

March 25, 2010

To My Fellow Stockholders,

On behalf of the Directors and employees of Sturgis Bancorp, Inc. and Sturgis Bank & Trust Company, I am pleased to provide a copy of our 2009 Annual Report to Shareholders. In this Annual Report you will find many key ratios and measures of performance. I encourage you to study this information and participate as a shareholder. If you do not understand information contained in this Annual Report, or have suggestions, do not hesitate to contact me or our CFO, Brian Hoggatt at (269)651-9345.

Last year in my letter I addressed the fact we were in a severe economic downturn. I hoped to help you understand how this impacts not only our Bank, but the entire banking industry. At that time I hoped we would see positive signs of a recovery by the end of 2009. Obviously, we did not see any significant improvement. We are now seeing some positive signs in the National economy, but I am not convinced we are going to see dramatic improvement in Michigan this year. On a positive note, our market area has performed better than other parts of the state in many aspects. We are not immune to declining real estate values or high unemployment, but we believe we have done a good job preparing for the current environment. You will see in 2009 we made significant contributions to our Allowance for Loan and Lease Losses (ALLL). This resulted in a significant reduction in Net Income for the year. We are continuously evaluating our loan portfolios to detect any signs of weakness and addressing these in a proactive manner.

Our net income for 2009 was \$915,000, or \$0.45 per share, compared with net income of \$2.3 million or \$1.13 per share for 2008. Management continues to focus on diversifying the sources of income in an effort to reduce our reliance on only the interest margin. This diversification helped buffer the decrease in net interest income in 2009. Mortgage banking was strong and the Bank also benefited from a gain on the sale of investments in our portfolio. Non interest income increased from \$4.7 million in 2008 to \$5.6 million in 2009 due to these sources of non-interest income.

Total assets declined to \$370.0 million in 2009 from \$383.0 million in 2008. This decline was primarily in the Mortgage-backed securities portfolio and was an intentional move by Bank management. Total loans had a modest decline of approximately \$3.0 million. Deposits grew by \$21.0 million and as a result the Bank reduced borrowings by \$25.5 million. Management is being very cautious in new credits we are granting and we expect to modestly shrink the Bank in 2010.

Management continues to focus on asset quality and balance sheet composition. The Bank also continues to evaluate all sources of funding and selects the least cost funding methods. We have grown the number of deposits and customer relationships. We have an aggressive sales culture that is growing stronger each year. We have developed a number of internal training and monitoring programs to improve our connectivity to our customers and community.

Equity appreciation, preservation and management are especially important in weak economic times. In 2008 we concluded a successful stock repurchase program. The repurchase of excess equity is in line with basic free market economics and was the right thing to do at the time. The repurchase of shares results in fewer shares outstanding and higher ownership for remaining shareholders. The

Bank continues to maintain its “well capitalized” position. In good times we have declared special dividends and repurchased shares. In difficult economic times we have reduced dividends. Proper equity management continues to be a focus for the Bank and will take precedence over other organization goals.

Our Directors, Officers and employees remain highly involved in numerous community groups and boards. The Bank is a generous supporter of many philanthropic causes and continues to support local charities and organizations. In addition, the Bank is a major player in economic development in the communities we serve. We believe these activities are a core part of our mission. We also believe it affords a competitive edge when seeking new business and retaining existing customers. Our employees are proud to be part of an organization that “makes a difference” and this core belief in community works as an effective recruitment and retention tool for quality staff as well. We recognize that financial performance sustains our independence. We will continue to focus on traditional performance metrics, but also on the franchise value of the organization. We believe the Bank is well positioned for the future. We are positioned for rising interest rates that are sure to accompany economic recovery. We understand the challenges we still face in 2010 and look forward to meeting those challenges. Our staff is well seasoned and we have managed through several difficult economic cycles in the past.

Let us all hope that 2010 brings a brighter economic outlook. A positive attitude and resolve to be better in all we do is deeply rooted in our employees. The Bank continues to produce sound core earnings. We understand the need to create shareholder value. We look forward to continuing as the ONLY financial institution headquartered in St. Joseph County and as the market leader in our primary market area.

I wish to thank the members of our Board of Directors for their guidance, support and counsel. I also wish to recognize the talented and dedicated staff of Sturgis Bank & Trust Company for their hard work and dedication to you, our shareholders.

Every year I close my letter by reminding you that we have excellent products and service. When choosing your financial service provider, keep your Bank in mind. By choosing to do business with Sturgis Bank & Trust Company, you are contributing to your own success as a shareholder. I continue to be accessible to not only you our stockholders, but also to our customers. It is my belief that in order to be successful as a bank, I must be in touch with our customers, employees and stockholders. Do not hesitate to contact me at (269)651-9345.

I hope you may be able to attend our annual meeting. I will provide a much deeper analysis of our 2009 performance and will be able to take your questions.

Sincerely,

Eric L. Eishen
President/CEO

Gross Assets Managed

This graph illustrates the growth of relationships for the Company since 1988. Each of these relationships indicates a point of contact with customers. The account values for Trust accounts and accounts at Oakleaf Financial Services, Inc. both decreased in 2008 with the recession.

Branch acquisitions with related deposits assumed are shown below:

Seller Name	Date	Branch Locations	Total Deposits
First Federal of Michigan	March 12, 1988	Three Rivers	\$10,354,773
Fidelity Federal	June 29, 1990	Three Rivers	3,068,392
Standard Federal Bank	July 6, 1991	Sturgis	9,755,357
Great Lakes Bancorp	March 15, 1996	Coldwater and South Haven	24,016,569
KeyBank	December 8, 1997	Bronson and Constantine	16,883,609
First of America Bank	September 11, 1998	Centreville, Climax, Covert, and South Haven	45,140,000

The graph shows growth, even after the most recent branch acquisitions in 1998, to over 200% of the 1998 sum.

CORPORATE YEAR IN REVIEW

On December 11, 2001, the shareholders of Sturgis Bank & Trust Company (the “Bank”) approved the reorganization of the Bank to become a wholly owned subsidiary of Sturgis Bancorp, Inc. (the “Bancorp”), a financial holding company. The Bancorp is a financial holding company under the Bank Holding Company Act of 1956, as amended. This reorganization was effective January 1, 2002. As a result, historical information in this Annual Report for periods before the January 1, 2002 effective date relate to the Bank. Throughout this Annual Report Sturgis Bancorp, Inc. will be referred to as Bancorp and Sturgis Bank & Trust Company will be referred to as the Bank.

The Bank, a Michigan savings bank, was founded in 1905 as a state chartered mutual building and loan. The original mission of the Bank was to promote personal savings and provide financing for the purchase of homes. Today we remain committed to the same objectives by offering consumer, educational, and property improvement loans, along with a large selection of investment opportunities to our community.

Although the Bank's primary business has historically been and will continue to be the origination of first mortgage loans on 1-4 family unit homes, it has implemented strategies in the last few years that have increased commercial real estate and small business loans within its primary market area. Commercial loan growth remained strong during 2008. In 2008 and 2007, the Bank supplemented commercial loan growth by purchasing commercial nonmortgage loans from other financial institutions. The purchased loans have credit guarantees backed by the full faith and credit of the U.S. Government (USDA).

The Bank has its main office in Sturgis and branch offices in Bronson, Centreville, Climax, Coldwater, Colon, South Haven, Sturgis, Three Rivers and White Pigeon, Michigan. The Bank's market area includes all of St. Joseph County and parts of Cass, Branch, Calhoun, Van Buren, Allegan, Hillsdale and Kalamazoo Counties in Michigan.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This report contains statements that constitute forward-looking statements. These statements appear in several places in this report and include statements regarding intent, belief, outlook, objectives, efforts, estimates or expectations of Bancorp, primarily with respect to future events and the future financial performance of Bancorp. Any such forward-looking statements are not guarantees of future events or performance and involve risks and uncertainties, and actual results may differ materially from those in the forward-looking statement. Factors that could cause a difference between an ultimate actual outcome and a preceding forward-looking statement include, but are not limited to, changes in interest rates and interest rate relationships; demand for products and services; the degree of competition by traditional and non-traditional competitors; changes in banking laws and regulations; changes in tax laws; changes in prices, levies, and assessments; the impact of technological advances; government and regulatory policy changes; the outcome of any pending and future litigation and contingencies; trends in consumer behavior and ability to repay loans; and changes of the world, national and local economies. Bancorp undertakes no obligation to update, amend or clarify forward-looking statements as a result of new information, future events, or otherwise.

Results of Operations

Bancorp reported net income of \$915,000 and \$2.3 million for the years ended December 31, 2009 and 2008, respectively. Earnings per share were \$0.45, and \$1.13 for the years ended December 31, 2009 and 2008, respectively. Net interest income decreased 4.9% to \$9.7 million, from \$10.2 million for 2008. The decrease is primarily due to the reduction in the tax equivalent net interest margin to 2.82% in 2009 from 3.07% in 2008. The Company provided \$2.5 million for loan losses in 2009, compared to \$489,000 in 2008.

Interest Income

Interest income decreased \$3.2 million to \$17.3 million from \$20.5 million. This decrease is primarily due to the decrease in market interest rates, with adjustable rate loans resetting lower throughout 2009. Average interest-earning assets increased to \$349.6 million in 2009 from \$336.6 million in 2008. The average interest rate earned on loans decreased to 5.42% in 2009 from 6.43% in 2008. This decrease in the average interest rate earned is primarily due to adjustable rate loans repricing lower through 2009. Most commercial loans are priced on a variable basis and the expansion of non-interest bearing commercial deposit accounts will help to reduce the average funding costs. The average yield on interest-earning assets decreased to 4.95% in 2009 from 6.09% in 2008.

Interest Expense

Interest expense decreased \$2.6 million to \$7.6 million in 2009 from \$10.2 million in 2008. This was primarily due to the decrease in average interest rates on interest-bearing liabilities to 2.29% in 2009 from 3.17% in 2008. The average rate paid on interest-bearing deposits was 1.84% in 2009, compared to 2.66% in 2008. The average rate paid on borrowed funds decreased to 3.31% in 2009 from 4.22% in 2008. Average interest-bearing liabilities increased to \$329.9 million in 2009 from \$322.5 million in 2008.

Net Interest Income

Net interest income for the year ended December 31, 2009 was \$9.7 million compared to \$10.2 million for the year ended December 31, 2008, a decrease of \$506,000. This decrease was caused primarily by a decrease in net interest margin, which decreased to 2.79% in 2009 from 3.04% in 2008.

