6% notes due November 2020 using proceeds from the May 2020 public offering and cash on hand. The Company recorded a charge of \$7 million in the second quarter for the debt redemption which consists of the aggregate make-whole cash premium of \$6 million and a balance of unamortized fees and discounts of \$1 million related to the debt redeemed.

In May 2020, PPG completed a public offering of \$300 million aggregate principal amount of 2.55% notes due 2030. These notes were issued pursuant to PPG's existing shelf registration statement and pursuant to an indenture between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee, as supplemented (the "2020 Indenture"). The 2020 Indenture governing these notes contains covenants that limit the Company's ability to, among other things, incur certain liens securing indebtedness, engage in certain sale-leaseback transactions, and enter into certain consolidations, mergers, conveyances, transfers or leases of all or substantially all the Company's assets. The terms of these notes also require the Company to make an offer to repurchase the notes upon a Change of Control Triggering Event (as defined in the 2020 Indenture) at a price equal to 101% of their principal amount plus accrued and unpaid interest. The Company may issue additional debt from time to time pursuant to the 2020 Indenture. The aggregate cash proceeds from the notes, net of discounts and fees, was \$296 million.

In April 2020, PPG entered into a \$1.5 billion 364-Day Term Loan Credit Agreement (the "Term Loan"). The Term Loan contains covenants that are consistent with those in the Credit Agreement discussed below and that are usual and customary restrictive covenants for facilities of its type, which include, with specified exceptions, limitations on the Company's ability to create liens or other encumbrances, to enter into sale and leaseback transactions and to enter into consolidations, mergers or transfers of all or substantially all of its assets. In 2020, PPG repaid \$1.1 billion of the Term Loan using cash on hand. In the first quarter 2021, PPG repaid the remaining \$400 million of the Term Loan using cash on hand. The Term Loan terminated on April 13, 2021.

In August 2019, PPG completed a public offering of \$300 million aggregate principal amount of 2.4% notes due 2024 and \$300 million aggregate principal amount of 2.8% notes due 2029. These notes were issued pursuant to PPG's existing shelf registration statement and pursuant to an indenture between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee, as supplemented (the "2019 Indenture"). The 2019 Indenture governing these notes contains covenants that limit the Company's ability to, among other things, incur certain liens securing indebtedness, engage in certain sale-leaseback transactions, and enter into certain consolidations, mergers, conveyances, transfers or leases of all or substantially all the Company's assets. The terms of these notes also require the Company to make an offer to repurchase the notes upon a Change of Control Triggering Event (as defined in the 2019 Indenture) at a price equal to 101% of their principal amount plus accrued and unpaid interest. The Company may issue additional debt from time to time pursuant to the 2019 Indenture. The aggregate cash proceeds from the notes, net of discounts and fees, was \$595 million.

Notes to the Consolidated Financial Statements

In November 2019, PPG's €300 million 0.00% notes and \$300 million 2.3% notes matured, upon which the Company paid \$634 million to settle these obligations.

Credit agreements

In August 2019, PPG amended and restated its five-year credit agreement (the "Credit Agreement") with several banks and financial institutions. The Credit Agreement amends and restates the Company's existing five year credit agreement dated as of December 18, 2015. The Credit Agreement provides for a \$2.2 billion unsecured revolving credit facility. The Company has the ability to increase the size of the Credit Agreement by up to an additional \$750 million, subject to the receipt of lender commitments and other conditions precedent. The Credit Agreement will terminate on August 30, 2024. The Company has the right, subject to certain conditions set forth in the Credit Agreement, to designate certain subsidiaries of the Company as borrowers under the Credit Agreement. In connection with any such designation, the Company is required to guarantee the obligations of any such subsidiaries under the Credit Agreement. In March 2020, PPG borrowed \$800 million under the Credit Agreement and repaid that amount in full in April 2020. For the years ended December 31, 2021 and 2020, there were no amounts outstanding under the credit agreement. The indicative borrowing rate on a one month, U.S. dollar denominated borrowing was 1.1% at December 31, 2021.

Borrowings under the Credit Agreement may be made in U.S. Dollars or in euros. The Credit Agreement provides that loans will bear interest at rates based, at the Company's option, on one of two specified base rates plus a margin based on certain formulas defined in the Credit Agreement. Additionally, the Credit Agreement contains a Commitment Fee, as defined in the Credit Agreement, on the amount of unused commitments under the Credit Agreement ranging from 0.060% to 0.125% per annum.

The Credit Agreement also supports the Company's commercial paper borrowings which are classified as long-term based on PPG's intent and ability to refinance these borrowings on a long-term basis. Commercial paper borrowings of \$440 million and \$250 million were outstanding as of December 31, 2021 and December 31, 2020, respectively.

The Credit Agreement contains usual and customary restrictive covenants for facilities of its type, which include, with specified exceptions, limitations on the Company's ability to create liens or other encumbrances, to enter into sale and leaseback transactions and to enter into consolidations, mergers or transfers of all or substantially all of its assets. The Credit Agreement also requires the Company to maintain a ratio of Total Indebtedness to Total Capitalization, as defined in the Credit Agreement, of 60% or less; provided, that for any fiscal quarter in which the Company has made an acquisition for consideration in excess of \$1 billion and for the next five fiscal quarters thereafter, the ratio of Total Indebtedness to Total Capitalization may not exceed 65% at any time. As of December 31, 2021, Total Indebtedness to Total Capitalization as defined under the Credit Agreement was 48%.

The Credit Agreement contains, among other things, customary events of default that would permit the lenders to accelerate the loans, including the failure to make timely payments when due under the Credit Agreement or other material indebtedness, the failure to satisfy covenants contained in the Credit Agreement, a change in control of the Company and specified events of bankruptcy and insolvency.

Restrictive Covenants and Cross-Default Provisions

As of December 31, 2021, PPG was in full compliance with the restrictive covenants under its various credit agreements, loan agreements and indentures.

Additionally, the Company's Credit Agreement contains customary cross-default provisions. These provisions provide that a default on a debt service payment of \$50 million or more for longer than the grace period provided under another agreement may result in an event of default under this agreement. None of the Company's primary debt obligations are secured or guaranteed by the Company's affiliates.

Long-term Debt Maturities

(\$ in millions)	Maturity per year
2022	\$3
2023	\$301
2024	\$2,136
2025	\$679
2026	\$699
Thereafter	\$2,757

Notes to the Consolidated Financial Statements

Short-term Debt Obligations

(\$ in millions)	2021	2020
Various, weighted average 0.7% and 1.7% as of December 31, 2021 and 2020, respectively.	\$6	\$403

Lines of Credit, Letters of Credit and Surety Bonds

PPG's non-U.S. operations have uncommitted lines of credit totaling \$492 million of which \$9 million was used as of December 31, 2021. These uncommitted lines of credit are subject to cancellation at any time and are generally not subject to any commitment fees.

The Company had outstanding letters of credit and surety bonds of \$173 million and \$134 million as of December 31, 2021 and 2020, respectively. The letters of credit secure the Company's performance to third parties under certain self-insurance programs and other commitments made in the ordinary course of business. The Company does not believe any loss related to these letters of credit or surety bonds is likely.

10. Financial Instruments, Hedging Activities and Fair Value Measurements

Financial instruments include cash and cash equivalents, short-term investments, cash held in escrow, marketable equity securities, accounts receivable, company-owned life insurance, accounts payable, short-term and long-term debt instruments, and derivatives. The fair values of these financial instruments approximated their carrying values at December 31, 2021 and 2020, in the aggregate, except for long-term debt instruments.

Hedging Activities

The Company has exposure to market risk from changes in foreign currency exchange rates and interest rates. As a result, financial instruments, including derivatives, have been used to hedge a portion of these underlying economic exposures. Certain of these instruments qualify as fair value, cash flow, and net investment hedges upon meeting the requisite criteria, including effectiveness of offsetting hedged or underlying exposures. Changes in the fair value of derivatives that do not qualify for hedge accounting are recognized in Income before income taxes in the period incurred.

PPG's policies do not permit speculative use of derivative financial instruments. PPG enters into derivative financial instruments with high credit quality counterparties and diversifies its positions among such counterparties in order to reduce its exposure to credit losses. The Company did not realize a credit loss on derivatives during the three-year period ended December 31, 2021.

All of PPG's outstanding derivative instruments are subject to accelerated settlement in the event of PPG's failure to meet its debt or payment obligations under the terms of the instruments' contractual provisions. In addition, if the Company would be acquired and its payment obligations under its derivative instruments' contractual arrangements are not assumed by the acquirer, or if PPG would enter into bankruptcy, receivership or reorganization proceedings, its outstanding derivative instruments would also be subject to accelerated settlement.

In 2021 and 2020, there were no derivative instruments de-designated or discontinued as a hedging instrument. There were no gains or losses deferred in Accumulated other comprehensive loss on the consolidated balance sheet that were reclassified to Income before income taxes in the consolidated statement of income during the three-year period ended December 31, 2021 related to hedges of anticipated transactions that were no longer expected to occur.

Fair Value Hedges

The Company uses interest rate swaps from time to time to manage its exposure to changing interest rates. When outstanding, the interest rate swaps are typically designated as fair value hedges of certain outstanding debt obligations of the Company and are recorded at fair value.

In February 2018, PPG entered into interest rate swaps which converted \$525 million of fixed rate debt to variable rate debt. The swaps are designated as fair value hedges and are carried at fair value. Changes in the fair value of these swaps and changes in the fair value of the related debt are recorded in Interest expense in the accompanying consolidated statement of income. The fair value of these interest rate swaps was an asset of \$36 million and \$67 million at December 31, 2021 and 2020, respectively.

Cash Flow Hedges

At times, PPG designates certain foreign currency forward contracts as cash flow hedges of the Company's exposure to variability in exchange rates on third party transactions denominated in foreign currencies. There were no outstanding cash flow hedges at December 31, 2021 and December 31, 2020, respectively.

