2015 ANNUAL REPORT

AIRSTREAM

Airstream manufactures and sells premium quality travel trailers and motorhomes. Airstream travel trailers are distinguished by their rounded shape and bright aluminum finish and, in our opinion, constitute the most recognized product in the recreational vehicle industry. Airstream manufactures and sells travel trailers under the trade names Airstream International, Classic Limited, Sport, Flying Cloud, Land Yacht and Eddie Bauer. Airstream also sells the Interstate and Autobahn Class B motorhomes.

BISON COACH

Bison Coach is an industry leader in producing specialty trailers with spacious living areas available in a wide variety of sizes. Bison produces an innovative line of equine trailers with Living Quarters (LQ), constructed of light-weight aluminum and aluminum over steel construction. Bison is a pioneer in equine LQ trailers, and they are one of only two competitors that construct their own living quarters, an important point of differentiation in the industry which results in improved quality, innovative design and greater speed to market. Bison sells equestrian recreational vehicle products under trade names such as Premiere, Silverado, Ranger, Laredo, Trail Boss and Trail Hand.

CROSSROADS RV

At CrossRoads RV we build quality towable fifth-wheel and travel trailer recreational vehicles that provide exceptional value to conscientious consumers. Our brands include Sequoia, Cameo, Carriage, Sunset Trail, Cruiser, Zinger, Z-1, ReZerve, Rushmore, Elevation, Redwood and Hampton. CrossRoads RV is where imaginative ideas for traveling lifestyles become reality.

CRUISER RV

Originally founded in 1988, Howe, Indiana-based Cruiser RV is an industry leader in the production of light-weight travel trailers that can be towed by a wide variety of today's smaller vehicles. Travel Trailer brands include Enterra, Fun Finder, Radiance, Shadow Cruiser and ViewFinder Signature, as well as the Stryker brand of toy haulers. Cruiser RV, which has manufacturing operations in Howe and LaGrange, Indiana, joined the Thor family of companies through its acquisition by Heartland Recreational Vehicles in January 2015, following a long history of family ownership.

DUTCHMEN

Dutchmen is based in Goshen, Indiana, and was founded in 1988. Dutchmen produces many widely recognized brands of recreational vehicles, including Aerolite, Aspen Trail, Coleman, Denali, Dutchmen, Kodiak, Razorback, Rubicon and Voltage.

DRV

Founded in 2003, Howe, Indiana-based DRV is an industry leader in the production of high-end fifth wheels with residential quality and features. An innovative company with the ability to customize products to meet customer needs, DRV is a true retail-customer-oriented company with a strong base of loyal, repeat buyers. DRV's brand offerings include Mobile Suites, Mobile Suites Estates, Elite Suites and Tradition. DRV joined the Thor family of companies through its acquisition by Heartland Recreational Vehicles in January 2015.

DEAR FELLOW SHAREHOLDERS:

Our Company's Fiscal Year 2015 marked a year of historic success. Thor surpassed last year's record sales from continuing operations by 14% and, for the first time, exceeded \$4 billion in total annual sales. We also surpassed our prior record earnings per share from continuing operations, earning \$3.79 per diluted share. During the year we remained true to our commitment to return value to our Shareholders by increasing our regular dividend by 11% and repurchasing 1 million shares, or 2% of our stock. By the conclusion of our Fiscal Year 2015, we had returned over \$1 billion to you, our Shareholders, over the life of our Company.

Financial highlights of Fiscal Year 2015 included:

- Record sales from continuing operations of \$4.0 billion, an increase of 14% from \$3.5 billion in Fiscal 2014
- Net income from continuing operations for the year was up 15% to \$202.0 million, compared to \$175.5 million in Fiscal 2014
- Diluted earnings per share from continuing operations were up 15% to \$3.79 versus \$3.29 in Fiscal 2014
- Net income including discontinued operations was up 11% to \$199.4 million from \$179.0 million in Fiscal 2014
- Towable RV sales increased by 14% over Fiscal 2014; towable income before tax increased by 17% over Fiscal 2014
- Motorized RV sales increased by 8% over Fiscal 2014; motorized income before tax increased by 17% over Fiscal 2014

The recreational vehicle industry continued to improve throughout the year, marking a historic sixth year of recovery. According to the Recreation Vehicle Industry Association (RVIA), wholesale shipments of towable and motorized RVs combined posted a 4% gain through July 31, 2015, compared to the same period the prior year. RVIA is currently forecasting wholesale shipments for all RV categories to grow nearly 5% in the 2015 calendar year compared to 2014, reaching a total level just short of the high achieved in 2006, even as travel trailer shipments reached a new all-time high in calendar 2014.

We continue to strive to be innovators in the RV industry, offering new and exciting products that meet the continually evolving demands of consumers. We work to meet the needs of retail RV buyers through what we believe is the industry's best overall dealer network. Our focus on innovation, product quality, and partnering with the right dealers form the foundation for the future growth of our Company.

Looking to our distribution channel, we believe that dealer inventory levels remain appropriate and expect continued growth in our markets with overall industry growth in the mid-single-digits. We expect industry volumes to be driven by somewhat stronger growth in towables as compared to motorized, as new consumers entering the market drive growth in more affordable RVs. Dealers' focus on effective inventory management designed to yield increased inventory turns has made our distribution healthier than it has been in quite some time.

Thor accomplished a number of significant strategic objectives in Fiscal Year 2015 as we strove to build on our foundation for the long-term growth of our Company. We grew our business with a number of acquisitions made throughout the fiscal year. In January 2015, our Heartland subsidiary purchased towable recreational vehicle manufacturer Cruiser RV (CRV) and luxury fifth wheel recreational vehicle manufacturer DRV for final cash consideration of \$47.5 million, net of cash acquired. On May 1, 2015, we closed on the purchase of Postle Aluminum, a supplier of aluminum extrusions and specialized components to the RV and other industries for total cash consideration of \$144.0 million, net of cash acquired. These acquisitions are an open expression of our intent to maintain a strategy that includes acquisitions that drive long-term shareholder value. For years, this

strategy has served our Shareholders well. Through a well-developed process of intense scrutiny that identifies risks and mitigation strategies, ensures alignment with Thor culture and philosophy, and fully vets the acquisition's ability to be accretive to our earnings, we are confident in our ability to continue implementing this essential element of our corporate strategy.

Beyond acquisitions, we continued to invest in the organic growth of our RV business with a number of meaningful capital investments in our towable business. Keystone constructed a new plant south of its main Goshen, Indiana complex that will be used to produce both new entry-level travel trailers as well as destination trailers. Heartland invested in several plant expansions and updated the factory service center on its complex. We built a new lamination facility at KZ, which will allow it to expand production of lightweight laminated trailers. Airstream expanded its production plant by 50%, increasing its ability to meet the burgeoning demand for its iconic travel trailers. In all, we invested more than \$42 million in capital expenditures in Fiscal 2015. We expect to continue this accelerated level of capital investment in the coming fiscal year, starting with our recently announced West Coast production facility for Heartland located in Nampa, Idaho. Many large western markets are gaining momentum and we need this new facility to enable Heartland to provide dealers with lightweight travel trailers faster and at a better cost than we can provide from Indiana.

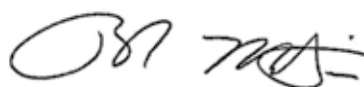

Our cash position remains strong with \$183 million in cash and no long-term debt, excluding some capital leases that came with the Postle acquisition, at the end of Fiscal Year 2015. Thor continues to be a solid dividend company as we maintained our quarterly dividend at \$0.27 per share throughout Fiscal Year 2015 and just recently announced an increase to \$0.30 per share in October 2015. Our current cash position and historically strong operating cash flow is expected to enable the Company to consider a number of strategic allocation alternatives, which will continue to be a major focus of our Board and management throughout Fiscal Year 2016.

We are pleased with the successful year our Company had in Fiscal 2015, but we are mindful that continued success requires a long-term strategic vision to make the right investments. Our management team is committed to the future success of Thor as we continue to build high-quality, innovative products for our dealers and retail customers and, ultimately, deliver solid results to you, our Shareholders and co-owners. We are confident in the strategic direction of Thor and look forward to continued growth and achievement in Fiscal Year 2016.

Thank you for your continued support and confidence in the future of our Company.

Peter B. Orthwein,
Executive Chairman of the Board

Bob Martin,
Chief Executive Officer

STOCK PRICE PERFORMANCE GRAPH

The performance graph set forth below compares the cumulative total shareholder returns, for a five year period ended July 31, 2015, on the Common Stock of Thor Industries, Inc. (the "Company") assuming that \$100 is invested on July 31, 2010 and that all dividends are reinvested, against the cumulative total returns of the Russell 3000 Index ("Russell 3000") and a "peer group" of companies selected by the Company whose primary business is in the recreational vehicle industry.

Our peer group was selected from public companies that also participate in the recreational vehicle industry as manufacturers or direct suppliers. Our selected peer group includes companies whose primary business is the design, manufacture and marketing of travel trailers, fifth wheel trailers, Class A motorhomes, Class C motorhomes and Class B motorhomes or components used in the manufacture of such vehicles. Our peer group is composed of Spartan Motors Inc. ("SPAR"), Drew Industries ("DW") and Winnebago Industries ("WGO"). Our peer group was revised in the current year. Previously, our peer group included Skyline Corp. ("SKY"). Since SKY sold its recreational vehicle segment in October 2014, SKY has been removed from our peer group for 2015. The Company cautions that the performance noted below should not be considered indicative of potential future returns.

ITEM 1. BUSINESS

The following discussion of our business solely relates to ongoing operations.

General Development of Business

Our company was founded in 1980 and, through its subsidiaries, manufactures a wide range of recreational vehicles ("RVs") in the United States and sells those vehicles primarily in the United States and Canada. We are incorporated in Delaware and are the successor to a corporation of the same name which was incorporated in Nevada on July 29, 1980. Our principal executive office is located at 601 East Beardsley Avenue, Elkhart, Indiana 46514 and our telephone number is (574) 970-7460. Our Internet address is www.thorindustries.com. We maintain copies of our recent filings with the Securities and Exchange Commission ("SEC"), available free of charge, on our web site. Unless the context otherwise requires or indicates, all references to "Thor", the "Company", "we", "our" and "us" refer to Thor Industries, Inc. and its subsidiaries.

Our principal recreational vehicle and other operating subsidiaries are Airstream, Inc. ("*Airstream*"), CrossRoads RV ("*CrossRoads*"), Thor Motor Coach, Inc. ("*Thor Motor Coach*"), Keystone RV Company ("*Keystone*"), Heartland Recreational Vehicles, LLC ("*Heartland*"), Livin' Lite RV, Inc. ("*Livin' Lite*"), Bison Coach ("*Bison*"), K.Z., Inc. ("*KZ*") and Postle Operating, LLC ("*Postle*").

On June 3, 2013, Thor Wakarusa, LLC, a wholly-owned subsidiary of Thor, purchased a recreational vehicle production campus in Wakarusa, Indiana for \$5,819. The purchase included land and production facilities, comprised of approximately one million square feet of total production space on more than 150 acres, along with certain related equipment, including more than 35 paint booths specifically designed for painting recreational vehicles. The Company uses the facilities primarily for motorized recreational vehicle production and to vertically integrate certain paint operations through one of its towable recreational vehicle subsidiaries.

On August 30, 2013, the Company acquired the assets of towable recreational vehicle manufacturer Livin' Lite Corp., located in Wakarusa, Indiana, through a wholly-owned subsidiary for final cash consideration of \$16,769, net of cash acquired. As a result of the purchase, the Company formed a new entity, Livin' Lite. The Company purchased the assets to expand its recreational vehicle market share and complement its existing brands with Livin' Lite's advanced lightweight product offerings.

On October 31, 2013, the Company acquired the assets of towable recreational vehicle manufacturer Bison Coach, LLC, located in Milford, Indiana, for final cash consideration of \$16,914. As a result of the purchase, the Company formed a new entity, Bison. The Company purchased the net assets of Bison to supplement its existing product offerings with Bison's equestrian products with living quarters.

On May 1, 2014, the Company acquired all the outstanding capital stock of towable recreational vehicle manufacturer KZ for initial cash consideration paid in fiscal 2014 of \$52,409, net of cash acquired, and a working capital adjustment of \$2,915 paid in the first quarter of fiscal 2015, resulting in total net cash consideration of \$55,324. The Company purchased KZ to expand its towable recreational vehicle market share and supplement its existing towable RV product offerings and dealer base.

On January 5, 2015, the Company closed on a Stock Purchase Agreement ("CRV/DRV SPA") for the acquisition of all the outstanding membership units of towable recreational vehicle manufacturer Cruiser RV, LLC ("CRV") and luxury fifth wheel towable recreational vehicle manufacturer DRV, LLC ("DRV") by its Heartland Recreational Vehicles, LLC subsidiary ("Heartland"). In accordance with the CRV/DRV SPA, the closing was deemed effective as of January 1, 2015. As contemplated in the CRV/DRV SPA, the Company also acquired, in a series of integrated transactions, certain real estate used in the ongoing operations of CRV and DRV. Cash consideration paid for this acquisition was \$47,523, net of cash acquired. The Company purchased CRV and DRV to expand its towable recreational vehicle market share and to supplement and expand its existing lightweight travel trailer and luxury fifth wheel product offerings and dealer base.

On May 1, 2015, the Company closed on a Membership Interest Purchase Agreement with Postle Aluminum Company, LLC for the acquisition of all the outstanding membership units of Postle Operating, LLC ("Postle") for cash consideration paid in fiscal 2015 of \$144,048, net of cash acquired. Postle is a manufacturer of aluminum extrusion and specialized component products for the RV and other markets, and will operate as an independent operation in the same manner as the Company's other subsidiaries.

On May 15, 2015, the Company entered into a repurchase agreement (the "May 15, 2015 Repurchase Agreement"), to purchase shares of its common stock from the Thompson Family Foundation (the "Foundation") in a private transaction. Pursuant to the terms of the May 15, 2015 Repurchase Agreement, the Company purchased from the Foundation 1,000,000 shares of its common stock at a price of \$60.00 per share, and held them as treasury stock, representing an aggregate purchase price of \$60,000. The closing price of Thor common stock on May 15, 2015 was \$61.29. The transaction was consummated on May 19, 2015, and the Company used available cash to purchase the shares. The number of shares repurchased by the Company represented 1.9% of the Company's issued and outstanding common stock immediately prior to the repurchase.

Discontinued Operations

On July 31, 2013, we entered into a definitive Stock Purchase Agreement and sold our bus business to Allied Specialty Vehicles, Inc. ("ASV") for final cash consideration of \$105,043. The sale closed on October 20, 2013. Thor's bus business included Champion Bus, Inc., General Coach America, Inc., Goshen Coach, Inc., El Dorado National (California), Inc., and El Dorado National (Kansas), Inc. As a result of the divestiture of the bus business, the results of operations of the bus business are reported as income from discontinued operations, net of income taxes on the Consolidated Statements of Income and Comprehensive Income for the years ended July 31, 2015, 2014, and 2013. Discontinued operations also reflect the results of the ambulance product line through the date of its sale on April 30, 2013. See Note 3, "Discontinued Operations," in the Notes to the Consolidated Financial Statements for further information.

Recreational Vehicles

Thor, through its operating subsidiaries, is one of the largest manufacturers of RVs in North America, by units sold and revenue, based on retail statistics published by Statistical Surveys, Inc. and other reported data.

Airstream

Our Airstream subsidiary manufactures and sells premium quality travel trailers and motorhomes. Airstream travel trailers are distinguished by their rounded shape and bright aluminum finish and, in our opinion, constitute the most recognized product in the recreational vehicle industry. Airstream manufactures and sells travel trailers under the trade names *Airstream International*, *Classic Limited*, *Sport*, *Flying Cloud*, *Land Yacht* and *Eddie Bauer*. Airstream also sells the *Interstate* and *Autobahn* Class B motorhomes.

CrossRoads

Our CrossRoads subsidiary manufactures and sells conventional travel trailers and fifth wheels under trade names such as *Sequoia*, *Cameo*, *Elevation*, *Cruiser*, *ReZerve*, *Sunset Trail* and *Zinger* and luxury fifth wheels under the trade names *Redwood* and *Carriage*.

Thor Motor Coach

Thor Motor Coach manufactures and sells gasoline and diesel Class A and Class C motorhomes. Its products are sold under trade names such as *Four Winds*, *Hurricane*, *Windsport*, *Chateau*, *Challenger*, *Tuscany*, *Outlaw*, *Axis*, *Vegas*, *Palazzo* and *A.C.E.*

Keystone

Our Keystone subsidiary manufactures and sells conventional travel trailers and fifth wheels under trade names such as *Montana*, *Springdale*, *Hideout*, *Sprinter*, *Outback*, *Laredo*, *Alpine*, *Bullet*, *Fuzion*, *Raptor*, *Passport*, *Cougar*, *Coleman*, *Kodiak*, *Aspen Trail* and *Voltage*.

Heartland

Our Heartland subsidiary manufactures and sells conventional travel trailers and fifth wheels under trade names such as *Landmark*, *Bighorn*, *Sundance*, *Elk Ridge*, *Trail Runner*, *Cyclone*, *Prowler*, *Wilderness*, *Shadow Cruiser* and *Fun Finder* and luxury fifth wheels under the trade names *D Mobile Suites* and *Fullhouse*.

Livin' Lite

Our Livin' Lite subsidiary manufactures and sells advanced lightweight travel trailers and specialty products under trade names such as *CampLite* and *Quicksilver* as well as certain private label names.

Bison

Our Bison subsidiary manufactures and sells equestrian recreational vehicle products with living quarters under trade names such as *Premiere*, *Silverado*, *Ranger*, *Laredo*, *Trail Boss* and *Trail Hand*.

KZ

Our KZ subsidiary manufactures and sells conventional travel trailers and fifth wheels under trade names such as *Sportsmen*, *Vision*, *Spree*, *MXT*, *Venom*, *Durango*, *SportTrek* and *Sonic*.

Postle

Our Postle subsidiary manufactures and sells aluminum extrusions and specialized component products to RV and other manufacturers.

Product Line Sales and Segment Information

The Company has two reportable segments: (1) towable recreational vehicles and (2) motorized recreational vehicles. The towable recreational vehicle reportable segment consists of the following operating segments that have been aggregated: Airstream (towable), Bison, CrossRoads, Heartland (including its wholly-owned subsidiaries CRV and DRV), Keystone, KZ and Livin' Lite. The motorized recreational vehicle reportable segment consists of the following operating segments that have been aggregated: Airstream (motorized) and Thor Motor Coach.

The operations of the Company's Postle subsidiary, which was acquired May 1, 2015, are included in Other, which is a non-reportable segment. Net sales included in Other mainly relate to the sale of aluminum extrusions and specialized component products. Intercompany eliminations adjust for Postle sales to the Company's towables and motorized segments, which are consummated at established arm's length transfer prices consistent with the selling prices of extrusion components to third party customers.

The table below sets forth the contribution of each of the Company's reportable segments to net sales in each of the last three fiscal years:

	2015		2014		2013	
	Amount	%	Amount	%	Amount	%
Recreational vehicles:						
Towables	\$ 3,096,405	77	\$ 2,721,625	77	\$ 2,650,253	82

Recreational Vehicles

Overview

We manufacture a wide variety of recreational vehicles in the United States and sell those vehicles primarily throughout the United States and Canada, as well as related parts and accessories. Recreational vehicle classifications are based upon standards established by the Recreation Vehicle Industry Association ("RVIA"). The principal types of towable recreational vehicles that we produce include conventional travel trailers and fifth wheels. In addition, we also produce truck and folding campers and equestrian and other specialty towable recreational vehicles, as well as Class A, Class C and Class B motorhomes.

Travel trailers are non-motorized vehicles which are designed to be towed by passenger automobiles, pickup trucks, SUVs or vans. Travel trailers provide comfortable, self-contained living facilities for camping and vacationing purposes. We produce "conventional" and "fifth wheel" travel trailers. Conventional trailers are towed by means of a frame hitch attached to the towing vehicle. Fifth wheel trailers, designed to be towed by pickup trucks, are constructed with a raised forward section that is attached to a receiver in the bed area of the pickup truck.

A motorhome is a self-powered vehicle built on a motor vehicle chassis. Motorhomes are self-contained with their own lighting, heating, cooking, refrigeration, sewage holding and water storage facilities, so that they can be utilized without being attached to utilities.

Class A motorhomes, generally constructed on medium-duty truck chassis, are supplied complete with engine and drivetrain components by motor vehicle manufacturers such as Ford and Freightliner. We design, manufacture and install the living area and driver's compartment of Class A motorhomes. Class C and Class B motorhomes are built on a Ford, General Motors or Mercedes Benz small truck or van chassis, which includes an engine, drivetrain components and a finished cab section. We construct a living area which has access to the driver's compartment and attaches to the cab section. Although they are not designed for permanent or semi-permanent living, motorhomes can provide comfortable living facilities for camping and vacationing purposes.

Production

In order to minimize finished inventory, our recreational vehicles generally are produced to dealer order. Our facilities are designed to provide efficient assembly line manufacturing of products. Capacity increases can be achieved quickly and at relatively low cost, largely by increasing the number of production employees or by acquiring or leasing additional facilities and equipment.

We purchase in finished form many of the components used in the production of our recreational vehicles. The principal raw materials used in the manufacturing processes for motorhomes and travel trailers are aluminum, lumber, plywood, plastic, fiberglass and steel purchased from numerous suppliers. We believe that, except for chassis and certain key towable RV components sourced from one major supplier, substitute sources for raw materials and components are available with no material impact on our operations.

Our relationship with our chassis suppliers is similar to our other RV vendor relationships in that no long-term contractual commitments are entered into by either party. Historically, chassis manufacturers resort to an industry-wide allocation system during periods when chassis supply is restricted. These allocations are based on the volume of chassis previously purchased. Sales of motorhomes rely on these chassis and are affected accordingly. We have not experienced any recent unusual cost increases from our chassis suppliers.

Generally, all of our operating subsidiaries introduce new or improved lines or models of recreational vehicles each year. Changes typically include new sizes and floor plans, different decors or design features and engineering improvements.

Seasonality

Since recreational vehicles are used primarily by vacationers and campers, our recreational vehicle sales are seasonal and, in most geographical areas, tend to be significantly lower during the winter months than in other periods. As a result, recreational vehicle sales are historically lowest during our second fiscal quarter, which ends on January 31 of each year.

Marketing and Distribution

We market our recreational vehicles through independent dealers located primarily throughout the United States and Canada. Each of our recreational vehicle operating subsidiaries maintains its own dealer organization, with some dealers carrying more than one of our product lines. As of July 31, 2015, there were approximately 2,100 dealerships carrying our products in the U.S. and Canada. We believe that close working relationships between our management and sales personnel and the many independent dealers with which we work provide us with valuable information on customer preferences and the quality and marketability of our products. Additionally, by maintaining substantially separate dealer networks for each of our subsidiaries, our products are targeted to be competing against competitors' products in similar price ranges rather than against our other products.