Average Balances, Interest Rates and Yields. Net interest income is affected by the difference (“interest rate spread”) between rates of interest earned on interest-earning assets and rates of interest paid on interest-bearing liabilities and the relative amounts of interest-bearing liabilities and interest-earning assets. When the total of interest-earning assets approximates or exceeds the total of interest-bearing liabilities, any positive interest rate spread will generate net interest income. Financial institutions have traditionally used interest rate spreads as a measure of net interest income. Another indication of an institution’s net interest income is its “net yield on interest-earning assets” or “net interest margin,” which is net interest income divided by average interest-earning assets. The Bank’s net interest margin for 2009 and 2008 was, 2.79% and 3.04%, respectively. The Bank has generally positioned itself for net interest income to increase with rising interest rates, with most loans adjusting with changes in related indices. The Bank’s interest-earning assets reprice at a faster pace than interest-bearing liabilities. A benefit to the positive gap strategy is the protection from unusually high market interest rates. The most significant risk to the positive gap strategy is decreases in market interest rates.

(1) Interest on loans includes fees. Nonaccrual loans and loans held for sale have been included in the average balances of loans.

(2) Yield on investment securities is reported on an actual and not a tax equivalent basis

The following table presents information regarding the weighted average yields received on loans and other assets and the weighted average rates paid on deposits and borrowings on the last day of the years indicated. Non-accruing loans have been included in the table as loans carrying a zero yield.

	December 31,	
	2009	2008
Weighted average rate:		
Loans	5.28%	5.86%
Mortgage-backed securities	3.64%	5.39%
Investments(1)	2.48%	4.47%
Interest-bearing deposits	3.00%	5.28%
All interest-earning assets	4.99%	5.72%
Weighted average cost:		
Deposits (interest-bearing)	1.63%	2.27%
FHLB advances other borrowings	3.00%	3.40%
All interest-bearing liabilities	1.82%	2.67%
Interest rate spread	3.17%	3.05%

(1) Yield on investment securities is reported on an actual and not a tax equivalent basis.

Rate/Volume Analysis. The following table sets forth certain information regarding changes in interest income and interest expense of Bancorp for the periods indicated. For each category of interest-earning asset and interest-bearing liability, information is provided on changes attributable to: (i) changes in volume (change in volume multiplied by the prior year rate) and (ii) changes in rate (change in rate multiplied by the prior year volume). Rate/volume variances have been allocated proportionately to the change due to rate and the change due to volume.

Provision for Loan Losses

The provision for loan losses was \$2.5 million for the year ended December 31, 2009 and \$489,000 for the year ended December 31, 2008, an increase of \$2.0 million. The provision for loan losses was based upon management's assessment of relevant factors, including types and amounts of non-performing loans, historical and anticipated loss experience on such types of loans, and economic conditions. Loans charged off during 2009, net of recoveries, were \$1.4 million, compared to \$350,000 during 2008.

Nonperforming loans increased to \$8.2 million at December 31, 2009 from \$3.6 million at December 31, 2008. This increase in nonperforming loans primarily in commercial real estate loans.

The allowance for loan losses as a percentage of total (gross) loans increased to 1.41% in 2009 from 1.00% in 2008. This increase is primarily due to Management's assessment of credit losses. Management monitors the increasing exposure to commercial lending and economic developments the Bank's market area, among other factors, in determining appropriate provisions to the allowance for loan losses.

Noninterest Income

Noninterest income was \$5.6 million in 2009, compared to \$4.8 million in 2008. The primary component of the increase in noninterest income was gain on sale of securities. The Company realized \$1.2 million gain on sale of securities in 2009. Mortgage banking activities increased \$197,000 to \$1.1 million 2009 from \$892,000 in 2008. This increase is related to the increase in loan sales to \$65.5 million in 2009 from \$23.3 million in 2008. The increase in loan sales is due to lower market interest rates, which accelerated refinance activity. Commission income from brokerage activities decreased to \$1.1 million in 2009 from \$1.6 million in 2008. The decrease in commission income is primarily due to changes in the U.S. economy and stock market values. Management expects brokerage commissions will continue to be a large component of noninterest income.

Noninterest Expense

Noninterest expense was \$11.6 million in 2009 and 2008. The largest component noninterest expense is compensation and related expenses, which decreased \$674,000 to \$6.4 million in 2009 from \$7.0 million in 2008. The FDIC deposit insurance premiums paid in 2009 were \$644,000, compared to \$171,000 in 2008. At December 31, 2009, goodwill was not impaired. Management actively minimizes noninterest expense, although certain noninterest expenses are outside of Management's direct control.

The effective federal income tax rate was 24.3% in 2009 and 20.6% in 2008.

Financial Condition

General. Bancorp's total assets at December 31, 2009 were \$369.9 million compared to \$383.4 million at December 31, 2008, a decrease of \$13.5 million or 3.5%. Most of the decrease in total assets was in available for sale securities.

Loans. Net loans decreased to \$278.2 million at December 31, 2009 from \$280.9 million at December 31, 2008. Residential mortgages and residential construction loans decreased \$4.0 million, as residential borrowers preferred fixed-rate loans in the lower market rates of 2009. The Bank sells long-term, fixed rate, residential mortgages in the secondary market. The major buyers of these loans are Federal Home Loan Mortgage Corporation (FHLMC) and FHLB. Commercial loans, including net commercial construction loans, increased to \$124.6 million, or 44.2% of gross loans at December 31, 2009 from \$123.5 million, or 43.6% of gross loans, at December 31, 2008. The proceeds from sales of loans (fixed-rate, residential mortgages) were \$65.5 million and \$23.3 million for the years ended December 31, 2009 and 2008, respectively. The mortgage loans originated for sale (\$63.8 million in 2009 and \$23.8 million in 2008) were primarily funded by the secondary mortgage market sales. The decision to sell fixed-rate mortgages with original maturities of 10-years or greater protects the Bank from the interest rate risk inherent in holding these longer term, fixed-rate loans and provides a source of liquidity to fund loan demand. Reductions in market interest rates generally increase the pace of refinance activity in the residential loan portfolio.

At December 31, 2009, outstanding commitments to originate loans were \$2.9 million and \$36.1 million on fixed and variable-rate loans, respectively. Of these loan commitments, Management expects \$912,000 to be disbursed for new loans during the first half of 2010. The additional loan commitments are unused lines of credit, which may be drawn at any time by the borrower. These loan commitments will be funded by interest-bearing deposits, maturing assets, and additional FHLB borrowings, if needed.

Loans serviced for others was \$204.3 million and \$194.8 million at December 31, 2009 and 2008, respectively. This servicing portfolio consists of loans originated by the Bank and sold in the secondary mortgage market with servicing retained by the Bank. Management believes retaining servicing provides the Bank with a competitive advantage in its market. The retention of servicing requires the Bank to keep a higher staffing level than if the servicing would be sold. But many consumers have discovered the difficulties encountered when loan servicing is sold. The retention of servicing also allows the Bank to cross-sell other banking products and services to these customers. The value of the right to service is appraised quarterly and any temporary impairment of the value of servicing rights is recognized quarterly. The originated mortgage servicing rights asset required a valuation allowance of \$18,000 at December 31, 2009. The Bank will continue to monitor the valuation of the servicing rights asset. If subsequent analysis shows changes in the appraised impairment, the valuation allowance will be adjusted to match the impairment.

Bancorp has no purchased mortgage servicing portfolio.

The following table provides an analysis of the allowance for loan losses:

	(Dollars in thousands)	
	<u>Year Ended December 31,</u>	
	<u>2009</u>	<u>2008</u>
Balance at the beginning of the period	\$ 2,838	\$ 2,699
Charge-offs:		
Residential mortgages	538	117
Commercial mortgages	307	206
Commercial nonmortgage loans	552	49
Other consumer and installment loans	11	11

Interest-earning Deposits in Banks. Interest-bearing deposits in banks were \$7.6 million at December 31, 2009, compared to \$9.3 million at December 31, 2008, a decrease of \$1.7 million.

Securities – Available for sale. Investment securities available for sale of \$31.9 million at December 31, 2009 and \$41.9 million at December 31, 2008 consisted primarily of mortgage-backed securities issued by the GNMA, FNMA, and FHLMC. The Bank's investment strategy has historically been to carry its mortgage-backed securities in the held-to-maturity portfolio. Management has changed this strategic decision, so that a balanced investment portfolio can more directly contribute to future liquidity needs, by being carried as available-for-sale. During 2009, the Bank sold \$65.3 million of available-for-sale securities at a gain of \$1.2 million. Proceeds of the sale were reinvested in available-for-sale securities at market rates.

Securities – Held-to-maturity. At December 31, 2009 and December 31, 2008, investment securities held-to-maturity consist of U.S agency mortgage-backed securities and municipal obligations. The investment securities held-to-maturity were \$7.6 million at December 31, 2009 compared to \$8.8 million at December 31, 2008, a decrease of \$1.2 million. The decrease was primarily due to principal reductions on mortgage-backed securities guaranteed by the Small Business Association (full faith and credit of the U. S. Government).

Deposits and Borrowed Funds. Deposits were \$259.2 million at December 31, 2009 compared to \$237.5 million at December 31, 2008, an increase of \$21.7 million or 9.1%. Interest-bearing deposits increased to \$234.3 million at December 31, 2009 from \$211.8 million at December 31, 2008. Certificates of deposit with balances greater than or equal to \$100,000 (commonly referred to as jumbo certificates), which carry greater interest rate sensitivity, increased by \$8.7 million to \$30.2 million at December 31, 2009 from \$21.5 at December 31, 2008. Other certificates of deposit, including brokered certificates of deposit parsed into \$1,000 increments, decreased to \$79.5 million at December 31, 2009 from \$85.4 million at December 31, 2008. Brokered certificates of deposit, mostly included in the certificates under \$100,000, decreased to \$32.8 million at December 31, 2009 from \$37.3 million at December 31, 2008. The Bank uses brokered and jumbo certificates as sources of liquidity. Transaction savings accounts and checking accounts increased \$19.7 million, or 18.8%, from December 31, 2008 to December 31, 2009. Transaction savings accounts and checking accounts represent 48.07% of deposits at December 31, 2009, compared to 44.15% of deposits at December 31, 2008. Bank management is actively attempting to increase these core deposit account relationships. Transaction savings accounts and checking accounts provide relatively inexpensive funding for future growth, compared to alternative certificates of deposit and borrowed funds at higher interest rates. The Bank offers competitive rates on its time deposits and uses jumbo certificates or borrowed funds, when that strategy enhances net interest income.