Net Investment Hedges

PPG uses cross currency swaps and foreign currency euro-denominated debt to hedge a significant portion of its net investment in its European operations, as follows:

Notes to the Consolidated Financial Statements

As of December 31, 2021 and December 31, 2020, PPG had U.S. dollar to euro cross currency swap contracts with total notional amounts of \$775 million and \$875 million, respectively, and designated these contracts as hedges of the Company's net investment in its European operations. During the term of these contracts, PPG will receive payment in U.S. dollars and make payments in euros to the counterparties. As of December 31, 2021 and 2020, the fair value of these contracts was a net asset of \$50 million and a net liability of \$8 million, respectively.

At December 31, 2021 and 2020, PPG had designated €1.4 billion and €2.0 billion, respectively, of euro-denominated borrowings as hedges of a portion of its net investment in the Company's European operations. The carrying value of these instruments at December 31, 2021 and 2020 was \$1.6 billion and \$2.4 billion, respectively.

There were no foreign currency forward contracts designated as net investment hedges used or outstanding as of and for the periods ended December 31, 2021, 2020 and 2019.

Other Financial Instruments

PPG uses foreign currency forward contracts to manage net transaction exposures that do not qualify for hedge accounting; therefore, the change in the fair value of these instruments is recorded in Other charges in the consolidated statement of income in the period of change. Underlying notional amounts related to these foreign currency forward contracts were \$1.9 billion and \$1.4 billion at December 31, 2021 and 2020, respectively. As of December 31, 2021 and 2020, the fair values of these contracts were net assets of \$24 million and \$2 million, respectively.

Gains/Losses Deferred in Accumulated Other Comprehensive losses

As of December 31, 2021 and 2020, the Company had accumulated pretax unrealized translation gains and losses in Accumulated other comprehensive loss on the consolidated balance sheet related to the euro-denominated borrowings, foreign currency forward contracts, and the cross currency swaps of \$204 million and \$22 million, respectively.

The following table summarizes the location within the consolidated financial statements and amount of gains/(losses) related to derivative and debt financial instruments for the years ended December 31, 2021, 2020 and 2019. All dollar amounts are shown on a pretax basis.

	2021		2020		2019

Economic							
Foreign currency forward contracts		\$23		\$30		\$55	Other charges

Fair Value Measurements

The Company follows a fair value measurement hierarchy to measure its assets and liabilities. As of December 31, 2021 and 2020, respectively, the assets and liabilities measured at fair value on a recurring basis were cash equivalents, equity securities and derivatives. In addition, the Company measures its pension plan assets at fair value (see Note 13, "Employee Benefit Plans" for further details). The Company's financial assets and liabilities are measured using inputs from the following three levels:

Level 1 inputs are quoted prices in active markets for identical assets and liabilities that the Company has the ability to access at the measurement date. Level 1 inputs are considered to be the most reliable evidence of fair value as they are based on unadjusted quoted market prices from various financial information service providers and securities exchanges.

Level 2 inputs are directly or indirectly observable prices that are not quoted on active exchanges, which include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. The fair values of the derivative instruments reflect the instruments' contractual terms, including the period to maturity, and uses observable market-based inputs, including forward curves.

Notes to the Consolidated Financial Statements

Level 3 inputs are unobservable inputs employed for measuring the fair value of assets or liabilities. The Company does not have any recurring financial assets or liabilities that are recorded in its consolidated balance sheets as of December 31, 2021 and 2020 that are classified as Level 3 inputs.

Assets and liabilities reported at fair value on a recurring basis

(\$ in millions)	December 31, 2021			December 31, 2020		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3

Long-Term Debt

(\$ in millions)	December 31, 2021 ^(a)	December 31, 2020 ^(b)
Long-term debt - carrying value	\$6,565	\$5,334
Long-term debt - fair value	\$6,958	\$5,913

(a) Excluding finance lease obligations of \$10 million and short term borrowings of \$6 million as of December 31, 2021.

(b) Excluding finance lease obligations of \$12 million and short term borrowings of \$403 million as of December 31, 2020.

The fair values of the debt instruments were based on discounted cash flows and interest rates then currently available to the Company for instruments of the same remaining maturities and were measured using level 2 inputs.

Call and put option on noncontrolling interest

In December 2019, PPG paid cash to acquire the remaining noncontrolling interest in a coatings business of which PPG previously had a majority interest. Prior to this transaction, the minority shareholder's results were included in Net income attributable to noncontrolling interests on the consolidated statement of income.

Notes to the Consolidated Financial Statements

11. Earnings Per Common Share

(\$ in millions, except per share amounts)	2021	2020	2019
Earnings per common share (attributable to PPG)			
Income from continuing operations, net of tax	\$1,420	\$1,056	\$1,243
Income from discontinued operations, net of tax	19	3	—
Net income (attributable to PPG)	\$1,439	\$1,059	\$1,243
Weighted average common shares outstanding	237.6	236.8	236.9
Effect of dilutive securities:			
Stock options	1.0	0.4	0.6
Other stock compensation plans	0.8	0.7	0.7
Potentially dilutive common shares	1.8	1.1	1.3
Adjusted weighted average common shares outstanding	239.4	237.9	238.2
Earnings per common share (attributable to PPG)			
Income from continuing operations, net of tax	\$5.98	\$4.46	\$5.25
Income from discontinued operations, net of tax	0.08	0.01	—
Net income (attributable to PPG)	\$6.06	\$4.47	\$5.25
Earnings per common share - assuming dilution (attributable to PPG)			
Income from continuing operations, net of tax	\$5.93	\$4.44	\$5.22
Income from discontinued operations, net of tax	0.08	0.01	—
Net income (attributable to PPG)	\$6.01	\$4.45	\$5.22

Excluded from the computation of earnings per diluted share due to their antidilutive effect were zero, 1.4 million, and 0.9 million outstanding stock options in 2021, 2020 and 2019, respectively.

12. Income Taxes

The provision for income taxes by taxing jurisdiction and by significant components consisted of the following:

(\$ in millions)	2021	2020	2019
Current			
U.S. federal	\$25	\$12	\$86
U.S. state and local	13	6	15
Foreign	301	320	296
Total current income tax expense	\$339	\$338	\$397
Deferred			
U.S. federal	\$12	\$1	(\$1)
U.S. state and local	3	(3)	13
Foreign	20	(45)	(17)
Total deferred income tax expense/(benefit)	\$35	(\$47)	(\$5)
Total income tax expense	\$374	\$291	\$392

A reconciliation of the statutory U.S. corporate federal income tax rate to the Company's effective tax rate follows:

	2021	2020	2019
U.S. federal income tax rate	21.0%	21.0%	21.0%
Changes in rate due to:			
Taxes on non-U.S. earnings	2.7	3.3	2.9
U.S. state and local taxes	0.8	0.3	1.3
U.S. tax (benefit)/cost on foreign dividends	(1.6)	0.1	(0.9)
Tax benefits from equity awards	(0.3)	(0.4)	—
Change in valuation allowance reserves	—	(1.4)	—
U.S. tax incentives	(0.6)	(0.9)	(0.7)
U.S. tax cost - Tax Cuts & Jobs Act	—	—	0.3
Uncertain tax positions	(1.4)	0.9	0.3
Other	—	(1.5)	(0.6)
Effective income tax rate	20.6%	21.4%	23.6%

In 2021, the effective income tax rate included a net benefit of \$66 million primarily driven by foreign tax credits, releases of reserves for uncertain tax positions and research and development credits. In 2020, the effective income tax rate included a net benefit of \$30 million for changes in valuation allowance reserves and for U.S. research and development credits, as well as other credits. In 2019, the effective income tax rate included a net benefit of \$22 million driven by

Notes to the Consolidated Financial Statements

Global Intangible Low-Taxed Income, foreign derived intangible income deductions, foreign tax credits and research and development credits.

Income before income taxes of the Company's U.S. operations for 2021, 2020 and 2019 was \$469 million, \$190 million and \$596 million, respectively. Income before income taxes of the Company's foreign operations for 2021, 2020 and 2019 was \$1,346 million, \$1,172 million and \$1,065 million, respectively.

Deferred income taxes

Deferred income taxes are provided for the effect of temporary differences that arise because there are certain items treated differently for financial accounting than for income tax reporting purposes. The deferred tax assets and liabilities are determined by applying the enacted tax rate in the year in which the temporary difference is expected to reverse.

(\$ in millions)	2021	2020
Deferred income tax assets related to		
Employee benefits	\$386	\$439
Contingent and accrued liabilities	74	118
Operating loss and other carry-forwards	278	293
Operating lease liabilities	215	209
Research and development amortization	68	—
Other	121	197
Valuation allowance	(172)	(167)
Total	\$970	\$1,089
Deferred income tax liabilities related to		
Property	\$278	\$240
Intangibles	814	663
Employee benefits	75	37
Operating lease right-of-use assets	216	206
Other	36	16
Total	\$1,419	\$1,162
Deferred income tax liabilities – net	(\$449)	(\$73)

Net operating loss and credit carryforwards

(\$ in millions)	2021	2020	Expiration
Available net operating loss carryforwards, tax effected:			
Indefinite expiration	\$106	\$113	NA
Definite expiration	77	80	2022-2041
Total	\$183	\$193	
Income tax credit carryforwards	\$115	\$119	2022-2041

A valuation allowance of \$172 million and \$167 million has been established for carry-forwards and certain other items at December 31, 2021 and 2020, respectively, when the ability to utilize them is not likely.

Undistributed foreign earnings

The Company had \$4.3 billion and \$4.1 billion of undistributed earnings of non-U.S. subsidiaries as of December 31, 2021 and 2020, respectively. These amounts relate to approximately 280 subsidiaries in approximately 80 taxable jurisdictions. The Company estimates repatriation of undistributed earnings of non-U.S. subsidiaries as of December 31, 2021 and 2020 would have resulted in a tax cost of \$39 million and \$40 million, respectively.