Each of our recreational vehicle operating subsidiaries has an independent sales force to call on their dealers. Our most important sales promotions occur at the major recreational vehicle shows which take place throughout the year at different locations across the country. We benefit from the recreational vehicle awareness advertising and major marketing programs sponsored by the RVIA in national print media and television. We engage in a limited amount of consumer-oriented advertising for our recreational vehicles, primarily through industry magazines, product brochures, direct mail advertising campaigns and the internet.

In our selection of individual dealers, we emphasize the dealer's ability to maintain a sufficient inventory of our products, as well as their financial stability, credit worthiness, reputation, experience and ability to provide service. Many of our dealers carry the recreational vehicle lines of one or more of our competitors. Generally, each of our operating subsidiaries has sales agreements with their dealers.

One of our dealers, FreedomRoads, LLC, accounted for 17% of our continuing consolidated net sales in fiscal 2015, 2014 and 2013. This dealer also accounted for 22% of the Company's consolidated trade accounts receivable at July 31, 2015 and 21% at July 31, 2014.

We generally do not finance dealer purchases. Most dealers are financed on a "floor plan" basis by an unrelated bank or financing company which lends the dealer all or substantially all of the wholesale purchase price and retains a security interest in the vehicles purchased. As is customary in the recreational vehicle industry, we will execute a repurchase agreement with a lending institution financing a dealer's purchase of our products upon the lending institution's request. Repurchase agreements provide that, typically for a period of up to 18 months after a unit is financed, and in the event of default by the dealer and notification from the lending institution of the dealer default, we will repurchase all the dealer units repossessed by the lending institution for the amount then due, which is often less than 100% of the dealer's cost. The risk of loss under repurchase agreements is spread over numerous dealers and is further reduced by the resale value of the units which we would be required to repurchase. We believe that any future losses under these agreements would not have a material adverse effect on our Company. The losses incurred due to repurchase were \$1,265, \$288 and \$906 in fiscal 2015, 2014 and 2013, respectively.

Backlog

As of July 31, 2015, the backlog for towable and motorized recreational vehicle orders was \$304,005 and \$269,961, respectively, compared to \$296,828 and \$241,246, respectively, at July 31, 2014. Backlog represents unfilled dealer orders on a particular day which can and do fluctuate on a seasonal basis. In the recreational vehicle business our manufacturing time is relatively short. The existing backlog of towable and motorized recreational vehicles is expected to be filled in fiscal 2016.

Historically, the amount of our current backlog compared to our backlog in previous periods reflects general economic and industry conditions and, together with other relevant factors such as continued acceptance of our products by the consumer, may be an indicator of our revenues in the near term.

Product Warranties

We generally provide retail purchasers of our recreational vehicles with a one-year limited warranty against defects in materials and workmanship with longer warranties on certain structural components. The chassis and engines of our motorhomes are generally warranted for various periods in excess of one year by their manufacturers.

Regulation

We are subject to the provisions of the National Traffic and Motor Vehicle Safety Act ("NTMVSA") and the safety standards for recreational vehicles and recreational vehicle components which have been promulgated thereunder by the U.S. Department of Transportation. Because of our sales in Canada, we are also governed by similar laws and regulations issued by the Canadian government.

We are a member of the RVIA, a voluntary association of recreational vehicle manufacturers which promulgates recreational vehicle safety standards. We place an RVIA seal on each of our recreational vehicles to certify that the RVIA's standards have been met.

Both federal and state authorities have various environmental control standards relating to air, water and noise pollution which affect our business and operations. For example, these standards, which are generally applicable to all companies, control our choice of paints, our air compressor discharge, our waste water and the noise emitted by our factories. We rely upon certifications obtained by chassis manufacturers with respect to compliance by our vehicles with all applicable emission control standards.

We are also subject to the regulations promulgated by the Occupational Safety and Health Administration ("OSHA"). Our plants are periodically inspected by federal agencies concerned with health and safety in the work place, and by the RVIA, to ensure that our plants and products comply with applicable governmental and industry standards.

We believe that our products and facilities comply in all material respects with applicable vehicle safety, environmental, RVIA and OSHA regulations.

We do not believe that ongoing compliance with the regulations discussed above will have a material effect on our capital expenditures, earnings or competitive position.

Competition

The recreational vehicle industry is generally characterized by ease of entry. The recreational vehicle market is intensely competitive with a number of other manufacturers selling products that compete directly with our products. Competition in the recreational vehicle industry is based upon price, design, value, quality and service. We believe that the quality, design and price of our products and the warranty coverage and service that we provide allow us to compete favorably for retail purchasers of recreational vehicles. There are approximately 70 RV manufacturers in the U.S. and Canada.

Our primary competitor within the towable segment is Forest River, Inc., while our primary competitors within the motorized segment are Winnebago Industries, Inc. and Forest River, Inc. We estimate that, in the aggregate, we are one of the largest recreational vehicle manufacturers in terms of both units produced and revenue. According to Statistical Surveys, Inc., for the six months ended June 30, 2015 our combined U.S. and Canadian market share for travel trailers and fifth wheels is approximately 37.1% and our combined U.S. and Canadian market share for motorhomes is approximately 24.6%.

Trademarks and Patents

We have registered United States trademarks, Canadian trademarks, certain international trademarks and licenses carrying the principal trade names and model lines under which our products are marketed. We hold and protect certain patents related to our business. We are not dependent upon any patents or technology licenses of others for the conduct of our business.

Employee Relations

At July 31, 2015, we employed approximately 10,450 full-time employees in the United States, of which approximately 1,210 were salaried. None of our employees are represented by certified labor organizations. We believe that we maintain a good working relationship with our employees.

Information about Foreign and Domestic Operations and Export Sales

Export sales from our continuing operations, predominantly to Canada, were \$465,642, \$521,818 and \$537,374 in fiscal 2015, 2014 and 2013, respectively, with the fiscal 2015 total being adversely impacted by the current strength of the U.S. dollar.

Forward Looking Statements

This Annual Report on Form 10-K includes certain statements that are “forward looking” statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward looking statements are made based on management’s current expectations and beliefs regarding future and anticipated developments and their effects upon Thor Industries, Inc., and inherently involve uncertainties and risks. These forward looking statements are not a guarantee of future performance. We cannot assure you that actual results will not differ from our expectations. Factors which could cause materially different results include, among others, raw material and commodity price fluctuations, material or chassis supply restrictions, legislative and regulatory developments, the costs of compliance with increased governmental regulation, legal issues, the potential impact of increased tax burdens on our dealers and retail consumers, lower consumer confidence and the level of discretionary consumer spending, interest rate fluctuations and the potential economic impact of rising interest rates, restrictive lending practices, management changes, the success of new product introductions, the pace of obtaining and producing at new production facilities, the pace of acquisitions, the potential loss of existing customers of acquisitions, the integration of new acquisitions, the impact of the divestiture of the Company’s bus businesses, the availability of delivery personnel, asset impairment charges, cost structure changes, competition, the potential impact of the strengthening of the U.S. dollar on international demand, general economic, market and political conditions and the other risks and uncertainties discussed more fully in ITEM 1A. RISK FACTORS below.

We disclaim any obligation or undertaking to disseminate any updates or revisions to any forward looking statements contained in this Annual Report on Form 10-K or to reflect any change in our expectations after the date of this Annual Report on Form 10-K or any change in events, conditions or circumstances on which any statement is based, except as required by law.

Available Information

Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and all amendments to those reports and the Proxy Statement for our Annual Meeting of Stockholders are made available, free of charge, on our website, www.thorindustries.com, as soon as reasonably practicable after such reports have been filed with or furnished to the SEC. You may also read and copy any materials that we file with the SEC at the SEC’s Public Reference Room at 100 F Street, NE, Room 1580, Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. In addition, the SEC maintains a website that contains reports, proxy and information statements and other information that is filed electronically with the SEC. The website can be accessed at www.sec.gov.

ITEM 1A. RISK FACTORS

The following risk factors, which relate to our continuing operations, should be considered carefully in addition to the other information contained in this filing.

The risks and uncertainties described below are not the only ones we face and represent some of the risks that our management believes are material to our Company and our business. If any of the following risks actually occur, our business, financial condition or results of operations could be harmed.

Risks Relating To Our Business

The industry in which we operate is highly competitive.

The industry that we are engaged in is highly competitive, and we have numerous existing and potential competitors. The recreational vehicle industry is generally characterized by ease of entry. Competition is based upon price, design, value, quality, and service. Competitive pressures have, from time to time, resulted in a reduction of our profit margins and/or reduction in our market share. Sustained increases in these competitive pressures could have a material adverse effect on our results of operations. We cannot assure you that existing or new competitors will not develop products that are superior to ours or that achieve better consumer acceptance, thereby adversely affecting our market share, sales volume and profit margins.

The industry in which we operate is centered in northern Indiana.

The majority of our operations are located in one region. The geographic centrality of the RV industry in northern Indiana creates certain risks, including:

- Competition for workers skilled in the industry, especially during times of increasing RV production, may increase the cost of our labor or limit the speed at which we can expand production;
- Employee retention and recruitment challenges, as employees with industry knowledge and experience are attracted to the most lucrative positions and their ability to change employers is relatively easy; and
- Potential for greater adverse impact from natural disasters.

Our business is both seasonal and cyclical and this leads to fluctuations in sales, production and net income.

We have experienced, and expect to continue to experience, significant variability in sales, production and net income as a result of annual seasonality in our business. Since recreational vehicles are used primarily by vacationers and campers, demand in the recreational vehicle industry generally declines during the fall and winter months, while sales and profits are generally highest during the spring and summer months. Dealer demand and buying patterns may impact the timing of shipments from one quarter to another. In addition, severe weather conditions in some geographic areas may delay the timing of shipments from one quarter to another. Furthermore, from a longer-term perspective, the recreational vehicle industry is also cyclical in nature, and there can be substantial annual fluctuations in our production levels, shipments and operating results. Consequently, the results for any annual or quarterly prior period may not be indicative of results for any future annual or quarterly period.

Our business may be affected by certain external factors beyond our control.

Companies within the recreational vehicle industry are subject to volatility in operating results due to external factors such as general economic conditions, including credit availability, consumer confidence, employment rates, prevailing interest rates, inflation, other economic conditions affecting consumer attitudes and disposable consumer income, demographic changes and political changes. Specific factors affecting our business include:

- Overall consumer confidence and the level of discretionary consumer spending;
- Industry demand;
- Retail and wholesale buying patterns;
- Dealer confidence and stocking levels;
- General economic, market and political conditions, including war, terrorism and military conflict;

- Demographics, such as the retirement of “baby boomers”;
- Interest rates and the availability of credit;
- Employment trends;
- Global, domestic or regional financial turmoil;
- Natural disasters;
- Increases in raw material costs;
- Relative or perceived cost, availability and comfort of recreational vehicle use versus other modes of travel, such as air travel, rail, etc.; and
- Increases in real wages and disposable income of consumers and their willingness to make large discretionary purchases.

The loss of our largest dealer could have a significant effect on our business.

FreedomRoads, LLC accounted for 17% of our consolidated net sales for fiscal 2015. The loss of this dealer could have a significant adverse effect on our business. In addition, deterioration in the liquidity or credit worthiness of FreedomRoads, LLC could negatively impact our sales and accounts receivable and could trigger repurchase obligations under our repurchase agreements.

Fuel shortages, or high prices for fuel, could have a negative effect on sales of our recreational vehicles.

Gasoline or diesel fuel is required for the operation of our vehicles or the vehicles which tow our products. We cannot assure you that the supply of these petroleum products will continue uninterrupted, that rationing will not be imposed or that the price of or tax on these petroleum products will not significantly increase in the future. Shortages of gasoline and diesel fuel, and substantial increases in the price of fuel, have had a material adverse effect on the recreational vehicle industry as a whole in the past and could have a material adverse effect on our business in the future.

Our business depends on the performance of independent dealers and transportation carriers.

We distribute our products through a system of independent, authorized dealers, many of whom sell products from competing manufacturers. The geographic coverage of our dealers and their individual business conditions can affect the ability of our authorized dealers to sell our products to consumers. In addition, recent consolidation of dealers, as well as the growth of larger, multi-location dealers, may result in increased bargaining power on the part of dealers.

Most often, our products are delivered via a system of independent transportation contractors. The network of carriers is limited and, in times of high demand and limited availability, can create risk in, and disruption of, our distribution channel.

Our business is affected by the availability and terms of financing to dealers and retail purchasers.

Our business is affected by the availability and terms of financing to dealers and retail purchasers. Generally, recreational vehicle dealers finance their purchases of inventory with financing provided by lending institutions. A decrease in the availability of this type of wholesale financing, more restrictive lending practices or an increase in the cost of such wholesale financing can prevent dealers from carrying adequate levels of inventory, which limits product offerings and could lead to reduced demand. In addition, two major financial flooring institutions held approximately 80% of our portion of our dealers' total floored dollars outstanding at July 31, 2015.

In April 2015, General Electric (“GE”), announced its intention to sell the majority of GE Capital, including GE Commercial Distribution Finance, a major provider of floorplan financing for RV dealers. The ultimate outcome and impact of a sale or divestiture of GE Capital by GE is currently unknown.

Substantial increases in interest rates and decreases in the general availability of credit have also had an adverse impact upon our business and results of operations in the past and may do so in the future. Further, a decrease in availability of consumer credit resulting from unfavorable economic conditions, or an increase in the cost of consumer credit, may cause consumers to reduce discretionary spending which could, in turn, reduce demand for our products and negatively affect our sales and profitability.

Changes in consumer preferences for our products or our failure to gauge those preferences could lead to reduced sales and additional costs.

Our ability to remain competitive depends heavily on our ability to provide a continuing and timely introduction of innovative product offerings. We cannot be certain that historical consumer preferences for our products in general, and recreational vehicles in particular, will remain unchanged. We believe that the introduction of new features, designs and models will be critical to the future success of our recreational vehicle operations. Managing frequent product introductions and transitions poses inherent risks. Delays in the introduction or market acceptance of new models, designs or product features could have a material adverse effect on our business. Products may not be accepted for a number of reasons, including changes in consumer preferences or our failure to properly gauge consumer preferences. Further, we cannot be certain that new product introductions will not reduce revenues from existing models and adversely affect our results of operations. In addition, we cannot assure you that any of these new models or products will be introduced to the market on time or that they will be successful when introduced.

If the frequency and size of product liability and other claims against us increase, our business, results of operations and financial condition may be harmed.

We are subject, in the ordinary course of business, to litigation involving product liability and other claims against us, including, without limitation, wrongful death, personal injury and warranties. We generally self-insure our product liability and other claims and also purchase product liability and other insurance in the commercial insurance market. We cannot be certain that our insurance coverage will be sufficient to cover all future claims against us. We have a self-insured retention ("SIR") for products liability and personal injury matters ranging from \$500 to \$7,500 depending on the product type and when the occurrence took place. Generally, any occurrence (as defined by our insurance policies) after March 31, 2015 is subject to the \$500 SIR, while matters occurring after March 31, 2014 and through March 31, 2015 are subject to a \$1,000 SIR.

Amounts above the SIR, up to a certain dollar amount, are covered by our excess insurance policy. Currently, we maintain excess liability insurance aggregating \$50,000 with outside insurance carriers to minimize our risks related to catastrophic claims in excess of our self-insured positions for products liability and personal injury matters. Any material change in the aforementioned factors could have an adverse impact on our operating results. Any increase in the frequency and size of these claims, as compared to our experience in prior years, may cause the premium that we are required to pay for insurance to increase significantly and may negatively impact future SIR levels. It may also increase the amounts we pay in punitive damages, not all of which are covered by our insurance.

When we introduce new products into the marketplace, we may incur expenses that we did not anticipate, which, in turn, can result in reduced earnings.

The introduction of new models is critical to our future success. We may incur unexpected expenses, however, when we introduce new models. For example, we may experience unexpected engineering or design flaws that will force a recall of a new product or may cause increased warranty costs. The costs resulting from these types of problems could be substantial and could have a significant adverse effect on our earnings. Estimated warranty costs are provided at the time of product sale to reflect our best estimate of the amounts necessary to settle future and existing claims on products. An increase in actual warranty claims costs as compared to our estimates could result in increased warranty reserves and expense.

Our repurchase agreements with floor plan lenders could result in increased costs.

In accordance with customary practice in the recreational vehicle industry, upon the request of a lending institution financing a dealer's purchase of our products, we will execute a repurchase agreement with the lending institution. Repurchase agreements provide that, typically for a period of up to 18 months after a recreational vehicle is financed and in the event of default by the dealer, we will repurchase the recreational vehicle repossessed by the lending institution for the amount then due, which is usually less than 100% of the dealer's cost. In addition to the guarantee under these repurchase agreements, we may also be required to repurchase inventory relative to dealer terminations in certain states in accordance with state laws or regulatory requirements. The difference between the gross repurchase price and the price at which the repurchased product can then be resold, which is typically at a discount to the original sale price, is an expense to us. Thus, if we were obligated to repurchase a substantially greater number of recreational vehicles, or incurred substantially greater discounting to resell these units in the future, this would increase our costs. In difficult economic times this amount could increase significantly compared to recent years.

For some of our components, we depend on a small group of suppliers and the loss of any of these suppliers could affect our ability to obtain components at competitive prices which would decrease our margins. Some components are sourced from foreign sources and delays in obtaining these components could result in increased costs and decreased margins.

We depend on timely and sufficient delivery of components from our suppliers. Most components are readily available from a variety of sources. However, a few key components are currently produced by only a small group of quality suppliers that have the capacity to supply large quantities.

Primarily, this occurs in the case of 1) motorized chassis, where there are a limited number of chassis suppliers, and 2) windows and doors, towable chassis and slide-out mechanisms, axles and upholstered furniture for our recreational vehicles, where Drew Industries, Inc. ("Drew") is a major supplier for these items within the RV industry.

The recreational vehicle industry as a whole has, from time to time, experienced shortages of chassis due to the concentration or allocation of available resources by suppliers of chassis. Historically, in the event of an industry-wide restriction of supply, suppliers have generally allocated chassis among us and our competitors based on the volume of chassis previously purchased. If certain suppliers were to discontinue the manufacturing of motorhome chassis, or if, as a group, our chassis suppliers significantly reduced the availability of chassis to the industry, our business could be adversely affected. Similarly, shortages at, or production delays or work stoppages by the employees of chassis suppliers, could have a material adverse effect on our sales. If the condition of the U.S. auto industry were to significantly deteriorate, this could also result in supply interruptions and a decrease in our sales and earnings while we obtain replacement chassis from other sources.

Drew is a major supplier of a number of key components of our recreational vehicles such as windows and doors, towable chassis and slide-out mechanisms, axles and upholstered furniture. We have not experienced any significant shortages or delays in delivery related to these items; however, if industry demand were to increase faster than Drew can respond, or other factors impact their ability to continue to supply our needs for these key components, our business could be adversely affected.

In addition, certain RV components are sourced from foreign locations. Port, production or other delays could cause shortages of certain RV components or sub-components. This could result in increased cost related to alternative supplies or a potential decrease in our sales and earnings if alternatives are not readily available.

Finally, as is standard in the industry, arrangements with chassis and other suppliers are generally terminable at any time by either our Company or the supplier. If we cannot obtain an adequate supply of chassis or key components, this could result in a decrease in our sales and earnings.

Our products and services may experience quality problems from time to time that can result in decreased sales and gross margin and could harm our reputation.

Our products contain thousands of parts, many of which are supplied by a network of approved vendors. As with all of our competitors, defects may occur in our products, including those purchased from our vendors. We cannot assure you that we will detect all such defects prior to distribution of our products. In addition, although we endeavor to compel our suppliers to maintain appropriate levels of insurance coverage, we cannot assure you that if a defect in a vendor supplied part were to occur that the vendor would have the ability to financially rectify the defect. Failure to detect defects in our products, including vendor supplied parts, could result in lost revenue, increased warranty and related costs and could harm our reputation.

Our business is subject to numerous international, federal, state and local regulations.

We are subject to numerous federal, state and local regulations governing the manufacture and sale of our products, including the provisions of the National Traffic and Motor Vehicle Safety Act ("NTMVSA") and the safety standards for vehicles and components which have been promulgated under the NTMVSA by the Department of Transportation. The NTMVSA authorizes the National Highway Traffic Safety Administration to require a manufacturer to recall and repair vehicles which contain certain hazards or defects. Sales into foreign countries may be subject to similar regulations. Any recalls of our vehicles, voluntary or involuntary, could have a material adverse effect on our Company.

We are also subject to federal and numerous state consumer protection and unfair trade practice laws and regulations relating to the sale, transportation and marketing of motor vehicles, including so-called "lemon laws". Federal, state and foreign laws and regulations also impose upon vehicle operators various restrictions on the weight, length and width of motor vehicles that may be operated in certain jurisdictions or on certain roadways. Certain jurisdictions also prohibit the sale of vehicles exceeding length restrictions. Federal and state authorities also have various environmental control standards relating to air, water, noise pollution and hazardous waste generation and disposal which affect our business and operations.

Further, certain U.S. and foreign laws and regulations affect the Company's activities. Areas of our business affected by such laws and regulations include, but are not limited to, labor, advertising, consumer protection, real estate, promotions, quality of services, intellectual property, tax, import and export duties, tariffs, anti-corruption, anti-competition, environmental, health and safety. Compliance with these laws and others may be onerous and costly, at times, and may be inconsistent from jurisdiction to jurisdiction which further complicates compliance efforts. Violations of these laws and regulations could lead to significant penalties, including restraints on our export or import privileges, monetary fines, criminal proceedings and regulatory or other actions that could materially adversely affect our results of operations. The Company has instituted various and comprehensive policies and procedures to ensure compliance. However, we cannot assure you that employees, contractors, vendors or our agents will not violate such laws and regulations or the Company's policies and procedures.

The Company currently benefits from certain tariffs applied to aluminum imported from China. Were such import tariffs to be lifted or allowed to lapse, the impact to our business is unknown.

As a publicly-traded company, we are subject to the regulations promulgated by the Securities and Exchange Commission and the rules of the New York Stock Exchange.

Failure to comply with any of the aforementioned laws or regulations could have an adverse impact on our business. Additionally, amendments to these regulations and the implementation of new regulations could increase the cost of manufacturing, purchasing, operating or selling our products and therefore could have an adverse impact on our business.

Interruption of information service or misappropriation or breach of our information systems could cause disruption and damage to our reputation.

Our business relies on information systems and other technology ("information systems") to support our business operations, including but not limited to procurement, supply chain, manufacturing, design, distribution, invoicing and collection of payments. We use information systems to report and audit our operational results. Additionally, we rely upon information systems in our marketing and communication efforts. Due to our reliance on our information systems, we have established various levels of security, backup and disaster recovery procedures. Our business processes and operations may, however, be negatively impacted in the event of substantial disruption of service. Further, misuse, leakage, unauthorized access or falsification of information could result in a violation of privacy laws and damage to our reputation which could, in turn, have a negative impact on our results.