The Bank has an available line of credit with FHLB which provides for advances up to \$5.0 million and matures annually in March. The Bank anticipates renewal of the line of credit at maturity in March 2010. All borrowings from FHLB are collateralized by substantially all mortgage loans and securities backed by the US Government.

Long-term advances were \$53.5 million at December 31, 2009 compared to \$79.0 million at December 31, 2008, a decrease of \$25.5 million. No short-term advances were outstanding at December 31, 2009 or 2008. The Bank also had \$5.1 million of fed funds purchased at December 31, 2008.

At December 31, 2009, Bancorp had \$4.4 million outstanding on an open-end line of

credit with another financial institution. The line of credit matures in August 2013.

Capital Resources

The stockholders' equity of the Bancorp was \$25.4 million at December 31, 2009 compared to \$25.8 million at December 31, 2008, a decrease of \$323,000, or 1.25%. The primary component of this decrease was reduction in value of available for sale securities. Bancorp repurchased \$3.8 million of common stock in 2008. Cash dividends of \$787,000, or \$0.39 per share, were paid in 2009, out of the \$915,000 of net income. The stockholders' equity was 6.87% of total assets at December 31, 2009. Management continues to monitor and evaluate the best capital structure of Bancorp. A structure that provides sufficient capital to fund future growth, yet maximizes earnings per share, is deemed optimal. Management does not project a need for capital beyond what can be provided by retained earnings.

The Federal Reserve Board ("FRB")'s risk-based capital guidelines are inapplicable to Bancorp, due to Bancorp qualifying as a "small bank holding company". However, if Bancorp's total assets exceed \$500 million, the guidelines will then apply to Bancorp. The guidelines require that financial holding companies with over \$500 million in total assets maintain capital commensurate with both on and off balance sheet credit risks of their operations. Under the guidelines, a financial holding company must have a minimum ratio of total capital to risk-weighted assets of 8.0%.

In addition, a financial holding company subject to FRB's guidelines must maintain a minimum ratio of Tier 1 capital equal to 4.0% of risk-weighted assets. Tier 1 capital includes common stockholders equity, qualifying perpetual preferred stock and minority interest in equity accounts of consolidated subsidiaries less goodwill.

As a supplement to the risk-based capital requirements, the FRB has also adopted leverage capital ratio requirements. The leverage ratio requirements establish a minimum ratio of Tier 1 capital to total assets, less goodwill, of 3% for the most highly rated financial holding companies. All other financial holding companies are required to maintain additional Tier 1 capital yielding a leverage ratio of 4%-5%, depending on the particular circumstances and risk profile of the institution.

Management deems the current capitalization level adequate for current and anticipated strategies. Management does not expect Bancorp to grow in the foreseeable future to the \$500 million asset level.

Although not currently required by FRB, the following table summarizes the capital ratios of Bancorp at the dates indicated:

	<u>December 31, 2009</u>	<u>December 31, 2008</u>
Equity to assets	6.9%	6.7%
Tier I leverage	5.8%	5.5%
Risk-based: Tier I capital	8.8%	8.8%
Total capital	10.0%	9.9%

Asset/Liability Management

The primary component of Bancorp's earnings is net interest income of the Bank. The Bank's asset/liability management strategy is to maximize net interest income over time by reducing the impact of fluctuating interest rates. This is accomplished by matching the mix and maturities of its assets and liabilities. At the same time, the Bank's asset/liability strategies for managing interest rate risk must also accommodate customer demands for particular types of deposit and loan products. The Bank uses asset/liability management techniques in an attempt to maintain a profitable mix of financial assets and liabilities, provide deposit and loan products that meet the needs of its market area, and maintain control over interest rate risk resulting from changes in interest rates.

Net interest income, the primary component of the Bank's net income, is derived from the difference or "spread" between the yield on interest-earning assets and the cost of interest-bearing liabilities. The Bank has sought to reduce its exposure to changes in interest rates by matching more closely the effective maturities and repricings of its interest-sensitive assets and liabilities. At the same time, the Bank's asset/liability management strategies must also accommodate customer demands for particular types of deposit and loan products.

While much of the Bank's asset/liability management efforts involve strategies that manage the rate sensitivity of its loans and investments, such as the sale of long-term fixed rate loans, originations of adjustable rate loans and purchases of adjustable rate mortgage-backed securities or relatively short average life fixed-rate investments, it also uses techniques to manage the rate sensitivity of its deposits and borrowed money. Those techniques include attracting longer-term certificates of deposit at rates lower than borrowing rates, when the market will permit. The Bank emphasizes core deposits, which are less sensitive to changes in interest rates, and borrowing through long-term FHLB advances or brokered certificates of deposit. The Bank's asset/liability management strategy adjusts, when market interest rates and customer demand change.

The Bank measures its exposure to interest rate fluctuations primarily by using a computer modeling software designed for financial institutions, such as the Bank. The model uses assumptions which Management believes are reasonable for the analysis. These assumptions include (but are not limited to) prepayment and decay rates. Because of the Bank's smaller loan population, these assumptions are based on national statistics and may not reflect the Bank's own experience. It allows the Bank to simulate its asset-liability sensitivity based on the interest rate risk identified. The analysis estimates the changes in the market value of the Bank's equity using immediate and permanent interest rate change scenarios ranging from +4% to -4%, in 1% increments from current market rates. The software also allows simulation for unlimited additional market interest rate scenarios. At December 31, 2009, the following table illustrates the interest rate sensitivity of the Bank's consolidated equity to immediate and permanent changes in market interest rates.

<u>(in Thousands of Dollars)</u>	
Book value of Bank's equity	\$30,480

4% increase in market rates	38,479
3% increase in market rates	37,973
2% increase in market rates	38,972
1% increase in market rates	37,892
No change (current market value of equity)	37,099
1% decrease in market rates	N/A
2% decrease in market rates	N/A
3% decrease in market rates	N/A
4% decrease in market rates	N/A

As the table shows, the Bank's estimated market value of equity exceeds book value in all of the relevant scenarios. Market rate decreases are not relevant because resulting rates would be below 0%. That indicates that the Bank is able to withstand fluctuations in market interest rates without posing a significant threat to either the Bank's stockholders' equity or the federal deposit insurance system, and therefore, the Bank can be deliberate in its actions to adjust the asset-liability mix. The Bank would meet the regulatory minimum capital requirements in all of the interest-rate scenarios.

The Bank has an Asset-Liability Management Committee (ALCO) that meets as needed. The purpose of this Committee is to communicate, coordinate, and monitor asset-liability management procedures. The Committee establishes and monitors the volume and mix of both assets and funding sources. The objective is to manage assets and funding sources to produce results consistent with the Bank's liquidity requirements, capital adequacy, growth, and profitability goals. To accomplish this objective, the ALCO uses internal budget variance reports, forecasts for changes in interest rates and consumer deposit activity, as well as forecasts of loan demand in each of the Bank's loan types, investment maturities and new investment alternatives, and various other internal and external reports.

Effect of Interest Rate Fluctuations

Bancorp's consolidated results of operations depend, to a large extent, on the Bank's level of net interest income, which is the difference between interest income earned on its loan and investment portfolios versus the interest paid on deposits and borrowed funds. If the cost of funds increases faster than the yield on its interest-earning assets, net interest income will be reduced.

Bancorp measures its interest rate risk primarily using simulation analysis. This analysis is prepared by the Chief Financial Officer and reviewed by the ALCO. ALCO is comprised of the Chief Executive Officer, Chief Financial Officer, Executive Vice President and Senior Officers of the Bank. Bancorp's Board of Directors reviews quarterly reports that estimate Bancorp's sensitivity to changes in interest rates. Sensitivity is estimated for net interest income and market value of portfolio equity.

While Bancorp uses various tools to monitor interest rate risk, it is unable to predict future fluctuations in interest rates or the specific impact thereof. The market value of most of Bancorp's financial assets is sensitive to fluctuations in market interest rates. Fixed-rate

investments and mortgage loans decline in value as interest rates rise. Adjustable-rate investments and loans generally have less market value volatility than fixed-rate assets.

Liquidity

Bancorp maintains certain levels of liquid assets (the most liquid of which are cash and investment securities) in order to meet demands from loan commitments, deposit withdrawals and other obligations. Bancorp manages liquidity by maintaining a portion of its liquid assets in overnight accounts and by staggering maturities in its portfolio of investment securities. The primary sources of liquidity are loan repayments, loan sales, maturing investments, deposit accounts, and other borrowed funds, such as FHLB borrowings.

As equity markets were volatile through 2008 and 2009, deposit customers have been attracted to Bank deposits from uninsured alternatives, such as money market accounts or other investments. If market interest rates remain historically low, Management expects depositors might unwisely look to more risky investments than Bank deposits to increase their return.

Contractual Obligations

The long-term debt obligations consist of certificates of deposit and advances from the Federal Home Loan Bank. The following schedule represents only scheduled principal payments as of December 31, 2009.

	Payments Due by Period (in thousands)				
	<u>Total</u>	<u>Less than 1 year</u>	<u>1 – 3 years</u>	<u>4 – 5 Years</u>	<u>After 5 years</u>
Certificates of deposit	\$109,731	\$57,546	\$37,549	\$10,421	\$ 4,215
FHLB advances	<u>53,500</u>	<u>5,000</u>	<u>38,500</u>	<u>2,500</u>	<u>7,500</u>
Total contractual obligations	\$163,231	\$62,546	\$76,049	\$12,921	\$11,715

Off-balance Sheet Activities

Other Commercial Credits – The Bank is a party to credit related financial instruments with off-balance sheet risks in the normal course of business to meet the financing needs of its customers. These instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized on the balance sheet of the Bank.

Commitments to extend credit are agreements to lend to a customer, as long as there are no violations of any condition established in the contract. Commitments for equity lines of credit or overdraft protection may expire without being drawn. Therefore, total commitments do not necessarily represent future cash requirements. The amount of collateral obtained, if it is deemed necessary by the Bank, is based on Management's credit evaluation of the customer and the related loans. Unfunded commitments under commercial lines of credit, revolving credit lines and overdraft protection agreements are commitments for possible future extensions of credit to existing customers. These lines of credit are collateralized, may not contain a specified maturity date and may be drawn to the total extent of the Bank's commitment.