As of December 31, 2021, the Company has not changed its intention to reinvest foreign earnings indefinitely or repatriate when it is tax effective to do so, and as such, has not established a liability for foreign withholding taxes or other costs that would be incurred if the earnings were repatriated.

Unrecognized tax benefits

The Company files federal, state and local income tax returns in numerous domestic and foreign jurisdictions. In most tax jurisdictions, returns are subject to examination by the relevant tax authorities for a number of years after the returns have been filed. The Company is no longer subject to examinations by tax authorities in any major tax jurisdiction for years before 2008. Additionally, the Company is no longer subject to examination by the Internal Revenue Service for U.S. federal income tax returns filed for years through 2016. The examinations of the Company's U.S. federal income tax returns for 2017 through 2018 are currently underway.

Notes to the Consolidated Financial Statements

A reconciliation of the total amounts of unrecognized tax benefits (excluding interest and penalties) as of December 31 follows:

(\$ in millions)	2021	2020	2019
January 1	\$175	\$167	\$166
Current year tax positions - additions	12	25	25
Prior year tax positions - additions	10	5	4
Prior year tax positions - reductions	(2)	(2)	(9)
Statute of limitations expirations	(19)	(8)	(6)
Settlements	(21)	(11)	(12)
Foreign currency translation	3	(1)	(1)
December 31	\$158	\$175	\$167

The Company expects that any reasonably possible change in the amount of unrecognized tax benefits in the next 12 months would not be significant. The total amount of unrecognized tax benefits that, if recognized, would affect the effective tax rate was \$132 million as of December 31, 2021.

Interest and penalties

(\$ in millions)	2021	2020	2019
Accrued interest and penalties related to unrecognized tax benefits	\$17	\$18	\$17
(Income)/loss recognized in income tax expense related to interest and penalties	(\$2)	\$2	\$1

The Company recognizes accrued interest and penalties related to unrecognized tax benefits in income tax expense.

13. Employee Benefit Plans

Defined Benefit Plans

PPG has defined benefit pension plans that cover certain employees worldwide. The principal defined benefit pension plans are those in the U.S., Canada, the Netherlands and the U.K. These plans in the aggregate represent approximately 91% of PPG's total projected benefit obligation at December 31, 2021, of which the U.S. defined benefit pension plans represent the largest component.

As of December 31, 2020, the Company's U.S. and Canadian defined benefit plans were frozen for all participants. The Company plans to continue reviewing and potentially amending PPG defined benefit plans in the future.

Canadian pension annuity contracts

In December 2021, the Company purchased group annuity contracts that transferred pension benefit obligations for certain of the Company's retirees in Canada who were receiving their monthly retirement benefit payments from the Canadian pension plans to a third-party insurance company. The amount of each affected retiree's annuity payment is equal to the amount of such individual's pension benefit. The purchase of group annuity contracts was funded directly by the assets of the Canadian plans. By transferring the obligations and assets to the insurance company, the Company reduced its overall pension projected benefit obligation by approximately \$175 million and recognized a non-cash pension settlement charge of \$50 million.

Postretirement medical

PPG sponsors welfare benefit plans that provide postretirement medical and life insurance benefits for certain U.S. and Canadian employees and their dependents of which the U.S. welfare benefit plans represent approximately 87% of PPG's total projected benefit obligation at December 31, 2021. Salaried and certain hourly employees in the U.S. hired on or after October 1, 2004, or rehired on or after October 1, 2012 are not eligible for postretirement medical benefits. These plans in the U.S. and Canada require retiree contributions based on retiree-selected coverage levels for certain retirees and their dependents and provide for sharing of future benefit cost increases between PPG and participants based on management discretion. The Company has the right to modify, amend or terminate certain of these benefit plans in the future.

Effective January 1, 2017, the Company-sponsored Medicare-eligible plans were replaced by a Medicare private exchange. The announcement of this plan design change triggered a remeasurement of PPG's retiree medical benefit obligation using prevailing interest rates. The plan design change resulted in a \$306 million reduction in the Company's postretirement benefit obligation. PPG accounted for the plan design change prospectively, and the impact will be amortized to periodic postretirement benefit cost over a 5.6 year period through mid-2022.

Notes to the Consolidated Financial Statements

The following table sets forth the changes in projected benefit obligations (“PBO”), plan assets, the funded status and the amounts recognized on the accompanying consolidated balance sheet for the Company’s defined benefit pension and other postretirement benefit plans:

(\$ in millions)	Defined Benefit Pension Plans					
	United States		International		Total PPG	
	2021	2020	2021	2020	2021	2020

Projected benefit obligation, December 31	\$631	\$682	\$93	\$104	\$724	\$786
Amounts recognized in the Consolidated Balance Sheet:						
Accounts payable and accrued liabilities	(47)	(48)	(5)	(5)	(52)	(53)
Other postretirement benefits	(584)	(634)	(88)	(99)	(672)	(733)
Net liability recognized	(\$631)	(\$682)	(\$93)	(\$104)	(\$724)	(\$786)

The PBO is the actuarial present value of benefits attributable to employee service rendered to date, including the effects of estimated future pay increases. The accumulated benefit obligation (“ABO”) is the actuarial present value of benefits attributable to employee service rendered to date, but does not include the effects of estimated future pay increases. The ABO for all defined benefit pension plans as of December 31, 2021 and 2020 was \$3.5 billion and \$3.8 billion, respectively.

Notes to the Consolidated Financial Statements

The following table details the pension plans where the benefit liability exceeds the fair value of the plan assets:

	<i>Pensions</i>	
(\$ in millions)	2021	2020
Plans with PBO in Excess of Plan Assets:		
Projected benefit obligation	\$2,232	\$2,478
Fair value of plan assets	\$1,366	\$1,504
Plans with ABO in Excess of Plan Assets:		
Accumulated benefit obligation	\$2,197	\$2,320
Fair value of plan assets	\$1,362	\$1,383

Net actuarial losses and prior service cost/(credit) deferred in accumulated other comprehensive loss

	<i>Pensions</i>		<i>Other Postretirement Benefits</i>	
(\$ in millions)	2021	2020	2021	2020
Accumulated net actuarial losses	\$857	\$1,071	\$170	\$233
Accumulated prior service cost/(credit)	5	4	(21)	(75)
Total	\$862	\$1,075	\$149	\$158

The accumulated net actuarial losses for pensions and other postretirement benefits relate primarily to historical declines in the discount rates. The accumulated net actuarial losses exceeded 10% of the higher of the market value of plan assets or the PBO at the beginning of each of the last three years; therefore, amortization of such excess has been included in net periodic benefit costs for pension and other postretirement benefits in these periods. The amortization period is the average remaining service period of active employees expected to receive benefits unless a plan is mostly inactive in which case the amortization period is the average remaining life expectancy of the plan participants. Accumulated prior service cost (credit) is amortized over the future service periods of those employees who are active at the dates of the plan amendments and who are expected to receive benefits.

The net decrease in Accumulated other comprehensive loss (pretax) in 2021 relating to defined benefit pension and other postretirement benefits is primarily attributable to pension and other postretirement plan discount rate increases, as follows:

	<i>Pensions</i>	<i>Other Postretirement Benefits</i>
(\$ in millions)		
Net actuarial gain arising during the year	(\$119)	(\$43)
New prior service cost	1	—
Amortization of actuarial loss	(39)	(20)
Amortization of prior service credit	—	54
Foreign currency translation adjustments	(3)	—
Impact of settlements	(53)	—
Net decrease	(\$213)	(\$9)

The 2021 net actuarial gain related to the Company's pension and other postretirement benefit plans was primarily due to an increase in the weighted average discount rate used to determine the benefit obligation at December 31, 2021.

Net periodic benefit cost

	<i>Pensions</i>			<i>Other Postretirement Benefits</i>		
(\$ in millions)	2021	2020	2019	2021	2020	2019
Service cost	\$9	\$24	\$23	\$12	\$10	\$8
Interest cost	65	87	105	14	20	26
Expected return on plan assets	(152)	(144)	(139)	—	—	—
Amortization of prior service credit	—	—	—	(54)	(59)	(57)
Amortization of actuarial losses	39	71	62	20	15	8
Settlements, curtailments, and special termination benefits	53	18	3	—	—	—
Net periodic benefit cost/(income)	\$14	\$56	\$54	(\$8)	(\$14)	(\$15)

Notes to the Consolidated Financial Statements

Service cost for net periodic pension and other postretirement benefit costs is included in Cost of sales, exclusive of depreciation and amortization, Selling, general and administrative, and Research and development, net in the accompanying consolidated statements of income. Except for the Canadian pension settlement charge in 2021, all other components of net periodic benefit cost are recorded in Other charges in the accompanying consolidated statements of income.

Key assumptions

The following weighted average assumptions were used to determine the benefit obligation for the Company's defined benefit pension and other postretirement plans as of December 31, 2021 and 2020:

	<i>United States</i>		<i>International</i>		<i>Total PPG</i>	
	<i>2021</i>	<i>2020</i>	<i>2021</i>	<i>2020</i>	<i>2021</i>	<i>2020</i>
Discount rate	2.8%	2.4%	2.0%	1.6%	2.5%	2.1%
Rate of compensation increase	2.5%	2.5%	2.8%	1.1%	2.6%	1.5%

The following weighted average assumptions were used to determine the net periodic benefit cost for the Company's defined benefit pension and other postretirement benefit plans for the three years in the period ended December 31, 2021:

	<i>2021</i>	<i>2020</i>	<i>2019</i>
Discount rate	2.1%	2.8%	3.7%
Expected return on assets	4.8%	5.0%	5.4%
Rate of compensation increase	1.5%	2.6%	1.8%

These assumptions for each plan are reviewed on an annual basis. In determining the expected return on plan asset assumption, the Company evaluates the mix of investments that comprise each plan's assets and external forecasts of future long-term investment returns. The Company compares the expected return on plan assets assumption to actual historic returns to ensure reasonability. For 2021, the return on plan assets assumption for PPG's U.S. defined benefit pension plans was 7.4%. A change in the rate of return of 100 basis points, with other assumptions held constant, would impact 2022 net periodic pension expense by \$13 million. The global expected return on plan assets assumption to be used in determining 2022 net periodic pension expense will be 5.0% (7.4% for the U.S. plans only).