We may not be able to protect our intellectual property and may be subject to infringement claims.

Our intellectual property, including our patents, trademarks, copyrights, trade secrets, and other proprietary rights constitutes a significant part of our value. Our success depends, in part, on our ability to protect our intellectual property against dilution, infringement, and competitive pressure by defending our intellectual property rights. To protect our property rights, we rely on intellectual property laws of the U.S., Canada, and other countries, as well as contractual and other legal rights. We seek to acquire rights to intellectual property necessary for our operations. However, we cannot assure you that these measures will be successful in any given instance, particularly in countries outside the U.S. We endeavor to protect our rights; however, third parties may infringe upon our intellectual property rights. We may be forced to take steps to protect our rights, including through litigation. This could result in a diversion of resources. The inability to protect our intellectual property rights could result in competitors diluting our brands or manufacturing and marketing similar products which could adversely affect our market share and results of operations. Competitors may challenge, invalidate or avoid the application of our existing or future intellectual property rights that we receive or license. The loss of protection for our intellectual property could reduce the market value of our brands and our products and services, lower our profits, and could otherwise have a material adverse effect on our business, financial condition, cash flows or results of operation.

We could incur asset impairment charges for goodwill, intangible assets or other long-lived assets.

We have a significant amount of goodwill, intangible assets and other long-lived assets. At least annually, we review goodwill for impairment. Long-lived assets, identifiable intangible assets and goodwill are also reviewed for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable from future cash flows. These events or circumstances could include a significant change in the business climate, legal factors, operating performance indicators, competition, sale or disposition of a significant portion of the business or other factors. If the carrying value of a long-lived asset is considered impaired, an impairment charge is recorded for the amount by which the carrying value of the long-lived asset exceeds its fair value. Our determination of future cash flows, future recoverability and fair value of our long-lived assets includes significant estimates and assumptions. Changes in those estimates or assumptions or lower than anticipated future financial performance may result in the identification of an impaired asset and a non-cash impairment charge, which could be material. Any such charge could adversely affect our operating results and financial condition.

Our operations are dependent upon the services of key individuals, and their loss could materially harm us.

We rely upon the knowledge, experience and skills of our employees to compete effectively in our business and manage our operations. In addition, our future success will depend on, among other factors, our ability to attract and retain executive management, key employees and other qualified personnel. Upon the departure of key employees, our success may depend upon the existence of adequate succession plans. The loss of key employees or the failure to attract or retain qualified employees could have a material adverse effect on us in the event that our succession plans prove inadequate.

Planned re-configuration, relocation or expansion of certain production operations may incur unanticipated costs or delays that could adversely affect operating results.

The development and expansion of certain products and models may require the re-configuration, relocation or expansion of certain production operations. Expansion may also involve the acquisition of existing manufacturing facilities that require upgrades and improvements or the need to build new manufacturing facilities. Such activities may be delayed or incur unanticipated costs which could have a material adverse effect on our operating results and financial condition. In addition, the start-up of operations in new facilities may incur unanticipated costs and inefficiencies which may adversely affect our profitability during the ramp up of production in those facilities.

The relative strength of the U.S. dollar may impact sales.

We have historically generated considerable sales in Canada and sales to Canadian dealers are made in U.S. dollars. The current strength of the U.S. dollar relative to the Canadian dollar has adversely impacted sales in Canada. Should the U.S. dollar remain strong or further strengthen relative to the Canadian dollar, sales will likely continue to be negatively impacted.

Business acquisitions pose integration risks.

Business acquisitions and the merger of subsidiaries within Thor, pose a number of potential integration risks that may result in us experiencing negative consequences to our business, financial condition or results of operations. The pace of transaction activity, the integration of recently acquired assets, operations and companies and the merger of subsidiaries within Thor involve a number of related risks, including, but not limited to:

- Demands on management related to various transaction and integration activities;
- The diversion of management's attention from the management of daily operations to the integration of operations;
- The assimilation and retention of employees;
- The ability of the management teams at these entities to meet operational and financial expectations;
- The integration of departments and systems, including accounting systems, technologies, books and records and procedures
- Potential loss of existing customers; and
- The establishment or maintenance of uniform standards and controls, including internal accounting controls, procedures and policies.

Commodity price fluctuations may impact operating results.

Commodity costs, including aluminum which is utilized extensively by certain of our subsidiaries, are subject to price fluctuations outside of our control. The price of aluminum is typically influenced by macroeconomic factors, global supply and demand of aluminum (including expectations for growth and contraction and the level of global inventories), and the level of activity by financial investors. In addition, the price of aluminum is influenced by the supply of and demand for metal in a particular region and associated transportation costs. Similarly, other commodity prices such as steel are also subject to price fluctuations outside of our control. Pricing changes for aluminum and steel, and the level of aluminum and steel inventory maintained by the Company, may ultimately adversely impact operating results.

Compliance with conflict mineral disclosure requirements creates additional compliance cost and may create reputational challenges.

The SEC adopted rules pursuant to Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act setting forth new disclosure requirements concerning the use or potential use of certain minerals, deemed conflict minerals (tantalum, tin, gold and tungsten), that are mined from the Democratic Republic of Congo and adjoining countries. These requirements necessitate due diligence efforts by the Company to assess whether such minerals are used in our products in order to make the relevant required annual disclosures that began in May 2014. We have incurred costs and diverted internal resources to comply with these disclosure requirements, including for diligence to determine the sources of those minerals that may be used or necessary to the production of our products. Compliance costs are expected to continue in future periods. Further action or clarification from the SEC or a court regarding required disclosures could result in reputational challenges that could impact future sales if we determine that certain of our products contain minerals not determined to be conflict free or if we are unable to sufficiently verify the origins for all conflict minerals used in our products and are required to make such disclosures.

Our risk management policies and procedures may not be fully effective in achieving their purposes.

Our policies, procedures, controls and oversight to monitor and manage our enterprise risks may not be fully effective in achieving their purpose and may leave exposure to identified or unidentified risks. Past or future misconduct by our employees or vendors could result in violations of law by us, regulatory sanctions and/or serious reputational harm or financial harm. The Company monitors its policies, procedures and controls; however, we cannot assure you that our policies, procedures and controls will be sufficient to prevent all forms of misconduct. We review our compensation policies and practices as part of our overall enterprise risk management program, but it is possible that our compensation policies could incentivize inappropriate risk taking or misconduct. If such inappropriate risks or misconduct occurs, it is possible that it could have a material adverse effect on our results of operations and/or our financial condition.

Risks Relating To Our Company

Provisions in our charter documents and Delaware law may make it difficult for a third party to acquire our Company and could depress the price of our common stock.

Our Restated Certificate of Incorporation contains certain supermajority voting provisions that could delay, defer or prevent a change in control of our Company. These provisions could also make it more difficult for shareholders to elect directors, amend our Restated Certificate of Incorporation or take other corporate actions.

We are also subject to certain provisions of the Delaware General Corporation Law that could delay, deter or prevent us from entering into an acquisition, including provisions which prohibit a Delaware corporation from engaging in a business combination with an interested shareholder unless specific conditions are met. The existence of these provisions could limit the price that investors are willing to pay in the future for shares of our common stock and may deprive investors of an opportunity to sell shares at a premium over prevailing prices.

Our stock price may fluctuate in response to various conditions, many of which are beyond our control.

The stock market, in general, experiences volatility that has often been unrelated to the underlying operating performance of companies. If this volatility continues, the trading price of our common stock could decline significantly, independent of our actual operating performance. The market price of our common stock may fluctuate significantly in response to numerous factors, many of which are beyond our control, including the following:

- Our development of new products and features or the development of new products and features by our competitors;
- Development of new collaborative arrangements by us, our competitors or other parties;
- Changes in government regulations applicable to our business;
- Changes in investor perception of our business and/or management;
- Changes in the global economic conditions or the general market conditions in our industry;
- Occurrence of major catastrophic events;
- Sale of our common stock held by certain equity investors or members of management; and
- Fluctuations in our quarterly results may, particularly if unforeseen, cause us to miss investor expectations or independent analyst estimates which might result in analysts or investors changing their opinions and/or recommendations regarding our stock.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

As of July 31, 2015, we own or lease approximately 8,829,000 square feet of manufacturing plant and office space. We believe that our present facilities, consisting primarily of steel clad, steel or wood frame and masonry construction, and the machinery and equipment contained in these facilities, are generally well maintained and in good condition. We believe that these facilities are adequate for our current and foreseeable purposes and that we would be able to obtain replacements for our leased premises at acceptable costs should our leases not be renewed.

The following table describes the location, number and size of our principal manufacturing plants and other materially important physical properties as of July 31, 2015:

Locations	Owned or Leased	No. of Buildings	Approximate Building Area Square Feet
RVs:			
Jackson Center, OH (Airstream) (A)(B)	Owned	9	417,000
Middlebury, IN (Keystone) (A)	Owned	1	91,000
Burley, ID (Keystone) (C)	Owned	5	162,000
Goshen, IN (Keystone) (A)	Owned	24	2,053,000
Nappanee, IN (Heartland) (A)	Owned	2	111,000
Elkhart, IN (Thor Motor Coach) (B)	Owned	13	711,000
Topeka, IN (CrossRoads) (A)	Owned	15	526,000
Topeka, IN (Livin' Lite) (A)	Owned	1	234,000
Syracuse, IN (CrossRoads) (A)	Owned	3	139,000
Elkhart, IN (Heartland) (A)	Owned	17	910,000
Elkhart, IN (Heartland) (A)	Leased	2	166,000
Pendleton, OR (Keystone) (A)	Owned	4	395,000
Howe, IN (Heartland) (A)	Owned	2	223,000
Lagrange, IN (Heartland) (A)	Leased	1	126,000
Shipshewana, IN (KZ) (A)	Owned	12	472,000

Corporate Subtotal		29	1,434,000
Total		148	8,829,000

(A) Included in the towable recreational vehicles reportable segment.

(B) Included in the motorized recreational vehicles reportable segment.

(C) These locations are vacant and have been placed on the market.

(D) Included in the other non-reportable segment.

ITEM 3. LEGAL PROCEEDINGS

The Company is involved in certain litigation arising out of its operations in the normal course of its business, most of which is based upon state “lemon laws”, warranty claims and vehicle accidents (for which the Company carries insurance above a specified self-insured retention or deductible amount). The outcomes of legal proceedings and claims brought against the Company are subject to significant uncertainty. There is significant judgment required in assessing both the probability of an adverse outcome and the determination as to whether an exposure can be reasonably estimated. In management’s opinion, the ultimate disposition of any current legal proceedings or claims against the Company will not have a material effect on the Company’s financial condition, operating results or cash flows. Litigation is, however, inherently uncertain and an adverse outcome from such litigation could have a material effect on the operating results of a particular reporting period.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information

The Company's Common Stock, par value \$0.10 per share (the "Common Stock"), is traded on the New York Stock Exchange ("NYSE"). Set forth below is the range of high and low market prices for the Common Stock for each quarter during the Company's two most recent fiscal years, as quoted in the NYSE Monthly Market Statistics and Trading Reports:

	Fiscal 2015		Fiscal 2014	
	High	Low	High	Low
First Quarter	\$ 54.95	\$ 49.03	\$ 59.94	\$ 49.28
Second Quarter	59.00	52.02	57.51	50.92
Third Quarter	64.65	56.39	64.71	48.24
Fourth Quarter	63.14	53.60	61.82	52.24

Holders

As of September 4, 2015, the number of holders of record of the Common Stock was 160.

Dividends

In fiscal 2015, we paid a \$0.27 per share dividend in each quarter. In fiscal 2014, we paid a \$0.23 per share dividend in each quarter and a \$1.00 special dividend in the second quarter.

The Company's Board currently intends to continue quarterly cash dividend payments in the future. The declaration of future dividends and the establishment of the per share amounts, record dates and payment dates for any such future dividends are subject to the determination of the Board, and will be dependent upon future earnings, cash flows and other factors.

There are no limitations on the Company's ability to pay dividends pursuant to any credit facility.

Issuer Purchases of Equity Securities

The following table provides information with respect to purchases of common shares during the quarter ended July 31, 2015:

Period	(a) Total Number of Shares (or Units) Purchased (1)	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
May 1 through May 31, 2015	1,000,000	\$ 60.00	—	—
June 1 through June 30, 2015	—	—	—	—
July 1 through July 31, 2015	—	—	—	—
Total	1,000,000	\$ 60.00	—	—

(1) The Company entered into a repurchase agreement, dated May 15, 2015, to purchase 1,000,000 shares of its common stock at a price of \$60.00 per share from the Thompson Family Foundation in a private transaction that did not involve a publicly announced plan or program.

There were no purchases of equity securities in the first three quarters of fiscal 2015.

Equity Compensation Plan Information – see ITEM 12

ITEM 6. SELECTED FINANCIAL DATA

	Fiscal Years Ended July 31,				
	2015	2014(1)	2013(2)(3)	2012	2011(4)(5)(6)
Income statement data:					
Net sales	\$ 4,006,819	\$ 3,525,456	\$ 3,241,795	\$ 2,639,798	\$ 2,340,442
Net income from continuing operations	202,009	175,516	151,676	111,435	91,647
Net income	199,385	179,002	152,862	121,739	106,273
Earnings per common share from continuing operations:					
Basic	3.80	3.29	2.86	2.07	1.66
Diluted	3.79	3.29	2.86	2.07	1.66
Earnings per common share:					
Basic	3.75	3.36	2.88	2.26	1.92
Diluted	3.74	3.35	2.88	2.26	1.92
Dividends paid per common share	1.08	1.92	2.22	0.60	0.40
Balance sheet data:					
Total assets	\$ 1,503,248	\$ 1,408,718	\$ 1,328,268	\$ 1,243,054	\$ 1,198,070

(1) Includes a special \$1.00 per share dividend.

(2) Includes non-cash goodwill and intangible asset impairments of \$6,810 and \$4,715, respectively, associated with a subsidiary in our discontinued bus business, and a non-cash long-lived asset impairment of \$2,000 associated with a subsidiary in our towable segment.

(3) Includes a special \$1.50 per share dividend.

(4) Includes non-cash trademark impairments of \$2,036 and \$1,430 for trademarks associated with subsidiaries in our motorized segment and discontinued bus business, respectively.

(5) Includes expenses of \$6,333 attributable to legal and professional fees in connection with the Heartland acquisition and costs associated with the resolution of an SEC matter.

(6) Includes a gain on the involuntary conversion of assets of \$9,417 related to the fiscal 2010 fire at a subsidiary in our discontinued bus business.

The footnote items noted above related to the discontinued bus business would only impact the net income and earnings per common share totals in the chart above.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Our Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") should be read in conjunction with the Company's Consolidated Financial Statements and Notes thereto included in ITEM 8 of this Report.

Our MD&A focuses on our ongoing operations. Discontinued operations are excluded from our MD&A except as indicated otherwise.

Executive Overview

We were founded in 1980 and have grown to be one of the largest manufacturers of RVs in North America. Our combined U.S. and Canadian market share in the travel trailer and fifth wheel portion of the towable segment is approximately 37.1% for the calendar year to date period ended June 30, 2015. In the motorized segment of the RV industry, we have a combined U.S. and Canadian market share of approximately 24.6% for the calendar year to date period ended June 30, 2015.

Our business model includes decentralized operating units and we compensate operating management primarily with cash, based upon the profitability of the business unit which they manage. Our corporate staff provides financial management, insurance, legal, human resource, risk management, marketing and internal audit functions. Senior corporate management interacts regularly with operating management to assure that corporate objectives are understood and are monitored appropriately.

Our RV products are sold to dealers who, in turn, retail those products. We generally do not finance dealers directly, but do provide repurchase agreements to the dealers' floor plan lenders.

Our growth has been both internal and by acquisition. Our strategy is designed to increase our profitability by driving innovation, servicing our customers, manufacturing quality products, improving the efficiencies of our facilities and by acquisitions.

We generally rely on internally generated cash flows from continuing operations to finance our growth. Capital expenditures of \$42,283 in fiscal 2015 were made primarily for land, production building additions and improvements and replacing machinery and equipment used in the ordinary course of business.

Discontinued Operations

On July 31, 2013, we entered into a definitive Stock Purchase Agreement to sell our bus business to Allied Specialty Vehicles, Inc. ("ASV") and received \$105,043 in final cash consideration from the sale. The sale closed on October 20, 2013. Thor's bus business included Champion Bus, Inc., General Coach America, Inc., Goshen Coach, Inc., El Dorado National (California), Inc., and El Dorado National (Kansas), Inc. As a result of the sale, the results of operations of the bus business are reported as income from discontinued operations, net of income taxes on the Consolidated Statements of Income and Comprehensive Income for the years ended July 31, 2015, 2014, and 2013. Discontinued operations also reflect the results of the ambulance product line, through the date of its sale on April 30, 2013. See Note 3, "Discontinued Operations", in the Notes to the Consolidated Financial Statements for further information. The following table summarizes the results of discontinued operations:

	2015	2014	2013
Net sales	\$ —	\$ 83,903	\$ 448,385
Operating income (loss) of discontinued operations	\$ (4,791)	\$ (5,735)	\$ 12,080
Pre-tax gain on disposal of discontinued business	—	7,079	—
Impairment charges	—	—	11,525
Income (loss) before income taxes	(4,791)	1,344	555
Income tax benefit	2,167	2,142	631
Income (loss) from discontinued operations, net of taxes	\$ (2,624)	\$ 3,486	\$ 1,186

Other Significant Events

On June 3, 2013, Thor Wakarusa, LLC, a wholly-owned subsidiary of Thor, purchased a recreational vehicle production campus in Wakarusa, Indiana for \$5,819. The purchase included land and production facilities, comprised of approximately one million square feet of total production space on more than 150 acres, along with certain related equipment, including more than 35 paint booths specifically designed for painting recreational vehicles. The Company uses the facilities primarily for motorized recreational vehicle production and to vertically integrate certain paint operations through one of its towable recreational vehicle subsidiaries.

On August 30, 2013, the Company acquired the assets of towable recreational vehicle manufacturer Livin' Lite Corp., located in Wakarusa, Indiana, through a wholly-owned subsidiary for final cash consideration of \$16,769, net of cash acquired. As a result of the purchase, the Company formed a new entity, Livin' Lite. The Company purchased the assets to expand its recreational vehicle market share and complement its existing brands with Livin' Lite's advanced lightweight product offerings.

On October 31, 2013, the Company acquired the assets of towable recreational vehicle manufacturer Bison Coach, LLC, located in Milford, Indiana, for final cash consideration of \$16,914. As a result of the purchase, the Company formed a new entity, Bison. The Company purchased the net assets of Bison to supplement its existing product offerings with Bison's equestrian products with living quarters.

On May 1, 2014, the Company acquired all the outstanding capital stock of towable recreational vehicle manufacturer KZ for initial cash consideration paid in fiscal 2014 of \$52,409, net of cash acquired, and a working capital adjustment of \$2,915 paid in the first quarter of fiscal 2015, resulting in total net cash consideration of \$55,324. The Company purchased KZ to expand its towable recreational vehicle market share and supplement its existing towable RV product offerings and dealer base.

On January 5, 2015, the Company closed on a Stock Purchase Agreement ("CRV/DRV SPA") for the acquisition of all the outstanding membership units of towable recreational vehicle manufacturer Cruiser RV, LLC ("CRV") and luxury fifth wheel towable recreational vehicle manufacturer DRV, LLC ("DRV") by its Heartland Recreational Vehicles, LLC subsidiary ("Heartland"). In accordance with the CRV/DRV SPA, the closing was deemed effective as of January 1, 2015. As contemplated in the CRV/DRV SPA, the Company also acquired, in a series of integrated transactions, certain real estate used in the ongoing operations of CRV and DRV. Cash consideration paid for this acquisition was \$47,523, net of cash acquired. The Company purchased CRV and DRV to expand its towable recreational vehicle market share and to supplement and expand its existing lightweight travel trailer and luxury fifth wheel product offerings and dealer base.

On May 1, 2015, the Company closed on a Membership Interest Purchase Agreement with Postle Aluminum Company, LLC for the acquisition of all the outstanding membership units of Postle Operating, LLC ("Postle") for cash consideration paid in fiscal 2015 of \$144,048, net of cash acquired. Postle is a manufacturer of aluminum extrusion and specialized component products for the RV and other markets, and will operate as an independent operation in the same manner as the Company's other subsidiaries.

On May 15, 2015, the Company entered into a repurchase agreement (the "May 15, 2015 Repurchase Agreement"), to purchase shares of its common stock from the Thompson Family Foundation (the "Foundation") in a private transaction. Pursuant to the terms of the May 15, 2015 Repurchase Agreement, the Company purchased from the Foundation 1,000,000 shares of its common stock at a price of \$60.00 per share, and held them as treasury stock, representing an aggregate purchase price of \$60,000. The closing price of Thor common stock on May 15, 2015 was \$61.29. The transaction was consummated on May 19, 2015, and the Company used available cash to purchase the shares. The number of shares repurchased by the Company represented 1.9% of the Company's issued and outstanding common stock immediately prior to the repurchase.

Industry Outlook

The Company monitors the industry conditions in the RV market through the use of monthly wholesale shipment data as reported by the RVIA, which is typically issued on a one month lag and represents the manufacturers' RV production and delivery to dealers. In addition, the Company also monitors monthly retail sales trends as reported by Statistical Surveys, Inc., whose data is typically issued on a month and a half lag. The Company believes that monthly RV retail sales data is important as consumer purchases impact future dealer orders and ultimately our production.

We believe our dealer inventory is at appropriate levels for seasonal consumer demand, with dealers remaining optimistic yet pragmatic in advance of the RV Open House in September 2015. RV dealer inventory of Thor products as of July 31, 2015 increased 5.8% to approximately 67,700 units from approximately 64,000 units as of July 31, 2014. Thor's RV backlog as of July 31, 2015 increased 6.7% to \$573,966 from \$538,074 as of July 31, 2014.

Industry Wholesale Statistics – Calendar YTD

Key wholesale statistics for the RV industry, as reported by RVIA, are as follows:

	U.S. and Canada Wholesale Unit Shipments			
	Calendar Year through June 30,		Increase	Change
	2015	2014		
Towables – Units	177,939	168,737	9,202	5.5%
Motorized – Units	24,714	23,328	1,386	5.9%
Total	202,653	192,065	10,588	5.5%

In August 2015, the RVIA forecasted that calendar year 2015 wholesale shipments for all RV categories will total 373,700 units, a 4.7% increase over calendar year 2014, with most of the 2015 unit growth expected in travel trailers and fifth wheels. Calendar year 2015 motorized unit shipments are forecasted to increase 6.8% over calendar year 2014. Travel trailers and fifth wheels are expected to account for 84% of all RV shipments in 2015. The outlook for calendar 2015 growth in RV sales is based on modestly rising consumer confidence and home values, improved credit availability, continued slow gains in job and income prospects and the impact of the current stronger U.S dollar on Canadian sales as well as other global economic risks. RVIA has also forecasted that 2016 calendar year shipments for all categories will total 383,100 units, a 2.5% increase from the expected calendar year 2015 wholesale shipments.