Commercial and standby letters of credit are a conditional commitment issued by the Bank to guarantee the performance of a customer to a third party. The letters of credit are primarily used to support public and private borrowing arrangements. All letters of credit have expiration dates within one year.

At December 31, 2009, the Bank had total commitments to originate loans of \$2.7 million and \$36.1 million on fixed rate and variable rate loans, respectively.

All of the commercial credits are underwritten using the commercial loan underwriting guidelines.

Collateral Requirements – To reduce credit risks related to the use of credit-related financial instruments, the Bank might deem it necessary to obtain collateral. The amount and nature of the collateral obtained are based on the Bank’s credit evaluation of the borrower and related loans. Collateral secured varies, but may include cash, investment securities, accounts receivable, inventory, property, plant and equipment and real estate. Although these items are used to secure loans, they are not included on the balance sheet of Bancorp.

Legal Contingencies – Various legal claims arise from time to time in the normal course of business which, in the opinion of Management, will have no material effect on Bancorp’s consolidated financial statements.

Impact of Inflation

The majority of assets and liabilities of financial institutions are monetary in nature. Generally, changes in interest rates have a more significant impact on earnings of the Bank than inflation. Although influenced by inflation, changes in rates do not necessarily move in either the same magnitude or direction as changes in the price of goods and services. Inflation could impact the growth of total assets, creating a need to increase equity capital at a higher rate to maintain an adequate equity to assets ratio, which in turn reduces the amount of earnings available for cash dividends. Through 2008 and 2007, inflation did not have a material impact on the Bancorp.

DIRECTORS OF BANCORP – December 31, 2009

John R. Dresser	Dresser, Dresser, Haas & Caywood, P.C. Retained Counsel
Eric L. Eishen	President and Chief Executive Officer, Sturgis Bancorp, Inc and Sturgis Bank & Trust Company

MARKET INFORMATION

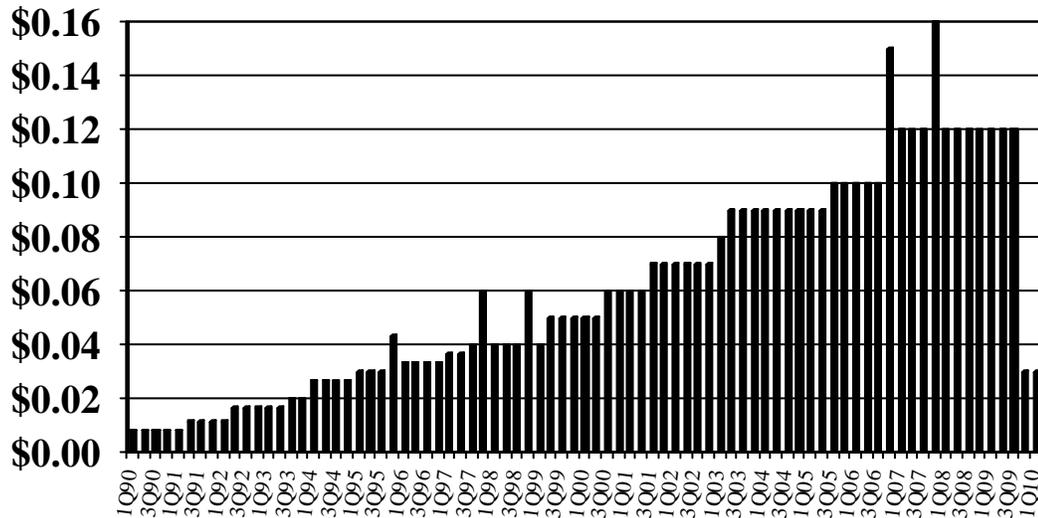

Shares of common stock of Bancorp were held by approximately 156 shareholders as of December 31, 2009. Bancorp's shares are traded on the OTC Bulletin Board under the symbol of "STBI". Trading activity has been infrequent.

The range of high and low trade prices for each quarterly period during the past two years is presented below:

	<u>Year ended December 31,</u>			
	<u>2009</u>		<u>2008</u>	
	<u>High</u>	<u>Low</u>	<u>High</u>	<u>Low</u>
First quarter	\$9.00	\$7.00	\$15.50	\$13.15
Second quarter	8.00	6.88	14.97	12.90
Third quarter	7.75	6.50	12.75	8.80
Fourth quarter	7.80	7.05	10.05	7.00

The trade prices listed above are based on actual transactions obtained from public Internet sources obtained by Bancorp.

Cash Dividends Per Share

On December 11, 2001, the shareholders of the Bank approved the reorganization of the Bank to become a wholly owned subsidiary of Sturgis Bancorp, Inc., a financial holding company. Sturgis Bancorp, Inc. is a financial holding company under the Bank Holding Company Act of 1956, as amended (the “Bancorp”). This reorganization was approved at a special meeting of the shareholders of the Bank on December 11, 2001. Bancorp received all of the various federal and state regulatory approvals for this reorganization.

This reorganization became effective as of the opening of business on January 1, 2002. Bancorp is a legal entity separate and distinct from its subsidiaries. Substantially all of Bancorp’s revenues result from dividends paid to it by the Bank and from earnings on investments. There are statutory and regulatory requirements applicable to the payment of dividends by the Bank to Bancorp, as well as by Bancorp to its shareholders.

Under the Michigan Savings Bank Act, Bancorp may not declare a cash dividend or a dividend of any kind except out of net income then on hand after deducting all losses and bad debts, and then only if it will have a surplus amounting to not less than 20% of its capital after the payment of the dividend. Moreover, the Bank may not declare or pay any cash dividend or dividend in kind until the cumulative dividends on its preferred stock, if any, have been paid in full. Further, if the surplus of the Bank is at any time less than the amount of its capital, before the declaration of a cash dividend or dividend in kind, it must transfer to surplus not less than 10% of its net income for the preceding 6 months (in the case of quarterly or semi-annual dividends) or the preceding two consecutive 6 month periods (in the case of annual dividends).

Pursuant to the Michigan Business Corporation Act, Bancorp may not make distributions to its shareholders if, after giving effect to the distribution, the corporation would not be able to pay its debts as they become due in the usual course of business, or the corporation’s total assets would

be less than the sum of its total liabilities plus, unless the corporation's articles of incorporation permit otherwise, the amount that would be needed, if the corporation were to be dissolved at the time of the distribution, to satisfy the preferential rights upon dissolution of shareholders whose preferential rights are superior to those receiving the distribution.

The payment of dividends by Bancorp and its subsidiaries may also be affected or limited by other factors, such as the requirements to maintain adequate capital above regulatory guidelines. In addition, if, in the opinion of the applicable regulatory authority, a bank under its jurisdiction is engaged in or is about to engage in an unsafe or unsound practice (which, depending on the financial condition of the Bank, could include the payment of dividends), such authority may require, after notice and hearing, that such bank cease and desist from such practice or prohibit the payment of future dividends. The Federal Reserve has indicated that paying dividends that deplete a bank's capital base to an inadequate level would be an unsafe and unsound banking practice. The Federal Reserve, the FDIC and the Division of Financial Institutions of the Michigan Department of Consumer & Industry Services Office of Financial and Insurance Services have issued policy statements which provide that bank holding companies and insured banks should generally only pay dividends out of current operating earnings.

INDEPENDENT ACCOUNTANTS

Bancorp employed the accounting firm of Crowe Horwath LLP as Independent Accountants for the years ended December 31, 2009 and December 31, 2008. There have been no disagreements on accounting or financial disclosure matters within these time periods.

REPORT OF INDEPENDENT AUDITORS

Board of Directors and Shareholders
Sturgis Bancorp, Inc.
Sturgis, Michigan

We have audited the accompanying consolidated balance sheets of Sturgis Bancorp, Inc. as of December 31, 2009 and 2008 and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Sturgis Bancorp, Inc. as of December 31, 2009 and 2008, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our 2009 audit was conducted for the purpose of forming an opinion on the 2009 consolidated financial statements taken as a whole. The consolidating information is presented for purposes of additional analysis of the 2009 consolidated financial statements rather than to present the financial position, results of operations, and cash flows of the individual companies. The consolidating information has been subjected to the auditing procedures applied in the audit of the 2009 consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the 2009 consolidated financial statements taken as a whole.

STURGIS BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Consolidation: The consolidated financial statements include the accounts of Sturgis Bancorp, Inc. (Bancorp), Sturgis Bank & Trust Company (Bank) and the Bank's wholly owned subsidiaries. The Bank's wholly owned subsidiaries include Oakleaf Financial Services, Inc., and First Michiana Development Corporation of Sturgis, Inc. Accounts of Oak Mortgage, LLC, a subsidiary jointly owned by the Bank and Oakleaf Financial Services, Inc., are also consolidated. All significant intercompany transactions and balances have been eliminated in consolidation.

The Bank, which has been in continuous operation since 1905, formed Bancorp on January 1, 2002 via an equal exchange of common stock of Bank for common stock of Bancorp.

Use of Estimates: In preparing consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates and assumptions. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses and the valuation of real estate owned, deferred tax assets, mortgage servicing rights, and the carrying value of goodwill.

Nature of Operations: Bancorp operates predominantly in the southwestern portion of Michigan's Lower Peninsula. Its primary services include accepting deposits, making commercial and mortgage loans, engaging in mortgage banking activities, and providing investment brokerage advisory services.

Significant Group Concentrations of Credit Risk: Most of Bancorp's activities are with customers located within southwestern Michigan. Note 2 discusses the types of securities in which Bancorp invests. Note 3 discusses the types of lending in which Bancorp engages. Bancorp's loan portfolio is concentrated in residential and commercial mortgage loans. Bancorp does not have any significant concentrations to any one industry or customer.

Subsequent Events: The Company has evaluated subsequent events for recognition and disclosure through March 23, 2010, which is the date the financial statements were available to be issued.

STURGIS BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash Flows: For the purpose of the consolidated statements of cash flows, cash and cash equivalents include cash and balances due from banks, federal funds sold, and other short-term time and investment accounts at the Federal Home Loan Bank, all of which mature within 90 days. Net cash flows are reported for customer loan and deposit transactions, interest bearing deposits in banks, other short term investment, and repurchase agreements.

Interest-Earning Deposits in Banks: Interest-earning deposits in banks mature within eighteen years and are carried at cost.