The discount rates used in accounting for pension and other postretirement benefits are determined using a yield curve constructed of high-quality fixed-income securities as of the measurement date and using the plans' projected benefit payments. The Company has elected to use a full yield curve approach in the estimation of the service and interest cost components of net periodic pension benefit cost (income) for countries with significant pension plans. The full yield curve approach (also known as the split-rate or spot-rate method) allows the Company to align the applicable discount rates with the cost of additional service being earned and the interest being accrued on these obligations. A change in the discount rate of 100 basis points, with all other assumptions held constant, would impact 2022 net periodic benefit expense for our defined benefit pension and other postretirement benefit plans by \$2 million and \$6 million, respectively.

The weighted-average health care cost trend rate (inflation) used for 2021 was 5.1% declining to a projected 4.2% in the year 2040. For 2022, the assumed weighted-average health care cost trend rate used will be 5.4% declining to a projected 4.0% between 2022 and 2040 for medical and prescription drug costs, respectively. These assumptions are reviewed on an annual basis. In selecting rates for current and long-term health care cost assumptions, the Company takes into consideration a number of factors, including the Company's actual health care cost increases, the design of the Company's benefit programs, the demographics of the Company's active and retiree populations and external expectations of future medical cost inflation rates.

Contributions to defined benefit pension plans

<i>(\$ in millions)</i>	<i>2021</i>	<i>2020</i>	<i>2019</i>
Non-U.S. defined benefit pension plans	\$10	\$17	\$13

Contributions made to PPG's non-U.S. defined benefit pension plans in 2021 and 2020 were required by local funding requirements. PPG expects to make contributions to its defined benefit pension plans in the range of \$10 million to \$20 million in 2022. PPG may make voluntary contributions to its defined benefit pension plans in 2022 and beyond.

Notes to the Consolidated Financial Statements

Benefit payments

The estimated benefits expected to be paid under the Company's defined benefit pension and other postretirement benefit plans are:

(\$ in millions)	Pensions	Other Postretirement Benefits
2022	\$155	\$52
2023	\$154	\$50
2024	\$158	\$49
2025	\$161	\$48
2026	\$162	\$44
2027 to 2031	\$839	\$204

U.S. Qualified Pension

Occasionally, the Company offers a lump sum payout option that gives certain terminated vested participants in certain U.S. defined benefit pension plans the opportunity to take a one-time lump sum cash payment in lieu of receiving a future monthly annuity. A lump sum payout option was offered in 2020, and the Company paid \$52 million in benefits to terminated vested participants who elected to participate.

Plan assets

Each PPG sponsored defined benefit pension plan is managed in accordance with the requirements of local laws and regulations governing defined benefit pension plans for the exclusive purpose of providing pension benefits to participants and their beneficiaries. Investment committees comprised of PPG managers have fiduciary responsibility to oversee the management of pension plan assets by third party asset managers. Pension plan assets are held in trust by financial institutions and managed on a day-to-day basis by the asset managers. The asset managers receive a mandate from each investment committee that is aligned with the asset allocation targets established by each investment committee to achieve the plan's investment strategies. The performance of the asset managers is monitored and evaluated by the investment committees throughout the year.

Pension plan assets are invested to generate investment earnings over an extended time horizon to help fund the cost of benefits promised under the plans while mitigating investment risk. The asset allocation targets established for each pension plan are intended to diversify the investments among a variety of asset categories and among a variety of individual securities within each asset category to mitigate investment risk and provide each plan with sufficient liquidity to fund the payment of pension benefits to retirees.

The following summarizes the weighted average target pension plan asset allocation as of December 31, 2021 and 2020 for all PPG defined benefit plans:

Asset Category	2021	2020
Equity securities	15-45%	15-45%
Debt securities	30-65%	30-65%
Real estate	0-10%	0-10%
Other	20-40%	20-40%

Notes to the Consolidated Financial Statements

The fair values of the Company's pension plan assets at December 31, 2021 and 2020, by asset category, are as follows:

(\$ in millions)	December 31, 2021				December 31, 2020			
	Level 1 ⁽¹⁾	Level 2 ⁽¹⁾	Level 3 ⁽¹⁾	Total	Level 1 ⁽¹⁾	Level 2 ⁽¹⁾	Level 3 ⁽¹⁾	Total

Total assets in the fair value hierarchy	\$333	\$1,071	\$954	\$2,358	\$338	\$1,252	\$916	\$2,506
Common-collective trusts ⁽⁷⁾	—	—	—	617	—	—	—	710
Total Investments	\$333	\$1,071	\$954	\$2,975	\$338	\$1,252	\$916	\$3,216

(1) These levels refer to the accounting guidance on fair value measurement described in Note 10, "Financial Instruments, Hedging Activities and Fair Value Measurements."

(2) These amounts represent holdings in investment grade debt or equity securities of issuers in both developed markets and emerging economies.

(3) This category represents investment grade debt securities from a diverse set of industry issuers.

(4) These investments are primarily long duration fixed income securities.

(5) This category represents commingled funds invested in diverse portfolios of debt securities.

(6) This category includes mortgage-backed and asset backed debt securities, municipal bonds and other debt securities including derivatives.

(7) Certain investments that are measured at net asset value per share (or its equivalent) are not required to be classified in the fair value hierarchy.

The change in the fair value of the Company's Level 3 pension assets for the years ended December 31, 2021 and 2020 was as follows:

(\$ in millions)	Real Estate	Other Debt Securities	Hedge Funds and Other Assets	Total
January 1, 2020	\$123	\$377	\$335	\$835
Realized gains	4	24	2	30

December 31, 2020	\$124	\$421	\$371	\$916
Realized gains/(losses)	3	(11)	9	1
Unrealized gains	22	—	8	30
Transfers in/(out), net	8	(14)	44	38
Foreign currency losses	—	(29)	(2)	(31)
December 31, 2021	\$157	\$367	\$430	\$954

Real estate properties are externally appraised at least annually by reputable, independent appraisal firms. Property valuations are also reviewed on a regular basis and are adjusted if there has been a significant change in circumstances related to the property since the last valuation.

Other debt securities consist of insurance contracts, which are valued externally by insurance companies based on the present value of the expected future cash flows.

Hedge funds consist of a wide range of investments which target a relatively stable investment return. The underlying funds are valued at different frequencies, some monthly and some quarterly, based on the value of the underlying

Notes to the Consolidated Financial Statements

investments. Other assets consist primarily of small investments in private equity funds and senior secured debt obligations of non-investment grade borrowers.

Other Plans

Employee savings plans

PPG's Employee Savings Plans ("Savings Plans") cover substantially all employees in the U.S., Puerto Rico and Canada. The Company makes matching contributions to the Savings Plans, at management's discretion, based upon participants' savings, subject to certain limitations. For most participants, Company-matching contributions are established each year at the discretion of the Company and are applied to participant accounts up to a maximum of 6% of eligible participant compensation. The Company-matching contribution remained at 100% for 2021.

Compensation expense and cash contributions related to the Company match of participant contributions to the Savings Plans for 2021, 2020, and 2019 totaled \$52 million, \$50 million and \$49 million, respectively. A portion of the Savings Plans qualifies under the Internal Revenue Code as an Employee Stock Ownership Plan. Accordingly, dividends received on PPG shares held in that portion of the Savings Plans totaling \$10 million, \$11 million, and \$11 million for 2021, 2020, and 2019, respectively, are deductible for PPG's U.S. Federal tax purposes.

Defined contribution plans

Additionally, the Company has defined contribution plans for certain employees in the U.S., China, United Kingdom, Australia, Italy and other countries. The U.S. defined contribution plan is part of the Employee Savings Plan, and eligible employees receive a contribution equal to between 2% and 5% of annual compensation, based on age and years of service. For the years ended December 31, 2021, 2020 and 2019, the Company recognized expense for its defined contribution retirement plans of \$88 million, \$64 million and \$70 million, respectively. The Company's annual cash contributions to its defined contribution retirement plans approximated the expense recognized in each year.

Deferred compensation plan

The Company has a deferred compensation plan for certain key managers which allows them to defer a portion of their compensation in a phantom PPG stock account or other phantom investment accounts. The amount deferred earns a return based on the investment options selected by the participant. The amount owed to participants is an unfunded and unsecured general obligation of the Company. Upon retirement, death, disability, termination of employment, scheduled payment or unforeseen emergency, the compensation deferred and related accumulated earnings are distributed in accordance with the participant's election in cash or in PPG stock, based on the accounts selected by the participant.

The plan provides participants with investment alternatives and the ability to transfer amounts between the phantom non-PPG stock investment accounts. To mitigate the impact on compensation expense of changes in the market value of the liability, the Company has purchased a portfolio of marketable securities that mirror the phantom non-PPG stock investment accounts selected by the participants, except the money market accounts. These investments are carried by PPG at fair market value, and the changes in market value of these securities are also included in Income before income taxes in the consolidated statement of income. Trading occurs in this portfolio to align the securities held with the participant's phantom non-PPG stock investment accounts, except the money market accounts.

The cost of the deferred compensation plan, comprised of dividend equivalents accrued on the phantom PPG stock account, investment income and the change in market value of the liability, was \$20 million, \$25 million and \$21 million in 2021, 2020 and 2019, respectively. These amounts are included in Selling, general and administrative in the consolidated statements of income. The change in market value of the investment portfolio was income of \$18 million, \$24 million, and \$20 million in 2021, 2020 and 2019, respectively, and is also included in Selling, general and administrative in the consolidated statements of income.