Industry Retail Statistics – Calendar YTD

We believe that retail demand is the key to continued growth in the RV industry. With appropriate levels of dealer inventory currently, we believe that RV industry wholesale shipments will generally be on a one-to-one replenishment ratio with retail sales going forward.

Key retail statistics for the RV industry, as reported by Statistical Surveys, Inc., are as follows:

U.S. and Canada Retail Unit Registrations				
Calendar Year through June 30,				
	2015	2014	Increase	Change
Towables – Units	170,347	153,239	17,108	11.2%
Motorized – Units	22,905	20,587	2,318	11.3%
Total	193,252	173,826	19,426	11.2%

Note: Data reported by Statistical Surveys, Inc. is based on official state records. This information is subject to adjustment and is continuously updated.

Company Wholesale Statistics – Calendar YTD

The Company's wholesale RV shipments, for the calendar year periods through June 30, 2015 and 2014, (using data to correspond to the industry periods denoted above) were as follows:

U.S. and Canada Wholesale Unit Shipments				
Calendar Year through June 30,				
	2015	2014	Increase	Change
Towables – Units	64,803	57,602	7,201	12.5%
Motorized – Units	6,084	6,033	51	0.8%
Total	70,887	63,635	7,252	11.4%

Company Retail Statistics – Calendar YTD

Retail shipments of the Company's RV products, as reported by Statistical Surveys, Inc. were as follows for the calendar year periods through June 30, 2015 and 2014 (to correspond to the industry periods denoted above, and adjusted to include results of acquisitions only from the date of acquisition forward):

U.S. and Canada Retail Unit Registrations				
Calendar Year through June 30,				
	2015	2014	Increase	Change
Towables – Units	61,021	54,249	6,772	12.5%
Motorized – Units	5,628	4,961	667	13.4%
Total	66,649	59,210	7,439	12.6%

Note: Data reported by Statistical Surveys, Inc. is based on official state records. This information is subject to adjustment and is continuously updated.

Company Wholesale Statistics – Fiscal Year

For the fiscal years ended July 31, 2015 and 2014, the Company's wholesale RV shipments were as follows:

	U.S. and Canada Wholesale Unit Shipments			
	Fiscal Year Ended July 31,		Increase	Change
	2015	2014		
Towables – Units	115,685	100,685	15,000	14.9%
Motorized – Units	10,858	10,219	639	6.3%
Total	126,543	110,904	15,639	14.1%

Our outlook for future growth in retail sales is dependent upon various economic conditions faced by consumers such as the rate of unemployment, the level of consumer confidence, the growth in disposable income, changes in interest rates, credit availability, the pace of recovery in the housing market, the impact of rising taxes and fuel prices. With continued improvement in consumer confidence, availability of retail and wholesale credit, low interest rates and the absence of negative economic factors, we would expect to see incremental improvements in RV sales and expect to benefit from our ability to increase production to meet increasing demand.

A positive future outlook for the RV segment is supported by favorable demographics, as more people reach the age brackets that historically have accounted for the bulk of retail RV sales. The number of consumers between the ages of 55 and 74 will total 78 million by 2025, 24% higher than in 2012 according to the RVIA. In addition, in recent years the industry has benefited from growing retail sales to younger consumers with new product offerings targeted to younger, more active families, as they place a higher value on family outdoor recreation than any prior generation. Based on a study from the Pew Research Center, the “Millennial” generation, defined as those currently between the ages of 18 and 33, consisted of more than 68 million people in 2014. In general, these consumers are more technologically savvy, but still value active outdoor experiences shared with family and friends, making them strong potential customers for our industry in the decades to come. Younger RV consumers are generally attracted to lower and moderately priced entry-level travel trailers, as affordability is a key driver at this stage in their lives. As the first generation of the internet age, Millennials are more comfortable gathering information online, and are therefore generally more knowledgeable about products and competitive pricing than any prior generation.

Economic or industry-wide factors affecting our RV business include the costs of commodities used in the manufacture of our products. Material cost is the primary factor determining our cost of products sold, and any future increases in raw material costs would negatively impact our profit margins if we were unable to raise prices for our products by corresponding amounts. Historically, we have been able to pass along those cost increases to customers.

We have not experienced any recent unusual cost increases or supply constraints from our chassis suppliers. The recreational vehicle industry has, from time to time, experienced shortages of chassis due to various causes such as component shortages, production delays or work stoppages at the chassis manufacturers which has impacted our sales and earnings. We believe that the current supply of chassis used in our motorized RV production is adequate for current production levels, and that available inventory would compensate for short-term changes in supply schedules if they occur.

FISCAL 2015 VS. FISCAL 2014

	Fiscal 2015		Fiscal 2014		Change Amount	%
NET SALES						
Recreational vehicles						
Towables	\$ 3,096,405		\$ 2,721,625		\$ 374,780	13.8
Motorized	870,799		803,831		66,968	8.3

CONSOLIDATED

Consolidated net sales for fiscal 2015 increased \$481,363, or 13.7%, compared to fiscal 2014. The fiscal 2015 acquisitions of CRV/DRV and Postle, coupled with the fiscal 2014 acquisition of KZ, which had twelve months of operations in fiscal 2015 as compared to three months in fiscal 2014 from the date of acquisition, accounted for \$258,885 of the \$481,363 increase. Consolidated gross profit for fiscal 2015 increased \$87,149, or 18.5%, compared to fiscal 2014. Consolidated gross profit was 13.9% of consolidated net sales for fiscal 2015 compared to 13.3% of consolidated net sales for fiscal 2014. Selling, general and administrative expenses for fiscal 2015 increased 20.2% compared to fiscal 2014. Income before income taxes for fiscal 2015 was \$292,895 as compared to \$252,819 in fiscal 2014, an increase of 15.9%. The specifics on the changes in net sales, gross profit, selling, general and administrative expenses and income before income taxes are addressed in the segment reporting below.

Corporate costs included in selling, general and administrative expenses increased \$7,260 to \$35,647 for fiscal 2015 compared to \$28,387 for fiscal 2014. The increase is partially attributable to a net increase of \$1,670 related to the changes in the portion of our actuarially determined workers' compensation and product liability reserves recorded at the corporate level. This increase is partially due to the prior year period including a non-recurring favorable adjustment. Stock-based compensation also increased by \$2,025, as fiscal 2015 expense included the equivalent of a full year of vested stock awards as compared to two-thirds of a year in fiscal 2014 as most stock awards vest ratably over three years. Bonuses also increased by \$1,407 in correlation with the increase in income from continuing operations before income taxes. In addition, legal and professional fees also increased \$1,900, partly attributable to initial costs incurred related to the development of long-term strategic growth initiatives and for management retention and succession training seminars.

Corporate interest income and other income and expense was \$1,834 of income for fiscal 2015 compared to \$2,806 of income for fiscal 2014. The \$972 decrease in income is due partly to a decrease in overall interest income of \$351, primarily due to reduced interest income on notes receivable as a result of lower note balances. In addition, the market value appreciation on the Company's deferred compensation plan assets was \$724 in the current year as compared to appreciation of \$1,028 in the prior year, a decrease of \$304.

The overall annual effective tax rate for fiscal 2015 was 31.0% on \$292,895 of income before income taxes, compared to 30.6% on \$252,819 of income before income taxes for fiscal 2014. The primary reason for the increase in the overall effective income tax rate was the larger amount of uncertain tax positions that settled favorably in fiscal 2014 compared to fiscal 2015, partially offset by a tax benefit in fiscal 2015 from the retroactive reinstatement of the federal research and development credit and other credits that were enacted on December 19, 2014.

The changes in costs and price within our business due to inflation were not significantly different from inflation in the United States economy as a whole. Levels of capital investment, pricing and inventory investment in our business were not materially affected by changes caused by inflation.

IMPACT OF CHANGE IN MIX AND PRICE ON NET SALES:	
Towables	
Travel Trailers	(2.9)
Fifth Wheels	6.0
Other	(28.7)
Total Towables	(1.1)

The increase in total towable net sales of 13.8% compared to the prior fiscal year resulted from a 14.9% increase in unit shipments and a 1.1% overall decrease in the impact of the change in the overall net price per unit and product mix. The fiscal 2015 acquisition of CRV/DRV, coupled with the fiscal 2014 acquisition of KZ, which had twelve months of operations in fiscal 2015 as compared to three months in fiscal 2014, accounted for \$219,270 of the \$374,780 increase in towables net sales and for 9,483 of the 15,000 increase in total towable unit sales.

The overall industry increase in combined travel trailer and fifth wheel wholesale unit shipments for the twelve month period ended July 31, 2015 was 8.4% compared to the same period last year according to statistics published by RVIA.

The decrease in the overall net price per unit within the travel trailer product lines of 2.9% is primarily due to mix, as sales in fiscal 2015 include a higher concentration of entry-level to mid-level product lines as compared to fiscal 2014, which is partially attributable to recent acquisitions. The increase in the overall net price per unit within the fifth wheel product lines of 6.0% is primarily due to changes in product mix, which is partly attributable to recent acquisitions, and net price increases. In fiscal 2015, the "Other" category consisted solely of truck and folding campers and other specialty towable recreational vehicles, which carry a significantly lower selling price than the park models which were produced in fiscal 2014 and included in Other.

Cost of products sold increased \$307,434 to \$2,653,896, or 85.7% of towable net sales, for fiscal 2015 compared to \$2,346,462, or 86.2% of towable net sales, for fiscal 2014. The change in material, labor, freight-out and warranty comprised \$283,228 of the \$307,434 increase in cost of products sold and was due to increased sales volume. Material, labor, freight-out and warranty as a combined percentage of towable net sales decreased to 79.8% in fiscal 2015 from 80.4% in fiscal 2014. This 0.6% decrease as a percentage of towable net sales is primarily due to the favorable impact of net price increases in fiscal 2015 and a reduction in the material cost percentage to sales due in part to the retroactive reinstatement of tariff rebates on certain imported raw material products during the fourth quarter of fiscal 2015. Total manufacturing overhead increased \$24,206 to \$182,244 in fiscal 2015 compared to \$158,038 in fiscal 2014 primarily as a result of the increase in sales volume.

Variable costs in manufacturing overhead increased \$22,686 to \$169,126 or 5.5% of towable net sales for fiscal 2015 compared to \$146,440 or 5.4% of towable net sales for fiscal 2014. This increase as a percentage of towable net sales is primarily due to employee medical benefits and workers' compensation costs. Fixed costs in manufacturing overhead, which consists primarily of facility costs, property taxes and depreciation, increased \$1,520 to \$13,118 in fiscal 2015 from \$11,598 in fiscal 2014 primarily due to facility expansions.

Towable gross profit increased \$67,346 to \$442,509, or 14.3% of towable net sales, for fiscal 2015 compared to \$375,163, or 13.8% of towable net sales, for fiscal 2014. The increase in gross profit and gross profit percentage was due primarily to the 13.8% increase in towable net sales and the decrease in the cost of products sold percentage noted above.

Selling, general and administrative expenses were \$168,379, or 5.4% of towable net sales, for fiscal 2015 compared to \$142,346, or 5.2% of towable net sales, for fiscal 2014. The primary reason for the \$26,033 increase in selling, general and administrative expenses was increased towable net sales and towable income before income taxes, which caused related commissions, bonuses and other compensation to increase by \$16,226. Sales related travel, advertising and promotion costs also increased \$3,258 in correlation with the increase in sales. These two cost categories were also the primary reason for the increase in selling, general and administrative expense as a percentage of towable net sales. In addition, legal and professional fees and related settlement costs increased \$2,321, self-insured employee medical costs increased \$1,255 and vehicle repurchase costs increased \$672.

Towable income before income taxes increased to 8.4% of towable net sales for fiscal 2015 from 8.1% of towable net sales for fiscal 2014. The primary factors for this increase in percentage were the impact of the 13.8% increase in towable net sales as well as the net price increases and the improvement in the cost of products sold percentage noted above, partially offset by the increased percentage of selling, general and administrative expenses discussed above.

	% Increase (Decrease)
IMPACT OF CHANGE IN MIX AND PRICE ON NET SALES:	
Motorized	
Class A	(1.6)
Class C	2.6
Class B	2.8
Total Motorized	2.0

The increase in total motorized net sales of 8.3% compared to the prior fiscal year resulted from a 6.3% increase in unit shipments and a 2.0% overall increase in the impact of the change in the net price per unit resulting primarily from mix of product.

The overall market increase in unit shipments of motorhomes was 6.5% for the twelve month period ended July 31, 2015 compared to the same period last year according to statistics published by RVIA.

The decrease in the overall net price per unit within the Class A product line of 1.6% is primarily due to a shift in the concentration of sales from the generally larger and more expensive diesel units to the more moderately priced gas units compared to a year ago. Increasing sales of a newer line of innovative product offerings of smaller, more moderately priced units that still offer many of the same amenities as larger models also contributed to the decrease. The modest increases in the overall net price per unit within both the Class C and Class B product line of 2.6% and 2.8%, respectively, are primarily due to changes in product mix and net price increases.

Cost of products sold increased \$50,576 to \$759,174, or 87.2% of motorized net sales, for fiscal 2015 compared to \$708,598, or 88.2% of motorized net sales, for fiscal 2014. The change in material, labor, freight-out and warranty comprised \$47,304 of the \$50,576 increase in cost of products sold and was due to increased sales volume. Material, labor, freight-out and warranty as a combined percentage of motorized net sales decreased to 82.7% in fiscal 2015 from 83.7% in fiscal 2014. The decrease in percentage is due to the favorable impact of product mix changes and a reduction in the material cost percentage to sales due in part to the retroactive reinstatement of tariff rebates on certain imported raw material products during the fourth quarter of fiscal 2015. Labor and warranty cost percentages also decreased as the combination of assimilating an increasing labor force while expanding production lines and product offerings a year ago led to increased labor and warranty costs in the prior year. Total manufacturing overhead costs increased \$3,272 to \$38,759 in fiscal 2015 compared to \$35,487 in fiscal 2014 primarily as a result of the increase in sales volume.

Variable costs in manufacturing overhead increased \$2,515 to \$35,060, or 4.0% of motorized net sales, for fiscal 2015 compared to \$32,545, or 4.0% of motorized net sales, for fiscal 2014 as a result of the increase in net sales. Fixed costs in manufacturing overhead, which consists primarily of facility costs, property taxes and depreciation, increased \$757 to \$3,699 in fiscal 2015 from \$2,942 in fiscal 2014, reflecting additional costs due to facility expansions.

Motorized gross profit increased \$16,392 to \$111,625, or 12.8% of motorized net sales, for fiscal 2015 compared to \$95,233, or 11.8% of motorized net sales, for fiscal 2014. The increase in the gross profit amount and gross profit percentage is attributable to the 8.3% increase in net sales and the decrease in the cost of products sold percentage noted above.

Selling, general and administrative expenses were \$44,859, or 5.2% of motorized net sales, for fiscal 2015 compared to \$37,979, or 4.7% of motorized net sales, for fiscal 2014. The primary reason for the \$6,880 increase, and the increase as a percentage of motorized net sales, was increased motorized net sales and motorized income before income taxes, which caused related commissions, bonuses and other compensation to increase by \$5,219. Sales related travel, advertising and promotion costs also increased \$713 in correlation with the increase in sales. In addition, legal and professional fees and related settlement costs increased \$982.

Motorized income before income taxes was 7.7% of motorized net sales for fiscal 2015 and 7.1% of motorized net sales for fiscal 2014. This increase in percentage is primarily attributable to the increase in gross profit percentage noted above, partially offset by the increase in selling, general and administrative expenses as a percentage of motorized net sales noted above.

CONSOLIDATED

Consolidated net sales for fiscal 2014 increased \$283,661, or 8.8%, compared to fiscal 2013. Consolidated gross profit for fiscal 2014 increased \$45,857, or 10.8%, compared to fiscal 2013. Consolidated gross profit was 13.3% of consolidated net sales for fiscal 2014 compared to 13.1% of consolidated net sales for fiscal 2013. Selling, general and administrative expenses for fiscal 2014 increased 7.2% compared to fiscal 2013. Income before income taxes for fiscal 2014 was \$252,819 as compared to \$221,972 in fiscal 2013, an increase of 13.9%. The specifics on the changes in net sales, gross profit, selling, general and administrative expenses and income before income taxes are addressed in the segment reporting below.

Corporate costs in selling, general and administrative expenses were \$28,387 for fiscal 2014 compared to \$31,711 for fiscal 2013. The decrease of \$3,324 is primarily attributable to a decrease of \$3,082 in the portion of the actuarially determined workers' compensation liability reserve recorded at Corporate. In addition, legal and professional fees decreased \$1,911. Costs related to our Corporate repurchase reserve required for vehicle repurchase commitments also decreased \$730, as repurchase activity has been lower compared to the prior year. The expenses for fiscal 2013 also included a total of \$1,106 in one-time employee compensation and stock-based separation costs. These decreases from 2013 were partially offset by an increase in stock-based compensation of \$2,398 and an increase of \$939 in bonuses and other compensation costs in 2014 in correlation with the increase in income from continuing operations before income taxes.

Corporate interest income and other income and expense was \$2,806 of income in fiscal 2014 compared to \$4,052 of income for fiscal 2013. The \$1,246 decrease in income is primarily due to a decrease in overall interest income of \$1,079, primarily due to reduced interest income on our notes receivable due to lower note balances.

The overall annual effective tax rate for fiscal 2014 was 30.6% on \$252,819 of income before income taxes, compared to 31.7% on \$221,972 of income before income taxes for fiscal 2013. The primary reason for the decrease in the overall effective income tax rate was the larger amount of uncertain tax benefits that settled favorably in fiscal 2014 compared to fiscal 2013, partially offset by a tax benefit in fiscal 2013 from the retroactive reinstatement of the federal research and development credit and other credits that were enacted on January 2, 2013.

The changes in costs and price within our business due to inflation were not significantly different from inflation in the United States economy as a whole. Levels of capital investment, pricing and inventory investment in our business were not materially affected by changes caused by inflation.

		% Increase (Decrease)
IMPACT OF CHANGE IN MIX AND PRICE ON NET SALES:		
Towables		
Travel Trailers		2.9
Fifth Wheels		1.8
Other		(93.0)
Total Towables		1.2

The increase in total towable net sales of 2.7% compared to the prior fiscal year resulted from a 1.5% increase in unit shipments and a 1.2% overall increase in the impact of the change in the overall net price per unit and product mix.

The overall industry increase in travel trailer and fifth wheel wholesale unit shipments for the twelve month period ended July 31, 2014 was 9.1% compared to the same period last year according to statistics published by RVIA.

The increases in the overall net price per unit within the travel trailer product lines of 2.9% and within the fifth wheel product lines of 1.8% are primarily due to changes in product mix and net price increases. The "other" category formerly related solely to park model sales but now also includes truck and folding campers and other specialty towable recreational vehicles due to the additions of Livin' Lite and Bison, which carry a significantly lower selling price than park models and now comprise the majority of the unit sales in this category.

Cost of products sold increased \$47,485 to \$2,346,462, or 86.2% of towable net sales, for fiscal 2014 compared to \$2,298,977, or 86.7% of towable net sales, for fiscal 2013. The change in material, labor, freight-out and warranty comprised \$36,112 of the \$47,485 increase in cost of products sold and was due to increased sales volume. Material, labor, freight-out and warranty as a combined percentage of towable net sales decreased to 80.4% in fiscal 2014 from 81.2% in fiscal 2013. This 0.8% decrease as a percentage of towable net sales is primarily due to the favorable impact of net price increases in fiscal 2014, partially offset by increased labor costs associated with the current competitive labor market. Total manufacturing overhead increased \$11,373 to \$158,038 in fiscal 2014 compared to \$146,665 in fiscal 2013 primarily as a result of the increase in sales volume.

Variable costs in manufacturing overhead increased \$10,189 to \$146,440 or 5.4% of towable net sales for fiscal 2014 compared to \$136,251 or 5.1% of towable net sales for fiscal 2013. This increase as a percentage of towable net sales is due to increased indirect labor costs resulting from facility expansions and the competitive labor market, as well as additional utility and building maintenance costs due to the unusually severe and protracted winter in fiscal 2014 as compared to fiscal 2013. Fixed costs in manufacturing overhead, which consists primarily of facility costs, property taxes and depreciation, increased \$1,184 to \$11,598 in fiscal 2014 from \$10,414 in fiscal 2013 primarily due to facility expansions.

Towable gross profit increased \$23,887 to \$375,163, or 13.8% of towable net sales, for fiscal 2014 compared to \$351,276, or 13.3% of towable net sales, for fiscal 2013. The increase in gross profit and gross profit percentage was due primarily to the 2.7% increase in towable net sales and net price increases.

Selling, general and administrative expenses were \$142,346, or 5.2% of towable net sales, for fiscal 2014 compared to \$133,585, or 5.0% of towable net sales, for fiscal 2013. The primary reason for the \$8,761 increase in selling, general and administrative expenses was increased towable net sales and towable income before income taxes, which caused related commissions, bonuses and other compensation to increase by \$7,433. Sales related travel, advertising and promotion costs also increased \$1,218 in correlation with the increase in sales. Legal and professional fees and related settlement costs increased \$1,182 in total. These increases were partially offset by a reduction of \$613 in vehicle repurchase costs.

Towable income before income taxes increased to 8.1% of towable net sales for fiscal 2014 from 7.8% of towable net sales for fiscal 2013. The primary factor for this increase in percentage was the impact of the 2.7% increase in towable net sales as well as changes in product mix and net price increases noted above.

Motorized Recreational Vehicles

Analysis of Change in Net Sales for Fiscal 2014 vs. Fiscal 2013

	<u>Fiscal 2014</u>	<u>% of Segment Net Sales</u>	<u>Fiscal 2013</u>	<u>% of Segment Net Sales</u>	<u>Change Amount</u>	<u>% Change</u>
NET SALES:						
Motorized						
Class A	\$ 458,201	57.0	\$ 355,639	60.1	\$ 102,562	28.8
Class C	275,190	34.2	188,261	31.8	86,929	46.2
Class B	70,440	8.8	47,642	8.1	22,798	47.9
Total Motorized	<u>\$ 803,831</u>	<u>100.0</u>	<u>\$ 591,542</u>	<u>100.0</u>	<u>\$ 212,289</u>	<u>35.9</u>

	<u>Fiscal 2014</u>	<u>% of Segment Net Sales</u>	<u>Fiscal 2013</u>	<u>% of Segment Net Sales</u>	<u>Change Amount</u>	<u>% Change</u>
# OF UNITS:						
Motorized						
Class A	4,975	48.7	3,559	48.0	1,416	39.8
Class C	4,629	45.3	3,414	46.0	1,215	35.6
Class B	615	6.0	447	6.0	168	37.6
Total Motorized	<u>10,219</u>	<u>100.0</u>	<u>7,420</u>	<u>100.0</u>	<u>2,799</u>	<u>37.7</u>

	<u>% Increase (Decrease)</u>
IMPACT OF CHANGE IN MIX AND PRICE ON NET SALES:	
Motorized	
Class A	(11.0)
Class C	10.6
Class B	10.3
Total Motorized	<u>(1.8)</u>

The increase in total motorized net sales of 35.9% compared to the prior fiscal year resulted from a 37.7% increase in unit shipments and a 1.8% overall decrease in the impact of the change in the net price per unit resulting primarily from mix of product.