Securities: Debt securities that management has the positive intent and ability to hold to maturity are classified as held to maturity and recorded at amortized cost. Securities not classified as held to maturity are classified as available for sale and recorded at fair value, with unrealized gains and losses excluded from earnings and reported in other comprehensive income.

Purchase premiums and discounts are recognized in interest income using the interest method over the terms of the securities. Declines in the fair value of held to maturity and available for sale securities below their cost, that are deemed to be other than temporary, are reflected in earnings as realized losses. Gains and losses on the sale of securities are recorded on the trade date and are determined using the specific identification method.

Management evaluates securities for other-than-temporary impairment ("OTTI") at least on a quarterly basis, and more frequently when economic or market conditions warrant such an evaluation.

Federal Home Loan Bank Stock: Bancorp's minimum investment in the stock of the Federal Home Loan Bank of Indianapolis (FHLB) is an amount equal to at least 1.0% of the unpaid principal balances of Bancorp's residential mortgage loans or 0.3% of its total assets, whichever is greater. Purchases and sales of stock are made directly with the FHLB at par value. The stock is recorded at cost.

Loans Held for Sale: Loans originated and intended for sale in the secondary market are carried at fair value. Net unrealized losses, if any, are recognized in a valuation allowance by charges to income.

Mortgage loans held for sale are generally sold with servicing rights retained. Gains and losses on sales of mortgage loans are based on the difference between the selling price and the carrying value of the related loans sold. The carrying value of mortgage loans sold is reduced by the amount allocated to the servicing right.

STURGIS BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Loans: Bancorp grants mortgage, commercial, and consumer loans to customers. Loans are reported at their outstanding unpaid principal balances, adjusted for amounts charged off, nonaccrual interest paid, the allowance for loan losses, and any deferred fees or costs on originated loans. Interest income is accrued on the unpaid principal balance. Loan origination fees, net of certain direct origination costs, are deferred and recognized as an adjustment to the related loan yield using the interest method.

The accrual of interest on loans is discontinued at the time the loan is 90 days delinquent, unless the credit is well-secured and in the process of collection. Past due status is based on the contractual terms of the loan. In all cases, if collection of principal and interest is considered doubtful, loans are placed on nonaccrual, charged off, or charged down to the fair value of collateral.

When a loan is placed in nonaccrual status, all interest accrued but not collected is reversed against interest income. Interest payments received on loans in nonaccrual status are accounted as reductions to the carrying value of the principal until the loan again qualifies for return to accrual status. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Purchased Loans: During 2009 and 2008, the Bank purchased one and four individual commercial nonmortgage loans, respectively, from other financial institutions. After acquisition, any incurred losses are recognized by an increase in the allowance for loan losses.

Allowance for Loan Losses: The allowance for loan losses is established as losses are estimated to have occurred through a provision for loan losses charged to earnings. Loan losses are charged against the allowance, when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance.

The allowance for loan losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectibility of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective, as it requires estimates that are susceptible to significant revision with any new information.

(Continued)

STURGIS BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The allowance consists of specific, general and unallocated components. The specific components relate to loans that are classified as substandard. For such loans that are also classified as impaired, an allowance is established when the discounted cash flows (or collateral value or observable market price) of the impaired loan is lower than the carrying value of that loan. The general component covers non-classified loans and is based on historical loss experience adjusted for quantitative factors. An unallocated component is maintained to cover uncertainties that could affect management's estimate of probable losses. The unallocated component of the allowance reflects the margin of imprecision inherent in the underlying assumptions used in the methodologies for estimating specific and general losses in the portfolio.

A loan is considered impaired, based on current information and events, when it is probable Bancorp will be unable to collect the scheduled payments of principal or interest in accordance with the contractual terms of the loan agreement. Factors considered by management in determining impairment include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls are not generally classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including length of the delay, reasons for the delay, the borrower's prior payment history, and the amount of the shortfall in relation to the amount due and collateral value. Impairment on a loan is measured on a loan-by-loan basis for commercial and construction loans.

Large groups of homogenous loans are collectively evaluated for impairment. Accordingly, Bancorp does not separately identify individual consumer and residential loans for impairment disclosures.

Loans, for which the terms have been modified, and for which the borrower is experiencing financial difficulties, are considered troubled debt restructurings and classified as impaired.

(Continued)

STURGIS BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Servicing: Servicing rights are recognized separately when they are acquired through sales of loans. When mortgage loans are sold, servicing rights are initially recorded at fair value with the income statement effect recorded in gains on sales of loans. Fair value is based on market prices for comparable mortgage servicing contracts, when available or alternatively, is based on a valuation model that calculates the present value of estimated future net servicing income. The valuation model incorporates assumptions that market participants would use in estimating future net servicing income, such as the cost to service, the discount rate, the custodial earnings rate, an inflation rate, ancillary income, prepayment speeds and default rates and losses. The Company compares the valuation model inputs and results to published industry data in order to validate the model results and assumptions. All classes of servicing assets are subsequently measured using the amortization method which requires servicing rights to be amortized into non-interest income in proportion to, and over the period of, the estimated future net servicing income of the underlying loans.

Servicing assets are evaluated for impairment based upon the fair value of the rights as compared to carrying amount. Impairment is determined by stratifying rights into groupings based on predominant risk characteristics, such as interest rate, loan type and investor type. Impairment is recognized through a valuation allowance for individual groupings, to the extent that fair value is less than the carrying amount. Changes in valuation allowances are reported with mortgage banking activities on the income statement. The fair values of servicing rights are subject to significant fluctuations as a result of changes in estimated and actual prepayment speeds and default rates and losses.

Transfers of Financial Assets: Transfers of financial assets are accounted for as sales, when control over the assets has been relinquished. Control over transferred assets is deemed to be surrendered when the assets have been isolated from Bancorp, the transferee obtains the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred assets, and Bancorp does not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity.

Premises and Equipment: Land is carried at cost. Premises and equipment are carried at cost, less accumulated depreciation computed on the straight-line method over the estimated useful lives of the assets. Buildings and related components are depreciated with useful lives ranging from 5 to 50 years. Furniture, fixtures and equipment are depreciated with useful lives ranging from 3 to 15 years.

Off-Balance-Sheet Instruments: In the ordinary course of business, Bancorp has entered into commitments to extend credit, including commitments under commercial letters of credit and standby letters of credit. Such financial instruments are recorded when they are funded.

(Continued)

STURGIS BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Real Estate Owned: Assets acquired through, or in lieu of, loan foreclosure are held for sale and are initially recorded at fair value at the date of foreclosure, less costs to sell when acquired, establishing a new cost basis. Subsequent to foreclosure, valuations are periodically performed by management and the assets are carried at the lower of carrying amount or fair value less costs to sell. Revenue and expenses from operations and changes in the valuation allowance are included in real estate owned expense.

Bank-Owned Life Insurance: Bancorp has purchased life insurance policies on certain key officers. Bank-owned life insurance is recorded at the amount that can be realized under the insurance contract at the balance sheet date, which is the cash surrender value adjusted for other charges or other amounts due that are probable at settlement.

Goodwill: Generally, intangible assets that meet certain criteria are recognized and subsequently amortized over their estimated useful lives. Goodwill with indefinite lives are not amortized. However, such assets are tested for impairment at least annually thereafter. There has been no impairment of goodwill.

Long-Term Assets: Premises and equipment, core deposit and other intangible assets, and other long-term assets are reviewed for impairment when events indicate their carrying amount may not be recoverable from future undiscounted cash flows. If impaired, the assets are recorded at fair value.

Loan Commitments and Related Financial Instruments: Financial instruments include off-balance sheet credit instruments, such as commitments to make loans and commercial letters of credit, issued to meet customer financing needs. The face amount for these items represents the exposure to loss, before considering customer collateral or ability to repay. Such financial instruments are recorded when they are funded.

Repurchase Agreements: Bancorp enters into agreements under which it sells securities subject to an obligation to repurchase the same or similar securities. Under these arrangements, Bancorp transfers legal control over the assets but still retains effective control through an agreement that both entitles and obligates Bancorp to repurchase the assets. As a result, repurchase agreements are accounted for as financing arrangements and not as a sale and subsequent repurchase of securities. The obligation to repurchase the securities is reflected as a liability in the consolidated balance sheet while the dollar amount of securities underlying the agreements remains in the respective asset accounts as pledged assets.

(Continued)

STURGIS BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes: Deferred income tax assets and liabilities are determined using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of the various temporary differences between the book and the tax bases of the various balance sheet assets and liabilities. This method gives current recognition to changes in tax rates and laws. When necessary, valuation allowances are established to reduce deferred tax assets to the amount expected to be realized.

Bancorp is qualified under provisions of the Internal Revenue Code to deduct from taxable income a provision for bad debts in excess of such provision charged to income in the consolidated financial statements. Accordingly, retained earnings at December 31, 2009 and 2008 include approximately \$918 for which no provision for federal income taxes has been made. Unrecognized deferred taxes on this amount are approximately \$312. In the future, if this portion of retained earnings is used for any purpose other than to absorb bad debt losses, federal income taxes would be imposed at the then applicable rates.

Bancorp adopted guidance issued by the FASB related to accounting for uncertainty in income taxes as of January 1, 2007. A tax position is recognized as a benefit only if it is "more likely than not" that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the "more likely than not" test, no tax benefit is recorded.

Bancorp recognizes interest and/or penalties related to income tax matters in income tax expense.

Stock Compensation Plans: Compensation cost is recognized for stock options issued to employees, based on the fair value of these awards at the date of grant. A Black-Scholes model is utilized to estimate the fair value of stock options. Compensation cost is recognized over the required service period, generally defined as the vesting period. For awards with graded vesting, compensation cost is recognized on a straight-line basis over the requisite service period for the entire award. Future stock option grants will be recognized as described, although there are currently no active stock option plans under which options may be granted.

Earnings Per Common Share: Basic earnings per share represents income available to common stockholder divided by the weighted average number of common shares outstanding during the period. Diluted earnings per share includes outstanding additional common shares that would have been outstanding, if dilutive potential common shares had been issued, as well as any adjustment to income that would result from the assumed issuance. Potential shares that may be issued by Bancorp relate solely to outstanding stock options, and are determined using the treasury stock method.