The Company's obligations under this plan, which are included in Accounts payable and accrued liabilities and Other liabilities on the consolidated balance sheet, totaled \$139 million and \$138 million as of December 31, 2021 and 2020, respectively, and the investments in marketable securities, which are included in Investments and Other current assets on the accompanying consolidated balance sheet, were \$104 million and \$103 million as of December 31, 2021 and 2020, respectively.

14. Commitments and Contingent Liabilities

PPG is involved in a number of lawsuits and claims, both actual and potential, including some that it has asserted against others, in which substantial monetary damages are sought. These lawsuits and claims may relate to contract, patent, environmental, product liability, antitrust, employment and other matters arising out of the conduct of PPG's current and past business activities. To the extent that these lawsuits and claims involve personal injury, property damage and certain other claims, PPG believes it has adequate insurance; however, certain of PPG's insurers are contesting coverage with respect to some of these claims, and other insurers, as they had prior to the asbestos settlement described below, may contest coverage with respect to some of the asbestos claims. PPG's lawsuits and claims against others include claims

Notes to the Consolidated Financial Statements

against insurers and other third parties with respect to actual and contingent losses related to environmental, asbestos and other matters.

The results of any current or future litigation and claims are inherently unpredictable. However, management believes that, in the aggregate, the outcome of all lawsuits and claims involving PPG will not have a material effect on PPG's consolidated financial position or liquidity; however, such outcome may be material to the results of operations of any particular period in which costs, if any, are recognized.

Asbestos Matters

Prior to 2000, the Company had been named as a defendant in numerous claims alleging bodily injury from exposure to asbestos, including exposure to asbestos-containing products of Pittsburgh Corning Corporation ("PC") for which the Company was alleged to be liable (the Company and Corning Incorporated were each 50% shareholders in PC prior to April 27, 2016). In 2000, PC filed for relief under Chapter 11 of the Bankruptcy Code in the U.S. Bankruptcy Court for the Western District of Pennsylvania, and the Bankruptcy Court enjoined the prosecution of asbestos litigation against the Company during the pendency of the bankruptcy proceeding.

Following a settlement with certain of the Company's insurers that was incorporated into a plan of reorganization for PC, the Bankruptcy Court issued a channeling injunction that prohibits claimants from asserting claims against, among others, the Company arising out of exposure to asbestos or asbestos-containing products manufactured, sold or distributed by PC or asbestos on or emanating from any PC premises. The channeling injunction by its terms also precludes the prosecution of other asbestos-related claims against the Company arising out of prior relationships with PC. The foregoing PC-related claims are referred to as "PC Relationship Claims." The channeling injunction channels the Company's liability for PC Relationship Claims to a trust funded in part by the Company and certain of its insurers (the "Trust"), and this Trust is the sole recourse for holders of PC Relationship Claims.

The channeling injunction does not extend to claims against the Company alleging:

- exposure to asbestos or asbestos-containing products manufactured, sold or distributed by the Company or its subsidiaries that are not PC Relationship Claims ("Products Claims"); and
- personal injury caused by asbestos on premises presently or formerly owned, leased or occupied by the Company ("Premises Claims").

In 2009, the Company established a \$162 million reserve for Products Claims that it has monitored and reviewed on a periodic basis, and until 2021, the Company had not had sufficient current claims information or settlement history on which to base a better estimate of this liability in light of the Bankruptcy Court's injunction staying most asbestos claims against the Company which was in effect from April 2000 through May 2016.

Current open and active claims

As of December 31, 2021, the Company was aware of certain asbestos-related claims pending against the Company and certain of its subsidiaries, consisting of Products Claims, Premises Claims and claims against a subsidiary the Company acquired in 2013 ("Subsidiary Claims"). The Company is defending these claims vigorously.

In 2019, as certain claims data became available and as a supplement to its periodic monitoring and review, the Company began performing an annual valuation analysis, based in part on discussions with counsel and reports from valuation consultants, of its claims history and the amount of the Company's potential liability for asbestos-related claims. As a result of the Company's 2019 review of its asbestos-related liabilities, a charge of \$12 million was recorded in the consolidated statement of income to increase the reserve to reflect the Company's estimates of potential liability for Premises Claims and Subsidiary Claims.

In 2020, based on the results of the Company's annual valuation analysis, no adjustments to the Company's estimate of its asbestos-related liabilities were required.

In the fourth quarter of 2021, as additional claims data became available following the expiration of the Bankruptcy Court's injunction in May 2016, the Company adjusted its estimate of potential liability for Products Claims. The 2021 valuation analysis with respect to Products Claims was based, in part, upon a review of claims data; annual filings by disease and year; pending, paid and dismissed claims; indemnity cash flows; and estimates of future claim, indemnity and acceptance rates. The Company also further adjusted its estimates of potential liability for Premises Claims and Subsidiary Claims in the fourth quarter of 2021.

As a result of the Company's fourth quarter 2021 review of its asbestos-related liabilities, income of \$133 million was recorded in the consolidated statement of income to reduce the reserve to reflect the Company's current estimate of potential liability for asbestos-related bodily injury claims through December 31, 2057. As of December 31, 2021 and 2020, the Company's asbestos-related reserves totaled \$54 million and \$190 million, respectively.

Notes to the Consolidated Financial Statements

The Company believes that, based on presently available information, the total reserves of \$54 million for asbestos-related claims will be sufficient to encompass all of the Company's current and estimable potential future asbestos liabilities. These reserves, which are included within Other liabilities on the accompanying consolidated balance sheets, involve significant management judgment and represent the Company's current best estimate of its liability for these claims.

The Company monitors and reviews the activity associated with its asbestos claims and evaluates, on a periodic basis, its estimated liability for such claims and all underlying assumptions to determine whether any adjustment to the reserves for these claims is required.

The amount reserved for asbestos-related claims by its nature is subject to many uncertainties that may change over time, including (i) the ultimate number of claims filed; (ii) whether closed, dismissed or dormant claims are reinstituted, reinstated or revived; (iii) the amounts required to resolve both currently known and future unknown claims; (iv) the amount of insurance, if any, available to cover such claims; (v) the unpredictable aspects of the tort system, including a changing trial docket and the jurisdictions in which trials are scheduled; (vi) the outcome of any trials, including potential judgments or jury verdicts; (vii) the lack of specific information in many cases concerning exposure for which the Company is allegedly responsible, and the claimants' alleged diseases resulting from such exposure; and (viii) potential changes in applicable federal and/or state tort liability law. All of these factors may have a material effect upon future asbestos-related liability estimates. While the ultimate outcome of the Company's asbestos litigation cannot be predicted with certainty, the Company believes that any financial exposure resulting from its asbestos-related claims will not have a material adverse effect on the Company's consolidated financial position, liquidity or results of operations.

Environmental Matters

In management's opinion, the Company operates in an environmentally sound manner and the outcome of the Company's environmental contingencies will not have a material effect on PPG's financial position or liquidity; however, any such outcome may be material to the results of operations of any particular period in which costs, if any, are recognized. Management anticipates that the resolution of the Company's environmental contingencies will occur over an extended period of time.

As remediation at certain environmental sites progresses, PPG continues to refine its assumptions underlying the estimates of the expected future costs of its remediation programs. PPG's ongoing evaluation may result in additional charges against income to adjust the reserves for these sites. In 2021, 2020 and 2019, certain charges have been recorded based on updated estimates to increase existing reserves for these sites. Certain other charges related to environmental remediation actions are also expensed as incurred.

As of December 31, 2021 and 2020, PPG had reserves for environmental contingencies associated with PPG's former chromium manufacturing plant in Jersey City, New Jersey ("New Jersey Chrome"), glass and chemical manufacturing sites, and for other environmental contingencies, including current manufacturing locations and National Priority List sites. These reserves are reported as Accounts payable and accrued liabilities and Other liabilities in the accompanying consolidated balance sheet.

Environmental Reserves		
(\$ in millions)	2021	2020
New Jersey Chrome	\$89	\$102
Glass and chemical	83	106
Other	110	92
Total	\$282	\$300
Current Portion	\$97	\$99

In the fourth quarter 2021, PPG released an environmental reserve previously established at the time of the sale of the flat glass business under the terms of the separation agreement, resulting in recognition of \$25 million income from discontinued operations.

Pretax charges against income for environmental remediation costs are included in Other charges in the accompanying consolidated statement of income. The pretax charges and cash outlays related to such environmental remediation in 2021, 2020 and 2019, were as follows:

Notes to the Consolidated Financial Statements

(\$ in millions)	2021	2020	2019
New Jersey Chrome	\$25	\$15	\$43
Glass and chemical	12	15	12
Other	7	8	22
Total	\$44	\$38	\$77
Cash outlays for environmental spending	\$56	\$60	\$77

The Company continues to analyze, assess and remediate the environmental issues associated with New Jersey Chrome as further discussed below. Excluding the charges related to New Jersey Chrome, pretax charges against income for environmental remediation have ranged between approximately \$5 million and \$35 million per year for the past 10 years.

Management expects cash outlays for environmental remediation costs to range from \$80 million to \$100 million in 2022 and \$20 million to \$75 million annually from 2023 through 2026.

It is possible that technological, regulatory and enforcement developments, the results of environmental studies and other factors could alter the Company's expectations with respect to future charges against income and future cash outlays. Specifically, the level of expected future remediation costs and cash outlays is highly dependent upon activity related to New Jersey Chrome as discussed below.

Remediation: New Jersey Chrome

In June 2009, PPG entered into a settlement agreement with the New Jersey Department of Environmental Protection ("NJDEP") and Jersey City, New Jersey (which had asserted claims against PPG for lost tax revenue) which was in the form of a Judicial Consent Order (the "JCO"). Under the JCO, PPG accepted sole responsibility for the remediation activities at its former chromium manufacturing location in Jersey City and 19 additional sites. The principal contaminant of concern is hexavalent chromium. The JCO also provided for the appointment of a court-approved Site Administrator who is responsible for establishing a master schedule for the remediation of the 20 PPG sites which existed at that time. Over the years, sites have been added as well as removed from the JCO process. Of the original sites in the JCO, a total of 6 soil sites and 11 groundwater sites remain subject to the JCO process.