The overall market increase in unit shipments of motorhomes was 25.2% for the twelve month period ended July 31, 2014 compared to the same period last year according to statistics published by RVIA.

The decrease in the overall net price per unit within the Class A product line of 11.0% is primarily due to a shift in the concentration of sales from the generally larger and more expensive diesel units to the more moderately priced gas units compared to a year ago. Increasing sales of a new line of innovative product offerings of smaller, more moderately priced units that still offer many of the same amenities as larger models also contributed to the decrease. The increase in the overall net price per unit within the Class C product line of 10.6% is primarily due to changes in product mix and net price increases. Within the Class B product line, the increase in the overall net price per unit of 10.3% is primarily due to a greater concentration of sales of higher priced models in the current year.

Cost of products sold increased \$190,319 to \$708,598, or 88.2% of motorized net sales, for fiscal 2014 compared to \$518,279, or 87.6% of motorized net sales, for fiscal 2013. The change in material, labor, freight-out and warranty comprised \$178,200 of the \$190,319 increase in cost of products sold and was due to increased sales volume. Material, labor, freight-out and warranty as a combined percentage of motorized net sales was 83.7% for both fiscal 2014 and fiscal 2013. This percentage remained the same as the favorable impact of product mix changes and selective net price increases in fiscal 2014 was offset by increased labor costs due to the current competitive labor market and labor start-up costs related to facility and production line expansions necessitated by increasing sales and backlog. Total manufacturing overhead costs increased \$12,119 to \$35,487 in fiscal 2014 compared to \$23,368 in fiscal 2013 primarily as a result of the increase in sales volume.

Variable costs in manufacturing overhead increased \$10,837 to \$32,545, or 4.0% of motorized net sales, for fiscal 2014 compared to \$21,708, or 3.7% of motorized net sales, for fiscal 2013. This increase as a percentage of motorized net sales is due to increased indirect labor and employee benefit costs resulting from increased production and the competitive labor market, as well as additional utility and building maintenance costs due to the unusually severe and protracted winter weather in fiscal 2014 compared to fiscal 2013. Fixed costs in manufacturing overhead, which consists primarily of facility costs, property taxes and depreciation, increased \$1,282 to \$2,942 in fiscal 2014 from \$1,660 in fiscal 2013, reflecting additional costs due to facility expansions.

Motorized gross profit increased \$21,970 to \$95,233, or 11.8% of motorized net sales, for fiscal 2014 compared to \$73,263, or 12.4% of motorized net sales, for fiscal 2013. The increase in the gross profit amount is attributable to the 35.9% increase in net sales, while the decrease in gross profit percentage is primarily due to the increased indirect labor and facility related costs discussed in the cost of products section above.

Selling, general and administrative expenses were \$37,979, or 4.7% of motorized net sales, for fiscal 2014 compared to \$29,354, or 5.0% of motorized net sales, for fiscal 2013. The primary reason for the \$8,625 increase was increased motorized net sales and motorized income before income taxes, which caused related commissions, bonuses and other compensation to increase by \$6,925. Sales related travel, advertising and promotion costs also increased \$990 in correlation with the increase in sales.

Motorized income before income taxes was 7.1% of motorized net sales for fiscal 2014 and 7.4% of motorized net sales for fiscal 2013. This decrease in percentage is primarily attributable to the decrease in gross profit percentage noted above.

Financial Condition and Liquidity

As of July 31, 2015, we had cash and cash equivalents of \$183,478 compared to \$289,336 on July 31, 2014. The components of the \$105,858 decrease in fiscal 2015 are described in more detail below, but the decrease is primarily due to \$247,860 of cash provided by operations being more than offset by cash uses of \$194,486 for towable recreational vehicle and other business acquisitions, \$42,283 for capital expenditures, \$57,381 for cash dividends to our stockholders and \$60,000 for the purchase of treasury stock.

Working capital at July 31, 2015 was \$397,506 compared to \$473,334 at July 31, 2014. Capital expenditures of \$42,283 for the fiscal year ended July 31, 2015 were made primarily to purchase land and production buildings to expand our RV operations and to replace machinery and equipment used in the ordinary course of business.

We believe our on hand cash and cash equivalents, and funds generated from continuing operations, will be sufficient to fund expected future operational requirements. We have relied on internally generated cash flows from operations to finance substantially all our growth. We may, however, consider debt to make an acquisition.

Our three main priorities for the use of current and future available cash include supporting and growing our core RV business, both organically and through acquisitions, maintaining and growing our regular dividends over time, and strategic share repurchases or special dividends as determined by the Company's Board.

In regard to supporting and growing our business, we anticipate capital expenditures in fiscal 2016 of approximately \$50,000, primarily for the continued expansion of our recreational vehicle facilities and replacing and upgrading machinery, equipment and other assets to be used in the ordinary course of business. We may also consider additional strategic growth acquisitions that complement or expand our ongoing operations.

Relative to regular dividends, the Company's Board currently intends to continue quarterly cash dividend payments in the future. The declaration of future dividends and the establishment of the per share amounts, record dates and payment dates for any such future dividends are subject to the determination of the Board, and will be dependent upon future earnings, cash flows and other factors. There are no limitations on the Company's ability to pay dividends pursuant to any credit facility.

Future purchases of the Company's common stock or special cash dividends may occur based upon market and business conditions and excess cash availability, subject to applicable legal limitations and determination by the Board.

Operating Activities

Net cash provided by operating activities for fiscal 2015 was \$247,860 as compared to net cash provided by operating activities of \$149,261 for fiscal 2014 and cash provided of \$145,066 for fiscal 2013. For fiscal 2015, net income adjusted for non-cash items (primarily depreciation, amortization of intangibles, deferred income tax benefit and stock-based compensation) resulted in \$230,024 of operating cash. Changes in working capital provided \$17,836 of operating cash during fiscal 2015, primarily due to a decrease in accounts receivable, which was largely attributable to the timing of shipments and quicker collections on accounts receivable at the fiscal year end compared to the prior year. The increase in cash generated from accounts receivable was partially offset by a reduction in accounts payable resulting from the timing of payments and reduced inventory purchases at fiscal year end as compared to the prior year.

For fiscal 2014, net income adjusted for non-cash items resulted in \$198,664 of operating cash. Changes in working capital used \$49,403 during that period, primarily due to increases in accounts receivable and inventory correlating with the increase in sales and backlog during the period.

For fiscal 2013, net income adjusted for non-cash items resulted in \$183,499 of operating cash. Changes in working capital used \$38,433 during that period, primarily due to increases in accounts receivable and inventory correlating with the increase in sales and backlog during the period.

Investing Activities

Net cash used in investing activities for fiscal 2015 was \$234,968, primarily due to \$144,048 and \$47,523 of net cash consideration paid for the acquisitions of Postle and CRV/DRV, respectively, a final purchase price adjustment payment of \$2,915 related to the fiscal 2014 acquisition of the KZ towable recreational vehicle business and capital expenditures of \$42,283. The capital expenditures of \$42,283 included approximately \$37,000 for land and production building additions and improvements, as well as software system enhancements, with the remainder primarily to replace machinery and equipment used in the ordinary course of business.

Net cash provided by investing activities for fiscal 2014 was \$2,928, primarily due to \$105,043 in cash consideration received from the sale of the bus business, \$8,699 in proceeds from the disposition of property, plant and equipment and \$6,425 in proceeds received on notes receivable, mostly offset by \$16,769, \$16,914 and \$52,409 of net cash consideration paid for the towable recreational vehicle acquisitions of the assets of Livin' Lite and Bison and the stock of KZ, respectively, and capital expenditures of \$30,406. The capital expenditures of \$30,406 included approximately \$24,700 for land, building and office additions and software system enhancements, with the remainder primarily to replace machinery and equipment used in the ordinary course of business.

Net cash used in investing activities for fiscal 2013 was \$13,996, primarily for capital expenditures of \$24,305 and \$10,718 for the acquisitions of the discontinued Krystal and Federal Coach bus businesses, partially offset by proceeds from notes receivable of \$7,000 and \$12,051 in net proceeds from the disposition of the ambulance product line within our discontinued bus operations. The capital expenditures of \$24,305 included approximately \$18,700 for land, building and office additions and improvements with the remainder primarily to replace machinery and equipment used in the ordinary course of business.

Financing Activities

Net cash used in financing activities of \$118,750 for fiscal 2015 was primarily related to the repurchase of a total of 1,000,000 shares of common stock of the Company for \$60,000 and for cash dividend payments of \$57,381. The Company repurchased the shares at a discount to the then current market price and did not incur brokerage fees. The Company considered the repurchases of shares to be a good use of its cash and does not believe future liquidity will be negatively impacted. See Note 16 to our Consolidated Financial Statements contained elsewhere in this report for a description of the share repurchase transaction. The Company paid a regular quarterly \$0.27 per share dividend in each of the four quarters of fiscal 2015 which totaled \$57,381. The Company increased its previous regular quarterly dividend of \$0.23 per share to \$0.27 per share in October 2014. The Company increased its previous regular quarterly dividend of \$0.18 per share to \$0.23 per share in October 2013.

Net cash used in financing activities of \$99,454 for fiscal 2014 was primarily for cash dividend payments of \$102,314, which included a regular quarterly \$0.23 per share dividend for each of the four quarters of fiscal 2014 and a special \$1.00 per share dividend in November 2013.

Net cash used in financing activities of \$113,111 for fiscal 2013 was primarily for cash dividend payments of \$117,687, which included a regular quarterly \$0.18 per share dividend for each of the four quarters of fiscal 2013 and a special \$1.50 per share dividend in December 2012.

The Company considered the special \$1.00 per share dividend in fiscal 2014 and the special \$1.50 per share dividend in fiscal 2013 to be prudent uses of its cash and does not believe future liquidity will be negatively impacted.

Critical Accounting Principles

Our Consolidated Financial Statements are prepared in conformity with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the use of estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the periods presented. We believe that of our accounting policies, the following may involve a higher degree of judgment, estimates and complexity.

Impairment of Goodwill, Intangible and Long-Lived Assets

Goodwill is not amortized but is tested for impairment annually and whenever events or changes in circumstances indicate that an impairment may have occurred. We utilize a two-step quantitative assessment to test for impairment. The first step involves a comparison of the fair value of a reporting unit with its carrying value. If the carrying value of the reporting unit exceeds its fair value, the second step of the process involves a comparison of the implied fair value and carrying value of the goodwill of that reporting unit. If the carrying value of the goodwill of a reporting unit exceeds the implied fair value of that goodwill, an impairment loss is recognized in an amount equal to the excess.

We review our long-lived assets (individually or in a related group as appropriate) for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable from future cash flows attributable to the assets. Additionally, we review our goodwill for impairment at least annually on April 30 of each year. Accordingly, we continually assess whether events or changes in circumstances represent a 'triggering' event that would require us to complete an impairment assessment. Factors that we consider in determining whether a triggering event has occurred include, among other things, whether there has been a significant adverse change in legal factors, business climate or competition related to the operation of the asset, whether there has been a significant decrease in actual or expected operating results related to the asset and whether there are current plans to sell or dispose of the asset. The determination of whether a triggering event has occurred is subject to significant management judgment, including at which point or fiscal quarter a triggering event has occurred when the relevant adverse factors persist over extended periods.

Should a triggering event be deemed to occur, and for each of the annual goodwill impairment assessments, management is required to estimate the expected net cash flows to be realized over the life of the asset and/or the asset's fair value. Fair values are generally determined by a discounted cash flow model. These estimates are also subject to significant management judgment including the determination of many factors such as sales growth rates, gross margin patterns, cost growth rates, terminal value assumptions and discount rates. Changes in these estimates can have a significant impact on the determination of cash flows and fair value and could potentially result in future material impairments. Management engages an independent valuation firm to assist in certain of its impairment assessments.

See Note 3 and Note 6 to the Consolidated Financial Statements for discussion of certain goodwill, intangible and long-lived asset impairment charges.

As of July 31, 2015, the Company has seven continuing individual reporting units that carry goodwill. One reporting unit carries 39% of our consolidated goodwill of \$312,622 and a second reporting unit carries another 34% of our consolidated goodwill. For these two reporting units, our estimate of their fair values exceeded their respective carrying values by 376% and 111%, respectively, as of our April 30, 2015 assessment.

Insurance Reserves

Generally, we are self-insured for workers' compensation, products liability and group medical insurance. Under these plans, liabilities are recognized for claims incurred, including an estimate for those incurred but not reported. The liability for workers' compensation claims is determined by the Company with the assistance of a third party administrator and actuary using various state statutes and historical claims experience. Group medical reserves are estimated using historical claims experience. We have a self-insured retention ("SIR") for products liability and personal injury matters ranging from \$500 to \$7,500 depending on the product type and when the occurrence took place. Generally, any occurrence (as defined by our insurance policies) after March 31, 2015 is subject to the \$500 SIR, while matters occurring after March 31, 2014 and through March 31, 2015 are subject to a \$1,000 SIR. We have established a liability on our balance sheet for such occurrences based on historical data, known cases and actuarial information. Amounts above the SIR, up to a certain dollar amount, are covered by our excess insurance policy. Currently, we maintain excess liability insurance aggregating \$50,000 with outside insurance carriers to minimize our risks related to catastrophic claims in excess of our self-insured positions for products liability and personal injury matters. Any material change in the aforementioned factors could have an adverse impact on our operating results.

Product Warranty

We generally provide retail customers of our products with a one-year warranty covering defects in material or workmanship, with longer warranties on certain structural components. We record a liability based on our best estimate of the amounts necessary to settle future and existing claims on products sold as of the balance sheet date. Factors we use in estimating the warranty liability include a history of units sold, existing dealer inventory, average cost incurred and a profile of the distribution of warranty expenditures over the warranty period. A significant increase in dealer shop rates, the cost of parts or the frequency of claims could have a material adverse impact on our operating results for the period or periods in which such additional claims or costs materialize. Management believes that the warranty liability is adequate; however, actual claims incurred could differ from estimates, requiring adjustments to the reserves. Warranty liabilities are reviewed and adjusted as necessary on at least a quarterly basis.

Income Taxes

The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in our financial statements or tax returns. Judgment is required in assessing the future tax consequences of events that have been recognized in our financial statements or tax returns. Fluctuations in the actual outcome of these tax consequences could materially impact our financial position or results of operations.

We recognize liabilities for uncertain tax positions based on a two-step process. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more likely than not that the position will be sustained on audit, including resolution of related appeals or litigation processes, if any. The second step requires us to estimate and measure the tax benefit as the largest amount that is more than 50% likely to be realized upon ultimate settlement. It is inherently difficult and subjective to estimate such amounts, as we have to determine the probability of various possible outcomes. We reevaluate these uncertain tax positions on a quarterly basis. This evaluation is based on factors including, but not limited to, changes in facts or circumstances, changes in tax law, effectively settled issues under audit, voluntary settlements and new audit activity. Such a change in recognition or measurement would result in the recognition of a tax benefit or an additional charge to the tax provision.

Significant judgment is required in determining our provision for income taxes, our deferred tax assets and liabilities and the valuation allowance recorded against our deferred tax assets, if any. Valuation allowances must be considered due to the uncertainty of realizing deferred tax assets. Companies must assess whether valuation allowances should be established against their deferred tax assets on a tax jurisdictional basis based on the consideration of all available evidence, using a more likely than not standard. We have evaluated the realizability of our deferred tax assets on our Consolidated Balance Sheets which includes the assessment of the cumulative income over recent prior periods.

Revenue Recognition

Revenues from the sale of recreational vehicles are recorded primarily when all of the following conditions have been met:

- 1) An order for a product has been received from a dealer;
- 2) Written or oral approval for payment has been received from the dealer's flooring institution, if applicable;
- 3) A common carrier signs the delivery ticket accepting responsibility for the product as agent for the dealer; and
- 4) The product is removed from our property for delivery to the dealer who placed the order.

These conditions are generally met when title passes, which is when vehicles are shipped to dealers in accordance with shipping terms, which are primarily FOB shipping point. Most sales are made to dealers financing their purchases under flooring arrangements with banks or finance companies. Certain shipments are sold to customers on credit or cash on delivery ("COD") terms. We recognize revenue on credit sales upon shipment and COD sales upon payment and delivery.

Products are not sold on consignment, dealers do not have the right to return products and dealers are typically responsible for interest costs to floor plan lenders.

Revenues from the sale of extruded aluminum components are recognized when title to products and the risk of loss are transferred to the customer, which is generally upon shipment. Intercompany sales are eliminated upon consolidation.

Repurchase Commitments

We are contingently liable under terms of repurchase agreements with financial institutions providing inventory financing for certain dealers of certain of our RV products. These arrangements, which are customary in the RV industry, provide for the repurchase of products sold to dealers in the event of default by the dealer. In addition to the guarantee under these repurchase agreements, we may also be required to repurchase RV inventory relative to dealer terminations in certain states in accordance with state laws or regulatory requirements. The repurchase price is generally determined by the original sales price of the product and pre-defined curtailment arrangements and we typically resell the repurchased product at a discount from its repurchase price. We account for the guarantee under our repurchase agreements with our dealers' financing institutions by estimating and deferring a portion of the related product sale that represents the estimated fair value of the repurchase obligation. The estimated fair value takes into account our estimate of the loss we will incur upon resale of any repurchases. This estimate is based on recent historical experience supplemented by management's assessment of current economic and other conditions affecting our dealers. This deferred amount is included in our repurchase and guarantee reserve.

Our risk of loss under these repurchase agreements is reduced because (a) we sell our products to a large number of dealers under these arrangements, (b) the repurchase price we are obligated to pay declines over the period of the agreements (generally up to eighteen months) while the value of the related product may not decline ratably and (c) we have historically been able to readily resell any repurchased product. We believe that any future losses under these agreements will not have a significant effect on our consolidated financial position or results of operations.

Principal Contractual Obligations and Commercial Commitments

Our principal contractual obligations and commercial commitments at July 31, 2015 are summarized in the following charts. We have no other material off balance sheet commitments:

Contractual Obligations	Payments Due By Period				
	Total	Fiscal 2016	Fiscal 2017-2018	Fiscal 2019-2020	After 5 Years
Capital leases (1)	\$ 12,121	\$ 995	\$ 1,965	\$ 1,948	\$ 7,213
Operating leases (1)	13,496	2,490	3,402	1,428	6,176
Purchase obligations (2)	87,363	65,756	21,607	—	—
Unrecognized income tax benefits (3)	997	997	—	—	—
Total contractual cash obligations	\$ 113,977	\$ 70,238	\$ 26,974	\$ 3,376	\$ 13,389

(1) See Note 14 to the Consolidated Financial Statements for additional information.

(2) Represent commitments to purchase specified quantities of raw materials at market prices in our other non-reportable segment. The dollar values above have been estimated based on July 31, 2015 market prices.

(3) We have included in unrecognized income tax benefits \$997 for payments expected to be made in fiscal 2016. Unrecognized income tax benefits in the amount of \$11,945 have been excluded from the table because we are unable to determine a reasonably reliable estimate of the timing of future payment.

Other Commercial Commitments	Total Amounts Committed	Amount of Commitment Expiration Per Period			
		Less Than One Year (1)	1-3 Years	4-5 Years	Over 5 Years
Standby repurchase obligations (1)	\$ 1,363,576	\$ 729,037	\$ 634,539	\$ —	\$ —

(1) The standby repurchase obligations generally extend up to eighteen months from the date of sales of the related product to the dealer. In estimating the expiration of the standby repurchase obligations, we used inventory reports as of July 31, 2015 from our dealers' primary lending institutions and made an assumption for obligations for inventory aged 0-12 months that it was financed evenly over the twelve month period.

Accounting Pronouncements

Reference is made to Note 1 to the Consolidated Financial Statements contained in this report for a summary of recently issued accounting pronouncements, which summary is hereby incorporated by reference.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

None.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA — SEE ITEM 15

Quarterly Financial Data (Unaudited)

Fiscal 2015	Quarter Ended			
	October 31	January 31	April 30	July 31
Net sales	\$ 921,992	\$ 852,416	\$ 1,174,255	\$ 1,058,156
Gross profit from continuing operations	117,665	102,000	166,601	171,279
Net income from continuing operations	39,201	30,267	63,552	68,989

(2) Includes a special \$1.00 per share dividend.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Part A – Disclosure Controls and Procedures

The Company maintains “disclosure controls and procedures”, as such term is defined under Securities Exchange Act Rule 13a-15(e), that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, the Company’s management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and the Company’s management necessarily is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. The Company has carried out an evaluation, as of the end of the period covered by this report, under the supervision and with the participation of the Company’s management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company’s disclosure controls and procedures. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company’s disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC’s rules and forms and is accumulated and communicated to the Company’s management as appropriate to allow for timely decisions regarding required disclosure.

Part B – Management’s Annual Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Exchange Act Rule 13a-15(f). Internal control over financial reporting refers to a process designed by, or under the supervision of, our Chief Executive Officer and Chief Financial Officer and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America and includes those policies and procedures that: (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect our transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that our receipts and expenditures are being made only in accordance with authorizations of our management and members of our Board of Directors and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Because of its inherent limitations, internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. Projections of any evaluation of effectiveness to future periods are also subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with established policies or procedures may deteriorate.

The Company’s management conducted an assessment of the effectiveness of our internal control over financial reporting as of July 31, 2015 using the criteria set forth in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on its assessment, management believes that as of July 31, 2015, the Company’s internal control over financial reporting is effective based on those criteria. As permitted by SEC guidance, management excluded from its assessment the operations of Postle Operating, LLC, which was acquired on May 1, 2015 and which accounted for approximately 11% of consolidated total assets and 1% of consolidated net sales as of and for the year ended July 31, 2015.

Our independent registered public accounting firm, Deloitte & Touche LLP, has issued an attestation report on our internal control over financial reporting. The report appears in Part D of this Item 9A.