(Continued)

STURGIS BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Earnings per common share have been computed based on the following:

	<u>2009</u>	<u>2008</u>
Net income	\$ 915	\$ 2,306
Weighted average number of common shares outstanding	2,017,245	2,047,114
Effect of dilutive options	<u>-</u>	<u>-</u>
Weighted average number of common shares outstanding used to calculate diluted earnings per share	<u>2,017,245</u>	<u>2,047,114</u>

Comprehensive Income: Comprehensive income consists of net income and other comprehensive income. Other comprehensive income includes unrealized gains and losses on securities available for sale and changes in funded status of pension plan, which are also recognized as separate components of equity.

Legal Contingencies: Loss contingencies, including claims and legal action arising in the normal course of business, are recorded as liabilities when the likelihood of loss is probable and an amount or range of loss can be reasonably estimated. Management does not believe there are now such matters that will have a material effect on Bancorp's consolidated financial statements.

Fair Value of Financial Instruments: Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in a separate note. Fair value estimates involve uncertainties and matters of significant judgment regarding interest rates, credit risk, prepayments, and other factors, especially in the absence of broad markets for particular items. Changes in assumptions or in market conditions could significantly affect the estimates.

Reclassification: Certain amounts appearing in the prior years' financial statements have been reclassified to conform to the current year's financial statements.

Adoption of New Accounting Standards: In September 2006, the FASB issued guidance that defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This guidance also establishes a fair value hierarchy about the assumptions used to measure fair value and clarifies assumptions about risk and the effect of a restriction on the sale or use of an asset. The guidance was effective for fiscal years beginning after November 15, 2007. In February 2008, the FASB issued guidance that delayed the effective date of this fair value guidance for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value on a recurring basis (at least annually) to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. The effect of adopting this new guidance was additional footnote disclosure.

December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In May 2009, the FASB issued guidance which requires the effects of events that occur subsequent to the balance-sheet date be evaluated through the date the financial statements are either issued or available to be issued. Companies should disclose the date through which subsequent events have been evaluated and whether that date is the date the financial statements were issued or the date the financial statements were available to be issued. Companies are required to reflect in their financial statements the effects of subsequent events that provide additional evidence about conditions at the balance-sheet date (recognized subsequent events). Companies are also prohibited from reflecting in their financial statements the effects of subsequent events that provide evidence about conditions that arose after the balance-sheet date (nonrecognized subsequent events), but requires information about those events to be disclosed if the financial statements would otherwise be misleading. This guidance was effective for interim and annual financial periods ending after June 15, 2009 with prospective application. The effect of adopting this new guidance was additional disclosure to Note 1 of the financial statements.

In June 2009, the FASB replaced The Hierarchy of Generally Accepted Accounting Principles, with the FASB Accounting Standards Codification™ (The Codification) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. Rules and interpretive releases of the Securities and Exchange Commission under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The Codification was effective for financial statements issued for periods ending after September 15, 2009.

In April 2009, the FASB amended existing guidance for determining whether impairment is other-than-temporary for debt securities. The guidance requires an entity to assess whether it intends to sell, or it is more likely than not that it will be required to sell, a security in an unrealized loss position before recovery of its amortized cost basis. If either of these criteria is met, the entire difference between amortized cost and fair value is recognized as impairment through earnings. For securities that do not meet the aforementioned criteria, the amount of impairment is split into two components as follows: 1) other-than-temporary impairment (OTTI) related to other factors, which is recognized in other comprehensive income and 2) OTTI related to credit loss, which must be recognized in the income statement. The credit loss is defined as the difference between the present value of the cash flows expected to be collected and the amortized cost basis. Additionally, disclosures about other-than-temporary impairments for debt and equity securities were expanded. This guidance was effective for interim and annual reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The effect of adopting this new guidance was not material.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In April 2009, the FASB issued guidance that emphasizes that the objective of a fair value measurement does not change even when market activity for the asset or liability has decreased significantly. Fair value is the price that would be received for an asset sold or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. When observable transactions or quoted prices are not considered orderly, then little, if any, weight should be assigned to the indication of the asset or liability's fair value. Adjustments to those transactions or prices should be applied to determine the appropriate fair value. The guidance, which was applied prospectively, was effective for interim and annual reporting periods ending after June 15, 2009 early adoption for periods ending after March 15, 2009. The effect of adopting this new guidance was not significant to the Bancorp.

Newly Issued Not Yet Effective Standard: In June 2009, the FASB amended previous guidance relating to transfers of financial assets and eliminates the concept of a qualifying special purpose entity. This guidance must be applied as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. This guidance must be applied to transfers occurring on or after the effective date. Additionally, on and after the effective date, the concept of a qualifying special-purpose entity is no longer relevant for accounting purposes. Therefore, formerly qualifying special-purpose entities should be evaluated for consolidation by reporting entities on and after the effective date in accordance with the applicable consolidation guidance. The disclosure provisions were also amended and apply to transfers that occurred both before and after the effective date of this guidance. The effect of adopting this new guidance is not expected to be material to the Bancorp.

	<u>\$ (336)</u>	<u>\$ 6,146</u>	<u>\$ (23)</u>	<u>\$ 654</u>	<u>\$ (359)</u>	<u>\$ 6,800</u>

Unrealized losses on securities have not been recognized into income, because the issuers' bonds are of high credit quality, Bancorp does not intend to sell and it is not more likely than not that management would be required to sell the securities prior to their anticipated recovery, and the decline in fair value is primarily due to changes in market interest rates. The fair value is expected to recover as the securities approach the maturity date.

(Continued)

STURGIS BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 2 - SECURITIES (Continued)

In determining OTTI for debt securities, management considers many factors, including: (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, (3) whether the market decline was affected by macroeconomic conditions, and (4) whether the Bancorp has the intent to sell the debt security or more likely than not will be required to sell the debt security before its anticipated recovery. The assessment of whether an other-than-temporary decline exists involves a high degree of subjectivity and judgment and is based on the information available to management at a point in time.

Mortgage-backed Securities

At December 31, 2009, 100% of the mortgage-backed securities held by the Bancorp were issued by U.S. government-sponsored entities and agencies, primarily Ginnie Mae and the Small Business Administration, institutions which the government has affirmed its commitment to support. Because the decline in fair value is attributable to changes in interest rates and illiquidity, and not credit quality, and because the Company does not have the intent to sell these mortgage-backed securities and it is likely that it will not be required to sell the securities before their anticipated recovery, the Company does not consider these securities to be other-than-temporarily impaired at December 31, 2009.

NOTE 3 - LOANS (Continued)

The following is a summary of information pertaining to impaired loans:

	<u>2009</u>	<u>2008</u>
Impaired loans with a valuation allowance	\$ 3,627	\$ 1,653
Impaired loans without a valuation allowance	<u>2,302</u>	<u>2,068</u>
Total impaired loans	<u>\$ 5,929</u>	<u>\$ 3,721</u>
Valuation allowance related to impaired loans	\$ 605	\$ 142
Average investment in impaired loans	7,339	2,064
Interest income recognized on impaired loans	88	160
Interest income recognized on a cash basis on impaired loans	88	160

No additional funds are committed to be advanced in connection with impaired loans.

Nonperforming loans were as follows:

	<u>2009</u>	<u>2008</u>
Total non-accrual loans	\$ 6,886	\$ 3,188
Total loans past due 90 days or more and still accruing	1,306	391

Nonperforming loans include both smaller balance homogenous loans that are collectively evaluated for impairment and individually classified impaired loans.

The Company has allocated \$109 of specific reserves to customers whose loan terms have been modified in troubled debt restructurings as of December 31, 2009. The balance of these loans at December 31, 2009 was \$1,860 and is included with impaired loans above. The Company has committed to lend no additional amounts to customers with outstanding loans that are classified as troubled debt restructurings.

NOTE 4 - PREMISES AND EQUIPMENT

A summary of the cost and accumulated depreciation of premises and equipment follows:

	<u>2009</u>	<u>2008</u>
Land	\$ 1,722	\$ 1,846
Land improvements	159	164
Office buildings	8,008	8,224
Furniture, fixtures and equipment	4,777	4,881
Construction in progress	-	-
Total premises and equipment	<u>14,666</u>	<u>15,115</u>
Less accumulated depreciation	<u>(6,656)</u>	<u>(6,405)</u>
Net carrying amount	<u>\$ 8,010</u>	<u>\$ 8,710</u>

Premises and equipment held for sale had a balance of \$317 at December 31, 2009, and consisted of primarily an office building of \$159 and land of \$124. There were no such assets held for sale at December 31, 2008.

Depreciation expense for the years ended December 31, 2009 and 2008 amounted to \$561 and \$517, respectively.

NOTE 5 - SERVICING

Loans serviced for others are not included in the accompanying consolidated balance sheets. The unpaid principal balance of mortgages and other loans serviced for others approximated \$204.3 million and \$194.8 million at December 31, 2009 and 2008, respectively.

The fair values of the rights to service these loans were \$1,912 at December 31, 2009. The fair value of servicing rights was determined using a discount rate of 8% and prepayment speeds ranging from 176 PSA to 344 PSA.

Mortgage servicing rights capitalized	543	416
Mortgage servicing rights amortized	(692)	(376)
Change in valuation allowance	<u>17</u>	<u>2</u>
Balance at end of year	<u>\$ 1,277</u>	<u>\$ 1,409</u>
Valuation allowance:		
Balance at beginning of year	\$ 35	\$ 37
Additions	29	87
Reductions	(46)	(89)
Write-downs	<u>-</u>	<u>-</u>
Balance at end of year	<u>\$ 18</u>	<u>\$ 35</u>

NOTE 6 - REAL ESTATE INVESTMENT - LIMITED PARTNERSHIP

In February 2003, Bancorp acquired 24.75% interest in a limited partnership operating in Elkhart County, Indiana. The limited partnership was formed to construct and operate multi-family housing units. All income, expenses and tax credits will be allocated to Bancorp based upon ownership percentage. As an investor, Bancorp is able to exercise influence over operating and financial policies of the management through provisions of the partnership agreement that require a majority approval of the limited partners. At such time as the project is sold, the limited partners will receive a share of the net proceeds proportionate to each limited partner's outstanding capital balance. Under the terms of the limited partnership agreement, Bancorp contributed \$1,050 in cash, and is allocated tax losses and affordable housing federal income tax credits.

Bancorp's share of tax credits generated by the investee partnership totaled \$108 in both 2009 and 2008.