The most significant assumptions underlying the estimate of remediation costs for all New Jersey Chrome sites are those related to the extent and concentration of chromium impacts in the soil, as these determine the quantity of soil that must be treated in place, the quantity that will have to be excavated and transported for offsite disposal, and the nature of disposal required. Remediation of chromium contaminated soils at the location of the former manufacturing site has been substantially completed pursuant to approved remedial action work plans. Remediation of chromium contaminated soils at certain other smaller sites is ongoing and is expected to continue for several years. PPG regularly evaluates the assessments of costs incurred to date versus current progress and the potential cost impacts of the most recent information, including the extent of impacted soils, percentage of hazardous versus non-hazardous soils, daily soil excavation rates, and engineering, administrative and other associated costs. Based on these assessments, the reserve is adjusted accordingly. Principal factors affecting costs include refinements in the estimate of the mix of hazardous to non-hazardous soils to be excavated, an overall increase in soil volumes to be excavated, enhanced water management requirements, decreased daily soil excavation rates due to site conditions, initial estimates for remedial actions related to groundwater, an increase in materials, labor, and logistics costs due to inflationary factors, and oversight and management costs.

Groundwater remediation at the former Garfield Avenue chromium manufacturing site and adjacent sites is expected to occur over several years. A final groundwater remedial action work plan was submitted to NJDEP in the fourth quarter of 2021.

PPG's reserve for remediation of all New Jersey Chrome sites was \$89 million at December 31, 2021. The major cost components of this liability are related to excavation of impacted soil, as well as groundwater remediation. These components each account for approximately 40% and 20% of the accrued amount, respectively.

There are multiple, future events yet to occur, including further remedy selection and design, remedy implementation and execution and applicable governmental agency or community organization approvals. Considerable uncertainty exists regarding the timing of these future events for the New Jersey Chrome sites. Further resolution of these events is expected to occur over the next several years. As these events occur and to the extent that the cost estimates of the environmental remediation remedies change, the existing reserve for this environmental remediation matter will continue to be adjusted.

Remediation: Glass, Chemicals and Other Sites

Among other sites at which PPG is managing environmental liabilities, remedial actions are occurring at a chemical manufacturing site in Barberton, Ohio where PPG has completed a Facility Investigation and Corrective Measure Study under the United States Environmental Protection Agency's Resource Conservation and Recovery Act Corrective Action Program. PPG has also been addressing the impacts from a legacy plate glass manufacturing site in Kokomo, Indiana

Notes to the Consolidated Financial Statements

under the Voluntary Remediation Program of the Indiana Department of Environmental Management and a site associated with a legacy plate glass manufacturing site near Ford City, Pennsylvania under the Pennsylvania Land Recycling Program under the oversight of the Pennsylvania Department of Environmental Protection. PPG is currently performing additional investigation and remedial activities at these locations.

With respect to certain other waste sites, the financial condition of other potentially responsible parties also contributes to the uncertainty of estimating PPG's final costs. Although contributors of waste to sites involving other potentially responsible parties may face governmental agency assertions of joint and several liability, in general, final allocations of costs are made based on the relative contributions of wastes to such sites. PPG is generally not a major contributor to such sites.

Remediation: Reasonably Possible Matters

In addition to the amounts currently reserved for environmental remediation, the Company may be subject to loss contingencies related to environmental matters estimated to be as much as \$100 million to \$200 million. Such unreserved losses are reasonably possible but are not currently considered to be probable of occurrence. These reasonably possible unreserved losses relate to environmental matters at a number of sites, none of which are individually significant. The loss contingencies related to these sites include significant unresolved issues such as the nature and extent of contamination at these sites and the methods that may have to be employed to remediate them.

The impact of evolving programs, such as natural resource damage claims, industrial site re-use initiatives and domestic and international remediation programs, also adds to the present uncertainties with regard to the ultimate resolution of this unreserved exposure to future loss. The Company's assessment of the potential impact of these environmental contingencies is subject to considerable uncertainty due to the complex, ongoing and evolving process of investigation and remediation, if necessary, of such environmental contingencies, and the potential for technological and regulatory developments.

15. Shareholders' Equity

A class of 10 million shares of preferred stock, without par value, is authorized but unissued. Common stock has a par value of \$1.66 ²/₃ per share; 1.2 billion shares are authorized.

	Common Stock	Treasury Stock	Shares Outstanding
January 1, 2019	581,146,136	(345,284,702)	235,861,434
Purchases	—	(2,722,800)	(2,722,800)
Issuances	—	2,541,836	2,541,836
December 31, 2019	581,146,136	(345,465,666)	235,680,470
Issuances	—	1,005,795	1,005,795
December 31, 2020	581,146,136	(344,459,871)	236,686,265
Purchases	—	(1,521,765)	(1,521,765)
Issuances	—	742,526	742,526
December 31, 2021	581,146,136	(345,239,110)	235,907,026

Per share cash dividends paid were \$2.26, \$2.10 and \$1.98 in 2021, 2020 and 2019, respectively.

16. Accumulated Other Comprehensive Loss

(\$ in millions)	Foreign Currency Translation Adjustments ⁽¹⁾	Pension and Other Postretirement Benefit Adjustments, net of tax ⁽²⁾	Unrealized Gain/(Loss) on Derivatives, net of tax	Accumulated Other Comprehensive Loss
January 1, 2019	(\$1,734)	(\$568)	\$2	(\$2,300)
Current year deferrals to AOCL	107	(167)	1	(59)
Reclassifications from AOCL to net income	—	11	(2)	9
December 31, 2019	(\$1,627)	(\$724)	\$1	(\$2,350)
Current year deferrals to AOCL	(36)	(237)	—	(273)
Reclassifications from AOCL to net income	—	24	—	24
December 31, 2020	(\$1,663)	(\$937)	\$1	(\$2,599)
Current year deferrals to AOCL	(325)	132	—	(193)
Reclassifications from AOCL to net income	—	42	—	42
December 31, 2021	(\$1,988)	(\$763)	\$1	(\$2,750)

(1) The tax cost/(benefit) related to unrealized foreign currency translation adjustments on tax inter-branch transactions and net investment hedges as of December 31, 2021, 2020 and 2019 was \$55 million, \$(6) million and \$19 million, respectively.

(2) The tax cost/(benefit) related to the adjustment for pension and other postretirement benefits as of December 31, 2021, 2020 and 2019 was \$48 million, \$(70) million and \$(57) million, respectively. Reclassifications from AOCL are included in the computation of net periodic benefit costs (see Note 13, "Employee Benefit Plans").

Notes to the Consolidated Financial Statements

17. Other Income

(\$ in millions)	2021	2020	2019
Gain on sale of assets ⁽¹⁾	\$47	\$5	\$7
Royalty income	8	7	8
Share of net earnings of equity affiliates (See Note 5)	15	8	11
Income from legal settlements	22	—	—
Other	80	48	63
<i>Total</i>	<i>\$172</i>	<i>\$68</i>	<i>\$89</i>

(1) In 2021, PPG recognized a \$34 million gain on the sale of a production facility in connection with the Company's manufacturing footprint consolidation plans and associated restructuring programs.

18. Stock-Based Compensation

The Company's stock-based compensation includes stock options, restricted stock units ("RSUs") and grants of contingent shares that are earned based on achieving targeted levels of total shareholder return. All current grants of stock options, RSUs and contingent shares are made under the PPG Industries, Inc. Amended and Restated Omnibus Incentive Plan ("PPG Amended Omnibus Plan"), which was amended and restated effective April 21, 2016. Shares available for future grants under the PPG Amended Omnibus Plan were 5.0 million as of December 31, 2021.

(\$ in millions)	2021	2020	2019
Total stock-based compensation	\$57	\$44	\$39
Income tax benefit recognized	\$12	\$10	\$9

Stock Options

PPG has outstanding stock option awards that have been granted under the PPG Amended Omnibus Plan. Under the PPG Amended Omnibus Plan, certain employees of the Company have been granted options to purchase shares of common stock at prices equal to the fair market value of the shares on the date the options were granted. The options are generally exercisable 36 months after being granted and have a maximum term of 10 years. Upon exercise of a stock option, shares of Company stock are issued from treasury stock.

The fair value of stock options issued to employees is measured on the date of grant and is recognized as expense, net of estimated forfeitures, over the requisite service period. PPG estimates the fair value of stock options using the Black-Scholes option pricing model. The risk-free interest rate is determined by using the U.S. Treasury yield curve at the date of the grant and using a maturity equal to the expected life of the option. The expected life of options is calculated using the average of the vesting term and the maximum term, as prescribed by accounting guidance on the use of the simplified method for determining the expected term of an employee share option. The expected dividend yield and volatility are based on historical stock prices and dividend amounts over past time periods equal in length to the expected life of the options. PPG applies an estimated forfeiture rate that is calculated based on historical activity.

The following weighted average assumptions were used to calculate the fair values of stock option grants in each year:

	2021	2020	2019
Weighted average exercise price	\$136.60	\$119.52	\$109.74
Risk free interest rate	1.0%	1.6%	2.6%
Expected life of option in years	6.5	6.5	6.5
Expected dividend yield	1.6%	1.5%	1.6%
Expected volatility	25.3%	20.0%	20.0%

The weighted average fair value of options granted was \$29.27 per share, \$21.93 per share and \$22.50 per share for the years ended December 31, 2021, 2020, and 2019, respectively.