Part C – Changes in Internal Control Over Financial Reporting

During the fourth quarter of fiscal year 2015, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Thor Industries, Inc.
Elkhart, Indiana

We have audited the internal control over financial reporting of Thor Industries, Inc. and subsidiaries (the “Company”) as of July 31, 2015, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. As described in *Management’s Annual Report on Internal Control over Financial Reporting*, management excluded from its assessment the internal control over financial reporting at Postle Operating, LLC, which was acquired on May 1, 2015 and whose financial statements constitute approximately 11% of consolidated total assets and 1% of consolidated net sales as of and for the year ended July 31, 2015. Accordingly, our audit did not include the internal control over financial reporting at Postle Operating, LLC. The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying *Management’s Annual Report on Internal Control over Financial Reporting*. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company’s internal control over financial reporting is a process designed by, or under the supervision of, the company’s principal executive and principal financial officers, or persons performing similar functions, and effected by the company’s board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of July 31, 2015, based on the criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements of the Company as of and for the year ended July 31, 2015 and our report dated September 21, 2015 expressed an unqualified opinion on those financial statements.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The Company has adopted a written code of ethics, the “Thor Industries, Inc. Business Ethics Policy”, which is applicable to all directors, officers and employees of the Company, including the Company’s principal executive officer, principal financial officer, principal accounting officer or controller and other executive officers identified pursuant to this Item 10 who perform similar functions (collectively, the “Selected Officers”). In accordance with the rules and regulations of the SEC, a copy of the code has been posted on the Company’s website and is also available in print to any person, without charge, upon request. The Company intends to disclose any changes in or waivers from its code of ethics applicable to any Selected Officer on its website at www.thorindustries.com or by filing a Form 8-K.

The other information in response to this Item is included under the captions OUR BOARD OF DIRECTORS; EXECUTIVE OFFICERS WHO ARE NOT DIRECTORS; BOARD OF DIRECTORS: STRUCTURE, COMMITTEES AND CORPORATE GOVERNANCE and SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE, in the Company’s definitive Proxy Statement to be filed with the SEC pursuant to Regulation 14A, which portions of said Proxy Statement are hereby incorporated by reference.

ITEM 11. EXECUTIVE COMPENSATION

The information required in response to this Item is contained under the captions EXECUTIVE COMPENSATION and DIRECTOR COMPENSATION in the Company’s definitive Proxy Statement to be filed with the SEC pursuant to Regulation 14A, which portions of said Proxy Statement are hereby incorporated by reference.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation and Development Committee of the Board of Directors is or was formerly an officer or employee of the Company or any of its subsidiaries. During fiscal 2015, no executive officer of the Company or any of its subsidiaries served on the Compensation and Development Committee (or equivalent), or the Board of Directors, of another entity whose executive officer(s) served on our Compensation and Development Committee or Board of Directors.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED SHAREHOLDER MATTERS

Equity Compensation Plan Information

The following table provides information as of July 31, 2015 about the Company’s Common Stock that is authorized for issuance under the Company’s equity compensation plans, including the Thor Industries, Inc. 2010 Equity and Incentive Plan (the “2010 Plan”), the Thor Industries, Inc. 2006 Equity Incentive Plan (the “2006 Plan”) and the Thor Industries, Inc. 1999 Stock Option Plan (the “1999 Plan”).

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders	280,353 (1)	\$ – (2)	1,423,257 (3)
Equity compensation plans not approved by security holders	–	–	–
Total	280,353	\$ –	1,423,257

(1) Represents shares underlying restricted stock units granted pursuant to the 2010 Plan, the 2006 Plan and the 1999 Plan. The 1999 Plan was frozen in 2006 upon the adoption of the 2006 Plan.

(2) The restricted stock units of 280,353 in column (a) do not have an exercise price.

(3) Represents shares remaining available for future issuance pursuant to the 2010 Plan and the 2006 Plan.

The other information required in response to this Item is contained under the captions OWNERSHIP OF COMMON STOCK and SUMMARIES OF EQUITY COMPENSATION PLANS in the Company’s definitive Proxy Statement, to be filed with the SEC pursuant to Regulation 14A, which portions of said Proxy Statement are hereby incorporated by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

The information required in response to this Item is contained under the captions CERTAIN RELATIONSHIPS AND TRANSACTIONS WITH MANAGEMENT and BOARD OF DIRECTORS: STRUCTURE, COMMITTEES AND CORPORATE GOVERNANCE in the Company's definitive Proxy Statement to be filed with the SEC pursuant to Regulation 14A, which portions of said Proxy Statement are hereby incorporated by reference.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information required in response to this Item is contained under the caption INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FEES in the Company's definitive Proxy Statement, to be filed with the Commission pursuant to Regulation 14A, which portion of said Proxy Statement is hereby incorporated by reference.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Thor Industries, Inc.
Elkhart, Indiana

We have audited the accompanying consolidated balance sheets of Thor Industries, Inc. and subsidiaries (the "Company") as of July 31, 2015 and 2014, and the related consolidated statements of income and comprehensive income, stockholders' equity, and cash flows for each of the three years in the period ended July 31, 2015. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Thor Industries, Inc. and subsidiaries at July 31, 2015 and 2014, and the results of their operations and their cash flows for each of the three years in the period ended July 31, 2015, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of July 31, 2015, based on the criteria established in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated September 21, 2015 expressed an unqualified opinion on the Company's internal control over financial reporting.

Notes to the Consolidated Financial Statements as of and for the Years Ended July 31, 2015, 2014 and 2013

(All dollar amounts presented in thousands except per share data)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations – Thor Industries, Inc. was founded in 1980 and, through its subsidiaries, manufactures a wide range of recreational vehicles at various manufacturing facilities primarily in Indiana and Ohio. These products are sold to independent dealers primarily throughout the United States and Canada. Unless the context otherwise requires or indicates, all references to “Thor”, the “Company”, “we”, “our” and “us” refer to Thor Industries, Inc. and its subsidiaries.

The Company's core ongoing business activities are comprised of two distinct operations, which include the design, manufacture and sale of motorized recreational vehicles and towable recreational vehicles. Accordingly, the Company has presented segmented financial information for these two segments in Note 4 to the Consolidated Financial Statements. See Note 3, “Discontinued Operations,” in the Notes to the Consolidated Financial Statements for a description of the Company's bus operations which were sold as of October 20, 2013. Accordingly, the accompanying financial statements (including footnote disclosures unless otherwise indicated) reflect these operations as discontinued operations apart from the Company's continuing operations.

Principles of Consolidation – The accompanying Consolidated Financial Statements include the accounts of Thor Industries, Inc. and its wholly-owned subsidiaries. All intercompany balances and transactions are eliminated upon consolidation.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Key estimates include reserves for inventory, incurred but not reported medical claims, warranty claims, recalls, workers' compensation claims, vehicle repurchases, uncertain tax positions, product and non-product litigation and assumptions made in asset impairment assessments. The Company bases its estimates on historical experience and on various other assumptions believed to be reasonable under the circumstances. The Company believes that such estimates are made using consistent and appropriate methods. Actual results could differ from these estimates.

Cash and Cash Equivalents – Interest-bearing deposits and other investments with maturities of three months or less when purchased are considered cash equivalents. At July 31, 2015 and 2014, cash and cash equivalents of \$170,231 and \$279,511, respectively, were held by one financial institution. The remaining \$13,247 and \$9,825 at July 31, 2015 and 2014, respectively, were held at various other financial institutions.

Fair Value of Financial Instruments – The carrying amount of cash equivalents, investments, accounts receivable, notes receivable and accounts payable approximate fair value because of the relatively short maturity of these financial instruments.

Inventories – Most inventories are stated at the lower of cost or market, determined on the last-in, first-out (“LIFO”) basis with the remainder being valued on a first-in, first-out (“FIFO”) basis. Manufacturing costs include materials, labor, freight-in and manufacturing overhead. Unallocated overhead and abnormal costs are expensed as incurred.

Depreciation – Property, plant and equipment are recorded at cost and depreciated using the straight-line method over the estimated useful lives of the assets as follows:

Buildings and improvements – 10 to 39 years

Machinery and equipment – 3 to 10 years

Depreciation expense is recorded in cost of products sold except for \$2,362, \$2,542 and \$2,783 in fiscal 2015, 2014 and 2013, respectively, which relates primarily to office buildings and office equipment and is recorded in selling, general and administrative expenses.

Intangible Assets – Intangible assets consist of goodwill, trademarks, dealer networks/customer relationships, design technology assets and non-compete agreements. Trademarks are being amortized on a straight-line basis over 15 to 25 years. Dealer networks/customer relationships are amortized on an accelerated basis up to 12 years, and design technology assets and non-compete agreements are amortized using the straight-line method over 2 to 15 years. Goodwill is not amortized but is tested at least annually for impairment. Goodwill is reviewed for impairment by applying a fair-value based test on an annual basis at April 30, or more frequently if events or circumstances indicate a potential impairment.

Long-lived Assets – Property, plant and equipment and identifiable intangibles that are amortized are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable from future cash flows. If the carrying value of a long-lived asset is impaired, an impairment charge is recorded for the amount by which the carrying value of the long-lived asset exceeds its fair value.

Product Warranties – Estimated warranty costs are provided at the time of sale of the related products. Warranty reserves are reviewed and adjusted as necessary on at least a quarterly basis.

Allowance for Doubtful Accounts – The allowance for doubtful accounts represents management's estimate of probable credit losses in existing accounts receivable, as determined from a review of past due balances and other specific account information.

A summary of allowance for doubtful accounts activity is as follows:

	2015	2014	2013
Beginning balance	\$ 348	\$ 157	\$ 527
Net charged to expense	359	63	(47)
Write-offs, net of recoveries/payments	(67)	(72)	(130)
Acquisitions	643	200	–
Discontinued operations reclassification	–	–	(193)
Ending balance	<u>\$ 1,283</u>	<u>\$ 348</u>	<u>\$ 157</u>

Insurance Reserves – Generally, the Company is self-insured for workers' compensation, products liability and group medical insurance. Under these plans, liabilities are recognized for claims incurred, including those incurred but not reported. The liability for workers' compensation claims is determined by the Company with the assistance of a third party administrator and actuary using various state statutes and historical claims experience. Group medical reserves are estimated using historical claims experience. The Company has a self-insured retention ("SIR") for products liability and personal injury matters ranging from \$500 to \$7,500 per occurrence, depending on the product type and when the occurrence took place. Generally, any occurrence (as defined by our insurance policies) after March 31, 2015 is subject to the \$500 SIR, while matters occurring after March 31, 2014 and through March 31, 2015 are subject to a \$1,000 SIR. The Company has established a liability on our balance sheet for product liability and personal injury occurrences based on historical data, known cases and actuarial information. Currently, the Company maintains excess liability insurance aggregating \$50,000 with outside insurance carriers to minimize our risks related to catastrophic claims in excess of our self-insured positions for products liability and personal injury matters.

Revenue Recognition – Revenues from the sale of recreational vehicles are recorded primarily when all of the following conditions have been met:

- 1) An order for a product has been received from a dealer;
- 2) Written or oral approval for payment has been received from the dealer's flooring institution, if applicable;
- 3) A common carrier signs the delivery ticket accepting responsibility for the product as agent for the dealer; and
- 4) The product is removed from the Company's property for delivery to the dealer who placed the order.

These conditions are generally met when title passes, which is when vehicles are shipped to dealers in accordance with shipping terms, which are primarily FOB shipping point. Most sales are made to dealers financing their purchases under flooring arrangements with banks or finance companies. Certain shipments are sold to customers on credit or cash on delivery ("COD") terms. The Company recognizes revenue on credit sales upon shipment and COD sales upon payment and delivery. Products are not sold on consignment, dealers do not have the right to return products and dealers are typically responsible for interest costs to floor plan lenders.

At the time of revenue recognition, amounts billed to dealers for delivery of product are recognized as revenue and the corresponding delivery expense charged to costs of products sold.

Revenues from the sale of extruded aluminum components are recognized when title to products and the risk of loss are transferred to the customer, which is generally upon shipment.

Dealer Volume Rebates, Sales Incentives and Advertising Costs – Estimated costs related to dealer volume rebates and sales incentives are accrued as a reduction of revenue at the later of the time products are sold or the date the rebate or incentive is offered. Advertising costs, which consist primarily of tradeshows and are expensed as incurred, were \$12,515, \$9,492 and \$8,794 in fiscal 2015, 2014 and 2013, respectively.

Repurchase Agreements – The Company is contingently liable under terms of repurchase agreements with financial institutions providing inventory financing for certain dealers of certain of its products. These arrangements, which are customary in the industry, provide for the repurchase of products sold to dealers in the event of default by the dealer. The risk of loss from these agreements is spread over numerous dealers. In addition to the guarantee under these repurchase agreements, we may also be required to repurchase inventory relative to dealer terminations in certain states in accordance with state laws or regulatory requirements. The repurchase price is generally determined by the original sales price of the product and pre-defined curtailment arrangements and the Company typically resells the repurchased product at a discount from its repurchase price. The Company accounts for the guarantee under its repurchase agreements with our dealers' financing institutions by estimating and deferring a portion of the related product sale that represents the estimated fair value of the repurchase obligation. The estimated fair value takes into account our estimate of the loss we will incur upon resale of any repurchases. This estimate is based on recent historical experience supplemented by management's assessment of current economic and other conditions affecting our dealers. This deferred amount is included in our repurchase and guarantee reserve which is included in other current liabilities on the Consolidated Balance Sheets.

Income Taxes – The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in our financial statements or tax returns. Judgment is required in assessing the future tax consequences of events that have been recognized in our financial statements or tax returns. Fluctuations in the actual outcome of these tax consequences could materially impact our financial position or results of operations.

The Company recognizes liabilities for uncertain tax positions based on a two-step process. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more likely than not that the position will be sustained on audit, including resolution of related appeals or litigation processes, if any. The second step requires the Company to estimate and measure the tax benefit as the largest amount that is more than 50% likely to be realized upon ultimate settlement. It is inherently difficult and subjective to estimate such amounts, as the Company has to determine the probability of various possible outcomes. The Company reevaluates these uncertain tax positions on a quarterly basis. This evaluation is based on factors including, but not limited to, changes in facts or circumstances, changes in tax law, effectively settled issues under audit, voluntary settlements and new audit activity. Such a change in recognition or measurement would result in the recognition of a tax benefit or an additional charge to the tax provision.

Significant judgment is required in determining the Company's provision for income taxes, the Company's deferred tax assets and liabilities and the valuation allowance recorded against the Company's deferred tax assets, if any. Valuation allowances must be considered due to the uncertainty of realizing deferred tax assets. Companies must assess whether valuation allowances should be established against their deferred tax assets on a tax jurisdictional basis based on the consideration of all available evidence, using a more likely than not standard. The Company has evaluated the realizability of our deferred tax assets on our Consolidated Balance Sheets which includes the assessment of the cumulative income over recent prior periods.

Earnings Per Share – Basic earnings per common share ("EPS") is computed by dividing net income by the weighted average number of common shares outstanding. Diluted EPS is computed by dividing net income by the weighted average number of common shares outstanding assuming dilution. The difference between basic EPS and diluted EPS is the result of outstanding stock options, unvested restricted stock and restricted stock units as follows:

	2015	2014	2013
Weighted average shares outstanding for basic earnings per share	53,166,206	53,270,076	53,005,576
Stock options, unvested restricted stock and restricted stock units	109,304	91,614	109,972
Weighted average shares outstanding assuming dilution	53,275,510	53,361,690	53,115,548

The Company excludes stock options, unvested restricted stock and restricted stock units that have an antidilutive effect from its calculation of weighted average shares outstanding assuming dilution, but had none at July 31, 2015, 2014 and 2013.

Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2014-08 ("ASU 2014-08"), "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity." ASU 2014-08 raises the threshold for a disposal to qualify as a discontinued operation and requires new disclosures of both discontinued operations and certain other disposals that do not meet the definition of a discontinued operation. Under the new guidance, the disposal of a component or group of components of a business will be reported as discontinued operations if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results. For the Company, ASU 2014-08 is effective for disposals (or classifications as held for sale) of components that first occur after July 31, 2015. Early adoption is permitted, but only for disposals that have not been reported in financial statements previously issued. The impact to the Company will depend on future disposals.

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, "Revenue from Contracts with Customers (Topic 606)," which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. This standard will supersede most current revenue recognition guidance. Under the new standard, entities are required to identify the contract with a customer, identify the separate performance obligations in the contract, determine the transaction price, allocate the transaction price to the separate performance obligations in the contract and recognize the appropriate amount of revenue when (or as) the entity satisfies each performance obligation. The standard is effective for fiscal years, and the interim periods within those years, beginning after December 15, 2017. The standard is effective for the Company in its fiscal year 2019 beginning on August 1, 2018. Entities have the option of using either retrospective transition or a modified approach in applying the new standard. The Company is currently evaluating the approach it will use to apply the new standard and the impact that the adoption of the new standard will have on the Company's consolidated financial statements.

In July 2015, the FASB issued Accounting Standards Update No. 2015-11 ("ASU 2015-11"), "Inventory (Topic 330): Simplifying the Measurement of Inventory." ASU 2015-11 requires inventory measured using any method other than last-in, first-out ("LIFO") or the retail inventory method to be subsequently measured at the lower of cost or net realizable value, rather than at the lower of cost or market. Under this ASU, subsequent measurement of inventory using the LIFO and retail inventory method is unchanged. ASU 2015-11 is effective prospectively for fiscal years, and for interim periods within those years, beginning after December 15, 2016. The standard is effective for the Company in its fiscal year 2018 beginning on August 1, 2017. Early adoption is permitted. The Company is currently evaluating the impact of this ASU on its consolidated financial statements.

2. ACQUISITIONS

Postle

On May 1, 2015, the Company closed on a Membership Interest Purchase Agreement with Postle Aluminum Company, LLC for the acquisition of all the outstanding membership units of Postle Operating, LLC ("Postle"), a manufacturer of aluminum extrusion and specialized component products sold to RV and other manufacturers, for total cash consideration to date of \$144,048, net of cash acquired. The net cash consideration of \$144,048 was funded entirely from the Company's cash on hand, based on a final determination of the actual net assets as of the May 1, 2015 closing date and paid during the fourth quarter of fiscal 2015. Postle will operate as an independent operation in the same manner as the Company's other subsidiaries. The operations of Postle are reported in Other, which is a non-reportable segment.

The following table summarizes the fair values assigned to the Postle net assets acquired, which are based on internal and independent external valuations:

Cash	\$	2,963
Other current assets		54,780
Property, plant and equipment		32,251
Customer relationships		38,800
Trademarks		6,000
Backlog		300
Goodwill		42,871
Current liabilities		(23,729)
Capital lease obligations		(7,225)
Total fair value of net assets acquired		147,011
Less cash acquired		(2,963)
Total cash consideration for acquisition, less cash acquired	\$	<u>144,048</u>

On the acquisition date, amortizable intangible assets had a weighted average useful life of 12.3 years. The customer relationships were valued based on the Discounted Cash Flow Method and will be amortized on an accelerated basis over 12 years. The trademarks were valued on the Relief from Royalty Method and will be amortized on a straight-line basis over 15 years. Backlog was valued based on the Discounted Cash Flow Method and was amortized on a straight-line basis over 6 weeks. Goodwill is deductible for tax purposes.

Cruiser RV, LLC and DRV, LLC

On January 5, 2015, the Company closed on a Stock Purchase Agreement ("CRV/DRV SPA") for the acquisition of all the outstanding membership units of towable recreational vehicle manufacturer Cruiser RV, LLC ("CRV") and luxury fifth wheel towable recreational vehicle manufacturer DRV, LLC ("DRV") through its Heartland Recreational Vehicles, LLC subsidiary ("Heartland"). The Heartland operations are reported within the towable recreational vehicle reportable segment. In accordance with the CRV/DRV SPA, the closing was deemed effective as of January 1, 2015. As contemplated in the CRV/DRV SPA, the Company also acquired, in a series of integrated transactions, certain real estate used in the ongoing operations of CRV and DRV. The initial cash paid for this acquisition was \$47,412, subject to adjustment, and was funded entirely from the Company's cash on hand. Adjustments to increase the net cash consideration of \$1,173 have been identified as of July 31, 2015, based on the determination of the actual net assets as of the close of business on December 31, 2014 and the finalization of certain tax matters, and paid during the fourth quarter of fiscal 2015. The \$1,173 included reimbursing the seller for \$1,062 of cash on hand at the acquisition date, and resulted in total net cash consideration of \$47,523. The Company purchased CRV and DRV to expand its towable recreational vehicle market share and to supplement and expand its existing lightweight travel trailer and luxury fifth wheel product offerings and dealer base.

The following table summarizes the fair values assigned to the CRV and DRV net assets acquired, which are based on internal and independent external valuations. Additional adjustments to certain accounts, such as acquired medical benefit liabilities, are possible but not expected to be material:

Cash	\$	1,062
Other current assets		22,175
Property, plant and equipment		4,533
Dealer network		14,300
Trademarks		5,400
Backlog		450
Goodwill		13,172
Current liabilities		(12,507)
Total fair value of net assets acquired		48,585
Less cash acquired		(1,062)
Total cash consideration for acquisition, less cash acquired	\$	47,523

On the acquisition date, amortizable intangible assets had a weighted average useful life of 13.9 years. The dealer network was valued based on the Discounted Cash Flow Method and will be amortized on an accelerated basis over 12 years. The trademarks were valued on the Relief from Royalty Method and will be amortized on a straight-line basis over 20 years. Backlog was valued based on the Discounted Cash Flow Method and was amortized on a straight-line basis over 6 weeks. Goodwill is deductible for tax purposes.

The following unaudited pro forma information represents the Company's results of operations as if the fiscal 2015 acquisitions of both Postle and CRV/DRV had occurred at the beginning of fiscal 2014. These performance results may not be indicative of the actual results that would have occurred under the ownership and management of the Company.

	Fiscal Year Ended July 31,	
	2015	2014
Net sales	\$ 4,195,640	\$ 3,795,119
Net income	\$ 208,091	\$ 188,279
Basic earnings per common share	\$ 3.91	\$ 3.53
Diluted earnings per common share	\$ 3.91	\$ 3.53

K.Z., Inc.

On May 1, 2014, the Company closed on a Stock Purchase Agreement for the acquisition of all the outstanding capital stock of towable recreational vehicle manufacturer K.Z., Inc. ("KZ") for initial cash consideration of \$53,405, subject to adjustment, which was funded entirely from the Company's cash on hand. The final purchase price payment of \$2,915, included in accounts payable as of July 31, 2014, was based on a final determination of actual net working capital as of the May 1, 2014 closing date and was paid during the first quarter of fiscal 2015. The \$2,915 included reimbursing the seller for \$996 of cash on hand at the acquisition date. KZ operates as an independent operation in the same manner as the Company's other primary subsidiaries and is aggregated within the Company's towable recreational vehicle reportable segment. The Company purchased KZ to expand its towable recreational vehicle market share and supplement its existing towable RV product offerings and dealer base.

The following table summarizes the final fair values assigned to the KZ net assets acquired, which are based on internal and independent external valuations:

Cash	\$	996
Other current assets		34,121
Property, plant and equipment		15,057
Dealer network		13,160
Trademarks		5,540
Non-compete agreements		450
Backlog		420
Goodwill		2,703
Current liabilities		(16,127)
Total fair value of net assets acquired		56,320
Less cash acquired		(996)
Total cash consideration for acquisition, less cash acquired	\$	55,324

On the acquisition date, amortizable intangible assets had a weighted average useful life of 13.9 years. The dealer network was valued based on the Discounted Cash Flow Method and is amortized on an accelerated basis over 12 years. The trademarks were valued on the Relief from Royalty Method and are amortized on a straight-line basis over 20 years. The non-compete agreements and backlog were both valued based on the Discounted Cash Flow Method, and the non-compete agreements are amortized on a straight-line basis over 5 years while the backlog was amortized on a straight-line basis over 2 months. Goodwill is deductible for tax purposes.