NOTE 7 - DEPOSITS

Interest-bearing deposit balances at December 31 are summarized as follows:

	<u>2009</u>	<u>2008</u>
Savings accounts	\$ 68,515	\$ 57,916
NOW accounts	56,050	46,945
Time:		
\$100,000 and over	30,215	21,545
Under \$100,000	<u>79,516</u>	<u>85,401</u>
	<u>\$ 234,296</u>	<u>\$ 211,807</u>

At December 31, 2009, the scheduled maturities of time deposits are as follows:

Maturing in the Year Ending <u>December 31,</u>	<u>Under \$100,000</u>	<u>\$100,000 and Over</u>
2010	\$ 37,666	\$ 19,880
2011	24,443	5,235
2012	5,951	1,920
2013	5,490	1,366
2014	3,465	100
Thereafter	<u>2,501</u>	<u>1,714</u>
	<u>\$ 79,516</u>	<u>\$ 30,215</u>

NOTE 8 - FEDERAL HOME LOAN BANK ADVANCES AND OTHER BORROWINGS

The Bank had advances from the Federal Home Loan Bank of Indianapolis (FHLB) of \$53,500 and \$79,000 at December 31, 2009 and 2008, respectively, which mature through 2016. At December 31, 2009 and 2008, the interest rates ranged from 2.46% to 5.24% and from 2.46% to 5.31%, respectively. The advances are subject to prepayment penalties as defined in the credit policy of FHLB.

Included in the above advances are three advances from FHLB totaling \$21,000 at December 31, 2009 and 2008, which mature through 2012. These advances have put options which allow FHLB to convert the interest rates to the three-month LIBOR with quarterly resets through maturity. The interest rate may only be converted by FHLB if the three-month LIBOR exceeds certain rates.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 8 - FEDERAL HOME LOAN BANK ADVANCES AND OTHER BORROWINGS
(Continued)

At December 31, 2009 and 2008, another advance for \$15,000, maturing February 22, 2011, may be put at any time by FHLB.

The advances are collateralized by securities held in safekeeping at FHLB, performing residential and commercial non-employee mortgage loans. The unpaid principal balance of pledged loans was approximately \$105,772 and \$141,300 at December 31, 2009 and 2008, respectively. Mortgage-backed securities with a carrying value of \$6,259 (fair value \$6,166) were held in safekeeping at FHLB and were pledged at December 31, 2009. Mortgage-backed securities with a carrying value of \$7,868 (fair value \$7,525) were held in safekeeping at FHLB and were pledged at December 31, 2008.

Annual payments of FHLB advances are as follows:

2010	\$ 5,000
2011	28,500
2012	10,000
2013	2,500
2014	-
2015 and thereafter	<u>7,500</u>
	<u>\$ 53,500</u>

The Bank also had \$0 and \$5.1 million of federal funds purchased from a financial institution at December 31, 2009 and 2008, respectively. The interest rate on fed funds purchased at December 31, 2008 was 0.26%.

During 2009, Bancorp obtained an open-end line of credit with another financial institution for \$5.0 million to refinance a \$3.0 million closed-end line of credit with another financial institution, which had been obtained in 2008. The outstanding balance on the lines of credit was \$4.4 million and \$2.2 million at December 31, 2009 and 2008, respectively. The line of credit matures in April 2013. The variable interest rate on the lines of credit at December 31, 2009 and 2008 was 4.00% and 4.50%, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 9 - REPURCHASE AGREEMENTS

Repurchase agreements are secured by available for sale mortgage-backed securities held by a third-party trustee with a fair value of \$31,334 and \$41,347 at December 31, 2009 and 2008, respectively.

These agreements at December 31, 2009 are variable rate financing arrangements that mature in 2013. At maturity, the securities underlying the agreements are returned to Bancorp.

Information concerning repurchase agreements is summarized as follows:

	<u>2009</u>	<u>2008</u>
Average daily balance during the year	\$ 25,799	\$ 20,256
Average interest rate during the year	0.73%	3.95%
Maximum month-end balance during the year	30,500	35,784
Weighted average interest rate at year end	0.46%	1.50%

If the fair values of the pledged available for sale securities decline, either through principal reductions or market value fluctuations, so that the aggregate fair values are insufficient collateral for the repurchase agreements, additional alternative collateral will be pledged.

NOTE 10 - FEDERAL INCOME TAXES

Sturgis Bancorp, Inc. and Subsidiaries file a consolidated federal income tax return. The following is a summary of the provision for income taxes for the two years ended December 31:

	<u>2009</u>	<u>2008</u>
Current expense	\$ 488	\$ 400
Deferred expense	<u>(195)</u>	<u>198</u>
	<u>\$ 293</u>	<u>\$ 598</u>

Settlements	<u>(63)</u>
	<u>\$ -</u>

During 2008, Bancorp settled an outstanding issue with the State of Indiana, and recorded a \$63 decrease in unrecognized tax benefits. Bancorp does not expect the total amount of unrecognized tax benefits to significantly increase in the next twelve months.

Bancorp and its subsidiaries are subject to U.S. federal income tax as well as income tax of the states of Indiana and Florida. Bancorp is no longer subject to examination by taxing authorities for years before 2005.

NOTE 11 - RETIREMENT BENEFITS

Bancorp is a participant in the multi-employer Financial Institutions Retirement Fund (FIRF or the Plan), which covers substantially all of the officers and employees of the Bank and its subsidiaries. The defined benefit plan provides benefits to all full-time employees with one year of service, based on basic compensation and years of service. Bancorp contributions are determined by FIRF and generally represent the normal cost of the Plan. Specific Plan assets and accumulated benefit information for Bancorp's portion of the fund are not available. Under the Employee Retirement Income Security Act (ERISA), a contributor to a multi-employer pension plan may be liable in the event of complete or partial withdrawal for the benefit payments guaranteed under ERISA. Bancorp has no present intention to withdraw from the fund. The expenses of the Plan allocated to Bancorp for the years ended December 31, 2009 and 2008 were \$453 and \$375, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 11 - RETIREMENT BENEFITS (Continued)

The Bank sponsors a non-qualified defined benefit (DB) to provide supplemental retirement benefits for certain executives. These benefits include pre-retirement disability and death benefits, as well as post-retirement payments for 15 years. The following table sets forth the DB activity and other information as of and for the years ended December 31, 2009 and 2008.

	<u>2009</u>	<u>2008</u>
Plan assets at fair value	\$ -	\$ -
Projected benefit obligation	<u>621</u>	<u>562</u>
Underfunded status	<u>\$ (621)</u>	<u>\$ (562)</u>
Accumulated benefit obligation	\$ 300	\$ 255
Net periodic pension cost	\$ 80	\$ 75
Change included in other comprehensive income	\$ (76)	\$ (6)
Actuarial assumptions:		
Weighted average discount rate	6.50%	6.50%
Increase in future compensation levels	4.00	4.00

The estimated net loss and prior service cost for the plan that will be amortized from accumulated other comprehensive income into net periodic benefit cost during the year ending December 31, 2010 are not significant.

To fund the DB obligation and other employee benefits, the Bank has purchased insurance policies on the lives of certain officers of the Bank. The Bank is owner and beneficiary of these policies. At December 31, 2009 and 2008, the cash value of all bank-owned life insurance policies was \$8,401 and \$8,072, respectively. The cash value is available to fund future benefit obligations. There were no supplemental retirement benefits paid by the DB during 2009 or 2008. The Bank does not anticipate paying benefits in connection with this plan over the next 9 years, with \$32 paid in 10 years.

December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 12 - COMMON STOCK AND OPTIONS

In September 2005, Bancorp entered into an agreement with a shareholder to repurchase up to 197,200 shares of common stock. The agreement was an irrevocable right and option to purchase the shares upon the death of the shareholder at market price as quoted on the OTC Bulletin Board or such similar quotation service on which Bancorp's shares trade. The stockholder died in October 2007 and Bancorp exercised the entire option agreement in November 2007. In February 2008, Bancorp obtained a \$3.0 million line of credit with another financial institution and settled the option agreement to repurchase the shares totaling \$2,928 on February 14, 2008.

Bancorp has two stock option plans under which grants have been extended to employees and directors.

Employee Plan - Options granted under the Employee Plan expired 10 years after the date of the grant for active and retired employees. If employment was terminated prior to that time for reasons other than death or disability, the options expired 30 days after termination of employment. If employment with the Bank was terminated by reason of death or disability, the options expired 90 days after termination of employment. All unexercised stock option grants under the Employee Plan expired in 2008.

New Director Plan - The New Director Plan provided active directors with stock options that expire 10 years and one day after the grant date. If a grantee ceases to be a director prior to that time for reasons other than death or disability, the options expire 30 days after cessation of director status. If cessation of director status results from death or disability, the options expire 90 days after cessation of director status. Unexercised stock option grants under the New Director Plan were 0 and 750 at December 31, 2009 and 2008. Because the New Director Plan expired in December 1999, no new stock options will be granted under the New Director Plan. All unexercised stock option grants under the New Director Plan expired in 2009.

Granted	-	-
Cancelled	750	10.50
Exercised	<u>-</u>	<u>-</u>
Outstanding - December 31, 2009	<u>-</u>	<u>\$ -</u>

NOTE 13 - MINIMUM REGULATORY CAPITAL REQUIREMENTS

The Bank is subject to various regulatory capital requirements administered by federal banking agencies. Failure to meet minimum capital requirements can initiate mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of their assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. The capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors. Prompt corrective action provisions are not applicable to bank holding companies such as Bancorp.

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and ratios, as set forth in the following table. Total capital, Tier 1 capital, risk-weighted assets and average assets are measures used to analyze capital adequacy. These measures are defined in federal banking regulations. Ratios must be met regarding total and Tier 1 capital to risk-weighted assets and of Tier 1 capital to average assets. At December 31, 2009 and 2008, the Bank met all minimum capital requirements to which it was subject.

(Amounts in thousands, except share and per share data)

NOTE 13 - MINIMUM REGULATORY CAPITAL REQUIREMENTS (Continued)

At December 31, 2009, the Federal Deposit Insurance Corporation categorized the Bank as well-capitalized under the regulatory framework for prompt corrective action. To be categorized as well-capitalized, an institution must maintain minimum total risk-based, Tier 1 risk-based and Tier 1 leverage ratios as set forth in the following tables. There are no conditions or events since December 31, 2009 that management believes have changed the Bank's well-capitalized status.