<i>Stock Options Outstanding and Exercisable</i>	<i>Number of Shares</i>	<i>Weighted Average Exercise Price</i>	<i>Weighted Average Remaining Contractual Life (in years)</i>	<i>Intrinsic Value (in millions)</i>
Outstanding, January 1, 2021	3,371,282	\$104.18	6.2	\$135
Granted	527,464	\$136.60		
Exercised	(510,864)	\$91.77		
Forfeited/Expired	(47,480)	\$120.01		
Outstanding, December 31, 2021	3,340,402	\$110.98	6.1	\$205
Vested or expected to vest, December 31, 2021	3,245,875	\$110.45	6.0	\$201
Exercisable, December 31, 2021	1,687,933	\$100.46	4.1	\$121

Notes to the Consolidated Financial Statements

At December 31, 2021, unrecognized compensation cost related to outstanding stock options that have not yet vested totaled \$8 million. This cost is expected to be recognized as expense over a weighted average period of 1.5 years.

The following table presents stock option activity for the years ended December 31, 2021, 2020 and 2019:

(\$ in millions)	2021	2020	2019
Total intrinsic value of stock options exercised	\$32	\$31	\$38
Cash received from stock option exercises	\$47	\$54	\$61
Income tax benefit from the exercise of stock options	\$8	\$7	\$9
Total fair value of stock options vested	\$11	\$11	\$12

Restricted Stock Units ("RSUs")

Long-term incentive value is delivered to selected key management employees by granting RSUs, which have either time or performance-based vesting features. The fair value of an RSU is equal to the market value of a share of PPG stock on the date of grant. Time-based RSUs generally vest over the three-year period following the date of grant, unless forfeited, and will be paid out in the form of stock, cash or a combination of both at the Company's discretion at the end of the three year vesting period. Performance-based RSUs vest based on achieving specific annual performance targets for earnings per share growth and cash flow return on capital over the three calendar year-end periods following the date of grant. Unless forfeited, the performance-based RSUs will be paid out in the form of stock, cash or a combination of both at the Company's discretion at the end of the three-year performance period if PPG meets the performance targets.

For awards granted in 2021 and 2020, the amount paid upon vesting of performance-based RSUs may range from 0% to 200% of the original grant, based upon the level of earnings per share growth achieved and frequency with which the annual cash flow return on capital performance target is met over the three calendar year periods comprising the vesting period. Performance against the earnings per share growth and the cash flow return on capital goal is calculated annually, and the annual payout for each goal will be weighted equally over the three-year period. For awards granted in 2019, the amount paid upon vesting of performance-based RSUs may range from 0% to 180% of the original grant, which is based on targets attained over the three-year performance period. The performance-based RSUs granted in 2019 vested at 150%. PPG has assumed that performance-based RSUs granted in 2020 and 2021 will vest at the 133% and 100% level, respectively.

RSU Activity	Number of Shares	Weighted Average Fair Value	Intrinsic Value (in millions)
Outstanding, January 1, 2021	591,929	\$113.74	\$67
Granted	263,911	\$120.89	
Released from restrictions	(215,208)	\$142.21	
Forfeited	(18,577)	\$122.32	
Outstanding, December 31, 2021	622,055	\$125.92	\$78
Vested or expected to vest, December 31, 2021	592,068	\$125.60	\$73

There was \$24 million of total unrecognized compensation cost related to unvested RSUs outstanding as of December 31, 2021. This cost is expected to be recognized as expense over a weighted average period of 1.5 years.

Contingent Share Grants

The Company also provides grants of contingent shares to selected key executives that may be earned based on PPG total shareholder return ("TSR") over the three-year period following the date of grant. Contingent share grants (referred to as "TSR awards") are made annually and are paid out at the end of each three-year period based on the Company's performance. Performance is measured by determining the percentile rank of the total shareholder return of PPG common stock in relation to the total shareholder return of the S&P 500 for the three-year period following the date of grant. This comparison group represents the entire S&P 500 Index as it existed at the beginning of the performance period, excluding any companies that have been removed from the index because they ceased to be publicly traded. For awards granted in 2021 and 2020, the payment of awards following the three-year award period will be based on performance achieved in accordance with the scale set forth in the plan agreement and may range from 0% to 200% of the initial grant. For awards granted in 2019, the amount paid following the three-year award period may range from 0% to 220% of the initial grant. A payout of 100% is earned if the target performance is achieved. Contingent share awards earn dividend equivalents for the award period, which will be paid to participants or credited to the participants' deferred compensation plan accounts with the award payout at the end of the period based on the actual number of contingent shares that are earned. Any payments made at the end of the award period may be in the form of stock, cash or a combination of both. The TSR awards qualify as liability awards, and compensation expense is recognized over the three-year award period based on the fair value of the awards (giving consideration to the Company's percentile rank of total shareholder return) remeasured in each reporting period until settlement of the awards.

Notes to the Consolidated Financial Statements

The performance period for the TSR shares granted in 2019 ended on December 31, 2021, and PPG's total shareholder return was measured against that of the S&P 500 over the three-year period. PPG's ranking on this performance measure was at the 56th percentile, resulting in payouts at 92.8% of target.

As of December 31, 2021, there was \$7 million of total unrecognized compensation cost related to outstanding TSR awards based on the current estimate of fair value. This cost is expected to be recognized as expense over a weighted average period of 1.4 years.

19. Revenue Recognition

The Company recognizes revenue when control of the promised goods or services is transferred to the customer and in amounts that the Company expects to collect. The timing of revenue recognition takes into consideration the various shipping terms applicable to the Company's sales. For most transactions, control passes in accordance with agreed upon delivery terms.

The Company delivers products to company-owned stores, home centers and other regional or national consumer retail outlets, paint dealers, concessionaires and independent distributors, company-owned distribution networks, and directly to manufacturing companies and retail customers. Each product delivered to a third party customer is considered to satisfy a performance obligation. Performance obligations generally occur at a point in time and are satisfied when control of the goods passes to the customer. The Company is entitled to collection of the sales price under normal credit terms in the regions in which it operates. Accounts receivable are recognized when there is an unconditional right to consideration. Payment terms vary from customer to customer, depending on creditworthiness, prior payment history and other considerations.

The Company also provides services by applying coatings to customers' manufactured parts and assembled products and by providing technical support to certain customers. Performance obligations are satisfied over time as critical milestones are met and as services are provided. PPG is entitled to payment as the services are rendered. For the years ended December 31, 2021, 2020 and 2019, service revenue constituted less than 5% of total revenue.

Net sales by segment and region for the years ended December 31, 2021, 2020 and 2019 were as follows:

(\$ in millions)	2021	2020	2019
Performance Coatings			
United States and Canada	\$4,366	\$3,673	\$4,057
EMEA	3,582	2,861	2,869
Asia Pacific	1,254	1,015	1,095
Latin America	1,131	946	1,013
Total	\$10,333	\$8,495	\$9,034
Industrial Coatings			
United States and Canada	\$2,310	\$1,995	\$2,418
EMEA	1,854	1,467	1,680
Asia Pacific	1,723	1,416	1,447
Latin America	582	461	567
Total	\$6,469	\$5,339	\$6,112
Total Net Sales⁽¹⁾			
United States and Canada	\$6,676	\$5,668	\$6,475
EMEA	5,436	4,328	4,549
Asia Pacific	2,977	2,431	2,542
Latin America	1,713	1,407	1,580
Total PPG	\$16,802	\$13,834	\$15,146

(1) Net sales to external customers are attributed to geographic regions based upon the location of the operating unit shipping the product.

Allowance for Doubtful Accounts

All trade receivables are reported on the consolidated balance sheet at the outstanding principal amount adjusted for any allowance for doubtful accounts and any charge-offs. PPG provides an allowance for doubtful accounts to reduce trade receivables to their estimated net realizable value equal to the amount that is expected to be collected. This allowance is estimated based on historical collection experience, current regional economic and market conditions, the aging of accounts receivable, assessments of current creditworthiness of customers and forward-looking information. The use of forward-looking information is based on certain macroeconomic and microeconomic indicators including, but not limited to, regional business environment risk, political risk, and commercial and financing risks.

PPG reviews its allowance for doubtful accounts on a quarterly basis to ensure the estimate reflects regional risk trends as well as current and future global operating conditions.

Notes to the Consolidated Financial Statements

The following table summarizes allowance for doubtful accounts activity for the years ended December 31, 2021 and 2020:

	<i>Trade Receivables Allowance for Doubtful Accounts</i>	
(\$ in millions)	2021	2020
January 1	\$44	\$22
Bad debt expense	19	14
Change in allowance for doubtful accounts related to COVID-19 ⁽¹⁾	(14)	30
Trade receivables written off as uncollectible, net of recoveries	(18)	(22)
December 31	\$31	\$44

(1) In 2020, PPG recorded an allowance for doubtful accounts related to the potential financial impacts of COVID-19. These amounts were estimated based on regional business information, including certain forward-looking information and other considerations. During 2020 and 2021, certain customers filed for bankruptcy as a result of the global pandemic and the trade receivables associated with those customers were written off against the previously established reserve. In 2021, PPG released a portion of the previously established reserve due to improvement in economic conditions in certain countries and a slower pattern of bankruptcies than expected.

20. Reportable Business Segment Information

Segment Organization and Products

PPG is a multinational manufacturer with 10 operating segments (which the Company refers to as “strategic business units”) that are organized based on the Company’s major products lines. The Company’s reportable business segments include the following two segments: Performance Coatings and Industrial Coatings. The operating segments have been aggregated based on economic similarities, the nature of their products, production processes, end-use markets and methods of distribution.

The Performance Coatings reportable business segment is comprised of the automotive refinish coatings, aerospace coatings, architectural coatings – Americas and Asia Pacific, architectural coatings – EMEA, protective and marine coatings and traffic solutions operating segments. This reportable business segment primarily supplies a variety of protective and decorative coatings, sealants and finishes, along with paint strippers, stains and related chemicals, pavement marking products, transparencies and transparent armor.

The Industrial Coatings reportable business segment is comprised of the automotive OEM coatings, industrial coatings, packaging coatings, and the specialty coatings and materials operating segments. This reportable business segment primarily supplies a variety of protective and decorative coatings and finishes along with adhesives, sealants, metal pretreatment products, optical monomers and coatings, precipitated silicas and other specialty materials.