Bison Coach

On October 31, 2013, the Company closed on an Asset Purchase Agreement with Bison Coach, LLC for the acquisition of its net operating assets for initial cash consideration of \$16,718, subject to adjustment, which was funded entirely from the Company's cash on hand. The purchase price adjustment, which was based on a final determination of net assets, was finalized in the third quarter of fiscal 2014 and required an additional cash payment of \$196, resulting in total cash consideration of \$16,914. As a result of this acquisition, the Company formed a new entity, Bison Coach ("Bison"), which is aggregated within the Company's towable recreational vehicle reportable segment. The Company purchased the net assets of Bison Coach, LLC to supplement its existing product offerings with Bison's equestrian products with living quarters.

The following table summarizes the final fair values assigned to the Bison net assets acquired, which are based on internal and independent external valuations:

Current assets	\$	4,050
Property, plant and equipment		625
Dealer network		7,400
Trademarks		1,800
Backlog		140
Goodwill		6,660
Current liabilities		(3,761)
Total fair value of net assets acquired	\$	16,914

On the acquisition date, amortizable intangible assets had a weighted average useful life of 13.3 years. The dealer network was valued based on the Discounted Cash Flow Method and is amortized on an accelerated cash flow basis over 12 years. The trademarks were valued on the Relief from Royalty Method and are amortized on a straight-line basis over 20 years. Backlog was valued based on the Discounted Cash Flow Method and was amortized on a straight-line basis over 6 weeks. Goodwill is deductible for tax purposes.

Livin' Lite RV, Inc.

On August 30, 2013, the Company closed on an Asset Purchase Agreement with Livin' Lite Corp. for the acquisition of its net operating assets for aggregate cash consideration of \$16,769, net of cash acquired, which was funded entirely from the Company's cash on hand. As a result of this acquisition, the Company formed a new entity, Livin' Lite RV, Inc. ("Livin' Lite"), which is aggregated within the Company's towable recreational vehicle reportable segment. The Company purchased the Livin' Lite Corp. operating assets to expand its recreational vehicle market share and complement its existing brands with Livin' Lite's advanced lightweight product offerings.

The following table summarizes the final fair values assigned to the Livin' Lite net assets acquired, which are based on internal and independent external valuations:

Cash	\$	247
Other current assets		3,626
Property, plant and equipment		137
Dealer network		3,200
Trademarks		1,500
Design technology assets		1,100
Non-compete agreements		130
Backlog		110
Goodwill		9,113
Current liabilities		(2,147)
Total fair value of net assets acquired		17,016
Less cash acquired		(247)
Total cash paid for acquisition, less cash acquired	\$	16,769

On the acquisition date, amortizable intangible assets had a weighted average useful life of 10.2 years. The dealer network was valued based on the Discounted Cash Flow Method and is amortized on an accelerated cash flow basis over 8 years. The trademarks were valued on the Relief from Royalty Method and are amortized on a straight-line basis over 20 years. The design technology assets were valued on the Relief from Royalty Method and are amortized on a straight-line basis over 5 years. The non-compete agreements and backlog were both valued based on the Discounted Cash Flow Method, and the non-compete agreements are amortized on a straight-line basis over 2 years while the backlog was amortized on a straight-line basis over 6 weeks. Goodwill is deductible for tax purposes.

Other Acquisitions

On December 20, 2012, the Company acquired the Federal Coach ("Federal Coach") bus operation assets from Forest River, Inc. for cash consideration of \$6,804. The fair value of the net assets acquired included inventory of \$804, property and equipment of \$630, certain liabilities of \$225, goodwill of \$4,495, and amortizable intangible assets consisting of trademarks of \$670, dealer network of \$410 and backlog of \$20. The Federal Coach bus operation assets were utilized at the Champion Bus facility to produce buses under the Federal Coach name. The related assets and liabilities were sold as of October 20, 2013 and the results of operations since acquisition are included in discontinued operations as discussed in Note 3 to the Consolidated Financial Statements.

On October 3, 2012, the Company closed on an Asset Purchase Agreement with Krystal Infinity, LLC dba Krystal Enterprises ("Krystal") for the acquisition of Krystal's bus operation assets for cash consideration of \$3,914. The fair value of the net assets acquired included inventory of \$915, property and equipment of \$331, goodwill of \$768 and amortizable intangible assets consisting of trademarks of \$1,000 and dealer network of \$900. The Krystal bus operation assets were utilized at the ElDorado Kansas facility to produce buses under the Krystal name. The related assets and liabilities were sold as of October 20, 2013 and the results of operations since acquisition are included in discontinued operations as discussed in Note 3 to the Consolidated Financial Statements.

3. DISCONTINUED OPERATIONS

On July 31, 2013, the Company entered into a Stock Purchase Agreement ("ASV SPA") to sell its bus business to Allied Specialty Vehicles, Inc. ("ASV") for cash of \$100,000, subject to closing adjustments for changes in the net assets sold from April 30, 2013 to the closing date. The Company's bus business, which manufactured and sold transit and shuttle buses, included the operations of Champion Bus Inc., General Coach America, Inc., Goshen Coach, Inc., ElDorado National (California), Inc. and ElDorado National (Kansas), Inc. This divestiture will allow the Company to focus on the strategic development and growth of its core recreational vehicle business.

The sale was completed as of October 20, 2013 and the Company received \$100,000 on October 21, 2013. Under the terms of the ASV SPA, the total cash consideration to be received was subject to adjustment based on changes in the carrying value of the net assets of the bus business between April 30, 2013 and October 20, 2013. The amount of the final net asset adjustment was determined through the completion of a post-close audit during the second quarter of fiscal 2014. Based on the final agreed-upon carrying value of the bus business net assets sold as of October 20, 2013, an additional \$5,043 was collected from ASV on February 19, 2014, representing the increase in bus net assets since April 30, 2013. As a result, final cash consideration received for the sale of the bus business totaled \$105,043.

The Company has recorded a pre-tax gain of \$7,079 as a result of the sale. The results of operations for the bus business, including the gain on the sale of the bus business, have been reported as discontinued operations in the Consolidated Statements of Income and Comprehensive Income for all periods presented.

In the third quarter of fiscal 2013, the Company determined that it was more likely than not that certain long-lived assets associated with the Company's ambulance product line would be sold before the end of their previously estimated useful life. This was determined to be a triggering event and an impairment assessment relative to those assets was performed. Based on the assessment, the Company determined that the carrying amount of the assets would not be recoverable from future cash flows and as a result, a non-cash impairment charge of \$4,715 related to certain amortizable intangible assets was recorded.

In the third quarter of fiscal 2013, prior to the annual impairment assessment, the Company also performed an interim goodwill impairment assessment relative to the goodwill associated with the reporting unit that included the ambulance product line. Based on the assessment, the Company determined that the fair value of this reporting unit was less than the carrying value and therefore performed the second step of the goodwill impairment assessment, which requires estimating the fair values of the reporting unit's net identifiable assets and calculating the implied fair value of goodwill. The fair value of this reporting unit was determined by a discounted cash flow model and market approach, consistent with its last annual impairment assessment. The implied fair value of goodwill was determined to be zero and, therefore, recorded goodwill was impaired and a non-cash impairment charge of \$6,810 was recognized in the third quarter of fiscal year 2013. The goodwill impairment was primarily a result of lower forecasted margins and increased working capital requirements within this reporting unit.

The non-cash impairment charges for amortizable intangible assets and goodwill discussed above totaled \$11,525 for the third quarter of fiscal 2013 and are included in discontinued operations in the Consolidated Statements of Income and Comprehensive Income.

The asset fair values utilized in the impairment assessments described above were determined using Level 3 inputs as defined by ASC 820.

On April 30, 2013, the Company sold the assets held and used in the conduct of its ambulance product line (excluding the plant utilized in ambulance production and certain other excluded assets) for a final price of \$12,051. There was no gain or loss recognized on the sale. Discontinued operations for fiscal 2013 include the results of the ambulance product line.

The following table summarizes the results of discontinued operations:

	2015	2014	2013
Net sales	\$ —	\$ 83,903	\$ 448,385
Operating income (loss) of discontinued operations	\$ (4,791)	\$ (5,735)	\$ 12,080
Pre-tax gain on disposal of discontinued business	—	7,079	—
Impairment charges	—	—	11,525
Income (loss) before income taxes	(4,791)	1,344	555
Income tax benefit	2,167	2,142	631
Income (loss) from discontinued operations, net of taxes	\$ (2,624)	\$ 3,486	\$ 1,186

Operating loss of discontinued operations during fiscal 2015 and fiscal 2014 reflects expenses incurred directly related to the former bus operations, including ongoing costs related to liabilities retained by the Company under the ASV SPA for bus product liability and workers' compensation claims occurring prior to the closing date of the sale.

As a result of the sale of the bus business, and in accordance with the ASV SPA, the Company is no longer the primary obligor to the taxing authorities for bus operations in certain states. As a result, the Company eliminated the reserves associated with certain uncertain tax positions resulting in a net tax benefit of \$1,883 which is reflected within discontinued operations for fiscal 2014. Under the terms of the sale, the Company has agreed to indemnify ASV for any claims made by the taxing authorities after the date of sale for these uncertain tax positions but does not expect future losses under this guarantee to be material. The effective tax rate of discontinued operations for fiscal 2014 was favorably impacted primarily by tax return to provision adjustments and the settlement of certain uncertain tax benefits.

In accordance with the ASV SPA, the Company has retained the costs and liabilities associated with the bus business product liability and workers' compensation claims for any occurrence prior to the closing date of the sale.

4. BUSINESS SEGMENTS

The Company has two reportable segments: (1) towable recreational vehicles and (2) motorized recreational vehicles. The towables recreational vehicle reportable segment consists of the following operating segments that have been aggregated: Airstream (towable), Bison, CrossRoads, Heartland (including its wholly-owned subsidiaries CRV and DRV), Keystone, KZ and Livin' Lite. The motorized recreational vehicle reportable segment consists of the following operating segments that have been aggregated: Airstream (motorized) and Thor Motor Coach.

The operations of the Company's Postle subsidiary, which was acquired May 1, 2015, are included in Other, which is a non-reportable segment. Net sales included in Other mainly relate to the sale of aluminum extrusions and specialized component products. Intercompany eliminations adjust for Postle sales to the Company's towables and motorized segments, which are consummated at established arm's length transfer prices consistent with the selling prices of extrusion components to third party customers.

All manufacturing is conducted in the United States. Total assets include those assets used in the operation of each reportable and non-reportable segment, and the Corporate assets consist primarily of cash and cash equivalents and deferred income tax assets.

Net sales:	2015	2014	2013
Recreational vehicles			
Towables	\$ 3,096,405	\$ 2,721,625	\$ 2,650,253
Motorized	870,799	803,831	591,542
Total recreational vehicles	3,967,204	3,525,456	3,241,795
Other	56,594	—	—
Intercompany eliminations	(16,979)	—	—
Total	\$ 4,006,819	\$ 3,525,456	\$ 3,241,795

Income (loss) from continuing operations before income taxes:

Recreational vehicles			
Towables	\$ 259,092	\$ 221,123	\$ 205,724
Motorized	66,746	57,277	43,907
Total recreational vehicles	325,838	278,400	249,631
Other	1,424	—	—
Intercompany eliminations	(554)	—	—
Corporate	(33,813)	(25,581)	(27,659)
Total	\$ 292,895	\$ 252,819	\$ 221,972

Total assets:

Recreational vehicles			
Towables	\$ 907,175	\$ 868,017	\$ 759,658
Motorized	162,940	170,251	126,123

Other	1,678	—	—
Corporate	1,054	724	322
Discontinued operations	—	559	2,737
Total	\$ 31,381	\$ 25,834	\$ 24,987

Capital acquisitions:

Recreational vehicles			
Towables	\$ 35,039	\$ 16,914	\$ 13,954
Motorized	4,309	5,942	1,673
Total recreational vehicles	39,348	22,856	15,627
Other	436	—	—
Corporate	3,271	7,519	8,143
Discontinued operations	—	63	420
Total	\$ 43,055	\$ 30,438	\$ 24,190

Export sales from the Company's continuing operations, predominantly to Canada, were \$465,642, \$521,818 and \$537,374 in fiscal 2015, 2014 and 2013, respectively, with the fiscal 2015 total being adversely impacted by the current strength of the U.S. dollar.

5. INVENTORIES

Major classifications of inventories are:

	July 31,	
	2015	2014
Finished products – RV	\$ 35,693	\$ 27,424
Finished products – other	18,045	–
Work in process	51,556	49,537
Raw materials	133,482	122,150
Chassis	37,739	45,231
Subtotal	276,515	244,342
Excess of FIFO costs over LIFO costs	(30,400)	(27,988)
Total inventories	\$ 246,115	\$ 216,354

Of the \$276,515 and \$244,342 of inventory at July 31, 2015 and 2014, all but \$72,498 and \$36,096, respectively, at certain subsidiaries were valued on the last-in, first-out basis. The \$72,498 and \$36,096 of inventory were valued on the first-in, first-out method.

The Company's reserves for inventory obsolescence were \$3,638 at July 31, 2015 and \$2,057 at July 31, 2014.

6. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment is stated at cost, net of accumulated depreciation, and consists of the following:

	July 31,	
	2015	2014
Land	\$ 27,447	\$ 21,592
Buildings and improvements	214,462	175,611
Machinery and equipment	106,959	76,298
Total cost	348,868	273,501
Less accumulated depreciation	(114,823)	(103,639)
Net property, plant and equipment	\$ 234,045	\$ 169,862

Property, plant and equipment at July 31, 2015 includes buildings and improvements acquired under capital leases of \$6,527 and related amortization included in accumulated depreciation of \$136.

The Company sold land and buildings and improvements related to a towable RV facility located in the western United States in the fourth quarter of fiscal 2014. The sale resulted in net cash proceeds of \$7,352 and a gain on the sale of \$1,888, which is included in other income, net in the Consolidated Statements of Income and Comprehensive Income. RV production from this facility was previously consolidated into another Company complex in the same region.

During the first quarter of fiscal 2014, the Company determined it was more likely than not that certain long-lived assets, consisting of certain RV facilities, would be sold or altered before the end of their previously estimated useful life. Therefore, the Company performed impairment assessments over these facilities using Level 3 inputs as defined by ASC 820 to determine whether an impairment existed. As a result of these assessments, a non-cash impairment charge of \$710 was recognized in the quarter ended October 31, 2013.

During the fourth quarter of fiscal 2013, the Company determined it was more likely than not that certain RV facilities would be sold before the end of their previously estimated useful life and therefore, performed impairment assessments over these facilities using Level 3 inputs as defined by ASC 820 to determine whether an impairment existed. As a result, a non-cash impairment charge of \$2,000 was recognized in the quarter ended July 31, 2013.

7. INTANGIBLE ASSETS, GOODWILL AND LONG-LIVED ASSETS

The components of amortizable intangible assets are as follows:

	Weighted Average Years Remaining Life	July 31, 2015		July 31, 2014	
		Cost	Accumulated Amortization	Cost	Accumulated Amortization
Dealer networks/customer relationships	10	\$ 143,860	\$ 37,194	\$ 90,760	\$ 27,102
Trademarks	19	55,282	7,608	43,882	5,479
Design technology and other intangibles	9	22,400	8,168	23,070	6,775
Non-compete agreements	3	4,710	4,264	4,710	3,283
Total amortizable intangible assets		<u>\$ 226,252</u>	<u>\$ 57,234</u>	<u>\$ 162,422</u>	<u>\$ 42,639</u>

Aggregate amortization expense for amortizable intangibles for all operations for the fiscal years ended July 31, 2015, 2014 and 2013 was \$16,015, \$12,984 and \$11,037, respectively, including \$16,015, \$12,920 and \$10,460, respectively, for continuing operations. The dealer networks and customer relationships are being amortized on an accelerated basis. Trademarks, design technology and other intangibles and non-compete agreements are amortized on a straight-line basis. The increase in amortizable intangible assets in fiscal 2015 is due to the acquisitions of Postle and CRV/DRV as more fully described in Note 2 to the Consolidated Financial Statements.

Estimated Amortization Expense:

For the fiscal year ending July 31, 2016	\$ 23,440
For the fiscal year ending July 31, 2017	20,671
For the fiscal year ending July 31, 2018	18,986
For the fiscal year ending July 31, 2019	16,975
For the fiscal year ending July 31, 2020	15,256
For the fiscal year ending July 31, 2021 and thereafter	73,690
	<u>\$ 169,018</u>

See Note 3 to the Consolidated Financial Statements for discussion of goodwill and other intangibles asset impairment charges recognized related to discontinued operations.

Goodwill is not subject to amortization, but instead is reviewed for impairment by applying a fair-value based test to the Company's reporting units on an annual basis as of April 30, or more frequently if events or circumstances indicate a potential impairment. The Company's reporting units are generally the same as its operating segments, which are identified in Note 4 to the Consolidated Financial Statements. Fair values are generally determined by a discounted cash flow model. These estimates are subject to significant management judgment, including the determination of many factors such as sales growth rates, gross margin patterns, cost growth rates, terminal value assumptions and discount rates, and therefore largely represent Level 3 inputs as defined by ASC 820. Changes in these estimates can have a significant impact on the determination of cash flows and fair value and could potentially result in future material impairments. Management engages an independent valuation firm to assist in its impairment assessments. As a result of the April 30, 2015, 2014 and 2013 annual impairment assessments, no impairment of goodwill was identified.

Changes in the carrying amount of goodwill by reportable segment as of July 31, 2015, 2014 and 2013 are summarized as follows:

	Towables	Motorized	Other	Total
Balance at July 31, 2013:				
Goodwill	\$ 238,103	\$ 17,252	\$ –	\$ 255,355
Accumulated impairment charges	–	(17,252)	–	(17,252)
Net balance as of July 31, 2013:	238,103	–	–	238,103
Fiscal year 14 activity:				
Goodwill acquired	18,476	–	–	18,476
Net balance as of July 31, 2014	256,579	–	–	256,579
Fiscal year 15 activity:				
Goodwill acquired	13,172	–	42,871	56,043
Net balance as of July 31, 2015	\$ 269,751	\$ –	\$ 42,871	\$ 312,622

The components of the net balance as of July 31, 2015 are summarized as follows:

	Towables	Motorized	Other	Total
Goodwill	\$ 269,751	\$ 17,252	\$ 42,871	\$ 329,874
Accumulated impairment charges	–	(17,252)	–	(17,252)
Net balance as of July 31, 2015:	\$ 269,751	\$ –	\$ 42,871	\$ 312,622

8. CONCENTRATION OF RISK

One dealer, FreedomRoads, LLC, accounted for 17% of the Company's continuing consolidated net sales in fiscal 2015, 2014 and 2013. This dealer also accounted for 22% of the Company's continuing consolidated trade accounts receivable at July 31, 2015 and 21% at July 31, 2014. The loss of this dealer could have a significant effect on the Company's business.

9. LOAN TRANSACTIONS AND RELATED NOTES RECEIVABLE

In January 2009, we entered into two credit agreements, for \$10,000 each, with Stephen Adams, in his individual capacity, and Stephen Adams and his successors, as trustee under the Stephen Adams Living Trust (the "Trust" and, together with each of the foregoing persons, the "January 2009 Loan Borrowers"). The final principal and interest payments on the first agreement were received in the second quarter of fiscal 2014 and the final principal and interest payments on the second agreement were received in fiscal 2012.

Under the terms of the second agreement, the January 2009 Loan Borrowers agreed to use the loan proceeds to make an equity contribution to FreedomRoads Holding to be used to purchase the Company's products. As a result, principal payments received under the second agreement are classified as operating activities in the Consolidated Statements of Cash Flows.

In December 2009, we entered into a \$10,000 credit agreement with Marcus Lemonis, Stephen Adams, in his individual capacity, and Stephen Adams and his successors, as trustee under the Trust (collectively, the "December 2009 Loan Borrowers"), and later modified in December 2012, pursuant to which \$6,000 of original and final principal was outstanding as of July 31, 2015 and subsequently paid with interest in August 2015.

The January 2009 and December 2009 Loan Borrowers own, directly or indirectly, a controlling interest in FreedomRoads Holding Company, LLC, the parent company of FreedomRoads, LLC, the Company's largest dealer.

10. INVESTMENTS AND FAIR VALUE MEASUREMENTS

The Company assesses the inputs used to measure the fair value of certain assets and liabilities using a three level hierarchy as prescribed in ASC 820. Level 1 inputs include quoted prices in active markets for identical assets or liabilities and are the most observable. Level 2 inputs include inputs other than Level 1 that are either directly or indirectly observable, such as quoted market prices for similar but not identical assets or liabilities, quoted prices in inactive markets or other inputs that can be corroborated by observable market data. Level 3 inputs are not observable, are supported by little or no market activity and include management's judgments about the assumptions market participants would use in pricing the asset or liability.

The Company carries at fair value its investments in securities (primarily in mutual funds) held for the benefit of certain employees of the Company as part of a deferred compensation plan - measured with Level 1 inputs. Deferred compensation plan asset balances of \$10,803 and \$8,973 were recorded as of July 31, 2015 and July 31, 2014, respectively, as components of other long-term assets in the Consolidated Balance Sheets. An equal and offsetting liability was also recorded in regards to the deferred compensation plan as a component of other long-term liabilities in the Consolidated Balance Sheets. Changes in the fair value of the plan assets and the related liability are both reflected in the Consolidated Statements of Income and Comprehensive Income.

11. PRODUCT WARRANTY

The Company generally provides retail customers of its products with a one-year warranty covering defects in material or workmanship, with longer warranties on certain structural components. The Company records a liability based on its best estimate of the amounts necessary to settle future and existing claims on products sold as of the balance sheet date. Factors used in estimating the warranty liability include a history of units sold, existing dealer inventory, average cost incurred and a profile of the distribution of warranty expenditures over the warranty period. Management believes that the warranty liabilities are adequate. However, actual claims incurred could differ from estimates, requiring adjustments to the reserves. Warranty liabilities are reviewed and adjusted as necessary on at least a quarterly basis.