The Bank's actual capital amounts and ratios at December 31, 2009 and 2008 were as follows:

	<u>Actual</u>		<u>For Capital Adequacy Purposes</u>		<u>To Be Well Capitalized Under Prompt Corrective Action Provisions</u>	
	<u>Amount</u>	<u>Ratio</u>	<u>Amount</u>	<u>Ratio</u>	<u>Amount</u>	<u>Ratio</u>
	<u>December 31, 2009</u>					
Total capital (to risk weighted assets)	\$ 29,465	12.0%	\$ 19,566	8.0%	\$ 24,452	10.0%
Tier 1 capital (to risk weighted assets)	26,396	10.8	9,783	4.0	14,674	6.0
Tier 1 capital (to adjusted total assets)	26,396	7.1	14,819	4.0	18,525	5.0
<u>December 31, 2008</u>						
Total capital (to risk weighted assets)	\$ 26,523	11.0%	\$ 19,360	8.0%	\$ 24,200	10.0%
Tier 1 capital (to risk weighted assets)	23,685	9.8	9,680	4.0	14,520	6.0
Tier 1 capital (to adjusted total assets)	23,685	6.1	15,505	4.0	19,381	5.0

NOTE 14 - OFF-BALANCE-SHEET ACTIVITIES

Credit-Related Financial Instruments: Bancorp is a party to credit-related financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit, standby letters of credit and commercial letters of credit. To various degrees, such commitments involve elements of credit and interest rate risk in excess of the amount recognized on the consolidated balance sheet.

Bancorp's exposure to credit loss is represented by the contractual amount of the commitments. Bancorp follows the same credit policies in making commitments as it does for on-balance-sheet instruments.

(Continued)

STURGIS BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 14 - OFF-BALANCE-SHEET ACTIVITIES (Continued)

At December 31, 2009 and 2008, the following financial instruments with credit risk were outstanding:

	<u>2009</u>	<u>2008</u>
Commitments to grant loans	\$ 953	\$ 8,018
Unfunded commitments under lines of credit	36,951	75,903
Commercial and standby letters of credit	835	1,765

Commitments to extend credit are agreements to lend to a customer, as long as there are no violations of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require the payment of fees. These commitments, especially related to equity lines of credit, may expire without being drawn. Therefore, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral secured by Bancorp is based on management's credit evaluation of the customer.

Unfunded commitments under commercial lines of credit, revolving credit lines and overdraft protection agreements are commitments for possible future extensions of credit to existing customers. The equity and commercial lines of credit are collateralized, may not have a specified maturity date, and may be drawn to the full extent of Bancorp's commitment.

Commercial and standby letters of credit are conditional commitments issued by Bancorp to guarantee the performance of a customer to a third party. The letters of credit are primarily used to support public and private borrowing arrangements. All letters of credit issued by Bancorp have expiration dates within one year.

Collateral Requirements: To reduce credit risk related to the use of credit-related financial instruments, Bancorp might deem it necessary to obtain collateral. The amount and nature of the collateral obtained are based on Bancorp's credit evaluation of the customer. Collateral types vary, including cash, securities, accounts receivable, inventory, real estate, property, plant and equipment.

If the counterparty does not have the right or ability to redeem the collateral or Bancorp is permitted to sell or repledge the collateral on short notice, Bancorp records the collateral in its balance sheet at fair value with a corresponding obligation to return it.

NOTE 15 - RELATED PARTY TRANSACTIONS

In the ordinary course of business, Bancorp has granted loans to principal officers, directors and affiliates. A summary of the related party loan transactions for the years ended December 31, 2009 and 2008 is as follows:

	<u>2009</u>	<u>2008</u>
Related party loans - beginning of the year	\$ 2,361	\$ 2,500
Advances	544	-
Principal repayments	<u>(536)</u>	<u>(139)</u>
Related party loans - end of the year	<u>\$ 2,369</u>	<u>\$ 2,361</u>

Deposits from related parties held by the Bank at December 31, 2009 and 2008 approximated \$1,897 and \$1,285, respectively.

A director of Bancorp is a stockholder in a law firm that provides legal counsel to Bancorp and its subsidiaries. Legal fees and disbursements to the law firm totaled \$98 and \$172 for 2009 and 2008, respectively.

NOTE 16 - FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The fair values of securities available for sale are determined based on market prices of similar securities (Level 2 inputs).

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 16 - FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

The fair value of loans held for sale is based upon binding quotes from 3rd party investors. (Level 2 inputs).

Real Estate Owned: Nonrecurring adjustments to certain commercial and residential real estate properties classified as real estate owned are measured at the lower of carrying amount or fair value, less costs to sell. Fair values are generally based on third party appraisals of the property, resulting in a Level 3 classification. In cases where the carrying amount exceeds the fair value, less costs to sell, an impairment loss is recognized.

Impaired Loans: The fair value of impaired loans with specific allocations of the allowance for loan losses is generally based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are typically significant and result in a Level 3 classification of the inputs for determining fair value.

Assets and liabilities measured at fair value on a recurring basis, including financial assets and liabilities for which the Company has elected the fair value option, are summarized below:

	Fair Value Measurements at December 31, 2009 Using:			
	Carrying Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
(Dollars in thousands)				
Financial Assets				
Mortgage-backed securities - residential	\$ 15,159	\$ -	\$ 15,159	\$ -
Collateralized mortgage obligations	16,175	-	16,175	-
Other securities	<u>574</u>	<u>-</u>	<u>574</u>	<u>-</u>
 Total investment securities available-for-sale	 <u>\$ 31,908</u>	 <u>\$ -</u>	 <u>\$ 31,908</u>	 <u>\$ -</u>
 Loans held for sale	 \$ 595	 \$ -	 \$ 595	 \$ -

(Amounts in thousands, except share and per share data)

NOTE 16 - FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

Assets and Liabilities Measured on a Non-Recurring Basis

Impaired loans, which are measured for impairment using the fair value of the collateral for collateral dependent loans, had a carrying amount of \$3,627, with a valuation allowance of \$605, resulting in an additional provision for loan losses of \$572 for the period. At December 31, 2008, impaired loans had a carrying amount of \$1,653, with a valuation allowance of \$142, resulting in an additional provision for loan losses of \$20 for the year ending December 31, 2008.

Real estate owned which is measured at the lower of carrying or fair value less costs to sell, had a net carrying amount of \$2,086, of which \$930 is at fair value, at December 31, 2009, resulting in a write-down of \$154 for the year ending December 31, 2009.

Loans held for sale, which are carried at fair value, were carried at \$595, which is made up of the outstanding balance of \$592, net of a valuation of \$3 at December 31, 2009, resulting in a charge of \$0 for the year ending December 31, 2009.

Other Financial Instruments

The fair value of a financial instrument is the current amount that would be exchanged between willing parties, other than in a forced liquidation. Fair value is best determined based upon quoted market prices. However, in many instances, there are no quoted market prices for Bancorp's various financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument.

The following methods and assumptions were used by Bancorp in estimating fair value disclosures for financial instruments:

Cash and Cash Equivalents: The carrying amounts of cash and short-term instruments approximate fair values.

Interest-earning Deposits in Banks: The carrying amounts of interest-earning deposits maturing within 90 days approximate their fair values. Fair values of other interest-earning deposits are estimated using discounted cash flow analyses based on current rates for similar types of deposits.

FHLB stock: It was not practicable to estimate the fair value of FHLB stock due to restrictions on its transferability.

(Continued)

STURGIS BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2009 and 2008
(Amounts in thousands, except share and per share data)

NOTE 16 - FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

Loans Receivable: For variable-rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values, as adjusted for estimated credit losses. Fair values for other loans (e.g., commercial real estate and investment property mortgage loans, commercial and industrial loans) are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. Fair values for non-performing loans are estimated using discounted cash flow analyses or underlying collateral values, where applicable.

Deposit Liabilities: The fair values disclosed for demand deposits (e.g., interest and non-interest checking, savings, and certain types of money market accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amounts). The carrying amounts of variable-rate, fixed-term money market accounts and certificates of deposit approximate their fair values at the reporting date. Fair values for fixed-rate certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on time deposits.

FHLB Advances and Other Borrowings: The carrying amount of short-term FHLB advances, federal funds purchased, and other borrowings is a reasonable estimate of their fair value due to their variable interest rates and short-term maturities. The estimated fair value of long-term FHLB is determined by discounting the future cash flows of outstanding advances using rates currently available on advances from the FHLB with similar characteristics.

Repurchase Agreements: The estimated fair value of repurchase agreements is determined by discounting the future cash flows of outstanding advances using rates currently available on similar instruments.

Accrued Interest: The carrying amounts of accrued interest approximate fair value.

Off-Balance-Sheet Instruments: Fair values for off-balance-sheet, credit-related financial instruments are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties' credit standing. The fair value of off-balance sheet items is not considered material.

Accrued interest receivable	1,795	1,795	2,286	2,286
Financial liabilities:				
Deposits	\$ 259,151	\$ 254,172	\$ 237,517	\$ 237,091
Accrued interest payable	687	687	868	868
FHLB advances and other borrowings	57,942	59,675	86,287	85,957
Repurchase agreements	25,000	21,797	30,500	27,761

NOTE 17 - GOODWILL

Impairments exist when a reporting unit's carrying value of goodwill exceeds its fair value, which is determined through a two-step impairment test. Step 1 includes the determination of the carrying value of a single reporting unit, including the existing goodwill and intangible assets, and estimating the fair value of the reporting unit. Bancorp determined the fair value of its reporting unit and compared it to its carrying amount. If the carrying amount of a reporting unit exceeds its fair value, a second test is required. The annual impairment analysis indicated that Step 2 analysis was not necessary.

(Amounts in thousands, except share and per share data)

NOTE 18 - RESTRICTIONS ON DIVIDENDS

Banking regulations place certain restrictions on dividends paid and loans or advances made by the Bank to Bancorp. The total amount of dividends that may be paid at any date is generally limited to the retained earnings of the Bank. However, dividends paid by the Bank would be prohibited, if the effect thereof would cause the Bank's capital to be reduced below applicable minimum standards. At December 31, 2009, the Bank's retained earnings available for the payment of dividends was \$4,042. Accordingly, approximately \$26,272 of Bancorp's investment in the Bank was restricted at December 31, 2009.

Loans or advances made by the Bank to Bancorp are generally limited to 10% of the Bank's capital stock and surplus and require the pledging of collateral.

NOTE 19 - OTHER COMPREHENSIVE INCOME (LOSS)

	<u>2009</u>	<u>2008</u>
Unrealized holding gains on available for sale securities	\$ 2,042	\$ 777
Reclassification adjustment for losses (gains) realized in income	<u>(1,244)</u>	<u>(42)</u>