Production facilities and sales for Performance Coatings and Industrial Coatings are global. PPG’s reportable business segments continue to pursue opportunities to further develop their global reach, including efforts in Asia, Eastern Europe and Latin America. Each of the reportable business segments in which PPG is engaged is highly competitive. The diversification of our product lines and the worldwide sales tend to minimize the impact on PPG’s business of changes in demand in a particular industry or in a particular geographic area.

The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies (see Note 1, “Summary of Significant Accounting Policies”). The Company allocates resources to operating segments and evaluates the performance of operating segments based upon segment income, which is income before interest expense – net, income taxes, and noncontrolling interests and excludes certain charges which are considered to be unusual or non-recurring. The Company also evaluates performance of operating segments based on working capital reduction, selling price increases and sales volume growth.

Corporate unallocated costs include the costs of corporate staff functions not directly associated with the operating segments, certain legal matters, net of related insurance recoveries, the cost of certain insurance and stock-based compensation programs and certain other unusual or non-recurring items. The service cost component of net periodic pension expense related to current employees of each reportable business segment is allocated to that reportable business segment and the remaining portion of net periodic pension expense is included in the Corporate unallocated costs.

Product movement between Performance Coatings and Industrial Coatings is limited, is accounted for as an inventory transfer, and is recorded at cost plus a mark-up, the impact of which is not significant to the net sales or segment income of the reportable business segments.

Notes to the Consolidated Financial Statements

These costs are included in Selling, general and administrative expense in the consolidated statement of income. Acquisition-related costs, net also include the impact for the step up to fair value of inventory acquired in certain acquisitions which are included in Cost of Sales, exclusive of depreciation and amortization in the consolidated statement of income.
- (2) Included in business restructuring-related costs, net are business restructuring charges, accelerated depreciation of certain assets and other related costs, offset by releases related to previously approved programs and a \$34 million gain on the sale of certain assets in 2021 in connection with the Company's manufacturing footprint consolidation plans and associated restructuring programs. This gain is included in Other income in the consolidated statement of income.
- (3) In 2021 and 2020, impairment charges were recorded for the write-down of certain assets related to the previously planned sale of certain smaller entities in non-strategic regions. Also in 2020, an impairment charge was recorded to reduce the carrying value of an indefinite-lived trademark.
- (4) In 2020, two hurricanes damaged a southern U.S. factory supporting the Company's specialty coatings and materials business. In early 2021, a winter storm further damaged that factory as well as other company factories in the southern U.S. Incremental expenses incurred due to these storms included costs related to maintenance and repairs of damaged property, freight and utility premiums and other incremental expenses directly related to the impacted areas.
- (5) In the fourth quarter 2021, the reserve for asbestos-related claims was reduced to reflect the Company's current estimate of potential liability for these claims.
- (6) Segment assets are the total assets used in the operation of each segment. Corporate assets are principally cash and cash equivalents, cash held in escrow, short term investments and deferred tax assets.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

Based on their evaluation as of the end of the period covered by this Form 10-K, the Company's principal executive officer and principal financial officer have concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure.

(b) Changes in internal control over financial reporting.

There were no changes in the Company's internal control over financial reporting that occurred during the Company's quarter ended December 31, 2021 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

(c) Management report on internal control over financial reporting.

Refer to Management Report on page 32 for management's annual report on internal control over financial reporting. Refer to Report of Independent Registered Public Accounting Firm on pages 30-31 for PricewaterhouseCoopers LLP's audit report on the Company's internal control over financial reporting.

Item 9B. Other Information

None.

Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections

Not applicable.

Part III

Item 10. Directors, Executive Officers and Corporate Governance

The information about the Company's directors required by Item 10 and not otherwise set forth below is contained under the caption "Proposal 1: Election of Directors" in PPG's definitive Proxy Statement for the 2022 Annual Meeting of Shareholders (the "Proxy Statement") which the Company anticipates filing with the Securities and Exchange Commission, pursuant to Regulation 14A, not later than 120 days after the end of the Company's fiscal year, and is incorporated herein by reference.

The executive officers of the Company are elected by the Board of Directors. The information required by this item concerning the Company's executive officers is incorporated by reference herein from Part I of this report under the caption "Information About Our Executive Officers."

Information regarding the Company's Audit Committee is included in the Proxy Statement under the caption "Corporate Governance – Audit Committee" and is incorporated herein by reference.

Information regarding the Company's codes of ethics is included in the Proxy Statement under the caption "Corporate Governance – Codes of Ethics" and is incorporated herein by reference.

Item 11. Executive Compensation

The information required by Item 11 is contained in the Proxy Statement under the captions "Compensation of Directors," "Compensation Discussion and Analysis," "Compensation of Executive Officers," "Potential Payments upon Termination or Change in Control," "Corporate Governance – Compensation Committee Interlocks and Insider Participation," and "Corporate Governance – Officers-Directors Compensation Committee Report to Shareholders" and is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information required by Item 12 is contained in the Proxy Statement under the captions "Beneficial Ownership" and "Equity Compensation Plan Information" and is incorporated herein by reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information required by Item 13 is contained in the Proxy Statement under the captions “Corporate Governance – Director Independence,” “Corporate Governance – Review and Approval or Ratification of Transactions with Related Persons” and “Corporate Governance – Certain Relationships and Related Transactions” and is incorporated herein by reference.

Item 14. Principal Accounting Fees and Services

The information required by Item 14 is contained in the Proxy Statement under the caption “Independent Registered Public Accounting Firm” and is incorporated herein by reference.

Part IV

Item 15. Exhibits, Financial Statement Schedules

(a)(1) Consolidated Financial Statements and Reports of Independent Registered Public Accounting Firm (see Part II, Item 8 of this Form 10-K).

The following information is filed as part of this Form 10-K:

	Page
Report of Independent Registered Public Accounting Firm (PCAOB ID 238)	30
Management Report	32
Consolidated Statement of Income for the Years Ended December 31, 2021, 2020 and 2019	33
Consolidated Statement of Comprehensive Income for the Years Ended December 31, 2021, 2020 and 2019	33
Consolidated Balance Sheet as of December 31, 2021 and 2020	34
Consolidated Statement of Shareholders' Equity for the Years Ended December 31, 2021, 2020 and 2019	35
Consolidated Statement of Cash Flows for the Years Ended December 31, 2021, 2020 and 2019	36
Notes to the Consolidated Financial Statements	37

(a)(2) Consolidated Financial Statement Schedule for the years ended December 31, 2021, 2020 and 2019.

The following Consolidated Financial Statement Schedule should be read in conjunction with the previously referenced financial statements:

Schedule II – Valuation and Qualifying Accounts

Allowance for Doubtful Accounts for the Years Ended December 31, 2021, 2020, and 2019

(\$ in millions)	Balance at Beginning of Year	Charged to Costs and Expenses(1)	Deductions(1, 2)	Balance at End of Year
2021	\$44	\$5	(\$18)	\$31
2020	\$22	\$44	(\$22)	\$44
2019	\$24	\$24	(\$26)	\$22

(1) In 2020, PPG recorded an allowance for doubtful accounts of \$30 million related to the potential financial impacts of COVID-19. In 2021, PPG released \$14 million of the previously established reserve due to improvement in economic conditions in certain countries and a slower pattern of bankruptcies than expected.

(2) Notes and accounts receivable written off as uncollectible, net of recoveries, amounts attributable to divestitures and changes attributable to foreign currency translation.

All other schedules are omitted because they are not applicable.

(a)(3) Exhibits. The following exhibits are filed as a part of, or incorporated by reference into, this Form 10-K.

Certifications

PRINCIPAL EXECUTIVE OFFICER CERTIFICATION

I, Michael H. McGarry, certify that:

1. I have reviewed this annual report on Form 10-K of PPG Industries, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Michael H. McGarry

2021 Highlights

Our Culture

2025

Launched the 2025 DE&I Vision & Strategy, inclusive of nine employee commitments to continue to advance our global DE&I efforts.

100%

rating on the Human Rights Campaign Foundation's 2022 Corporate Equality Index.

7,200

members across our expanded network of eight employee resource networks in more than 60 countries.

Recruiting

Launched a pilot program in the U.S. using labor market data to build diverse candidate slates for recruitment.

Training

Extended our unconscious bias training efforts, with a primary focus on people managers.

Benefits

Expanded and enhanced benefits in the U.S. to better meet the diverse needs of our employees.

Sustainability

Sustainably Advantaged Products

38%

of sales from products and processes with improved sustainability, allowing customers to reduce their environmental impact.

Zero Process Waste

40%

of manufacturing and research and development locations with zero process waste to landfill.

Waste Efficiency

↓ 42%

reduction in the quantity of waste disposed from our 2017 baseline.

Renewable Energy

24%

of energy use from renewable resources.

Spill and Release Rate

↓ 30%

reduction in PPG's spill and release rate from our 2017 baseline.

Greenhouse Gas Emissions

↓ 15%

reduction in greenhouse gas emissions from our 2017 baseline.

Key 2021 Actions

- Appointed our first Vice President of Global Sustainability;
- Defined framework for Board oversight of our ESG efforts;
- Integrated the Task Force on Climate-Related Financial Disclosures (TCFD) Framework into our business strategic planning process;
- Established groundwork to develop Science-Based Targets aligned with the Paris Agreement

Our Communities

\$13.3MM

PPG and PPG Foundation global giving in 2021.

MORE THAN
385

Colorful Communities projects completed in 42 countries since 2015.

7.4MM

People impacted by *Colorful Communities* projects since 2015.

\$20MM

Committed to investing in educational pathways for Black communities and people of color by 2025.

As part of PPG's ongoing sustainability efforts, the 2021 Annual Report is printed on post-consumer recycled paper. To read the full version of the report with expanded content, please visit 2021annualreport.ppg.com.