	2015	2014	2013
Beginning balance	\$ 94,938	\$ 84,250	\$ 73,280
Provision	114,429	92,809	93,374
Payments	(106,266)	(87,402)	(78,513)
Acquisitions	5,105	5,281	—
Discontinued operations reclassification	—	—	(3,891)
Ending balance	<u>\$ 108,206</u>	<u>\$ 94,938</u>	<u>\$ 84,250</u>

12. INCOME TAXES

The components of the provision (benefit) for income taxes from continuing operations are as follows:

	July 31,		
	2015	2014	2013
Income Taxes:			
Federal	\$ 98,504	\$ 83,374	\$ 74,610
State and local	1,222	(1,383)	4,187
Total current expense	99,726	81,991	78,797
Federal	(7,785)	(3,805)	(7,712)
State and local	(1,055)	(883)	(789)
Total deferred (benefit)	(8,840)	(4,688)	(8,501)
Total income tax expense	<u>\$ 90,886</u>	<u>\$ 77,303</u>	<u>\$ 70,296</u>

The differences between income taxes at the federal statutory rate and the actual income taxes are as follows:

	July 31,		
	2015	2014	2013
Provision at federal statutory rate	\$ 102,513	\$ 88,487	\$ 77,691
State and local income taxes, net of federal benefit	5,144	3,748	2,815
Federal income tax credits and incentives	(2,207)	(772)	(2,468)
Domestic production activities deduction	(9,519)	(7,947)	(7,303)
Change in uncertain tax positions	(5,650)	(6,631)	(718)
Change in current tax payable and deferred tax liabilities	218	125	13
Other permanent items	387	293	266
Total income tax expense	<u>\$ 90,886</u>	<u>\$ 77,303</u>	<u>\$ 70,296</u>

A summary of deferred income taxes is as follows:

	July 31,	
	2015	2014
Current deferred income tax asset (liability):		
Inventory basis	\$ 467	\$ (183)
Employee benefits	3,625	2,543
Self-insurance reserves	10,411	10,139
Accrued product warranties	39,486	33,629
Accrued incentives	3,959	3,553
Sales returns and allowances	1,520	1,419
Accrued expenses	2,067	1,523
Unrecognized tax benefits	367	614
Other	(2,038)	(1,840)
Total net current deferred income tax asset	\$ 59,864	\$ 51,397
Long-term deferred income tax asset (liability):		
Property, plant and equipment	(707)	(983)
Deferred compensation	6,367	4,811
Tax credit carry forward	110	790
Intangibles	(30,246)	(31,681)
Unrecognized tax benefits	3,913	7,675
Total net long-term deferred income tax (liability)	(20,563)	(19,388)
Net deferred tax asset	\$ 39,301	\$ 32,009

As of July 31, 2015, the Company has \$167 of state tax credit carry forwards that expire from fiscal 2022-2025 of which the Company expects to realize prior to expiration. In addition, the Company has approximately \$57,400 of gross state tax Net Operating Loss ("NOL") carry forwards that expire from fiscal 2016-2035 that the Company does not expect to realize and therefore has been fully reserved. The deferred tax asset of \$1,595 associated with the state tax NOL carry forwards and the related equal and offsetting valuation allowance are not reflected in the table above.

Unrecognized Tax Benefits:

The benefits of tax positions reflected on income tax returns but whose outcome remains uncertain are only recognized for financial accounting purposes if they meet minimum recognition thresholds. The total amount of unrecognized tax benefits that, if recognized, would have impacted the Company's effective tax rate were \$8,764 for 2015, \$13,679 for 2014 and \$21,765 for 2013.

Changes in the unrecognized tax benefit during fiscal year 2015, 2014 and 2013 were as follows:

	2015	2014	2013
Beginning balance	\$ 20,813	\$ 32,733	\$ 33,900
Tax positions related to prior years:			
Additions	126	9	436
Reductions	(7,695)	(9,281)	(113)
Tax positions related to current year:			
Additions	2,858	3,804	5,348
Settlements	(1,898)	(5,002)	(5,593)
Lapses in statute of limitations	(1,048)	(1,450)	(1,245)
Ending balance	\$ 13,156	\$ 20,813	\$ 32,733

The reductions to the tax positions related to prior years of \$9,281 in fiscal year 2014 includes \$1,378 of uncertain tax positions that were eliminated as a result of the sale of the bus business. See Note 3 to the Consolidated Financial Statements for further information.

It is the Company's policy to recognize interest and penalties accrued relative to unrecognized tax benefits in income tax expense. Interest and penalties related to unrecognized tax benefits are not included in the schedule above. The total amount of liabilities accrued for interest and penalties related to unrecognized tax benefits as of July 31, 2015, 2014 and 2013 were \$1,895, \$5,200 and \$11,671 respectively. The total amount of interest and penalties expense (benefit) recognized in the Consolidated Statements of Income and Comprehensive Income for the fiscal years ended July 31, 2015, 2014 and 2013 were \$(2,552), \$(3,418) and \$(932) respectively.

The total unrecognized tax benefits above, along with the related accrued interest and penalties, are reported within the liability section of the Consolidated Balance Sheets. A portion of the unrecognized tax benefits is classified as short-term and is included in the "Income and other taxes" line of the Consolidated Balance Sheets, while the remainder is classified as a long-term liability.

The components of total unrecognized tax benefits are summarized as follows:

	July 31,		
	2015	2014	2013
Unrecognized tax benefits	\$ 13,156	\$ 20,813	\$ 32,733
Reduction to unrecognized tax benefits for tax credit carry forward	(2,109)	(657)	(440)
Accrued interest and penalties	1,895	5,200	11,671
Total unrecognized tax benefits	\$ 12,942	\$ 25,356	\$ 43,964
Short-term, included in "Income and other taxes"	\$ 997	\$ 1,667	\$ 2,745
Long-term	11,945	23,689	41,219
Total unrecognized tax benefits	\$ 12,942	\$ 25,356	\$ 43,964

The Company anticipates a decrease of approximately \$3,520 in unrecognized tax benefits, \$920 in interest and \$17 in penalties during fiscal 2016 from expected settlements or payments of uncertain tax positions and lapses of the applicable statutes of limitations. Actual results may differ from these estimates.

Generally, fiscal years 2012, 2013 and 2014 remain open for federal income tax purposes and fiscal years 2011, 2012, 2013 and 2014 remain open for state and Canadian income tax purposes. The Company and its subsidiaries file a consolidated U.S. federal income tax return and multiple state income tax returns. During fiscal 2015, the Company finalized its Illinois income tax audit for fiscal years July 31, 2011 and 2012. There were no tax assessments related to the completion of the Illinois audit. The Company is currently disputing the audit results by the state of Indiana for tax years ended July 31, 2008, 2009 and 2010. The Company believes it has adequately reserved for its exposure to additional payments for uncertain tax positions related to its Indiana income tax returns in its liability for unrecognized tax benefits.

13. CONTINGENT LIABILITIES AND COMMITMENTS

The Company is contingently liable under terms of repurchase agreements with financial institutions providing inventory financing for certain dealers of certain of its products. These arrangements, which are customary in the industry, provide for the repurchase of products sold to dealers in the event of default by the dealer on the agreement to pay the financial institution. The repurchase price is generally determined by the original sales price of the product and pre-defined curtailment arrangements. The Company typically resells the repurchased product at a discount from its repurchase price. The risk of loss from these agreements is spread over numerous dealers. In addition to the guarantee under these repurchase agreements, the Company may also be required to repurchase inventory relative to dealer terminations in certain states in accordance with state laws or regulatory requirements. The repurchase activity related to dealer terminations in certain states has historically been insignificant in relation to our repurchase obligation with financial institutions.

The Company's total commercial commitment under standby repurchase obligations on dealer inventory financing as of July 31, 2015 and July 31, 2014 were \$1,363,576 and \$1,226,650, respectively. The commitment term is generally up to eighteen months.

The Company accounts for the guarantee under repurchase agreements of dealers' financing by deferring a portion of the related product sale that represents the estimated fair value of the guarantee at inception. The estimated fair value takes into account an estimate of the losses that may be incurred upon resale of any repurchases. This estimate is based on recent historical experience supplemented by the Company's assessment of current economic and other conditions affecting its dealers. This deferred amount is included in the repurchase and guarantee reserve balances of \$4,163 and \$3,948 as of July 31, 2015 and July 31, 2014, respectively, which are included in other current liabilities in the Consolidated Balance Sheets.

The following table reflects losses incurred related to repurchase agreements that were settled in the past three fiscal years. The Company believes that any future losses under these agreements will not have a significant effect on the Company's consolidated financial position, results of operations or cash flows.

	2015	2014	2013
Cost of units repurchased	\$ 7,171	\$ 1,386	\$ 6,926
Realization of units resold	5,906	1,098	6,020
Losses due to repurchase	<u>\$ 1,265</u>	<u>\$ 288</u>	<u>\$ 906</u>

Legal Matters

The Company is involved in certain litigation arising out of its operations in the normal course of its business, most of which is based upon state “lemon laws”, warranty claims and vehicle accidents (for which the Company carries insurance above a specified self-insured retention or deductible amount). The outcomes of legal proceedings and claims brought against the Company are subject to significant uncertainty. There is significant judgment required in assessing both the probability of an adverse outcome and the determination as to whether an exposure can be reasonably estimated. In management’s opinion, the ultimate disposition of any current legal proceedings or claims against the Company will not have a material effect on the Company’s financial condition, operating results or cash flows. Litigation is, however, inherently uncertain and an adverse outcome from such litigation could have a material effect on the operating results of a particular reporting period.

14. LEASES

The Company has operating leases principally for land, buildings and equipment. With the acquisition of Postle, as more fully discussed in Note 2 to the Consolidated Financial Statements, the Company also leases certain real estate and transportation equipment under various capital leases expiring between 2016 and 2027. Future minimum rental payments required under capital and operating leases as of July 31, 2015 are as follows:

	Capital Leases	Operating Leases
For the fiscal year ending July 31, 2016	\$ 995	\$ 2,490
For the fiscal year ending July 31, 2017	980	1,993
For the fiscal year ending July 31, 2018	985	1,409
For the fiscal year ending July 31, 2019	976	752
For the fiscal year ending July 31, 2020	972	676
For the fiscal year ending July 31, 2021 and thereafter	<u>7,213</u>	<u>6,176</u>
Total minimum lease payments	12,121	<u>\$ 13,496</u>
Less amount representing interest	<u>4,979</u>	
Present value of net minimum capital lease payments	7,142	
Less current portion	<u>321</u>	
Long-term capital lease obligations	<u>\$ 6,821</u>	

The current portion of capital lease obligations are included in other current liabilities and the long-term capital lease obligations are included in other long-term liabilities, respectively, in the Consolidated Balance Sheets.

Rent expense was \$2,092 in fiscal 2015, \$1,700 in fiscal 2014 and \$1,572 in fiscal 2013.

15. EMPLOYEE BENEFIT PLANS

Substantially all non-highly compensated employees are eligible to participate in a 401(k) plan. The Company may make discretionary contributions to the 401(k) plan according to a matching formula determined by each operating subsidiary. Total expense for the plan was \$565 in fiscal 2015, \$387 in fiscal 2014 and \$316 in fiscal 2013.

The Company has established a deferred compensation plan for executives who do not participate in a 401(k) plan. This plan allows executives to defer a portion of their compensation and to direct the Company to invest the funds in mutual fund investments held by the Company. Participant benefits are limited to the value of the investments held on their behalf. Investments held by the Company are accounted for at fair value and reported as other long-term assets, and the equal and offsetting obligation to the participants is reported as other long-term liabilities in the Consolidated Balance Sheets. Changes in the fair value of the plan assets and the related deferred liability are both recorded through the Consolidated Statements of Income and Comprehensive Income. The Company does not make contributions to the plan. The balance of investments held in this plan, and the equal and offsetting long-term liability to the executives, was \$10,803 at July 31, 2015 and \$8,973 at July 31, 2014.

16. STOCKHOLDERS' EQUITY

Treasury Stock

The Company entered into a repurchase agreement, dated May 15, 2015 (the "May 15, 2015 Repurchase Agreement"), to purchase certain shares of its common stock from the Thompson Family Foundation (the "Foundation") in a private transaction. Pursuant to the terms of the May 15, 2015 Repurchase Agreement, the Company purchased from the Foundation 1,000,000 shares of its common stock at a price of \$60.00 per share, and held them as treasury stock, representing an aggregate purchase price of \$60,000. The closing price of Thor common stock on May 15, 2015 was \$61.29. The Foundation held shares of common stock of the Company previously owned by the late Wade F. B. Thompson, the Company's co-founder and former Chief Executive Officer. At the time of the repurchase transaction, Alan Siegel, a member of the board of directors of the Company (the "Board"), served as a director of the Foundation. The repurchase transaction was evaluated and approved by members of the Board who are not affiliated with the Foundation. The transaction was consummated on May 19, 2015, and the Company used available cash to purchase the shares. The number of shares repurchased by the Company represented 1.9% of the Company's issued and outstanding common stock immediately prior to the repurchase.

Stock-Based Compensation

The Board approved the Thor Industries, Inc. 2010 Equity and Incentive Plan (the "2010 Equity and Incentive Plan") on October 25, 2010 and the 2006 Equity Incentive Plan (the "2006 Equity Incentive Plan") on October 16, 2006. These plans were subsequently approved by shareholders at the 2010 and 2006 annual meetings, respectively. These plans are designed, among other things, to replace the Company's 1999 Stock Option Plan (the "1999 Plan") and the Company's 1997 Restricted Stock Plan (the "1997 Plan"). Upon approval of the 2006 Equity Incentive Plan, the 1999 Plan and the 1997 Plan were frozen. As a result, there will be no further grants pursuant to either the 1999 Plan or the 1997 Plan. The maximum number of shares issuable under the 2010 Equity and Incentive Plan is 2,000,000 and the maximum number of shares issuable under the 2006 Equity Incentive Plan is 1,100,000. Remaining shares available to be granted under the 2010 Equity and Incentive Plan are 1,393,257 and under the 2006 Equity Incentive Plan are 30,000 as of July 31, 2015. Awards may be in the form of options (incentive stock options and non-statutory stock options), restricted stock, restricted stock units, performance compensation awards and stock appreciation rights. Options typically expire 10 years from the date of grant and are vested evenly over 3 to 5 years from the date of grant.

Stock Options – A summary of option activity under the 1999 Plan, the 2010 Equity and Incentive Plan and the 2006 Equity Incentive Plan is as follows:

	2015		2014		2013	
	Shares	Weighted-Average Exercise Price	Shares	Weighted-Average Exercise Price	Shares	Weighted-Average Exercise Price
Outstanding at beginning of year	5,000	\$ 28.23	106,313	\$ 31.48	732,725	\$ 28.89
Exercised	(5,000)	28.23	(101,313)	31.64	(498,412)	28.62
Forfeited	–	–	–	–	(120,000)	27.84
Expired	–	–	–	–	(8,000)	26.91
Granted	–	–	–	–	–	–
Outstanding at end of year	–	\$ –	5,000	\$ 28.23	106,313	\$ 31.48
Vested and expected to vest at end of year	–	\$ –	5,000	\$ 28.23	106,313	\$ 31.48
Exercisable at end of year	–	\$ –	5,000	\$ 28.23	106,313	\$ 31.48

The aggregate intrinsic value of options outstanding and exercisable as of July 31, 2015, 2014 and 2013 is as follows:

	2015	2014	2013
Aggregate intrinsic value of options outstanding and expected to vest	\$ –	\$ 124	\$ 2,399
Aggregate intrinsic value of options exercisable	\$ –	\$ 124	\$ 2,399

There were no option grants during fiscal 2015, 2014 or 2013.

In fiscal 2015, 2014 and 2013, the Company recorded expenses of \$0, \$0 and \$393, respectively, for stock option awards.

Cash received from stock option exercises for fiscal 2015, 2014 and 2013 was \$141, \$3,206 and \$5,845, respectively. The total intrinsic value of stock options exercised in fiscal 2015, 2014 and 2013 was \$168, \$2,597 and \$7,502, respectively.

During fiscal 2015, stock options of 5,000 shares were exercised at an aggregate exercise price of \$141. During fiscal 2014, stock options of 101,313 shares were exercised at an aggregate exercise price of \$3,206. During fiscal 2013, stock options of 498,412 shares were exercised at an aggregate exercise price of \$14,267. Of the 498,412 options exercised during fiscal 2013, 314,000 were done so on a cashless basis under which 63,464 shares were issued. The shares withheld as a result of the cashless exercise included the number of shares necessary to cover the exercise price as well as the employee withholding tax related to the exercise, which was then paid by the Company on the employees' behalf in the aggregate amount of \$2,009. Exercises of options are satisfied with the issuance of new shares from authorized shares.

Stock Awards – A summary of restricted stock award activity under the 2010 Equity and Incentive Plan for fiscal 2015, 2014 and 2013 is as follows:

	2015		2014		2013	
	Shares	Weighted-Average Grant Date Fair Value	Shares	Weighted-Average Grant Date Fair Value	Shares	Weighted-Average Grant Date Fair Value
Nonvested, beginning of year	13,620	\$ 31.08	17,530	\$ 31.03	10,041	\$ 29.46
Granted	–	–	–	–	9,498	32.36
Vested	(3,907)	30.87	(3,910)	30.87	(2,009)	29.46
Forfeited	–	–	–	–	–	–
Nonvested, end of year	<u>9,713</u>	<u>\$ 31.16</u>	<u>13,620</u>	<u>\$ 31.08</u>	<u>17,530</u>	<u>\$ 31.03</u>

In fiscal 2015, 2014 and 2013, the Company recorded expense for restricted stock awards under this Plan of \$115, \$91 and \$133, respectively. At July 31, 2015, there was \$216 of total unrecognized compensation costs related to restricted stock awards that is expected to be recognized over a weighted average period of 1.97 years. This restricted stock vests evenly over 5 years from the date of grant.

During fiscal 2013, the Compensation and Development Committee of the Board (“the Committee”) approved a program to award restricted stock units to certain employees at the operating subsidiary and corporate levels. The first awards under this program were granted in the first quarter of fiscal 2013 related to fiscal 2012 performance. The Committee approved additional awards that were granted in fiscal 2014 related to fiscal year 2013 performance and approved additional awards that were granted in fiscal 2015 related to fiscal 2014 performance. The employee restricted stock units generally vest, and shares of common stock will be issued, in equal installments on the first, second and third anniversaries of the date of grant. Starting in fiscal 2013 and again in fiscal 2014 and fiscal 2015, the Nominating and Governance Committee of the Board awarded restricted stock units to Board members that will vest, and shares of common stock will be issued, on the first anniversary of the date of the grant. Total expense recognized in fiscal 2015, 2014 and 2013 for restricted stock unit awards was \$6,661, \$5,140 and \$2,290 respectively.

A summary of restricted stock unit activity during fiscal 2015, 2014 and 2013 is included below:

	2015		2014		2013	
	Restricted Stock Units	Weighted-Average Grant Date Fair Value	Restricted Stock Units	Weighted-Average Grant Date Fair Value	Restricted Stock Units	Weighted-Average Grant Date Fair Value
Nonvested, beginning of year	212,073	\$ 49.21	139,275	\$ 38.06	–	\$ –
Granted	162,967	50.95	151,168	54.26	143,069	38.01
Vested	(90,608)	48.14	(63,852)	38.68	–	–
Forfeited	(4,079)	50.54	(14,518)	47.26	(3,794)	36.32
Nonvested, end of year	<u>280,353</u>	<u>\$ 50.55</u>	<u>212,073</u>	<u>\$ 49.21</u>	<u>139,275</u>	<u>\$ 38.06</u>

At July 31, 2015, there was \$9,375 of total unrecognized compensation costs related to restricted stock unit awards that is expected to be recognized over a weighted average period of 2.15 years.

Total non-cash compensation expense recognized for stock option awards, restricted stock awards and restricted stock unit awards in fiscal 2015, 2014 and 2013 was \$6,776, \$5,231 and \$2,816, respectively, which included \$0, \$480 and \$207, respectively, related to discontinued operations.

The Company recognized a tax benefit related to total stock based compensation expense of \$2,507, \$1,925 and \$1,032 in fiscal 2015, 2014 and 2013, respectively.

Exhibit 21.1

Subsidiaries of the Registrant

The subsidiaries of the Registrant, excluding those which, considered in the aggregate as a single subsidiary, would not constitute a significant subsidiary as of July 31, 2015, are:

**CERTIFICATION OF THE CHIEF EXECUTIVE OFFICER PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Robert W. Martin, certify that:

1. I have reviewed this annual report on Form 10-K of Thor Industries, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

The use of recycled content in this annual report and our product brochures is part of Thor's effort to minimize waste, conserve our resources and reduce litter. Providing our customers with safe, fuel-efficient recreational vehicles is another major objective. It's our way of demonstrating we are the industry leader in preserving our nation's environment.

Founded in 2004, Elkhart, Indiana-based Heartland Recreational Vehicles is among the finest RV manufacturers in the nation offering a broad variety of brands known for their quality and innovation. Our goal is delivering dealers and retail customers the best value for their investment. Heartland brands include Landmark, Bighorn, Big Country, Gateway, ElkRidge, Sundance, North Trail, Wilderness, Prowler, Trail Runner, Fairfield, Cyclone, Road Warrior, Torque and the Breckenridge line of park models and destination homes.

HEARTLAND RV

Keystone RV is a leading manufacturer of recreational vehicles in North America. You'll find Keystone RVs available in all types and sizes of towables. From ultra light-weight travel trailers that can be towed by the new fuel-efficient crossover vehicles and smaller pickup trucks to luxurious fifth wheels, you can find a Keystone RV that's just right for you. Keystone brands include Montana, Springdale, Hideout, Sprinter, Outback, Laredo, Alpine, Bullet, Fuzion, Raptor, Passport and Cougar.

KEYSTONE RV

K-Z, founded in 1972 on the principles of quality, fairness, courtesy and integrity, strives to be one of the most innovative companies in the RV industry. K-Z produces several brands of travel trailers, fifth wheels and toy haulers, including Durango, MXT, Sportsmen, Spree, Venom, Venture, SportTrek, Sonic and Vision, that are widely-recognized throughout North America.

KZ RV

Livin' Lite RV is an industry leader in ultra light-weight camping. With an expansive line-up of automotive campers, Livin' Lite models come in all shapes and sizes from tent campers and truck campers to travel trailers and toy haulers. Each model is made of all-aluminum and composites making them long lasting and among the lightest campers on the market. Livin' Lite brands include Quicksilver, Camplite, Axxess, Quicksilver VRV, Bearcat and a variety of private label brands.

LIVIN' LITE RV

Founded in 1974, Postle Aluminum Co. has been producing extruded aluminum and specialized components for the recreational vehicle (RV) and other industries. Postle's offerings include a broad range of aluminum extrusions, powder coating and painting services through its Temple operating unit, as well as specialized component fabrication at its Reflex Industries operating unit.

POSTLE ALUMINUM

Thor Motor Coach (TMC) is the only "Made to Fit" motorhome brand in North America. TMC's diverse product lineup includes many of the world's most recognized Class A and Class C motorhomes. As the industry leader in innovative design, TMC builds a variety of unique styles, sizes and floor plans that feel custom-made – at a truly competitive price. TMC's products are sold under trade names such as Four Winds, Hurricane, Windsport, Chateau, Challenger, Tuscany, Outlaw, Axis, Vegas, Palazzo and A.C.E.
